

MAY USE MONEY.

The Opponents of Annexation will Use Every Effort.

Bill Sure to Pass. Near the End of Yearly Talk. Union Pacific Matters. Patent Attorney Frauds. Robert Should Speak Louder.

JOURNAL BUREAU,
WASHINGTON, D. C., June 28.—The opponents of treaty for the annexation of Hawaii are playing it smart by trying to keep as quiet as they can, lest the program of allowing the treaty to go over to the next session should be abandoned, and the treaty ratified before the present session adjourns. According to some hints dropped by opponents of the treaty, they hope to accomplish the rejection of the treaty by a lavish expenditure of money to throw public opinion in the U. S. against it. It is said that the money is to come from European governments who wish the treaty to fail, but do not wish to appear to be opposing it, and from the sugar trust, which has opposed it from the first. The friends of the treaty say they have no fears. They believe that the Senate will ratify the treaty, but if it fails, the Morgan bill, already introduced, will bring annexation at once, and there is not a bit of doubt about their ability to pass that.

A stranger at the Capitol would know without being told that the tariff debate is drawing to a close in the Senate. The Senators show it by their general gait. Of course, there are Senators to whom the bill, which will be passed this week, is anything but pleasing, but it is doubtful whether there is a single Senator who does not rejoice to know that the end is near at hand. Unless there shall be much greater delay than is expected in reaching an agreement as to the Senate amendments in conference, the tariff bill will be a law before July 15th and Congress can adjourn by that date, as it is generally understood that no other legislation is to be attempted at this session.

Senator Harris resolution declaring that the government should at once resume the Union Pacific Railroad from prior liens and then take steps to foreclose its mortgage, with an amendment offered by Senator Morgan, requesting the President "to suspend proceedings to carry into effect the agreement alleged to have been made to sell the interests of the U. S. in the U. P. R. R. and in the sinking fund, until further action of Congress is had in reference thereto," has been favorably reported to the Senate. Senator Harris, of Kansas, wrote the report on the resolution, and he presented figures to show that if the proposed reorganization is allowed to go through, the government will lose near \$35,000,000 and other creditors will also lose quite heavily.

Senator Butler is much pleased that his resolution as to the feasibility of applying the principle of the initiative and referendum to Federal legislation is to be investigated by a sub-committee. A proposition is being talked of among some Senators to report to the Senate the result of the hearing, but it is not likely that his voice can scarcely be heard even by the occupants of the seats nearest to him when he states his opinions on points of order or says anything relating to the business of the Senate.

GENERAL FUND PAYS

Expenses of August School Election Voting Aid

To Public Schools. Park Hotel Sold for \$27,000. Caucasian Denounces Tom Watson for Playing into Republican Hands. Scarborough Accepts.

SPECIAL TO JOURNAL.
RALEIGH, N. C., June 29.—The Attorney General decides that the expenses of the August election on the question of local aid to Public schools, must be paid out of the general fund and not from the school fund.

The Park Hotel in this city, was sold today for twenty seven thousand dollars, by Page Brothers, of Aberdeen, to J. C. Brown, late proprietor of Hotel Bonair at Litchfield, N. C.

Senator Marion Butler will in his paper tomorrow denounce Tom E. Watson as having played into Republican hands in the last campaign.

John C. Scarborough of Raleigh accepts the presidency of Chowan Baptist Female Institute.

The Western rails running out of Chicago have come to the conclusion that they will be about swamped with the amount of business to the Christian Endeavor convention in San Francisco. At the time of making the rate the general opinion was that it would not bring a large amount of traffic, but some of the roads now are in straits to get the necessary equipment to enable them to handle the traffic.

WILL NOT DIVIDE.

No Division of State Public Printing.

Death of Ex-State Treasurer Tate. Child Bitten by Dog. Denial of Rumors Concerning Britthead and Butler.

JOURNAL BUREAU,
RALEIGH, N. C., June 29.—The death of ex-State treasurer Samuel McDowell Tate of Morganton causes deep regret all over the State, particularly among the ex-Confederates. He was a very gallant soldier. At Gettysburg, as Colonel of the 6th, N. C. Regiment, he passed through a gap in the famous stone wall and with his revolver killed six men. He told me this himself. His statement was confirmed. He had flanked a line of men lying down, and emptied every chamber of his revolver as quickly as the weapon could be fired.

Managing editor R. C. Cameron, says the reports that it was to divide with Barnes as to the public printing are inaccurate but that they came from the fact that Barnes Bros. need a press and gas engine has taken those of the Caucasian and that the two offices will be operated together. He declares that this is all the Caucasian has in it, that it means a saving of rent and some returns on property.

Some of the Republicans are circulating a story today that Barnes will charge \$7 cents for 1,000 copies for composition in the public printing contest, while, Stewart Bros. charged only 25 cents and claim there is a job in this. Positive statements are made, on the other hand, that the new contract will set the State \$10,000 a year.

Next week the penitentiary superintendent will go to the line of the proposed extension of the Carthage railway to see what the amount of work will be. The president of the road, W. C. Pitty wants only 50 convicts, but Superintendent Smith wants to put in 100 and finish the 71 miles during August when there is no crop work for the convicts.

Last night a shepherd dog here severely bit the little son of ex-Secretary Bruner of the Agricultural department. The dog had been trained by its young owners in the neighborhood to chase children and this time it became angry and bit the little boy.

A denial is made of the rumors that Senators Butler and Pritchard had made up all their quarrels and differences, and were consulting together as to the division of North Carolina patronage. Every bit of this news was brought here directly from Washington by Republicans of the strictest sect. They gave it out and in no other way was it circulated.

The railway commission will devote several days next week to the annual assessment of the property of the 72 railroads and branch lines, 22 steamer lines, 25 telegraph, 20 telephone and 5 street car lines.

The general opinion of all who attended the session of the Teachers' Association which ended yesterday is that it was the most satisfactory, practical and valuable ever held.

Under the provisions of an act of 1897 the State Treasurer is sending to bankers or officers and directors of banks, railroads and other corporations incorporations and doing business in this State, a blank form of oath which is that they will observe the constitution and laws of the State and truly discharge according to law all the duties which may devolve upon them in the execution of the trust reposed in them, and that they will not knowingly violate or permit to be violated any of the provisions of the statutes of the State under which the association has been incorporated, and that they are the owners in good faith and in the same right of the number of shares of the stock of the association required by the said statutes.

David Castillo Longhlin, a circus performer whose home is Henderson, is one of the men sick with yellow fever at Swinburne island New York.

An investigation is being made by law officers as to the status of the defunct Egypt coal company. It is found strange to say, that there were two companies of the same name.

The Secretary of State has had the Supreme court reports stored in a closed building and did not know until yesterday how many there are of them. They are now in a book store, and there are found to be 18,031, which is nearly twice as many as he thought there were.

The records of charters granted the Secretary of State only extend back 4 years. There are about 500 of such charters in that period.

Mention was made of the fact that there came from Washington rumors that charges were impending in the U. S. Marshals office here and that W. H. Odum and Settle Dockery were spoken of as to be chief deputy and clerk. Mr. Dockery writes that this part of the statement is certainly inaccurate, that Odum does not live in the district and that as far himself he will in a few days go to the University law school, and will when he obtains his license devote himself to that profession.

No Gripe

When you take Hood's Pills, the big, old-fashioned, sugar-coated pills, which tear you all to pieces, are not in it with Hood's. Easy to take and easy to operate (is from Hood's Pills, which are up to date in every respect. Safe, certain and sure. All druggists, 25c. C. I. Hood & Co., Lowell, Mass. The only Pills to take with Hood's Sarsaparilla.

REED WILL APPOINT.

The Committees Will be Named Before Adjournment

Populists May Secure Some Representation. Will Appoint Old Members. Anti-Trust Legislation. Likely to Become a Leading Issue.

WASHINGTON, June 28.—Speaker Reed today he had the matter of appointments under consideration and that unless something new unforeseen occurred he would prepare the list and submit it prior to the final adjournment.

One of the interesting things in connection with the appointments is the disposition to be made of the twenty-one Populists. In a written communication to the Speaker early in the session they demanded recognition of the committee as a separate party. Heretofore they have not been recognized. Neither Speaker Reed nor the late Speaker Crisp recognized the party of which they are members as entitled to separate recognition and their assignments as a rule are confined to unimportant committees. Some of the big committees, like the Ways and Means, Appropriation, Foreign Affairs, or Judiciary, has had a Populist member.

The Democrats will protest if the Populists are given representation at their expense. It is not considered at all likely that Speaker Reed will see fit to change his policy regarding the Populists. When Mr. Reed comes to make up his lists, he will doubtless confer with Mr. Bailey, of Texas, who was selected as the candidate for Speaker by the Democratic caucus. There is no indication of any change in the chairmanship of the principal committees. Where the old chairmen are members of the present House, they will, doubtless, with possibly an exception or two, be reappointed.

The Republicans are having great difficulty in deciding upon an anti-trust amendment. Their intention is that the amendment shall have no retrospective effect, but they have not been able to make up their minds as to what to do. A practical proposition, Senator Hoar, who has been struggling with the problem as chairman of the judiciary committee, took occasion today to point out to the Democrats some of the obstacles he has discovered in the way to any satisfactory restriction.

Members on both sides of the chamber perceive that the question of trusts is likely to occupy a much more important position in the political developments of the next few years than ever before, and the trusts are becoming more numerous and more powerful, and the feeling against them is not only more intense, but is fostered and strengthened by the agitation of both the tariff and the silver questions.

Opposition to the trusts forms a common ground upon which Democrats can meet, and those of both factions who favor harmony believe the trust issue may be made very prominent in the next general campaign. The Republicans have no desire to be placed in the attitude of upholding these institutions, which, both parties condemn, but they do not appear ready to avoid such a position at the expense of their cherished tariff scheme. It is therefore thought that the so-called anti-trust amendment, which, it is said, will be added to the bill, will be for the purpose only of placing the Republicans on record as opposing trusts in the abstract.

ELECTED LIBRARIAN

Of University. Southernland Resigns as Director Eastern Hospital.

RALEIGH, N. C., June 28.—Ralph H. Graves is elected by the executive committee as Librarian of the University.

J. F. Southernland of Goldsboro, resigns as director of the Eastern Hospital for the Insane, at Goldsboro.

Higher Price for Tobacco.

CHARLOTTE, N. C., June 28.—Tobacco has already jumped from four and a half cents to seven and seven and a half cents a pound. Reports show that planting this year has been exceedingly short. Almost all the white burley tobacco in the world is grown within 200 miles of Charlotte. It is used in the manufacture of plug, fine cut, and smoking tobacco.

The Finance Committee at Washington originally fixed the rate on unsmoked wrapper tobacco at \$1.50 per pound, in opposition to the House rate of \$2 per pound. The reports of the bad growers immediately began a campaign for the restoration of the House rate which was resisted by the smaller manufacturers, particularly of the western States. The Finance Committee yielded to the growers to the extent of advancing the rate to \$1.75. Senator Hawley represented the growers in their efforts to secure a \$2 rate. The camera decided without division to stand by the compromise rate of \$1.75.

AS PER PROMISE.

Fortune Succers Riddick as Clerk of U. S. District Court, at Raleigh.

Ravenscroft, June 29. Julius B. Fortune, who lately came here from Shelby, N. C. was today, as promised by Senator Pritchard, appointed by Judge Parnell, as clerk of the U. S. District court here.

UNBOUNDED SUCCESS.

Visitors Out Number Nashville's Entire Population.

Confederate Re-Union. Tennessee and Texas Remember the Alamo. Georgia Has Her Day. Making Money Now. Not Very Hot.

NASHVILLE, Tenn., June 28.—Nashville has entertained more persons than her entire population during the week just ending. More have walked the streets of this city than have entered her gates during a similar period before, perhaps, and the Tennessee-Centennial Exposition has, of course, profited.

Editors from Kentucky, Missouri and Mississippi kept the exposition molasses full of newspaper talent, and the reunion of Confederate Veterans, with its numerous auxiliaries, kept the streets of the centennial city thronged with wearers of gray uniforms, bright badges and the insignia of brigades, divisions and minor commands.

Notable in the great rush was the Texas delegation, which was one of the largest of the most enthusiastic, and probably the most important. Those Texans came a thousand strong from all parts of the great State, with a double purpose. They came to take part in the reunion and they came to celebrate Texas Day at the exposition. To the reunion they contributed the principal speaker, Judge John H. Reagan, the sole surviving member of Jefferson Davis' cabinet, and to Texas Day they brought an enthusiasm that no other State has aroused on a similar occasion.

The people of Texas and the people of Tennessee are bound by the ties of blood and by kindred interests. The Alamo is the pride of Texas history. The Alamo was made famous by Davy Crockett, a native Tennessean, and Texas history is full of Tennessee names. The thirty members of the Texas Legislature who honored the day with their presence included a large proportion of natives of the State that is now celebrating the hundredth anniversary of her Statehood.

Georgia also celebrated her day at the exposition this week, and the flowers of that State's beauty and chivalry took part in the interesting exercises.

The scene at the Union Depot during the first days of the week is not often equalled. All regular trains were run in from four to eight sections, and specials were arriving every few minutes. A queue of locomotives were pressed into service by this unusual demand, forcing the belief that swiftly and repair shops for many miles around had been compelled to give up their means of transfer for the week.

The week's attendance will prove a great advertisement for the exposition. Those who composed the crowds came mostly from the South, the section that is largely dependent on to boom the daily admissions during the warm months of July and August.

Director-General Lewis has just made a report to the stockholders, in which he shows that the receipts from all sources have exceeded the actual operating expenses by \$1,000 a day. He calculates that, on the same basis of receipts and disbursements, the company will be entirely relieved of debt at the end of the exposition period and have a more or less valuable lot of assets to dispose of for the benefit of stockholders.

Although the weather for a week was hotter than it usually gets in June here, the attendance calls did not increase to a remarkable extent, and the attendance was not reduced. Many cities north of the Ohio river, notably Chicago, suffered more severely from the heat than Nashville did, and it is particularly gratifying to people here to note that the number of exposition visitors from the North has steadily increased.

Weekly Crop Bulletin.

The week ending June 28th was generally very favorable, except along the northern section of North Carolina, where a few southeasterly counties, where insufficient rain fell. The 23d, 24th and 25th were cool, but temperatures above 90 degrees occurred during the middle of the week. Very beneficial showers occurred throughout the week. Wheat is about all harvested and thrashing is under way. Cotton is still backward, but progressing well. Corn has improved and is being laid by. Tobacco continues small. In some counties farmers are having difficulty in keeping down the grass.

Eastern District.—Over portions of the district, especially in Halifax, Gates, Nash, Wilson and Brunswick counties, the past week has been too dry, and crops are suffering from the drought; in other occasional showers occurred. Crops have been kept in good condition. Considerable of the corn has been laid by; it is small, but doing fairly well; corn is silking and tussling. Cotton was retarded in growth some by cooler weather on 22d, 23rd and 25th, but made progress during the middle of the week. Hay is reported in fair condition. In some counties it is in full blast. Rice crop is fine. Early table corn is ripe and tomatoes are ripening.

Legal appeals for aid are coming in from that part of Alameda county Florida, which was devastated by the great hurricane of September 29 last. The destruction appears to be greater than any previous year since the catastrophic Machinecure is situated in the centre of the peninsula, midway between Jacksonville and Cedar Keys.

NERVOUS Troubles are due to impoverished blood. Hood's Sarsaparilla is the One True Blood Purifier and NERVE TONIC.

WALTZER'S OPINION.

Salesmen Must Have License With Them.

This a Protection Against Indictment. United States Commissioners Appointed by Judge Parnell.

RALEIGH, N. C., June 28.—Attorney General Walzer writes Treasurer Worth as follows: "It is my opinion that each piano and organ salesman must have a license with him in order that he shall have protection from indictment. In reply to a letter from V. S. Lusk referred to me, it is my opinion, that sections 52 and 53 of the Revenue Act apply to all taxes alike. At first I thought the provisions unconstitutional, as being in contravention of provision of constitution of State, which provides that there shall be no imprisonment in this State for debt, but after some consideration, I have concluded they are valid."

Judge Parnell appoints as United States Commissioners, L. W. Hoyt, of Jacksonville; J. W. Stinson, of Williamston; A. W. Simpson, of Bixton, Dare county.

IMPORTANT DECISIONS.

On the Revenue Act and on Imprisonment for Taxes.

Experiment Station Sustained. One Million Cotton Spindles. New Democratic Paper for Raleigh. Penitentiary in bad Financial Condition.

RALEIGH, N. C., June 29.

The Attorney General yesterday rendered two important decisions on a relation to the revenue act, which provides that every piano, organ, company or manufacturer who shall engage in business of selling pianos or organs by sample, list or otherwise in this State shall before selling or offering for sale any such instrument, pay to the State Treasurer, a tax of \$10, on each brand and obtain a license which shall operate for a year.

The Attorney General says each salesman must have a license with him to prevent indictment. The other decision was in regard to collection of taxes and whether a failure to pay them renders a person liable to imprisonment. It is thought that such is the case so says Attorney General Walzer.

The executive committee of the Board of Agriculture met last night and decided to continue the experiment station at Southern Pines.

State commissioner Hamrick has visited one third of the cotton mills in the State and finds these have over 310,000 spindles. He thinks there are 1,000,000 in the State.

J. B. Fortme today gave his bond as clerk of the U. S. Court here. It is with a Baltimore Guarantee company.

There is a chance of a new Democratic daily being started here pretty soon. The penitentiary under its new management is in a financial mess. On June 1st it owed \$18,000. And they are going in debt at the rate of \$15,000 per month.

Governor and Mrs. Russell have returned from Washington.

The weather is carefully close and oppressive today. The thermometer bearing the 90 mark before midday.

GOOMEZ REPORTED DEAD.

Rumors to that Effect Current in Havana. Not Confirmed.

HAVANA.—Rumors have been afloat here since Friday morning, probably emanating from official circles, that Gen. Maximino Gomez, the insurgent commander-in-chief, has been killed in a fight near the military line, extending from Jucaro to Moran. The reports have not been confirmed.

While the rumors received little credence, owing to the many previous reports to the same effect, Havana eagerly awaited the news of the death of the insurgent chief. Instead, however, of the details being forthcoming, the rumor was modified by the statement that General Gomez had been seriously wounded.

ROYAL BAKING POWDER
Absolutely Pure

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

although the exact figures are not yet given out. The bond is five thousand dollars. The suit naturally follows the very serious charges against Stewart Bros., which have been publicly made during the past sixty days.

Try Electric Bitters as a remedy for your troubles. If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all Female Complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have Loss of Appetite, Constipation, Headache, Fainting Spells, or are Nervous, Sleepless, Excitable, Melancholy or troubled with Dizzy Spells, Electric Bitters is the medicine you need. Health and Strength are guaranteed by its use. Fifty cents and \$1.00 at F. S. Dully's Drug Store.

Unless the condition of public business prevails, President and Mrs. McKinley will leave Friday for a visit to Canton, O. They will remain until Monday.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfection ringing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give you one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.
