Sunday—42 bales, 7.5 to 7.12
Tuesday—22 bales, 7.18 to 7.12

Mr. W. J. Smith of Eden is now present on the steamer Neuse. He was transferred to this steamer from another of the company's steamers.

Every indication points to very largely increased attendance at the Fair. People continue to seek to make arrangements ahead for it. There has been one application sent in for a party of thirty.

Thirty-nine Congressmen have had warrants served on them for being absent from the House without leave. Both Burns and Woodard from North Carolina are included in the list.

The new bicycle track at the fair grounds is being pushed forward as rapidly as the means will justify. It will be in good condition by the opening of the Fair and will prove one of the new attractions.

An invitation signed by a thousand teachers will be sent to President Stevenson and family to visit the next session of the Teachers' assembly to be held at Morehead this summer. We believe they will be there.

We learn from the Beaufort Herald that David Williams Parker, col. of that place has been elected President of Jones University Ala., at a salary of a thousand dollars per annum and expenses. He is the youngest college President in America.

Mr. Thos. Burrus, son-in-law of our townsman Mr. W. P. Burrus, is moving up from his old home in Hyde County and is now at Mr. Burrus'. He will locate on Mr. Ralph Gray's farm across Trent river and engage in trucking and general farming.

A. W. Bowen Moore, the most extensive pension agent in western New York, with his son Allen and five clerks, have been arrested on the charge of defrauding the government and extorting money from pensioners. The whole amount involved is said to be \$150,000.

Those who have spent some time in Wilmington lately say they hear plenty of talk there about coming to the East Carolina Fair. Wilmington visitors will no doubt be here every day of the Fair, and when the Naval Reserves come over they will no doubt bring a big crowd with them.

We see at Mr. J. J. Tolson's a supply of North Carolina peaches. They came from Jones county. There is no reason why every farm should not have a supply of these trees. They are very profitable, and are also beautiful and useful as shade trees when wanted for that purpose. Embark in peach culture. Now is the planting time.

Hoo. Kope Elias, superintendent in interest to those of the party has withdrawn from the contest for the office of Collector of Internal Revenue for the Western District. The nomination of his successor Mr. Melville E. Carter will be sent in with the earliest batch of nominations says the Charlotte Observer special.

That Broad St. should be shelled or marled and put in good condition as a business portion of the city. Broad and Pollock, meets with much favor among a number of our citizens. It would be a big saving on teams and much quicker made could be made than the present plodding through heavy sand.

Some of the Naval officials are getting into hot water. They are charged with having been in collusion with warship builders, where high speed boats have been constructed for the immense bounty recently obtained for the unwarlike of the fraudulent scheme. On cruiser "Olympia" there was a premium of nearly half a million dollars.

As indicated heretofore Mr. S. H. Lane was nominated Monday for collector of customs at New Berne. Other nominations were: Melvin E. Carter for Col. of the Western District; O. J. Carroll of Raleigh for marshal of the eastern district and Elijah W. Rawls for postmaster at Tarboro. A special to the Charlotte Observer gives the above facts.

Mr. D. T. Costen, with a little assistance from his father, Mr. J. D. Costen is putting up a good residence to cost about \$1500, a short distance from the site of his old home near White Oak station. Mr. R. H. Mills has recently completed one at White Oak crossing and his uncle Mr. J. T. Henderson is at present building one for himself at the same crossing. Such evidence of thrift in the community is pleasing.

Two returning from the Grand Lodge of Masons which met in Wilmington this week speak enthusiastically of the hospitality received and entertainment furnished. Thursday night a grand banquet lasting until midnight was given and an excellent dinner served on the steamer Wilmington the next morning. Both are spoken of in very high terms.

The mother of a small deaf and dumb boy living on Eden St. makes complaint that the neighborhood children impose upon an otherwise ill-natured boy. We know nothing of the merits in the case, but parents or guardians of such children should move at least for such conduct than the children then serve. One simple means of partially remedying the evil is for the mother of the unfortunate boy to be sure that the fault is not altogether on the other side.

We learn that a man representing himself as an old confederate soldier is now soliciting alms for himself and family less than a quarter. We judge it is the same one that has been noticed by the Kingston Free Press as being the "Star" and even carrying a certificate that who offered less. As a matter of fact, a man is really a helpless creature, he can enter the soldier's home at Raleigh. This is kept up by the State and all such and all the inmates are well treated in every way.

A new phase is daily put on the proposed Corbett Mitchell fight. The Duval Club is using every effort to bring it about, but they are not to take triumph both by Governor Mitchell and the staff of the county, in which it is most probably desired. The sheriff is said to be a man of firm grip and determination, and he says emphatically that it shall not take place upon soil over which he has jurisdiction. The latest is that the fight will take place, either secretly in the woods or in Cuba.

IT IS SETTLED

S. H. Lane, Collector of Customs, Matt Manly Postmaster.

Mr. Lane, recommended by Senator Barlow, to be appointed collector of customs at New Berne, to be nominated in the next batch. After consulting Secretary Carlisle, Representative Gray concurred.

Capt. Matt Manly is here. He will be nominated for postmaster at New Berne in the next batch, when Carlisle's term expires.

The above items are taken from a special in Saturday's Charlotte Observer, a paper very accurate in the news from the capitol. Mr. Lane had previously received a telegram giving him the assurance of his appointment. The Observer gives in addition the appointment of Mr. Manly.

Both the gentlemen are well qualified to fill the position to which they have been chosen. Mr. Manly has had four years of previous experience in the postmaster's office, gave perfect satisfaction while there and this is guaranteed enough that it will be so again.

Mr. Lane has held the position of city clerk and tax collector and fulfilled the duties expeditiously and well. He is a man that puts his whole soul into what he undertakes and he rendered good service in the last campaign. The affairs of both offices are in good hands.

To Improve Her Streets.

Our neighbor city, Beaufort, is doing the right thing in its move to have the principal streets leading out to the country shelled. A better move could hardly be made. As a matter of fact, it is a very good thing to have a substantial and easy traffic, but it is of the greatest importance to have the main thoroughfare leading out into the country made first-class.

To have better streets—New Berne knows what that is. It is to go back eight or ten years ago and collect. Then after a few hard rains continued showers the streets would be so badly cut up that vehicles would almost run to the axle and not more than a half or third that could be hauled by drags.

New finer streets can be found. They are hard smooth, and well drained, and are a pleasure to drive upon. As to their substantiality, they will stand up to any storm sufficient to test them.

The next move in this line would give still greater benefits if Broad St. could be shelled or marled to the corporate limits and from there Craven county should continue at least a few miles till the heavy sand is gotten through. Only about two miles would be required to construct full good hard roads could be reached.

What is the New Berne? What says Craven county? The New Methodist Pastor.

Rev. J. T. L. Taylor, the new pastor of Centenary M. E. Church, is now earnestly installed in the parsonage.

After conference he went with his family to visit relatives in Wilmington, and they came over to New Berne Thursday night. Mr. T. A. Green who had been attending the Grand Masonic Lodge, accompanied them from Wilmington to New Berne.

At the depot a committee met and escorted them to their home, where many of the congregation were waiting to welcome them. Everything had been made cheerful—a good supper was all in readiness for them.

Mr. Taylor's family consists of his wife and children. The youngest of the latter are at school—the others are with him.

Looking to Starting the Cannery.

Mr. Chas. VanLester, a member of the firm of Greensboro Bros., enters in the city considering the advisability of starting their cannery in this city for the season. We hope he will find it to their interest to do so. Oysters are very high this year and cheap as would no doubt be supplied in abundance.

The operating of the cannery factories makes money easier for several classes of our people. It gives those who eat the oysters a ready sale for them and gives plenty to do to some oyster buyers that run factories and sell to the factory, besides the employment it furnishes to the operatives in the factory. All this keeps money in circulation, enlivens trade and tends to make better times generally.

Coming and Going

Miss Bessie Davis of Beaufort who has been at home since the beginning of the Christmas holidays, passed through yesterday morning returning to her school at Chow.

Mr. W. M. Welch of Morehead passed through to spend a week or two in Jacksonville on insurance business.

Miss S. Pittman who has been off to her home in Jones county spending the holidays, returned to her school at the college in the morning.

The Steamer Neuse took out the following passengers: Mr. Matt Manly on route to Baltimore; Mr. Melior returning to Norfolk on a visit to relatives in the city; Rev. D. A. Watkins and family returning to their home at Hatteras; and Mr. John C. Thomas of Riverside leaving for Washington D. C. to take a position in the printing department of the Government.

Mrs. J. F. Wagoner who has been visiting her daughter, Mrs. J. W. Stewart, returned to her home at Chow.

Mr. P. S. Adair of Pamlico county and Mr. W. H. Ayres of Craven county who have been spending the Christmas holidays at their homes, passed through to return to their homes.

Mr. W. P. L. of Port Barnwell and Mr. W. P. Melton of Craven who have been spending Christmas at home, returned to their homes.

Mrs. J. F. Wagoner who has been visiting her daughter, Mrs. J. W. Stewart, returned to her home at Chow.

Mrs. A. Oettinger, of Kingston came down to visit Mrs. Morris Marks.

Rev. N. M. Journeay who has been spending some time at Beaufort, passed through to return to his home at Mt. Olive.

Mrs. C. P. Brown of Chow City, after her long absence, returned to her home at Mt. Olive.

A Child Caught in the Act.

Between seven and eight o'clock Sunday night Mr. J. S. Nelson, watchman at the W. N. & S. R. R., with the assistance of some other employees of the road, detected a negro named Henry Hendricks in the act of stealing some of the company's wood. Hendricks was taken to the station and held until the watchman of the Stinson Lumber Company James Jones was captured.

At one time during his flight, when armed pursuers were close upon him, he struck at them with a cotton ball. He threw this away as he was being taken, but it was afterwards found. After being captured he was identified as one who was seen stealing trainmen food from the cars a night or two ago previously.

Hendricks' preliminary trial on the charge of larceny was held Monday night and he was bound over to Superior court in the sum of \$50.

About two hours after the arrest of Hendricks some one visiting a truck at Mr. Nelson, barely missing him. Mr. Nelson fired in the direction from which the missile came, but the miss occurred in the shadows of the moon.

We have heard people of the neighborhood, speak of the great improvement there has been since Mr. Nelson has been watchman there. He has been vigilant after bad characters wherever they would get around that he has much mitigated the trouble they have by frequenting the locality in times past.

Died From the Blow.

David Mackey, the colored man who was struck on the head Sunday night with an ax by Wm. Humphrey, col. died from the effects of the blow Monday night.

COAST STORMS.

Protection Wanted Through Weather Bureau Service That Will Warn of Storms Starting in the West Indies.

The Rev. W. B. R. of Beaufort, in a letter published in the Journal, has expressed his views on the subject of a weather bureau service that will warn of storms starting in the West Indies.

ATOPSY OF A GRIB VICTIM.

The Deadly Character of the Disease Evidenced by a Post-Mortem.

The death of Mr. R. M. Wright was not a surprise to the doctors. They were confident that there was some affection of the lungs, and indeed had been told so by the family. It was not until the post-mortem examination that the cause of death was ascertained.
