

THE JOURNAL.

F. S. HANSON, Editor. C. T. HANSON, Proprietor.

Published at the Post Office at New Haven, N. C., as second-class matter.

HANSON, JARVIS AND DANIELS.

Hanson, Jarvis and Daniels have made their marks and they are very high ones.

Jarvis and Daniels have laid aside the robes of office and Hanson will close his Senatorial career on the 4th of March.

For more than thirty years Gen. Hanson has been in the Senate. Through all the years of his public service he has been faithful to the country, at all times giving to North Carolina his supreme devotion.

He will retire at the zenith of his influence and power, when best equipped to serve the people he loves so well.

If anything were necessary to establish Hanson's high standing in the Senate, it would be found in the recent action of the fellow Democrats of the Senate in selecting him to see the President and arrange if possible terms of agreement on the Currency.

Senator Jarvis has retired from the Senate entailed by the consciousness of duty performed, and cheered by the applause of his countrymen.

The Washington correspondent of the News and Observer, in his letter of January 24, says:

"Senator and Mrs. Jarvis will leave here Monday for their home in Greenville. Mrs. Jarvis held a reception today at the Metropolitan Hotel, and many of the Senators' wives and all the Cabinet ladies called to say good bye."

Headerson, daughter of Congressman Headerson, assisted Mrs. Jarvis in receiving.

Senator Jarvis said his charming wife has made many warm friends during their short stay here and it is with sincere regret that they see their leave.

Josephus Daniels has come back to North Carolina to stay. On his own merits, without the recommendation of Senator or Representative, he was appointed chief clerk in the Department of Interior, and discharged the exacting duties of his responsible position with credit to himself and honor to his State.

He resigned, not because the office did not suit him, but that he might be better able to see to it that the duties of the News and Observer were properly cared for.

Mr. Josephus Daniels, late chief clerk of the Interior Department, resigned that lucrative position in order that he may devote his entire time and attention to the News and Observer, the newspaper property which himself and associates recently acquired.

During his stay in Washington, Mr. Daniels made many friends in the official and social life, and these best wishes will follow him in his newspaper work.

Ransom will be, and Jarvis and Daniels are, welcomed back to North Carolina with the proud acclaim: "Well done good and faithful servants."

EXTRAORDINARY.

The present Legislature is a most extraordinary body. With the display it has made, nothing need be surprising, but we were not entirely prepared for recent revelations.

In the proceedings of the 25th inst., we find that "There was considerable discussion of the resolution to investigate the charges made by Mrs. Pattie Arrington against a certain prominent attorney and judge, and Senator Carver of Cumberland created quite a sensation by stating that in a suit in which he was interested Judge Seymour had been intimidated by Layman and that thereby Carver lost nearly half of his property."

Really this is extraordinary. We have not the honor and pleasure of an acquaintance with Mrs. Arrington, but, promising that she is a lady of pure character and unblemished reputation, we don't see why the Legislature has to do with the matter. The courts are competent to deal with the case, and the Legislature can't usurp the functions of a court. A judge may be impeached, but there is no evidence before us that impeach-proceedings have commenced on an contemplated.

But, the sensation produced by Senator Carver is still more extraordinary. A Republican Judge is assailed in a way that is unparalleled and unbecoming. Judge Seymour is Federal Judge, with whom the Legislature has nothing to do. If he were ever so guilty the Legislature can't touch him. The idea that the present Legislature is omnipotent and omnipresent is a delusion. Really, Judge Seymour is no danger. He is too well known to suffer from the shafts of a partisan. The poisoned arrow falls harmless at his feet.

A Honorable Friend Letter.

EDITOR JOURNAL:—I write to let your readers hear a word from Bonaventure Island.

On the 11th of Jan. The good people of this island till the late hour of good things for the time being. This ponding was not confined to Methodist, but Baptist, Episcopal and Presbyterians and all had a hand in the ponding.

Some of our folks want to go to the fair—we hope a good number. We hope the steamer will give for rates from this place.—(They will)—ED. JOURNAL.

Would be glad to see hundreds of our people at the fair, taken on this island.

Our town is improving, our Hotel has been enlarged and many are coming here, where they can find good sport, good shooting, etc. also a mild climate for invalids. Come over Mr. Editor and see us. Manteo, N. C. Jan. 26, 1895.

G. D. LAMBERTON.

THE NEBRASKA FARMERS.

Colonize Them in the South.

An Unparalleled Opportunity for Colonizing Practical Farming Profitable Business.

The sending of food supplies from the South to the North is a business that is becoming more and more important.

It should be supplemented by more and more lasting to effect.

That the immediate wants of the people should be met is not a question of charity, but of self help.

So that the present object of charity might be enabled to lift himself above the need of charity.

In the case of the Nebraska and Dakota, the need is for food and fuel, but something beyond this temporary relief is imperative.

Here are thousands of unfortunate people who are suffering from the want of food and fuel, and who are unable to support them.

More enterprising and adventurous than their fellows, they have gone to these desolate plains in search of ample opportunity for a better life.

They have found that the soil is fertile and the climate is healthy, and that the people are friendly and hospitable.

ALL READY TO BEGIN WAR.

Mexico and Guatemala Out.

Dispute their Boundary—Both Countries Ready to March 100,000 Men on Mexico.

The arrival of Gen. Diaz's reply to Mexico's final demands on the International boundary dispute has caused a considerable stir.

As yet, however, nobody outside the Foreign Office has seen the reply.

Rumors of every sort are afloat, and most of them are untrue.

The Government covers none more the old ground, seeking in vain to evade the issue and secure a delay.

St. Louis, January 25.—A City of Mexico special to the Globe Democrat says the War Department in this capital is all activity.

The entire office forces are working over hours, and an unusual spirit of life and activity is everywhere.

The number of troops already on the frontier is 100,000, and several brigades are in readiness to be pushed to the front at a moment's notice.

It is not to be doubted that Mexico could put 500,000 men on the Guatemala frontier within a week of ten days should occasion demand.

It is understood that the Government does not intend to begin the war on land. The first hostile effort if Guatemala refuses to withdraw its troops will be by sea.

Foreigners here express some doubt as to the effectiveness of such a blockade, since the Mexican navy has but a half dozen small craft, manned by hardly 500 seamen and officers.

A special from Tapachula says that the southern border is a ferment over the impending hostilities between Mexico and Guatemala.

More troops are being centered about the frontier, and a heavy movement of people is noticeable on every hand.

The indications are that Barrion, President of Guatemala, expects aid from Spain because of his bold stand.

READY TO MARCH TO MEXICO.

Four Central American Countries With 100,000 Troops.

SAN FRANCISCO, Cal., Jan. 24.—J. D. Duran, Consul General for Guatemala, reported to have been recalled by President Barrios.

It is said that Duran, who is a lieutenant colonel in the Guatemalan army, will assume command of the force on his arrival here.

The statement is made here this evening that an alliance has been formed by the Governments of Guatemala, San Salvador, Honduras and Nicaragua, which has just adjourned at the Capitol.

Senator Jarvis accidentally christened him "Deter G. Phillips" in the Senate Chamber. He was escorted to the Senate by Senator Jarvis. He did not intend to come here until next week.

He was telegraphed for by his Republican colleagues to come on at once to prevent the Republican caucus, which has just adjourned at the Capitol.

THE PRESIDENT TO ACT.

Attention Will be Called to the Financial Situation.

WASHINGTON, Jan. 26.—The Treasury gold reserve was further reduced today by \$50,000,000 being withdrawn from New York, and will now stand at \$1,000,000,000.

The financial situation was discussed at the White House by the President, Secretary Carlisle and Attorney General Olney.

The result of that conference was not divulged, but it is believed that the President has decided to call the attention of Congress to the Treasury situation, and to ask the gold to be returned to the Treasury to redeem in gold its legal-tender notes.
