

CITY AND VICINITY.

Thursday—3 sales, 7:15 to 7:35. Friday—6 to 7:45 to 7:55. Saturday—6 sales to 7:35.

Two of the inmates of the Goldboro colored insane asylum became engaged in a fight and one killed the other.

"Big Ike" and John Dunn were conspicuously advertised by streamers attached to the balloon yesterday.

Wm. L. Kennedy of Falling Creek sold a ten months old calf in Raleigh last week for \$300.00. The sale was by auction. This shows how breeding good stock pays.

An absent-minded groom in Rome Ga., forgot that he was to be married the other day, but he was not present. An examination showed that he overleapt himself.

Walter Harris, colored, of Steel Creek Mecklenburg county, set a hen on eight eggs and when she came off the nest she had a brood of ten healthy chickens.

Mr. R. H. Shaw, of Washington, a commercial traveler who is registered at the Pullard House says that it has been his fortune to attend many a State and county Fair but in its entirety the show at this one is ahead of any he has ever seen.

The attendant at our Fair who came the farthest of any that has yet arrived so far as we know is Mr. Henry Brown, from the Indian Territory. He has been spending about a year there with his brother Jacob.

Cocord has just had a census of the city taken. It shows 5,486 inhabitants; 3,046 white and 1,640 colored. In 1890 the population was 4,339, this makes an increase of 1,147 in three years, a good showing.

"I got fifty cents worth in the first thing I saw, the knitting factory, remark of one visitor." "It was the first time I had seen anything of the kind and I stood there nearly my whole time and watched the work."

The dog show is a dandy. Jim Cassidy can turn back somersaults faster than a boy can turn cart wheels. He is a per foot wonder. Duke Veruga the greyhound, by measurement, jumped 37 feet and in the same jump went over obstacles higher than a man can reach.

President Cleveland has jumped from New York to Louisiana in making his nomination for Associate Justice of the United States Supreme Court. It fell upon Senator Edward Douglas White, who was immediately confirmed by the Senate, and appears to have given general satisfaction.

The north and north west are having it from 20 to 28 degrees below zero. Quite a difference in Eastern North Carolina temperature. It has been below freezing in New Bern twice during the entire winter and those were only spells of two or three days duration.

We hear of the death of Riley Murray, of Lake Landing, Hyde county, at the advanced age of 95. He was the father of Dr. Marston and was probably the oldest man in the county. He was a prominent man, a good farmer and an extensive grower of fruit.

Prof. Sheddman's dog show is a fine thing of its kind. The Roblins show on the opposite side of the main walk gives a bigger ten cent's worth, Galatas and other mysteries attract at the rear of the grounds and Sherry's Working World designs young and old at the Fair grounds.

The Charlotte News says: "In a very short time, certainly within the year, the Second Presbyterian church will be out of debt. The amount owed by this church is about \$23,000, and it is said that the debt has been lessened within the last week, by four of the members planking down \$6,000.

An exchange says that owing to the steady decline in the price of tobacco for several years this crop has been abandoned by many of the farmers in the Western counties. A circular was recently issued, distributed and posted in Madison county, threatening violence to any one who prepared for another crop or even burned a bed.

The Concord Standard says that the depreciation in the price of real estate in Alabama is alarming. The T. C. Saunders lot adjoining the public square sold for \$1,400 just before the railroad reached Alabama and is assessed for taxes now at \$1,396, and yet it was sold last Monday for \$815.

The Shelby Aurora tells of a grave desecration. It says that the grave of Cynthia Reeves, a white woman, was broken into by some wicked person. A small aperture was made in the coffin lid, and her bones and finger rings and a small part of her clothing were removed. She was buried about three years ago in the old Taylor graveyard, two miles N. E. of Shelby. When she died she asked for her rings to be buried with her, and to secure these was the object of grave desecration.

Off for Government Work. Six Debauch men passed through Monday on route to work on the break-water at sea, being constructed at Point Jukes, between Black Island and Long Island, and were by the Government to afford a safe harbor for vessels from the Atlantic Ocean.

They state, as to the magnitude of the work, that it has been going on for about fifteen years and is expected to last six years longer.

Members Mark Mason, Geo. Steyn, Dave Mason, Alex Mason and Robert Lewis, were members of the party.

Fair Note. The evolution, under the command of Capt. W. F. Hill, made a splendid showing in the parade.

The parade was pronounced by many to have been the best and most orderly ever had at any Fair.

The Sta exhibit is a good study to those interested in the gems and mineral resources of North Carolina.

Col. Julian S. Carr, of Durham (name makes a magnificent exhibit of his various brands of tobacco. The ferris wheel is pronounced a fine representation of the great World's Fair Revolver.

Buckingham's Dye for the whiskers can be applied when at home, and is uniformly successful in coloring a brown or black. Hence its great popularity.

THE WATER WORKS.

Everything Moving Nicely. The Work Will Be Resumed at Once and Service soon Be Given.

The case of Col. A. C. DeLafeld et al vs the Lewis Mercer Construction Company and the City of New Bern Water Works Company, Judge James Hayes in superior court yesterday and Messrs Wm. Dunn and T. A. Green were appointed receivers for the company with authority to complete the works.

The receivers will promptly resume, have works finished and in operation furnishing water to the city and citizens on or before the first of June.

The temporary delay in the construction was regretted but now we have perfect assurance of good water at the time specified. Two of the best business men of the city have the work of completion in charge and there will be no further delay and everything will be finished in first class style.

Is Charmed by our Early Spring Growth. When we took our first stroll down town Monday morning before breakfast, one of the first parties we encountered was the genial, observant and well informed gentleman and author, Mr. Chas. Hallock, an ever welcome visitor to our city.

Walter Harris, colored, of Steel Creek Mecklenburg county, set a hen on eight eggs and when she came off the nest she had a brood of ten healthy chickens.

Mr. R. H. Shaw, of Washington, a commercial traveler who is registered at the Pullard House says that it has been his fortune to attend many a State and county Fair but in its entirety the show at this one is ahead of any he has ever seen.

The Sta exhibit is a good study to those interested in the gems and mineral resources of North Carolina.

Col. Julian S. Carr, of Durham (name makes a magnificent exhibit of his various brands of tobacco. The ferris wheel is pronounced a fine representation of the great World's Fair Revolver.

WILLOW BASKET INDUSTRY.

True Basket Willow (Salix Purpurea) Introduced for Cultivation and Running a Basket Factory.

Monday witnessed the initiative experimental step towards the establishment of an industry new to this section which may, in the near future, add another line to our products—it is in tented to be a willow farm and willow basket factory combined.

Mr. Chas. Hallock is the prime mover in the scheme. Yesterday he set out an acre of Judge Henry R. Bryan's farm across Trent river opposite New Bern in the true basket willow. By the fall these plants will be ready for use.

Every department is interesting, and some of the finest flowing. The State's exhibit is nearly a whole row in the show used by the A. Coan Piano and Organ Company is all in the room that is devoted to anything else.

The Agricultural Department never showed better than at present. The two rooms and passages devoted to it are well filled as a condensed, and to outsiders, a marvelous exposition of our agricultural products as brought from field, garden, barn and smoke-house.

The State Department is not as largely filled as we have seen it, but a variety and some rare specimens are shown.

The putting in of the greater part of the fish display was postponed until this morning. Look out for it today.

The machinery hall is, as usual, a place in which great interest centers—machinery in motion will take the attention, and here may be seen all the operations of a knitting factory, a printing office, getting out "The Fair Observer" published daily through the Fair, etc. Mr. J. S. Carr's moving factory is unique and will be remembered.

Side of the building, quantities of improved Farm machinery are seen, an examination of which will well repay all tellers of the soil.

A large amount of good stock of all kinds is shown and the improvement of cutting away the upper half of each stable door makes it so that it can be more easily viewed than ever before.

Lovers of dogs can here be gratified at seeing the different breeds on exhibition, and the small pet animals are as abundant and interesting in the extreme.

And the poultry! Every one who views it is lost in admiration. As the specimens of every breed can be imagined an I so large a supply that the crowds would not hold all. There are numerous private coops on the ground and all are filled.

There are all the attractions and amusements that are wanted and of a good and pleasing character.

It is a grand exhibition which no one should miss.

All bona-fide representatives of the Press are requested to make themselves known to the officers of the Fair for copies.

A special receiving room is set apart in the basement of the main building for members of Knights of the Ku Klux which they are invited to make themselves at home.

In other words, Tuesday, not generally regarded as a big day, was one that more like Wednesday generally is, a center of activity both at the grounds and on the streets.

Every regular and special train and the steamers helped sensibly to swell the crowd. The Fair officials say that the attendance can safely be put at 3,000—the general estimate is somewhat higher.

Superior religious characteristics of the Fair. In general, and the States exhibit is not only of a high class but much of it is entirely new to many eastern people.

The State has made a wise move in bringing the knowledge of its interior and western resources home to the people of the east, who are comparative strangers to the mining and quarrying industries of our great commonwealth.

Not only does this exhibit bring to the attention of our own people but to many visitors from beyond the borders of the State who will be reached in no other way. We are glad as Carolinians that the exhibit is here.

Their Manufacture Arranged For. Dr. G. K. Bagby who has been away for a few weeks making arrangements for the introduction of his dental articulation cap to the market, having been generally successful in his efforts, the cap will be manufactured and put on the market by G. W. Vith & Co. proprietors of the dental instrument used in the manufacture of the cap.

Two Deaths. News reaches us of the death of a young boy at Aurora of two weeks Mrs. Taylor Hooker and Mrs. H. B. Hooker, the wife of Mr. Chas. Roberts who died about five months ago. Mrs. Roberts was a good Christian lady. Three children survive.

Mrs. Hooker was the daughter of Mr. S. H. Thompson. She was about 25 years of age and leaves five children. She died happy and mercifully released. She had been ill for only a few minutes before her death.

Ten Pennsylvanians for the New Mill. Ten Pennsylvanians from Mauch Chunk Pennsylvania arrived by the steamer Neuse yesterday.

They will all be employed at the new saw mill of the pine lumber company, now nearly finished, and which is to have 20,000 feet daily capacity and run in connection with the "Schelby Planing mills" on which the company has secured a lease until the beginning of the next century.

THE FAIR IN FULL BLAST.

LARGEST ATTENDANCE OF ANY TUESDAY IN ITS HISTORY.

The Very Prettiest of Weather and Everything Moving Nicely.

The Seventh Annual Exhibition of the East Carolina, Fish, Oyster, Game and Industrial Association is now in progress and the promise to supply every other exhibition is being verified.

Every department is interesting, and some of the finest flowing. The State's exhibit is nearly a whole row in the show used by the A. Coan Piano and Organ Company is all in the room that is devoted to anything else.

The Agricultural Department never showed better than at present. The two rooms and passages devoted to it are well filled as a condensed, and to outsiders, a marvelous exposition of our agricultural products as brought from field, garden, barn and smoke-house.

The State Department is not as largely filled as we have seen it, but a variety and some rare specimens are shown.

THE FORMAL OPENING.

GOV. GARR MAKES A PLAN AND PRACTICAL TALK ON EAST CAROLINA RESOURCES.

Commands the Unflinching Attention of All Around Was Warmly Applauded.

About noon yesterday the formal opening of the East Carolina Fair took place. Rev. J. T. Lyon, chaplain of the board, invoked the divine blessing upon what was done and Mr. P. H. Williams, in a comprehensive and interesting address, delivered the address, in a good position of which we publish this morning, closing it with announcing the Fair open for all.

In many an occasion of the kind, the kind, the interest of the people is shown in what he has seen. It is not difficult to hold his audience as an ordinary occasion, but Gov. Garr had no such experience. The address was pointed, sensible, instructive, short and all around listened with pleasure and attention and at its close there was a rush of people to congratulate him and then the large crowd dispersed.

It affords me today the greatest pleasure to see here this fine display of fish, oysters, game and agricultural products of every description, and the progress of North Carolina's progress and industry.

The two former products if I may so term them, have always been of singular interest to me, not only their present condition but their past history.

It would be a dullard indeed who would question the propriety of giving to the oyster a high place in the list of our resources.

I have good reason to believe that our more favorable spot exists anywhere for the production of the comparatively good oyster and the assertion by no means the reckless speculation of an idle fancy.

We have indeed a great future before us in this respect, but it is with this, that the small pet animals are as abundant and interesting in the extreme.

And the poultry! Every one who views it is lost in admiration. As the specimens of every breed can be imagined an I so large a supply that the crowds would not hold all. There are numerous private coops on the ground and all are filled.
