NO. 48

HENRY STILL OUT.

Sutton, of Cumberland, Likely to Secure Judgeship.

Assignment Bill Tabled. Insurance Billed Raised. Trent River Fish Protected. Craven Can Vote for Bridges.

JOURNAL BREAKS. RALEIGH, N. C., February 27, 1897.

The State board of education recommends to the legislature the appointment of the following as trustees of the State Normal and Industrial school at Greensboro: J. A. Blair, Fifth district; A. S. Pence, Fourth; F. A. Moore, Fourth district.

The price asked for the great painting of Senator Vance now on view in the capitol is \$2,500. Members of the legislature say it will not be purchased.

The fight between Senator Hyatt and Gov. Russell's private secretary was an event second only in importance to the railway lease bill. It certainly created a sensation. There was talk at once of creating a committee to look into the matter.

There is much pleasure in the fact that the House finance committee chairman has stricken from the machinery act the portion of a section making mortgages, notes, open accounts etc., non-collectible unless they bear some evidence of having been annually listed for taxation.

Bill was passed forbidding insurance companies to do business in this state through regular licensed agents.

The bill passed to protect fish in Trent river, also to provide that the new oyster law shall not apply to Onslow and Pender counties.

The Wilmington charter bill was held up in the Senate.

The bill to give Buncombe county a dispensary was passed after a long and warm debate and in the face of an unfavorable report.

The Senate defeated the bill to prohibit the use of free passes by public officers. The vote was 22 to 22, and the President of the Senate voted no.

The Senate passed the bill to permit Craven county to vote on bridges across the Trent and Neuse rivers.

It is said to-night that Governor Russel will appoint Sutton, of Cumberland county, judge of the criminal court of the Eastern district and Walter Henry will be given something else. It is stated that Russell and the bolters are coming to terms.

The charter of the Jamestown and Washington railroads is rejected by the Legislature. The people of W. E. White, who was defeated last night in the Republican caucus in the vote for railway commissioner, by D. H. Abbott, has some strong supporters who express deep indignation at some of proceedings. They charge unfairness in the balloting.

The Populist bolters refused to give out the names of the men they chose as directors of State institutions. They said they were subject to change. Two years ago the Populist and Republican members of the legislature grabbed for nearly all the offices in sight and were held up to scorn. An effort made night to get the bolters not to take any of the "pickings" themselves failed. One bolter was single because not enough got in. He had a great deal of plain talking during and after the caucus.

The Eastern Republicans, however, are violently angry at the declaration of Judge Ewart that the Western Republicans do not purpose that the bills taking charge of the Eastern railroads and towns shall pass the Senate.

Four hundred students of the State Normal and Industrial school sent the following telegram to Dr. L. M. Currie: "To him who has generously supported and nobly fought for us we send glad tidings." The glad tidings were of the passage of the additional appropriation bill.

A bill has passed the legislature setting apart \$30,000 of the stimulation local taxation for common schools, and now a bill is favorable reported, costing \$100,000 more. The amount of all taxes will be apportioned to each township to be paid as soon as the people of that particular township or any man raise the like sum. This plan really means six months' public service allow the State, if the people see fit, to do the work of the situation.

To-day was the fourth night of the legislative session, leaving nothing to work days yet remaining.

Raleigh comes to the front with the "infant prestige" of the white whale which it is declared has attacked trout in the

FIVE POUND GOLD SUGAR.

Boston, Mass., February 26. A general interest was manifested in Boston Stock Exchange yesterday upon the announcement by the Financial News that a gold nugget weighing five and one-half pounds had been found in the Crawford mine located in Stanley county, North Carolina, about ten miles from Albemarle.

Last year there were two large nuggets brought in, one weighing eight and a half, and one pound each. This the mining experts believe is a significant fact, for in that time, one was the phenomenal example before mentioned. Then with the discovery of several new mines in the section of North Carolina, it greatly interested Boston capitalists.

A brick of mull at Pugus, once used for storage by the Orr Lumber Company and the Pugus Malt Company, was destroyed by fire. Loss, \$50,000 insurance.

THE BUSINESS OUTLOOK.

This Country Continues A Capital City.

Bank of Advancing Price of Shows, Farms Products Higher, Securities Market Flat, Railroad Stock Firm.

Price of Warships.

Feb. 26, 1897.

The business condition continues to improve very rapidly, and the market is becoming more active.
