Catching Locthes For Market.

think a little blood-letting nurts coins from a narrow necked bottle.

spring physic," save he. "Why, the bottle, which stands on the edge me and the boys get so fat and of a table. The whip artist, withhealthy doing nothing all winter out appearing to take any sort of that we need something like this to aim, sends the long lash whizzing keep us in order. If we fished too through the air and picks off the long at a time they might do some the coin without jarring the bottle, harm, but we know when to stop, much less breaking it .- London After the season is over we teel Tid-Bits. fresher and better than if we hann't been leeching. They are just like mo-quitoes-they suck out all the bid blood and leave the good, and that's why, I suppose, we feel so good after a month's work in the swamp I think we'd all have ma- too tone it has no equal." wire. Anote lares down in the wet place if it wasn't for the leeches. No man digest trant, bar a backache which never could wade through such a mud- left her and felt fired and weaty, but six hole without getting malaria, unless something helped him."

His farm yields 500,000 leeches a Duffy's Drug Store core and the price 20 or 30 cents for 100, gives an annual income of \$1,000 to the family. The market is New York or Philadelphia, where the leeches are distributed to the

Half a century ago this would have been a great business, but the t - and l'aris consumes 3,000,000 while London finds und fur over 7.000,000 a year.

James Pa tit or his boys, when and 2 discovered the presence of to leaches in his swamps. He I ked up the subject and decided that he would supply the American warket, which hitherto had de pended on Europe. He found that County commissioners have leave to unvers preferred the Hungarian hire out, until proceeds are suffifellow of olive green without spots or else the German leech, with dark green body, spotted below with wacs. He got a few specimens and our them in the pond. They multiplied rapidly after their enemies, " water stakes, were exterminated nd soon the first le-ch pond in the e union was es ahlished. The young e read. for market in about a year or reproduction takes three years. the average life of a leech is fifteen or termy years. Usually a healthy man can fis in the swamp four or nve hours without losing enough blood to exhaust him. The leech

low five times his weight in blood, All this is more pleasant than the of fattening leeches for the market on decrepit old horses which have been condemned to the bone yard-N. Y. Press.

Result of an Accident.

"The small size of the screw, says a noted shipbuilder, "is not due law, and collect costs at this court. to the perception of any inventor of its greater effect as compared with a arger one, but purely to accident. When I first engaged in the machinery business screws for steam. ers were made as large as possible, it being the theory that the greater the diameter the higher the speed.

"A vessel was sent to sea with a payment of costs. screw so large that it was deemed best to cast each blade in two parts glary in the first degree. Found and then wield them together. Dur- guilty. Sentenced to the penitening a storm all three blades of the tiary for three years. propeller broke at the welding, retwo-thirds. To the surprise of the captain the vessel shot forward at leave to hire out until the proceeds a speed such as had never been amount to sufficient to pay the fine attained before. Engineers then and costs. experimented with small propellers, and discovered that they were much more effective than large ones. Had Defendent appealed. Bond fixed at it not been for that accident we \$25.00 might have gone on using largebladed screws to the present day.'

Master of the Whip. An Anstro-Hungarian, named pay in said time a capias to be is-Piskslug, has created a sensation in sued. Vienna by his wonderful performance with a whip. The first thing he does is to take a long lashed, stont handled whip in each hand, and with tors, are little minded by the lightorchestral accompaniment, proceed keepers. One of them, in fact, reto crack or snap them at a terrible rate. The sound made by his whips in this manner is graduated from a terrupted operation for 27 days, and the sound made by his whips in this manner is graduated from a terrupted operation for 27 days, and terrupted operation. At store or by mail. noise like a rifle report to the soft declared that he dreaded the silence click of a billiard ball. It makes a which would come with clean weather. The fog is as nothing weather. show how he can regulate the force of each stroke.
