WASHINGTON NEWS

PRESIDENT-ELECT MCKINLEY AND CUBAN RESOLUTIONS.

Palitical, Social and Other News from the National Capital, Personal and General Items of Passing Interest to the General Render.

Wassington, ID. C., January 9 .- It was stated on good authority last night which on Thursday, heard arguments seeker would headly care to be monisted. HE REGARDS HIS ELECTION done great work; that passenger rates are To the Senate: I transmit herewith a Bills Introduced. Committees Ap ply of the Commissioners to the Gallinger and Cockrell resolutions, had agreed resterday to report the Cockrell resolution to the Senate on Monday. The two resolutions have practically the same Object in velw, Senator Gallinger having accepted that of Senator Cockrell for

Having heard what the Commissioners had to say as ito these, the committee merely took up the consideration of the subway bill, which is pending, without action on the Gallinger and Cookrel. reclutions, but it is understood that these were considered on Thursday in ea ecutive session and again yesterday, with the result above noted, that the Cock rell , resolution would be reported to the genate on Monday.

It was also stated yesterday that the subcommittee had gathered some expertestimony us to the methods of construc tion of coduits and ducts by the Potomac Company.

DA good deal was said as to these meth-ods during the hearing on Tuesday. Col. Britton, for the United States Company and Mrs Crosby, of the Potomac Compa or disegreed , or ... to the quality of the work, and hences the taking of expert testimony by the subcommittee. What the general effect of the estimony taken is, was not stated.

The reporting of the Cockrell resolu tion, heretofore published in The Times, to the Senate will open up the subject for general discussion by that body.

A letter written by one of the crew of the cruiserPhiladelphia has been received and tells of a disastrous fire in the cruiser's bunkers on the morning of her ar rival at Callao, Peru.

The crew was buisy scrubbling down the decks when an alarm of fire was sounded. The craw was informed as to the whereabouts of the fire, but as the shi rapidly filled with smoke, had considerable difficulty playing water bit the blaz

"Notwithstanding the fact that all the water possible was used, said the writer of the letter, "the plates in the magazine room became so heated that an order t abandon ship would not have surprised me. After three hours hard work

the flames were extinguished in the coa bunkers, but the fire broke out in an adjoing room from the heated plates. The erew was agpin put to work, and in half hour had the fire out. The hatch plates were cooled to pravent further damage, by running streams of wate over them, and the excitement ended." In conclusion the letter stated the the ship would leave Callao for Panama

in a short time and from there would mil for San Diego, probably arriving a: that port in the latter part of February However opinions may differ as to the political features of Mr. Cleveland's sec and administration, as long as the present generation lives to remember then will be but one concerning the success brilliancy and graciousness of the second social reign of Mrs. Cleveland Whether regarded as wife, mother, or first lady of a republican court, the

lovely and accomplished consort of the present President of the United States receives and deserves more than royal respect and honor at the handof the nation for the worthy and gentle character of her rule, to which. indeed, additional luster has been added by the charming and honored ladies who form the social ministry of our First Lady, as their husbands or fathers con-

stitute the Cabinet of her goodman. In preparation, perhaps, for a leave taking soon to occur, and which every body will regret, the illustrious lady re ferred to, together with her distinguished Cabinet, on Monday last sat for the photograh portrait which is to represent in history the circle as it existed at the and of the current administration.

President-elect McKinley doesn't wish this Congress to take any action upor any of the Cuban resolutions. This has been hinted for some time, but now it is fully known. Senators Cullom, of Illinors, and Thurston, of Nebrasks, who have both had recent consultations with Maj. Mckinley and who previous to the boliday recess of Congress were among the most persistent advocates of immediste action by Congress in behalf of Cubs, are now ownselling delay and pointing out reasons therefor. If Representative Money, of Mississippi, who has returned from his trip of personal investigation to Cubs, made any important discoveries. he is carefully concealing them. One of his friends says he will tell what he learned in Cuba in a speech, but when bealthy body, because with the approach saked about it, Mr. Money declined to

either confirm or deny it. When the advocate of any idea does something to get that idea laughed at he does it irreparable'injury, and that is about what Senator Mills has done by his latest Cuban resolution, upon which he today made an unusually strong and able speech. Senator Mills isn't addicted to the habit of joking upon serious sub- and toning and invigorating your whole jects, and it is certain that when he system wrote that Cuban resolution he had no intention to make anybody laugh. All the same he has done so, and the laughter continues, in spite of his serious New York = Conton, March clases 7.10, a speech, and may prove a more powerful factor than argument in causing the whole Cuban question to be shelved for a time. The Mills resolution recognizes the independence of Cuba, and declares that the President should act in harmony with Congress, but the humor lies in its tail, which provides that a Minister to Cubs shall be appointed and appropri- May Wheat. . . . 802

Whether this claim is true is yet to be seen, and will depend upon whether the bill is strongly opposed in the Senate. It is perfectly well understool by all the Senators that it will be of the recent loss of Congressman Brownaseless to attempt to get a vote upon any low, of Tennessee, and denied that the sill that can muster a score of Senators latter was Hanna's agent. He said that who are earnestly opposed to it. That is why somen's people do not believe that the Pacific Radroad Funding bill, which was voted on by the House today, wil

> Somehow the idea got out that Hon Phomas E. Watson, of Ca., late Populist candidate for Vice-President, would appear before the House Elections Committe ein has own behalf when the contested Pritchard Republican. He said: "It election case of Watson vs. Black was called, but Mr. Watson was not present. His interests were looked after by four lawyers, and Representive Black, who was present, 'had the same number to Their resolution adopted last night, while belp him retain his seat.

way in the Senate this week, so far a the Republican Steering Committee could grant it. It is thought that a maority of Senators favor this bill, but its pponents are making a sturdy fight to prevent its getting to a vote.

While nothing is perfect, excepting, or course, lovers in each others eyes, the system of handling money in the U. S. Treasury is so nearly so that it is yory rare for any to be lost. Still there are sometimes attempts made to beat the evstem. The secret service is now work ing upon one of them. Recently five heets, each containing four \$10 bills avsteriously disappeared, and up to this ime no clue has been found to show the way they went. The last flurry of this sort was fifteen years ago, and the disrepancy was caused, not by theft but by in error in the counting machine. This dime the machine made no mistake, and unless the missing money is found. Trea surer Morgan will have to make it good as he is personally responsible.
