THE JOURNAL.

NEW BERNE, N. C. SEPT., 12th 1894

CITY AND VICINITY.

The seed cotton market has opened at 2 cents.

Mr. John Simmons was in with 147 bales old cotton which he sold to Mr. J. E. Latham at 6¼ cents.

A dog that acted a little queer created a little excitement yesterday near the depot—some supposing him to be mad. A policemen decided otherwise and the dog still lives.

The Ellis turpentine distillery with all the naval stores on hand was burned yesterday morning. Also adjacent buildings formerly used by the New Berne Lumber Company.

Our young townsman Mr. John Stanly Thomas now at Evangelist D. L. Moody's Bible Institute, Chicago, has had an invitation to supply the pulpit of the Park Ridge Congregational church.

Manager R. P. Williams of the Electric Light Co., put up 40 incandescent lights last week—25 for Hotel Chattawka and 15 for Mr. Jas. F. Taylor along his wharf. There are eight of the latter outside and seven inside of the buildings.

Mr Edward Clark has recovered his dog which was advertised in the JOURNAL. The advertisement did the work. The dog was at Swansboro where he had followed a gentleman home.

Mr. G. B. Driesback of Washington city and Miss Sallie Bousball of Beaufort, N. C., were married on the 5th inst. by Rev. R. F. Bumpass. They left for Washington their future home the next day.

Mr. Henry R. Bryan, Jr., was on yesterday appointed a magistrate to fill the vacancy occasioned by the [illegible] E. B. Cox. Being the son of one of North Carolina's esteemed judges it ought to come somewhat natural for him to preside at trials.

The books are now open at the sheriff's office for the collection of taxes. One man has already settled. Mr. Wiley A. Ewell of No. 1 Township came in yesterday and paid up Thats number one for No 1 Township It's ahead both in number and action.

Mrs. Belle Boyd—Hammond—High, who lectured the previous night on the war and her career as a Confederate spy, left yesterday for Winston. Friday night she will lecture at Goldsboro for the benefit of the monument fund being raised there. Her husband Mr. N. R. High, left New Berne in advance to make arrangements for her coming.

We have read the letter of Mr. Piland referred to in a communication. We will simply say we have a high regard for both Messrs. Thomas & Street. No one who knows them would doubt a word either says and the attempt of Mr. Piland to divert attention from the point at is sue in the charges against Mr. West by assigning sectional and denominational prejudice is an unworthy one. Mr. Piland says "the evidence for the defence was preponderant." That may be. A hundred men may have seen Mr. West during the several times he was here without seeing anything to besmirch his character, but when a good reliable man does see something amiss, the testimony of other good men who were not present and really did not see it does not offset in any way the testimony of those who were about at the time of the misconduct and did see it.

Advices to Keep Away From Baltimore

A postal from Baltimore to a gentleman in this city advices those contemplating going there not do so now, as the chance of the yellow fever spreading is considered great, and there is fear that the city will be quarantined against, and those who get in will have to stay a month or more.

The Baltimore Evening News contains a full account of the yellow fever there.

Tried to Escape.

Mr. J. D. LaRoque had a lively chase after a colored prisoner who tried to escape Saturday night, the man being Jesse Whitfield, nicknamed Jay-bird. He was arrested towards night, for threatening another colored man with a deadly weapon, tried before E. G. Hill, Esq., placed under a $200 bond for appearance at court and as he was approaching the jail, not being able to give bond, he broke and ran and turned up New street.

Mr. LaRoque caught him as he was trying to jump a fence near Mr. W. M. Watson's. Before overtaking he fired at him once.

Death of Mr. Mark Ipock

Mr. Mark Morton Ipock died at his residence in this city on the night of Friday, September 6th, of a complication of kidney trouble and malarial fever, after an illness of about three weeks. He was born Sept. 30th, 1860, and consequently would have been 34 years of age the last of this month.

Mr Ipock was born at Swift Creek. His parents moved to Pamlico county when he was three years old. From Pamlico county he moved to New Berne eight years ago, and after clerking for awhile he went into business for himself three years ago and ran a grocery store and wood yard up to the time of his death.

Mr. Ipock united with the Methodist church when twelve years of age. He afterwards changed his membership to the Diciple church and was one of its most conscientious members and a very zealous worker.

He leaves a wife and two children, also a sister and his mother to mourn his death. He was a member of the Knights of Harmony and is the third member they have lost since their organization. He was also a member of the orders of Faith, Hope and Charity.

Three Trials of One Man.

Hafford Willis of Vanceboro, was tried before E. G. Hill, Esq., for an affray near that place with deadly weapons, he having threatened Mr. John O. Griffin with two knives. He was placed under a $200 bond for his appearance at Superior court, and his father, Norman Willis, who held a man that wanted to prevent the young man from making the attack was placed under a $100 bond for aiding and abetting in the affray.

Sometime after the affray the two Messrs Willis met and the younger Mr. Willis attacked Mr. Griffin and splintered one of his ribs. This case was tried at Vanceboro and a fine of $5.00 and costs imposed on the young man and $1.00 and costs on his father. The reason for the lightness of the penalties being that the seriousness of the injury was not brought out on the trial.

Mr. Hafford Willis, was also tried yesterday before S. R. Street, Esq., for disturbing public worship, by calling out to Mr. Griffin while services were in progress. For this offence Mr. Willis was bound over to court in the sum of $200.

No Danger in Baltimore.

The article in the Baltimore News on the yellow fever there which occasioned a gentleman there to advise his friends here who were coming not to do so just now, occupies a column of that paper. The facts, in short, as given are that the vessel with the yellow fever aboard was lying at Pier No. 1, Locust Point, for a week before any investigation was begun, and in the meantime some of the men had been paid off and had scattered among boarding houses in the eastern part of the city. There were 22 men in the crew. One man died on the vessel Wednesday. Three were taken sick Thursday and an investigation was begun, which resulted in the vessel being sent to quarantine with the yellow flag hoisted. One of the men has since died and the other two are recovering.

These are the facts and with them before us we feel satisfied there is no danger in visiting Baltimore. It possesses the best sanitary regulations in the country and never has an epidemic.

There is very little apprehension left owing to the precautions being taken at Baltimore and owing also to the lateness of the season.

The following telegrams passed on the subject yesterday:

New Berne, Sept. 11.

Chesapeake Rubber Co.—Report current that yellow fever is in Baltimore. Merchants are warned not to come on for fear of quarantine. Wire report soon. W. E. PATTERSON.

Baltimore, Sept. 11.

W. E. Patterson:—No truth whatever in report of yellow fever here.

CHESAPEAKE RUBBER CO.

On the strength of this information Mr. Patterson and the other New Berne people who intended going to Baltimore left by steamer for that city.

Coming and Going

Mr. W. S. Webb and his sister Mrs. McLean who have been spending several weeks among the mountains in the western part of the State passed through enroute to their home.

Rev. T. M. N. George returned from Trenton where he went to conduct the funeral services of Miss. Rachel Simpson who died Sunday aged 14 years. She was buried Monday.

The following delegates and other gentlemen passed through or left from the city Tuesday to attend the Senatorial Convention of this District at Kinston: Messrs. N. W. Taylor, J. H. Manu, W. L. Arendell, M. F. Morton and C. I. Abernethy, John. B. Watson, Thos. Daniels S. H. Lane, Abe Lee, Capt. Dan Roberts, W. B. Lane, M. De. W. Stevenson, L. H. Cutler (he will go from the convention to Greensboro) J. W. Biddle, Capt. Galloway, Mr. J. W. Kellum, S. W. Latham W. T. Caho, and Geo. J. Dudley. They returned last night.

Mrs C. C. Kinsey who has been spending a few weeks at Bellair has returned and moved in the Lane residence near the Collegiate Institute.

Miss Bertha Tucker, the winner of a scholarship at the last session of the New Berne Collegiate Institute in the Staunton, Va., Female college, left to enter that school

Mr. Frank Thompson and wife of Jacksonville, came up last night en route to Kinston.

Mr. Ivane Abernathy of Beaufort, passed through en route to Staunton, Va. to take a position in a telegraph office.

Miss Lottie Roberts of Beaufort, arrived on the morning train yesterday and left in the afternoon on the steamer Neuse to perfect herself in the millinery art at Baltimore.

Rev. F. D. Swindell passed through the city enroute to Mr. C. P. Dey's near Beaufort where his family have been spending the summer. They expect to return to their home in Goldsboro next Monday.

The family of Mr G. T Farrell who have been at Swansboro came up enroute to their home at Bayboro.

Mr A M Williams of Vanceboro is in the city.

Dr E D Goodrig returned from Jacksonville where he has been spending a few days at his branch office.

Mr J J Dissoway returned from Jacksonville where he has been on business.

Mr. W. H. Sawyer of Bayboro, arrived in the city yesterday and left in the afternoon on the steamer Neuse for a business trip to Baltimore.

First Bale New Cotton—Good Price.

The first bale of new cotton at the New Berne Cotton Exchange was brought in and sold Saturday. It weighed 515 pounds and was sold to J. E. Latham. It classed as low middling and brought 6¼ cents.

The cotton was raised by Albert Butler col., on Judge H. R. Bryan's Clermont plantation, and it was ginned at Mr. A. R. Deneron's Imperial Needle tooth gin nery in this city.

The price this cotton brought is very satisfactory. Cotton has opened low this year. In adjacent markets it is selling for 5¾ cents. Our country friends can remember that New Berne has several active buyers, and one direct European exporter, Mr. J. E. Latham, and that they make cotton bring its highest market value.

Plentifulness of New River Mullets.

A New River correspondent writes us as follows.

"There was a big catch of mullets here with small seines. Messrs. Dan Ward & Co., caught about 600, Van Willis & Co., about 1200, Geo. Bell & Co., about 800 Capts G. Littleton, A. W Morris Bill Dennis, Jim Smith and P. Hatsell about 2000 all in a short time. Up and 14 inch size.

"The big seines seem not to be doing anything just. They sell here for 12, 15 and 25c per dozen, fresh, and 24 cents a pound, salted.

"White Oak river seems to be the best mullet's of all rivers."

Greenville Booming as a Tobacco Market

Mr. L. A. Davis who has been spending a week with relatives in Greenville, returned yesterday. He reports lively times at Greenville, five warehouses for the sale of leaf tobacco an hour or three thousand dollars worth being sold every day.

Mr. Davis says the farmers have gone quite largely into the raising of tobacco, and moreover that one lot which arrived last week was from South Carolina.

Senatorial Convention.

Capt. Swift Galloway of Greene county and Dr. F. A. Whitaker of Jones county were the senatorial nominees selected Tuesday by the Democratic convention at Kinston. They will carry the flag to victory.

Capt T. W. Mason made a fine address of about an hour and a half in length and Capt. Galloway a shorter one in his own happy vein.

NEW LINE TO THE SOUTH

Two Lines of Steamers From Philadelphia to Florida Begin this Month —Beaufort Should be Taken in En Route.

The Philadelphia Record says that arrangements have been completed for the opening of the Philadelphia Steamship Company's new line to the South, and the first steamer, the Yorktown, will sail for Jacksonville on September 25.

The new line was organized in response to the demands of the Philadelphia merchants for a direct line to the South. Vessels will sail twice a week from Kerr's new wharf, Delaware avenue above Noble street. Four lines of railroad tracks run on to the wharf and in winter it will be located in order to protect tropical fruits and vegetables, which will constitute the principal commodities for the night North.

The southbound cargoes will consist of general merchandise and contracts will be made at Jacksonville with the leading railroads of Florida.

Most of the larger fruit growers in that city are stockholders in the new company and will have all their shipments to the South made by it. It is expected that the new company will do a good passenger business, as it will be the only line of steamers ever operated under a Pennsylvania charter.

The Clydes who have no connection will send some of their vessels from that city will start their first steamer on September 28.

The steamers which make the round trip all pass very close to Beaufort—in a very few cases do they go to Beaufort—but what is that amounts to. But it is nearly in the way on the journey and there is no easier porte to touch at on the trip. It may prove a benefit all around. The Carteret county business men should investigate the possibilities and work for their advantage.

A Reply to M. L. Pilan.

EDITOR JOURNAL: I see in the Washington Gazette of Sept. 6th an article signed M. L. Piland,—trying to vindicate a man whom it has been and will be further proved beyond a shadow of doubt, is guilty of the charges preferred. Now as Mr. Piland picks flimsy upon what he calls hearsay and flippant remarks at my character which I can safe the public and even the clergymen people of Ocracoke who know us both will say we compare favorably in our stations in life and in point of morality and primary worth, help the democrats to win.

Why is it when I come to New Berne getting statements from Mr. West and as a great many statements have been published that we do not see any or those that were directly against Mr. West

And why did Mr. Piland have his book in which he took statements closed and say to me that he wanted no one to see the other's statements. Why that looks little dark but possibly the gentleman may be able to explain that, but, when Mr. Piland went in company with Mr. Woodard to Tom Midyette's who told him that he had made affidavit for Mr. West that he did not take him to a house of ill fame spoken of, but that he did carry him to a certain N[illegible], which is in reputation very much akin to the other. This Midyette told Mr. J. J. Baxter yesterday.

Mr. Piland says he believes in speaking plain. Now I will leave it for christians, those who are trying to follow in the foot steps of the master to decide which of us, he or I, it is that is trying to defend the cause of Christ, and who it is that is trying to create in the minds of the people prejudice between the Northern and Southern Methodist churches. Remember it is written if we confess our sins God is faithful and just to forgive us our sins and it is also written he that being often reproved and stiffeneth his neck shall suddenly be destroyed and that without remedy.

I am your plain spoken Friend.

JAMES A. THOMAS.

P. S.—It this does not suffice there is more to follow.

New Berne, N. C. September 11, 1894. Washington Gazette please copy.

The Weather in North Carolina During 1893.

The N. C. Agricultural Experiment Station has just published the seventh annual report of its meteorological division constituting the N. C. State Weather for 1893. This report gives in detail the various meteorological conditions in various parts of North Carolina during 1893.

The subjects treated embrace: list of the publications during the year, the annual meteorological summary for the state, [illegible] 90 separate stations where observations are made for rainfall, including also values of pressure, maximum and minimum temperature, precipitation, state of the weather, wind direction, crop conditions, miscellaneous phenomena, special tables for North Carolina, list of meteorological stations, observers and crop reporters; work embraced in the monthly meteorological bulletins and the weekly weather crop bulletins; also weather and temperature forecasts, cold wave and frost warnings, and list of stations receiving them.

An excellent feature of the report is the table of comparisons between principal points in North Carolina and prominent places in the United States and abroad. These comparisons embrace annual precipitation and temperature for the whole year, for each of the four seasons, and each month of the year.

The pamphlet embraces 63 pages, contains a well prepared table of contents and index, and its reports with climatic information and weather conditions in North Carolina. It can be procured by application to Dr. H. B. Battle, Director, Raleigh, N. C.

Died.

On Sunday Sept. the 9th across Neuse river about five miles from the city, Miss Sally Wayne, aged about thirty-five years.

Sunday night, Sept 9th, near midnight at his home on the opposite side of Neuse river and about four miles from the city, Mr. Enoch Fulcher a good old citizen and well known farmer of hemorrhagic fever. Mr. Fulcher was 62 years of age and leaves a wife and three children—two girls and a boy.

In Kinston on Sunday Sept. 9th, Mrs. Eveline Myers, wife of N. D. Myers Esq. A good woman in every Christian and a true friend gone. A.

A Card

SMITHFIELD, N. C., Sept. 6.

NOTICE.—I will sell poll tax in Johnston county. I do not see why that has to be made, or who is making a county official in this county. Pending the appeal to the Supreme Court of the Poll Office to Issues. I am not a candidate. Yours, JOHN LANCIER, P. M.

The Maxton Fair

The next Maxton Fair, Scottish Highland "Builder Exposition of the Two Carolinas," promises to be ahead of its predecessors. Great preparations are now going on, and among the new features will be an exhibit, comprising many articles, at the State museum at Raleigh. The Maxton fair and the Maxton soldiers should all work on the preliminary arrangements.—Wilmington Star.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c. per bottle.

WASHINGTON LETTER.

Josephus Daniels Interviews.—John B. Eaves, Negro-ocracy Organ Finds Something to say of the German Compromise.

Dr. Weeks Talks to Our Correspondent About His Historical Researches And Intended Publications—Democrats At Work—Reorganization of Treasury Department.

[illegible] Sept. 11.

[illegible] North Carolina [illegible] was brought to a with such an [illegible] Mr. Josephus Daniels, [illegible] the Interior Department. During [illegible] Democrats [illegible] on the situation looked him for them. He says "I believe we [illegible] organization in North Carolina. [illegible] will result in confusion. I would [illegible] the democrats if the opposition [illegible] but they can't. There are [illegible] Republicans who [illegible] or the Populists and will [illegible] Democratic nominees [illegible] aggressive campaign. Mr. Pou [illegible] Democratic Executive committee [illegible] to the man in the state [illegible] in touch in knowledge of the people and in fact, who is he entered politics in Johnston [illegible] was the most important county in the state. Sometime it won't Republicans sometimes the Independents [illegible] and sometimes the Democrats succeeded. But it was [illegible] None to be [illegible] but this [illegible] Democratic county in the state. Other [illegible] Democratic leadership. [illegible] Democratic [illegible] in a measure [illegible] Here's the right men in the right place."

"What's the senatorial situation?"

"The senatorial situation is too hazy not to see through. Personally I am not taking sides to the fight in any view it without the [illegible] partisan. Primaries will be held in my estimation and there before the result and the [illegible] before the [illegible] Three [illegible] counties like Mecklenburg [illegible] and Wake. Nobody will [illegible] until [illegible] Mecklenburg will hold primaries for both senators. Wake has not acted but I am confident that it will [illegible] primary, certainly [illegible] Randolph and Rowan and [illegible] both have strong friends in Wake and in primary an [illegible] is possible that to keep the fight from [illegible] the democrats to the [illegible] Wake is a close and uncertain county and primary would help the democrats to win."

"Are you in favor of primaries."

"I am in favor of a primary in my home county, Wake, for the Eastern senatorship."

"When are you going to North Carolina?"

"I expect to spend most of the month of October in N. C. and remain there until after the election."

Every democrat remembers the stumping [illegible] John B. Eaves always makes against fusion. He is a straight out Republican with a R. He does not believe in [illegible] Democrats [illegible] on [illegible] do his share [illegible] in carrying any combination scheme. Dan Russell and Mary Ann have on foot.

Harper's Weekly, the Mugwump organ finds something to praise in the Senate bill. At any rate the uncertainty is ended and it everybody will [illegible] on the bright side and go to work. Business will boom this fall.

Dr. Stephen B. Weeks tells me that he is making good progress on his work relating to his sketch of Judge Willie P. Mangum. He has received a number of personal letters expressing the gratification of prominent men in the state at his proposed work.

There is no doubt a great deal of latent feeling of admiration for the career of Senator Mangum which is being brought out by this book. He has had the good fortune to meet a gentleman here who was the private secretary of Clay and was in this way thrown in intimate association with Mangum. Clay, Crittenden and others and much material will be obtained for the social and private life of the Senator in Washington. In the same way some manuscript material coming into his hands from the family will throw reliable light on the social and [illegible] life of the State at the beginning of the present century.

Dr. Weeks is also making satisfactory progress on his book relating to the Quakers in Virginia the Carolinas and Georgia, which will be published next spring. He has obtained some new material relating to the meetings in northern and western Virginia. He has read more than 20,000 pages of Quaker manuscript covering the whole period from 1780 to the present time. He will be able to reproduce the history of the N. C. Meetings almost in full from these records.

There has been nothing done on this line of our history up to the present time. The influence of the Quakers in the development of this State is one most marked in the emigration from N. C. to Indiana and 1830 to the West was so great that it is said one third of the population of Indiana was made up of North Carolinians and their immediate children in 1850. Indiana is almost as clearly the daughter of N. C. as is Tennessee.

He will soon have published in the Political Science Quarterly of New York a history and status of negro suffrage in the South.

At Democratic headquarters here, the managers are getting campaign matters in fine shape for hard work. Investigation shows that in districts now democratic, 141 have made nominations. Of this number 97 are renominations and 44 are new nominations.

I learn from the Navy Department that everything is in readiness for the trial trip of the new cruiser Raleigh.

Among the last acts of Congress was one concerning the sale of leaf tobacco, which all dealers may notice with much interest. The internal revenue law as a whole remains about the same as before with the exception of this change. In section 69 of the act of August 28th, 1894 entitled "An act to reduce taxation to provide revenue for the government and for other purposes" provides that—"Every person shall also be regarded as a manufacturer of tobacco within the meaning of this act who shall sell or offer for sale tobacco, snuff or cigars not in packages as required by law, or who shall pack in any box, package or receptacle any tobacco, snuff or cigars prior to inspection as herein provided, or who shall pack in any box, package or receptacle any tobacco, snuff or cigars contrary to the provisions of this act, or who shall sell or offer for sale any tobacco, snuff or cigars so packed, or who shall remove the same from the factory where manufactured before the same shall have been inspected and packed as required by this act, or who shall sell or offer for sale any tobacco, snuff or cigars not duly stamped as required by this act, or who shall fail to render any account or report required by this act, or who shall render any false or fraudulent account or report."

Provided, that farmers or growers of tobacco who sell the leaf product of their own growth or make sales from his own premises to manufacturers of tobacco, snuff or cigars shall not be regarded as dealers in leaf tobacco, and such manufacturers shall not be required to put up and properly stamp packages purchased of farmers as above provided.

Under the provisions of the section [illegible] shall procure [illegible] growers of tobacco who sell the leaf product of their own growth or make sales from his own premises to manufacturers of tobacco, snuff or cigars shall not be regarded as dealers in leaf tobacco, and such manufacturers shall not be required to put up and properly stamp packages purchased of farmers as above provided.

Under the provisions of the section [illegible] shall procure [illegible] Internal Revenue with the [illegible] Act of the [illegible] shall procure [illegible] Internal Revenue with the [illegible] Act of the sixty-first [illegible] 1894.

Married.

Quietly [illegible] Mr. J. Rogers Guthrie, of Florida, and Miss [illegible] A. Thomas, the accomplished [illegible] of Mr. and Mrs. J. M. Thomas of Hughes, Carteret county, by Rev. A. Sanders, Esq., officiating.

We wish you "Godspeed" in the happiness you deserve, we know you well as one of the brightest pupils in our school and one of the many kind hearted and lovely women in our land.

The happy couple left for their future home in the state of Florida soon after the wedding. May Heavens blessings attend them. D. W.

Notice.

I M. A. Patterson, hereby give notice as required by Code N. C. sec. 1830, that from this date I cease to act as a free trader and have entered notice of the same in the office of the register of Deeds of Craven county. This Sept. 11th 1894.

s12w3w M. A. PATTERSON, 3.

HAPPENINGS OF THE DAY.

[illegible] appeared [illegible] Mexico [illegible] has been [illegible] ...ing and spending [illegible] European countries.

The North Carolina Fair [illegible] for the colored Deaf and Dumb is said to be the first of the kind for that race in the Union.

It is again announced that Harrison is not a candidate for President. Can't do it at the General says no present prospect of that "emergency" arising.

Tom Reed says southern men have no common sense and the average southern congressman is a fool. Tom Reed has no patience with the position of the south on the tariff question.

The latest news is that the Japanese have whipped the earth with the Chinese at One Li, the Chinese drove Lambs out of Japan at Bark Pill, and a big naval engagement is now taking place at Cumcut.

It is stated that at the primary in one township in Mecklenburg county 490 more Democratic votes were cast than in the general election of 1892. Such showings and it is pretty conclusively that the days of Democratic dissection to the Third party are numbered.

It is stated that the Democratic club organized at Durham recently was the first campaign club in the State but now we see a statement that a club in Asheville was organized two months ago and now has 500 members.

1200 carpenters have struck in New York and the strike is spending. Several contractors have agreed to the terms demanded. Otherwise it is thought there would not have been a union carpenter at work in the city by now.

The sixth district of Alabama appears to be going to have a repetition of the long-winded Texas convention. 336 ballots have so far been taken and it is said that it looks like frost will come sooner than a nomination.

The trial of the cruisers Raleigh and Cincinnati has been indefinately postponed. For the present the Raleigh will cruise in the Hampton Roads and Chesapeake Bay and the Cincinnati in Long Island sound and along the adjacent coast.

The Cashier of the Seaboard Air Line at Atlanta is charged with embezzlement of $8,507. He is 22 years of age and has been in the employ of the company a little over a year. He says while there may been shortage he knows nothing about it.

A human face clock is on view in the window of a St. Petersburg watchmaker. The hands are pivoted on the nose, and any messages spoken into its ear repeated by a phonograph through its mouth. It is said to be the only clock of the kind at present in existence.

There has been another death at Baltimore from yellow fever, the victim being Second Engineer Cornelius Watson of the British steamer Tyzack, who was taken to the quarantine hospital Friday. The other two patients are improving. The vessel is anchored at quarantine station and every precaution has been taken to prevent the spread of the disease.

The Atlanta Constitution tells this: "A little 5-year old girl in North Carolina had learned the nursery rhyme running: 'If at first you don't succeed, try, try again.' Recently she upset the family devotion by ending her little prayer in this wise: "And now, oh, God, please make Lillie a better girl, and if at first you don't succeed, try, try again."

Here is a manufacturing item from the Charlotte Democrat: The directors of the Alpha Mill, of Charlotte, have declared a dividend of $8.50 per share, payable January 1 next. This plant was built on the installment plan, and by next January $81.50 per share will have been paid for, for which certificates of stock of $100 per value will be issued.

Col. Julian S. Carr, President of the State Association of Democratic clubs has invited Boke Smith secretary of the Interior to speak at Raleigh at the gathering of the clubs Sept. 20th. The invitation will be accepted unless something intervene to prevent.

The Kinston Free Press tells that caterpillars came in great numbers a few days ago and have destroyed the crab grass around there, devouring all except the stems. There are millions of them. As yet they have attacked nothing but the grass and it is hoped they will not get in the cultivated crops.

Since the McKinley bill began a law government revenues have shrunk from $103,000,000 in 1890 to $296,900,336 for the fiscal year ending last June. Under the new tariff law the calculation is that the revenues will increase $100,000,000 for the current year. Secretary Carlisle estimates that the Treasury will receive $112,000,000, not inclusive of the $84,000,000 postal returns, which go solely to the postal service account.—Philadelphia Times.

The Snow Hill correspondent of the Kinston Free Press gives this item: "The Populist petition to the board of county commissioners of this county, asking the appointment of Populist pollholders, contains a number of forged names. The maximum penalty prescribed by law for this offense is $1,000 fine or five years imprisonment. There is serious talk of prosecuting for the forgeries."

Justice Traux, of the Supreme court of New York has decided that Henry I Ferguson, of Fairmont, N. C., is entitled to the custody of his 4 year-old child, Raymond. The child was brought North by the mother, who left her husband a year ago. She said she could not stand the climate where she was. Justice Traux says that North Carolina is evidently the residence of the parents and that the child was taken out of that jurisdiction by fraud.

Lowering racing records seems to be all the go now. J. P. Bliss went on Hampden park, Springfield, Mass., the fast-it mile ever made on a bicycle, making the records for the paved mile, flying start of 1:32 3-5 and incidentally lowering the three quarter record to 1:23. He was paced by three tandem teams. The record for the distances were 1:53 4-5 for the mile, and 1:24 4-5 for the three quarters, made at Waltham, July 28th, by H. C. Tyler.

Insolent and hostile our Englishmen are coming to America to investigate lynching at the South. The New York World has called upon Govs. O'Ferrell, of Virginia; Northen, of Georgia, and Tillman, of S. C., for an expression of or opinion on this action. Tillman says they are welcome to come and investigate and he will afford them every facility to get at the facts. The other two Governors give very scathing replies against these phrasedsitful, hypocritical, "if you please" intermeddlers of other peoples affairs looking for a way to take exception against specy justice being meted out without the cross delays, fair to see great evils in their own country or to see that they would themselves be better employed in devising means to suppress the crime which causes lynchings.

Wanted.

Live energetic men to canvass, sell machines, and collect in Craven, Jones Carteret, Pamlico, Beaufort, Hyde and Dare counties. We furnish a nice light running wagon. Agent to furnish horse and harness and make a $500 bond. We offer a good salary, or commission contract, under which an energetic man can make and save money. Men of good make up do well, to get employment with this company, for if successful, they will be promoted to positions of greater responsibility. Address, THE SINGER Mfg Co, or see J. F. NORMAN, District Agt. New Berne, N. C.

A Mammoth Pine Tree.

Mr H. A. Belk, a prominent lumberman of Thermal City, was in town yesterday and reported that they had just sawed the largest pine tree that ever was cut in western North Carolina. The tree made 3,661 feet of lumber. It was 64 feet to the first limb, and 38 feet in diameter.—Charlotte Observer.

Now [illegible] the Democrats of Craven county ever did [illegible] like they [illegible] not since I have been [illegible] The White Republicans in the most [illegible] where they had better [illegible] Craven county and [illegible] the Democrats of Craven county [illegible] of their speeches at Raleigh. Now I state again on the honor of a gentleman this was the first and only time any [illegible] of Craven county were known to [illegible] that attended the [illegible]

For information, [illegible] a colored Republican, whose Republicanism is baptized in the dew that drops from the dying principles of the Republican party whose founders were Lincoln, Grant and Garfield; from one of Craven's largest tax payers. I will tell you all the Democrat have done for the people for the county for or against its good, its interest and welfare.

When the Democrats took charge of the affairs of Craven county, poor colored men and women like all other persons were selling and glad to get fifty cents on the dollar for a county voucher.

The county debt has been nearly all paid. Instead of the county paying out the thousand dollars yearly for rent as the white Republicans did out of the taxes, they have built one of the finest, if not the finest and best court house in North Carolina.

They have raised the credit of the county from a half to par value. A county voucher now is cashed up on presentation by our public and accommodating Treasurer, Thomas Daniels, and paid in full.

The taxes of North Carolina is at the discretion of the Board of Commissioners in regard to accepting the bonds of county officers.

Now, after things got nicely in counties, the Democratic Board have never done anything except when an insufficient bond offered by a white Republican was rejected.

For this and other good and magnanimous acts and deeds, the good citizens should feel under lasting obligation to Mr. James A. Bryan, chairman and his associates, and for further appreciation the intelligence and wealth of the county to order them one graceful bow of congratulations and best wishes.

I am for the right whose foundation is truth.

Yours Again,

ISAAC H. SMITH.

DIAMOND SHOAL LIGHT.

Changes in the Plans—The Most Difficult Light House Engineering in the World.

The light house board has for the past two months been at work devising plans for the new light which it is proposed to erect on the treacherous Diamond shoals, off Cape Hatteras, if it is possible to accomplish this engineering feat. The original designs proposed a masonary structure built on the caisson principle. The structure was to have its base at least 120 feet beneath the waters surface and was to be built up to a height of 156 feet above the water.

The very great uncertainty of securing a caisson which could stand the terrific bombardment of the Hatteras seas, and the failure to find a solid foundation of rock or hard substance has led the board to practically abandon this scheme in favor of a screw pile light, such as have been found to be the best kind of a structure where the waves beat heavily, as it affords the least surface for their attacks. These piles will be sunk nearly 100 feet in the bottom, and will tower about 100 feet above the waves. The keepers quarters will be small in comparison to those which were designed on the masonry structure, but the light will be just as high and bright.

There is a great deal of doubt among some engineers whether it is practicable to erect any sort of a light station on the shoals on account of the shifting sands and great seas, which run high the year round. The shoals extend fourteen miles off Hatteras, and the spot selected for the light would be on the outer edge. Should the light ever be finally completed it is believed that the most difficult piece of light house engineering in the world will have been accomplished.—Washington Dispatch, Sept. 4th.

Johnson's Aromatic Compound Cod Liver Oil is the greatest remedy yet discovered for consumption and all pulmonary affections. Pint bottles $1.00.

TRENTON CORRESPONDENCE.

Capt. Galloway's Speech—Populist Convention—Nominates Republicans and Populists.

The Populist county Convention assembled at Trenton on Saturday last the 8th of September. We suppose that every man in the county claiming to belong to the third party was here with quite a large sprinkling of colored people who were present we suppose to see what they would do on this august occasion. We also had a full crowd of the unterrified democrats to hear that staunch democrat and able, defender of Democracy, Capt. Swift Galoway, speak.

At 12 o'clock precisely we all—Democrats, Republicans, and Populists made for the court house. The pops organized by calling A. P. Borraw to preside and requesting a Mr. Tyndale to act as a secretary, a committee on Resolutions was appointed who retired. Then loud calls were made for a Mr. Wright to address the convention who responded in a few remarks and advised the audience to select men in the future who would act like servants, not treat them like monarchs as democrats did.

Loud call were then made for John Mercer who re-ponded by telling the audience that he had served all parties—Democrat, Republican and populist, proceeded to give the audience a history of each and definition of the names of the different parties and when he had finished his dissertation it was about as intelligible as the Irishmans description of how cannon were made. Why, said the Lishman you dont know how easy they make cannon Just take a hole and pour iron around it. Mr. Mercer in winding up his remarks told the audience not to hear the persuasions of democrats and he led to the polls and vote that ticket. "Why" said he "I know the democrats; I was a democrat up to 1860 and did lots of dirty work for them as much as any of them ever did. This remark led us to ponder a while whether there had been any reformation in the gentleman's soul. "Word a man, if he is inclined to do dirty work once, do it again." Word he had a little ear full watching.

We could not help thinking Mr. Mercer was a little not to tell what kind of work he done while in the Republican party, though he served them over 32 years faithfully. Mr. Mercer said there were two kind of democrats, one was a mug wump and the other was a naggway, Col. Polk was the Moses and Zeb. Vance was the Aaron Populists.

We at this time the committee apparated with their Resolutions adhering to the state and state platforms and recommending the abolishment of the present county Government system. All passed unanimously—Nominees:

House, Frank Brown Pop;
Clerk of S. Court S. E. Koonce, Pop;
Sheriff, W. B. Isley, Pop;
Treasurer, Lewis Kinz, Pop,
Register, F. F. Green, Republican;
Coroner, J. W. Bryan, Republican;
Surveyor, Amos Hecton, Pop;
Scott Galoway address of the people in a telling speech at four o'clock which was listened to with marked attention.

Dr. Cy Thompson and the Hon. Mr. Shaw will speak in joint discussion at Trenton on Friday next, the 14th of September.
