SHERMAN AND THE SECRE TARY SHIP.

Not Considered Good Appointment International Agreement Bill. A Marsh Report. Pacific Railroad Question, Homestead Bill.

JOURNAL BURRAU, Washington, D. C., Jan. 18th.

There is a wide difference of opinion in Congress as to the wisdom of choosing Senator Sherman to be Secretary of State under the coming administration, Mr. Sherman's temperament is such that he has never been and could not be a popular man, in the common acceptance of the term "popular," While everybody among his party associates who doubt All is muddled. his success in handling our foreign relations, which of late years have seemed may be no election as was the case to grown more complicated and difficult in Kontucky last year. If the Democrate all the time. His enemies, and he has vote with the Populists there is still many, may that he has made a failure as Chairman of the Senate Committee on Foreign Relations, and point out that only the other day that Committee was the largest number of votes. If a repre criticised in an executive session of the sentative or Senator is present he will be the manner it had handled the Cuban question. The belief, which is general, that Mr. Sherman was virtually forced into becoming Secretary of State by the exigencies of Ohio politics, will not add anything to his prestige.

a Congressional Committee than that in Cubans. a report made by the Senate Naval Committee several days ago. This report cerest to pass his censorship, but it now savs: "The evil consequences likely to result from allowing Navy officers to be interested in patents, or employed by the owners thereof, are well illustrated ty miles from Havana, by a Cuban colby the facts which appeared to the com amp. mittee concerning Commander Wm. M. Folger, late Chief of the Bureau of Ordi nance, Navy Department, and his con nection from beginning we end with what is known as the lies ver Process for face hardening armor for naval vessels, and and the various patents issued there-

The report recites the assistance given the Harvey Company by Folger in his official capacity, and says in plain words that it was given to get the lucrative employment from the company, which Folger has had since he resigned from the Navy. It also gives other lustance. of Folger's having been in private employ while in the Navy. In 1894 he went to Europe as agent for the Gathur Gun Company, and drew a salary as sucl. for two years. Later he was employed by the Simonds Rolling Machine Com- cerned."

pany, receiving as pay both money and Stock in the Company. Congressional interest is greater in the settlement of the Pacific Railroads question than it was before the House defeated the funding bill, but it is doubtful whether the conflicting opinions can be sufficiently reconciled to gany legislation. It all depenas up in the House, The Senate Committee ha unanimously agreed to Senator Gear's bill, providing for a commission of members of the Cabinet to settle the in debtedness of the Pacific Railroads, and ermine how it shall be paid, with at

nendment, offered by Senator Mor. m, reserving to Congress the right t egulate and prescribe charges made by those roads and all other rights it has under existing laws. This bill has been reported to the Sen

ate, but no effort will be made to push i until the House acts upon a similar bit now in Committee, If the House does nothing, the matter will be left for the Executive branch of the Government to deal with. The Attorney General is now working on the papers that will be need ed in the proceedings for foreclosure o the Government mortgage.

If the Free Homestead Bill, which wa last week passed by the Senate, is kille. in the House Committee on Public Land were it now is, its friends will blams Speaker Reed, and accuse him of bein, in sympathy with the Eastern opposition to the bill. When the bill was originally reported from the House committee o public lands, it only provided for frehomesteads in Oklahoma, and it requires hard work to get the favorable report which had only a majority of one in the committee. The House passed the bill as it was reported, but the Senate has added amendments extending the free home steads to all lands acquired from Indians When the bill went back to the House Speaker Reed referred it to the commit tee ou Public Lands for consideration the Senate amendments.
