F. ULRICH'S GROCERY.

Phone 61. 46 Middle St.

PURNELL HOLDS COURT.

Railroad Commission Has Not Reached Decision

Large Attendance Promised at Morehead, Charlotte Artillery, Fruit Crop not Good, Populists Disgusted, Seaboard will Build.

JOURNAL BUREAU, RALEIGH, N. C., July 17. Judge Purnell arrived this morning from Asheville and held a regular term of the U. S. district court, at which a number of accounts were approved. He also received the bond of J. B. Fortune, clerk of the court and administered the oath of office to him. District attorney Aycock made the motion.

Judge Purnell also heard motion for a receiver for the Cumberland Mills, in the case against it by the Eastern Building and Loan Association of Syracuse, N. Y. There are a great many parties defendant.

The Judge says he has notified clerk Shaw of the Courts at Wilmington that he will not be removed or disturbed. The Judge will be at Asheville three weeks longer, returning there Monday to hear the great case of Scarfe vs. the Western Land Company, involving title to over 70,000 acres of land in Buncombe, McDowell and Burke counties. The grant for this land was issued in 1793 to Samuel Tate.

The railway commissioners say no decision is arrived at regarding the rate of valuation of railways, and that none will be reached until the end of next week during which time the commission will be in session at Round Knob, on the Western N. C. R. R. near Asheville.

Barnes Bros., printers to the council of State, get the printing of the Agricultural Department which is separate from the other printing.

The State Treasurer says over half the sheriffs in the State and a great number of other county officers will attend the meeting at Morehead City, known as the county officers' convention. Auditor Ayer went there today to remain until he ends and to secure the largest possible attendance.

The Charlotte artillery detachment, 16 strong, armed with a gatling, a howitzer and revolvers, is unfurnished by the State as a light battery.

The fruit crop east of the mountains is not a good one. In the mountain counties it is excellent.

Fine samples of tobacco of this year's growth are coming in. The outlook is good. The dry and very hot weather did some damage.

Rains after July 7, have unquestionably improved all crops and raised the percentage of condition above those given yesterday in the Agricultural Department's July report. Most of the returns on which that report was based were dated prior to July 7.

News comes in that great numbers of Populists are deeply disgusted at occurrences since January last and are ready to return to the Democratic party.

Many persons elected as judges and registrars of election decline to serve for the public school tax election August 10. Opposition to the election increases daily in many sections and is being formed. Large quantities of literature are being sent out by the press bureau in support of the election.

The man arrested at Mr. Ary on the belief that he was the murderer of Mrs. Springs at Littleton has proved his innocence and is at liberty.

The Seaboard Air Line it is now declared is making complete arrangements to build from Rutherfordton to Bristol, via Asheville, Burnsville, and Cranberry.

Six white men lynched Roberts Chambers near Cranberry in Mitchell county are on trial in McDowell county for that crime. Under the new law persons accused of lynching must be tried in a county other than the one in which the crime was committed.

The capital officials attempted to evade responsibility for removing all the veteran negro employees and putting in their places some who are partisans. But the attempt has failed. The Secretary of State says each appointed his own man.

The Salisbury Knitting mill, long idle, resumes work Monday with much new machinery.

At the Japanese Legation in Washington no credence is given to the report enabled from London that the Spanish and Japanese Governments have entered into an alliance against the United States. It is pointed out that the Spanish newspapers are nearly as bitter in their denunciations of the Japanese, whom they charge with giving material aid to the Philippine insurgents, as they are against this Government for permitting arms and men to be sent to Cuba.

A dispatch from Tangier says the United States warship Raleigh has gone to make a demonstration at the principal ports along the coast of Morocco.

Dr. King's New Discovery for Consumption. This is the best medicine in the world for all forms of Coughs and Colds and for Consumption. Every bottle is guaranteed to kill cough and not disperse it. It has no equal for Whooping Cough, Asthma, Hay Fever, Pneumonia, Bronchitis, La Grippe, Cold in the head and Consumption. It is safe for all ages, pleasant to take, and above all, a sure cure. It is ways well to take Dr. King's new life pills in connection with Dr. King's new discovery, as they regulate and tone the stomach and bowels. No guarantee perfect satisfaction or return money. Free trial sent as per directions. Free trial sent as per directions. Free trial sent as per directions. Regular size 50 cents and \$1.00.

PRICES UPWARD.

Markets Strong on Stocks, Wheat and Cotton.

Sugar the Speculative Feature. Buyers for all Stocks, Southern Securities Wanted, Cotton Situation Strong, Although Weather Favorable.

JOURNAL BUREAU, WASHINGTON, D. C., July 16. After some very plain talk from Senators about the attempt of the combine of armor plate makers to hold the U. S. Government up and compel the payment of fancy prices for armor for the ships now being constructed, the Senate decided with only half a dozen votes in the negative to strike out \$425 and insert \$200 in the clause of the General Deficiency appropriation bill prescribing the price that may be paid per ton for armor plates. Senator Stewart referred to Andrew Carnegie as a candidate for the British Parliament, and declared that he should not be allowed to dictate prices to this government. Senator Teller declared that it would be a greater surrender of National dignity to bow to the armor contractors than to let the ships stand on the stocks, and he would let them stand unarmored for all time rather than be held up by the armor combine. It is stated that the Carnegie and the Bethlehem companies, which have the only armor-making plants in this country, will refuse to furnish armor for \$300 a ton, although it has been proven by expert testimony that it would be profitable to make it at \$250 a ton.

Senator Butler this week introduced a bill providing for the establishment of postal savings banks under the supervision of the Postmaster General and the Secretary of the Treasury, every post office to be a branch bank and deposits of ten cents and upward to be received.

Representative Robertson, of Louisiana who has spent the greater part of the extra session of Congress at home, returned to Washington this week to take part in the closing vote on the tariff bill. He says there is very little talk among his constituents about the tariff bill nothing approaching the general interest that was shown when the Mills and McKinley bills were before Congress, and that there isn't any more talk or interest displayed about silver. This lack of interest causes Mr. Robertson to think that it is impossible to say at this time what will be the issues in the next Presidential campaign.

The refusal of President McKinley to furnish the Senate copies of the Behring Sea correspondence with England, which were asked for by a Senate resolution adopted some weeks ago, although based upon a true ground—"simply that it was shown when the Mills and McKinley bills were before Congress, and that there isn't any more talk or interest displayed about silver. This lack of interest causes Mr. Robertson to think that it is impossible to say at this time what will be the issues in the next Presidential campaign."

DON'T LIKE IT.

The News and Observer Fears Another Daily Paper.

Governor's Guard go to the Exposition, Fortune Sworn in as Clerk, Cook on Trial, The School Election Tax, Convict Depart without Leave.

JOURNAL BUREAU, RALEIGH, N. C., July 19. All arrangements had, some time ago, been made for the Governor's guard to go to the Nashville Exposition on the 18th so yesterday the company marched to the depot and took the S. A. L. via Atlanta for Nashville. The company did not go very strong.

That there is strong probability of another morning daily being started here is evidently setting very badly with the News & Observer people. That one sided paper says: It was proposed to make the new paper a gold paper, but it was found impracticable to try such a thing in North Carolina, so if the paper is started "its politics will be a sort of Joseph's coat of arms." Any paper that will give the public more than one coloring will be a God send to this community.

Mr. J. B. Fortune has at last been sworn in as clerk of the U. S. Court for this district.

It is said that the tobacco crop in the western part of the State will be unusually small.

Criminal court is still in session and today Berry Cook is standing trial for his life for murdering a woman out in the country a few weeks ago. There is one other murder case and a special venire of 50 have been summoned to be here for the trial.

A car load of galvanized iron has been shipped here from Winston to be used on the Baptist Female University.

In the school tax election that comes off in August, the State pledges to pay an equal amount to each county, according to the amount that county votes for public schools. For instance if a county votes for \$200 for the school fund the State will pay an additional \$300 to that county. Col. J. S. Carr says he will give \$500 to the school fund of that county that votes the largest per cent of its vote for local taxation.

Secretary Nichols says that the coming State fair promises to be the best in the record of the Agricultural society.

One of the prisoners from the penitentiary was sent out to gather Chick-peas the other day, so he concluded as long as he was one of the "trusties," he could go to Franklin county to see his wife. Superintendent Smith is being severely criticized for his method of treating the convicts.

It is said that Dr. H. B. Battle ex-State chemist is to establish a phosphate plant at Winston-Salem and that ex-professor Irbly of the A. & M. College is to be connected with him.

There seems to be a doubt as to a Raleigh syndicate, ever building the penitentiary on the Castle Hayne phosphate mines as no papers to that effect have been filed with the clerk of the court here.

It is said that the authorities of the penitentiary hardly know how to manage the criminal insane that have been sent there from Morganton. The ones from this asylum have not as yet been sent there.

Supplies have been sent to the Wilmington Light Infantry for target practice at the 600 to 1,000 yard range. The practice it is said will be down on the beach.

There is said to be a sharp reduction on the freight in coal to be made this week.

The "rolling exposition" starts on its tour October 1st, and will go through 25 States. The car for this exhibit is being built at Wilmington, Del. and will cost \$10,000. Mr. T. K. Bruner is collecting the exhibit. A small change will be made for sending the exhibit, and the promoters, Charlotte men, think they will make a good thing out of it. It will be a good advertisement of the State.

There is said to be a sharp reduction on the freight in coal to be made this week.

ROYAL BAKING POWDER

Absolutely Pure

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

The drift of popular sentiment and added their influence and advice in favor of abandoning the unpopular schedule.

Although a few dissatisfied Senators have said that they intend to delay action by the Senate on the tariff conference report, it is not thought that they will seriously attempt to do so, and the agreement to the report and the adjournment of Congress is looked for this week. It has been difficult, during the past week to keep a quorum of the Senate on hand, and it is growing more so every day.

The Hawaiian annexation treaty has been favorably reported, but it is not expected that any attempt will be made at the present session, to get a vote upon it. Everybody is tired of Congress being in session, but the Senators and Representatives are the most tired of all, and they are going home very soon.

The reference to the fines imposed upon the Carnegie Steel Company, for furnishing the Government armor plates not up to the required standard, made in the Senate debate on the amendment to the Deficiency bill limiting the price to be paid for armor plate, to \$300 a ton, brought out a statement from Ex-Secretary Herbert that surprised a great many people. It had been supposed that these fines were all remitted by President Cleveland, but Mr. Herbert says they were paid, or at least that \$144,000 was paid by the Carnegie company, which was the amount to which the original fines of \$220,000 was reduced by Mr. Cleveland. As the House has agreed to the amendment limiting the cost of armor to \$200 a ton, looks as though the armor trust would either have to furnish it at that price or not at all.

The last River and Harbor bill had a provision directing the Secretary of War to have a preliminary examination made as to the possibility and cost of a ship canal from the Great Lakes, to the ocean. Maj. T. W. Symons, who was ordered to make the examination, has reported against the undertaking because of its great cost. The report says that the best route for such a canal would be by way of Niagara River, Lake Ontario, Oswego, Onondaga lake and Mohawk and Hudson rivers. Maj. Symons expresses the opinion that the Erie canal, when enlarged as contemplated, would, if New York would remove restrictions as to its use, give commercial advantages practically equal to the ship canal that would cost about \$200,000,000.

THE EXECUTIVE COMMITTEE OF THE BOARD OF TRUSTEES OF THE AGRICULTURAL AND MECHANICAL COLLEGE met yesterday and elected two professors for the college. Prof. F. A. Weibe of Ithaca, N. Y., was elected professor of Physics and Electrical Engineering to succeed Prof. Barnes, and Prof. Chas. M. Johnston professor of agriculture to succeed Prof. Irbly. The salaries are \$1,200 and \$900.
