UNPICKED COTTON.

One Hundred Bales Still in the Fields at the State Farms.

Fire Department Building Unsafe.
Russell Declines Invitations.
Lynchites Leaving South.
Butler Calls for Hancock's Removal.

JOURNAL BUREAU,
Raleigh, N. C. Jan. 19, '00.
The penitentiary board met today. The new Superintendent McWhirter will make his first report. There are said to be 100 bales of unpicked cotton on the farms. It is estimated that the present administration has put the institution on a paying basis. There has, within the last few days, been brought to the hospital at the penitentiary 27 sick convicts. There are now 150 convicts employed in railroad work in the State, but no convicts have yet been let out for farm work, all being needed on the State farms.

The new fire department building here has settled so much that there is great danger of the walls spreading and the building collapsing. The fire committee will have the building braced at once. Yesterday before the State board of Pharmacy, seven applicants for license were examined. This was an unusually small class.

The Southern Railroad officials who went to Durham yesterday on a summons to appear before Judge Robinson were told that the summons was not ready for them.

Eighteen new students have entered for the Spring term at the Agricultural and Mechanical college.

The Auditor yesterday gave out copy for publishing the comparative gubernatorial vote of 1892 and the Congressional vote for 1893-94.

Governor Russell has been invited to three banquets, one at the Wilmington Chamber of Commerce, one at the League of American Wheelmen to meet in St. Louis February 9th, and the New Orleans Press Club Banquet January 29th, but he has declined them all.

The Lynchites are leaving Southport detachments, and it is thought that by the 1st of March all will be gone.

There were many politicians here yesterday looking for places under the new Revenue Collector and the new U. S. Marshal.

In Wake county there are 40 post offices and in Randolph 79. Wake's population is about double that of Randolph, while the manufacturing interests in Randolph are valued at about 100 more than in Wake.

There is an Industrial Life Insurance company doing business in the State that has a membership of 3,000 in Randolph. They pay 10 cents to 25 cents weekly, and the policies are from \$25,000 to \$50,000.

The Governor was today asked for a pardon for Thos. Robertson who is serving a 4 year term.

Superintendent Melane says he will soon put all the female convicts on the penitentiary proper to work in the shirt factory.

All banks were closed today and the city school observed Jan's birthday.

Senator Butler calls on Governor Russell yesterday to remove Robert Hancock, a president of the A. & N. C. R. R. at once.

The statement that the fish-and-oyster trade in the State is over \$2,000,000 annually is much larger than was expected. Estimator Clark of Southern Fish says a paper on life life regarding this.

It is thought that Senator Pratchard has already selected a chief clerk for Collector Dunham.

Commutes His Sentence.
Special to Journal.

Raleigh, January 19.—Governor Russell commutes the sentence of Ben Fields to imprisonment for life. Fields was sentenced to be hung at Durham.

Mrs. Nack in Penitentiary.
Special to Journal.

New York, January 19, Mrs. Nack, sentenced to ten years imprisonment for the murder of Gladstone, was taken to Auburn today to commence her term in the penitentiary.

Gladstone Failing.
Special to Journal.

New York, January 19.—It is reported from London that the condition of the health of William E. Gladstone is causing the gravest apprehensions.

MORGAN'S STRONG WORDS.

Predicts War With Some Power Over Hawaii. President Dole Will Be Received in State.

WASHINGTON, January 19.—Senator Morgan occupied the attention of the Senate during the entire time of the executive session today in the presentation of his views on the subject of the annexation of the Hawaiian Islands. This was the second installment of his speech, and when he concluded, a few minutes after 5 o'clock, he had not then reached the end. He dwelt upon the military importance of the islands, quoting General Seefford and Captain Mahan at length in support of his position that the islands were a natural outpost for the United States, and necessary to the proper protection of our western coast and of our general commerce in case of war.

Mr. Morgan predicted that if the United States did not take advantage of the present opportunity to acquire the islands, there would be war between this country and some other power within ten weeks. It was not, he said, within the bounds of possibilities, in view of the present European competition for territory in Asia, that the Hawaiian Islands should be allowed to remain independent for any length of time after the United States should finally announce their determination not to make them a part of American territory.

Arrangements are making for the entertainment of President Dole, of Hawaii, on a scale befitting his rank as the chief magistrate of a friendly nation. It has been decided that he shall be regarded as the nation's guest, and that our government will bear the expense of his entertainment while in Washington.

President McKinley has decided to have the official tour of the Hawaiian Islands begin at Chicago, and at that point he will be met by the representatives of the President and of the United States government.

Mill Owners do not Agree.
Special to Journal.

New Bedford, Mass., January 19.—The mill owners have failed to agree in their action towards the strikers. This discussion makes the opposition of the striking operators much brighter.

Not one of the cloth mills of the city made any attempt to run this morning. The experiences of yesterday, especially that of the ineffectual riot at the Bristol Mill, showed popular feeling to be so intense that it would be unwise to make any effort to resume work, therefore, no engine was started. The thousands of operatives were quiet, and everything seems to have settled down to a long, waiting battle.

RICHES IN KLONDIKE.

Men With Big Summs Return. Heavy Storms on Chilkoot.

SEATTLE, Wash., January 19.—Twenty-two persons arrived here last night from Dawson City on the steamer Goronia, bringing with them a small amount of gold dust, also drafts on the North American Trading and Transportation company amounting to between \$90,000 and \$1,000,000.

In reference to the food situation at Dawson the news arrivals corroborate previous reports that, although food is scarce, there will be no starvation. They consider that it will be impossible to get a relief expedition to Dawson at this season of the year.

The Yukon is full of drift from shore to shore with great ice ridges from 10 to 20 feet high, the ice being thrown up in great banks and standing at all sorts of angles. Snowshoe dogs can make their way by logging the shore, but no large quantity of supplies can be carried with dog teams.

The proposed use of dynamite in Alaska is considered impracticable by the miners.

Heavy snow storms have occurred recently on the Chilkoot Pass. Travel has been practically impossible over the pass for a week at a time.

One of the best state grounds on Elkton creek and the last one out of the Klondike country is Andrew (Cousin) Lounness. "The Big Sack." He is not able as being the owner of the claim on which the biggest Klondike nugget has yet been found. The lump of gold was valued at \$397.

Replying to a request for an estimate of the winter's gold output one of the miners said: "We have done a great deal of figuring on that and at now appears that the output, notwithstanding the scarcity of food and light, will be from \$10,000,000 to \$15,000,000."

England Not Afraid.

London, Jan. 19.—The country generally is greatly pleased by the announcement made by the chancellor of the exchequer, Sir Michael Hicks Beach at Swansea last night, in which he echoed the previous declarations of Mr. Balfour, at Manchester, on the Indian policy of the government, and added that the ministers were determined, even at the cost of war, that the door of Chinese commerce should not be shut to Great Britain.

This declaration is recognized as clearly defining the government's position, and both the liberal and conservative newspapers commend the plain speaking.

Russians Concentrating.

Berlin, Jan. 19.—Considerable surprise has been caused here by a dispatch from St. Petersburg to the Cologne Gazette announcing that Russia has formed two new army corps on the German and Austrian frontiers, at Vilna and Kiev.

EASY AT LAST.

Politicians Have Their Minds At Rest on Certain Jobs.

Railway Commission Case. Judge Fuller Goes West. Another Farm Leased. Seven New Deputies. Catch of Fish. Pardons at Beaufort.

JOURNAL BUREAU,
Raleigh, N. C. Jan. 20 '00

Some of the politicians here now rest easy. The District Attorney has been appointed and Bernard gets the place. Chadhorne gets the Wilmington postoffice and Lyre Glenn gets the Greensboro postoffice. The Raleigh postoffice will probably fall to Baily of North Carolina.

All the council in R. R. commission case have returned from Washington City. The U. S. Supreme court may render its decision on the case without hearing argument or they may send for the counsel to come on later and argue the case.

Mrs. Watson, whose husband shot her last October, and then killed himself early yesterday morning, she had been taken to a hospital where she was located and extracted from near the spinal cord.

Ben Fields, who was sentenced to be hung on the 18th, for poisoning a man named Noel in Edgecomb county was, a few hours before the execution was to have taken place, committed to life imprisonment.

A leading Episcopist says that the past will be forgotten and that the Butler and anti-Butler factions will soon be united.

Judge L. G. Fuller left today for his court in Santa Fe, New Mexico. He will be gone until the end of March.

At a meeting of the Raleigh druggists' association held yesterday, E. C. Birdsong was elected president.

The stockholders of the new Republic paper will meet here tonight. It is probable that the paper will be made a semi-weekly.

Another farm was leased by the executive committee of the penitentiary, and continued by the ward. Two acres of sugar beets are to be put in on each farm to test the idea of the sugar beet industry in the State.

Old Skinner last night gave a fine production in his "Prince Rudolph."

The Railroad commission has summoned Maj. J. W. Wilson to appear before "the court" next week. Major Wilson will be pretty sure to give the new holders of the commission's office a lively time, for he never whips the devil around the stump.

Miss Nellie Storkard, one of the four female students at the University, will graduate with the class of '00. It will be the first time a female has ever received a diploma from the N. C. University.

U. S. Marshall Dickery has appointed seven new deputies. They will be required to give \$5,000 bonds before they get their commissions.

The Underwriters Insurance Company was formed in Greensboro with a capital of \$100,000. There is so much inclination to start local companies.

The catch of fish in the State this year was enormous. This is given by the labor commission report. The value of the catch is \$1,819,918.

The President of the R. P. League says that Governor Russell has promised to ransack the State and it is probable he will do so.

The governor has pardoned two of the grave yard insurance men who were convicted at Beaufort last year. One was Debbou Delmar, white, and the other was William Fisher, colored. Both were in dreadful health.

Japan Buying Cruisers.

Special to Journal.

London, Jan. 20.—It is stated that the Japanese government will buy the cruises which are now being built for Brazil in the French and English shipyards.

A Railroad Without Capital.

ST. LOUIS, Mo., Jan. 19.—Residents of Texas, Southern Kansas, Northeastern Oklahoma and the Indian Territory are anxious to have a shorter railway line to St. Louis. They have constructed twenty miles of track from Henrietta, Texas, without one cent of working capital.

Stock was issued to a number of farmers and merchants who paid for it by work upon the roadbed. The farmers in many instances worked themselves, while the merchants hired teamsters to take their place.

When completed the road, as planned is to extend from Henrietta, Texas through Oklahoma to the Indian Territory and Kansas to St. Louis.

ZOLA'S HOUSE GUARDED.

Continued Demonstrations by Students in Paris and Provincial Towns of France

PARIS, Jan. 19.—As a precaution to prevent disturbances the bridges from the Latin Quarter were today guarded by police and the residences of MM. Mathieu Dreyfus and Emile Zola were guarded. A small mob of students assembled outside the Law school with the usual cries, but the police prevented a serious demonstration.

Bucklen's Arnica Salve.

THE HAY SALVE in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by F. S. Duffy.

AGAINST BLANCO.

Bluffing Against The General By Volunteers In The Spanish Army. Regulars Also Hate Him.

HAVANA, Cuba, January 20.—Volunteers in new regiments of the Spanish army are bluffing against the general. The city was a laughing stock, and a revolution with the general as chief practically inevitable, but he was practically forced to leave the city on Sunday. General Blanco arrived from Pinar del Rio on that morning, with a force estimated at 2,500 men and 150 horses in the railroad yards and tracks where most of the forces still remain.

About the same time a column of one thousand cavalry reformed and found quarters in the Canal de la Fuerza. In a line street on the artillery wharf, batteries of field artillery were placed in position to take Blanco and the volunteers. All public buildings along the harbor front from the Plaza de Armas to the Punta were crammed with troops and large bodies of cavalry, and infantry were held in reserve in the streets adjacent to Central Park. It is estimated that fully twelve thousand troops are in the city in addition to the regular garrison.

A very probable solution is that the riots were the result of a conservative plot in Spain to overthrow the ministry and General Blanco and to endorse the return of Weyler.

GRANARIES NOT NEEDED.

At Least Sir Michael Says So. Canada Consented in Regard to the Navy.

LONDON, January 19.—Sir Michael Hicks-Beach, Chancellor of the Exchequer, speaking at Bristol today, ridiculed the notion of providing granaries, as had been suggested in some quarters. He said he was convinced the British navy was strong enough to hold its own and in any war England would have many friends ready to supply corn.

Referring to the budget estimates, he said they would show that the government was fully alive to keeping up the standard of the army and navy. He said he would not be creditable to Canada or to the English tax payers that such a colony should contribute practically nothing to the naval defenses of the empire.

He hoped Canada would soon turn her attention to this matter, adding that he was convinced that if she did not, the day would come when she would have to rub awakening which would be a truly her own fault.

New Berne Gets a Deputy.

Special to Journal.

RALEIGH, N. C. January 20.—Richard B. Blackledge of New Berne was today appointed a United States Deputy Marshal.

DOLE LEAVES FOR WASHINGTON.

He Inspects Fortifications and Sees a Review of Troops.

SAN FRANCISCO, Cal., Jan. 19.—President Sanford B. Dole of Hawaii left for Washington this evening to visit President McKinley.

Before his departure he visited the government fortifications here, accompanied by General Shafter and staff. He was accompanied full military honors including a review of the troops.

After the review President Dole inspected the batteries and fortifications, and then returned to the city where Mayor Peckham and a delegation of prominent citizens entertained him at the Pacific Union Club.

The Zola Trial.

Special to Journal.

PARIS, Jan. 20.—The trial of Emile Zola, the publisher of a magazine number of French officials in connection with the Dreyfus proceedings, began February 7th next.

Japan Buying Cruisers.

Special to Journal.

London, Jan. 20.—It is stated that the Japanese government will buy the cruises which are now being built for Brazil in the French and English shipyards.

ROYAL BAKING POWDER Absolutely Pure

The Modern Celebrity. "What! You never heard of him! Why, his name is a household word." "Indeed! A story writer?" "No, he butchered eight people."—Cleveland Leader.

Not the Correct Thing. Signal Service Man (meeting dyspeptic acquaintance)—Fine day, Jones! Jones—Oh, don't talk shop!—Chicago Tribune.

In the New York directory for 1812 is the entry: "Peter Cooper, machinist, 98 Elm street." Elm street was then one of the poorer localities.

If all the houses in England were placed side by side, they would cover a space of 450 square miles.

ISSUED IN SEMI-WEEKLY SECTIONS Each Tuesday and Friday.

FOR
