Definity. Presence: Sir-Allow me to offer my thanks to you for my good health since using your Golden Medical Discovery. I was but the shadow of a person, so thin and hargard, without one moment's case; and suffered for years with my stomach and liver, and this spring had a very severe attack of La Grippe, I then commenced using the "Discovery" and my recovery is wonderful. I am forty-flue years old, and feel as well and strong as I did when sixteen years old; my sleep is as sound as an infant's I remain.
