Daring the two months of her absence she has been on the dry docks at Newport tory. News and repainted everywhere. Not only has she teen repainted, but new lecks have been put in and the iron covering the sides an't bottom have been removed and steel plates put on instead. Along a portion of the sides the meta

protection is of two thickness. She is in first class order now both for passengers and the truck shipments.

Shad Fishing Near the City

The number of fishermen who annually gregate along the southern banks of the shad season is this spring greater Jane Manly. than usual. They commence near Mr. G L. Hardison's and extend on downward. There are a dozen or more of the little groups in the space of a few miles. Probably the largest one is at the mouth of Otter creek. There are about a dozen and a half of the little dwellings

The majority are occupied mainly by men, but a few of the fishermen have brought their families along with them. January is the time of the coming and April of their departure
