LEAKING OUT!

Substance of Investigation as Told by the New York Sun.

CRITICAL TIME AT HAVANA.

Weylerites are Likely to Make Trouble. Americans Fear Harm Storm Delayed Work on Wreck. Preparations for War Going on.

Special to Journal.

NEW YORK, March 3.—The correspondent of the New York Evening Sun sends the following special: "President McKinley and his Cabinet know positively that the Maine was blown up from the outside.

"Reports to this effect have been received from the court of inquiry. Information of such a message being received has been gained from an official who has read the message.

"This information is from a source that is absolutely reliable and a report was sent in return that the policy of the administration would be perfected and everything would be ready for action when the full report of the court of inquiry is made public.

"This report forms the basis for action now being taken by the administration in fortifying the sea coast and in assembling the fleet of warships in the gulf and in purchasing ammunition and here-in experienced engineers that are on sale by English builders. The report also forms the line of action now under consideration by the President and his advisers."

The New York World says that the indications to-day are that Secretary Long will be asked to leave the cabinet on account of the ill advised expression of his personal opinion that the Maine was destroyed accidentally.

Congressmen are very angry that a member of the cabinet should have made such a statement regarding the heroes on the ill fated Maine before the board of inquiry had made its report.

General Merritt, commanding the department of the east, is suddenly returning to this city, after having on a tour of inspection of the coast fortifications. He did not go as far as Key West as was intended.

Havana, March 3.—(Special)—The situation in Havana has become decidedly more alarming during the last twenty-four hours.

The arrival of the warship Vizcaya Tuesday evening aroused all the latent enthusiasm and the city became ready for an outbreak.

The officials at the palace are really more alarmed than the foreign residents as they do not know what directions the demonstration that seethed imminent might take.

Chief of Police Captain General Weyler is frequently heard in the streets.

The American residents however are making no other outward signs than they express the belief that the lives and property of Americans are in greater danger than ever before. The Spaniards in Cuba are jubilant over the Maine disaster and it is feared by Americans that those hostilities may break loose in any hour.

Operations on the wreck of the battleship were delayed today by heavy rains.

Key West, March 3.—(special.)—It is expected that the board of inquiry will return to Havana tomorrow.

The day demonstration at the funeral of the victims of the Maine's disaster was abandoned. Probably a special train will be arranged for a demonstration on the postponement was made because all the dead had not been brought from Havana. Admiral Sicard wanted to have a naval funeral.

Washington, March 3.—(Special.)—The government has closed another contract for one million dollars worth of powder.

LONG IN TROUBLE.

Likely to be Censured by Congress for Talking.

Unwarranted Assumption by the Secretary. Senator Quay is Also Weak-Kneed. Great Funeral at Key West Today. Naval Preparations.

Special to the JOURNAL.

Washington, March 2.—Secretary of the Navy Long is severely censured for his expression that Spain could not be held liable for the disaster to the Maine.

The Secretary made the statement after a meeting of the Cabinet as follows: "The element of Spain's participation in the disaster to the Maine, in my judgement, may now be practically eliminated."

The Secretary did not support his extraordinary expression by the opinion of any experts or high officials in the service.

Congress is inclined to censure Secretary Long for his want of discretion. A resolution to that effect is expected to be introduced in the Senate. A number of Senators, Secretary Sherman and Secretary Gage had a long consultation with the President to-day.

There are others beside Long who seem inclined to take things easy. Senator Quay of Pennsylvania said today before leaving for Washington, "Even if the Maine was destroyed by some external agency, I do not see cause for war. The matter could be settled by an indemnity."

Secretary Long decided to send fifty tons of provisions for relief to the suffering reconcentrados on the island of Cuba.

Key West, March 2.—(Special)—It is a fact that naval officers express the view that very little testimony has been heard tending to show that the explosion was the result of a conspiracy or even to indicate the exact cause.

Preparations are made for the funeral tomorrow of the Maine victims whose bodies were brought from Havana. The ceremony will be most elaborate. The crew of every man of war in the harbor will march behind the remains of the dead sailors. The procession will be most imposing. The band of the flagship New York will head the line. Behind will come the survivors of the Maine. Only the stars and stripes will be carried.

Senator Proctor has left the city for Matanzas. He was accompanied by Miss Clara Barton of the Red Cross relief society.

Philadelphia, March 2.—(Special)—The officers for the monitor Miantonomah and the ram Katahdin are selected. The monitor will be used to defend New York City. The Katahdin will join Admiral Sicards fleet at Key West. Both vessels go into commission March 10.

Brooklyn, March 2.—(Special)—There is a rush of orders at the navy yard for projectiles for the fleet at Key West. Part of them were shipped today.

A PECULIAR FACT

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It.

A week stomach is the cause of about nine tenths of all disease, yet in most cases the wrong thing is treated and the true cause overlooked.

This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body. poor digestion causes heart trouble, kidney troubles, lung weakness and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generously fed by well digested, wholesome food.

Keep the digestion good and no one need fear the approach of disease.

Mrs. H. M. Lee of Rochester, N. Y. writes: For the sake of suffering humanity I want to say that from a child I had a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered inexpressible.

I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tablets in September, six months ago have I been free from suffering caused by the condition of my nerves and stomach, in short, chronic nervous dyspepsia.

I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say, they are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am, in my small way helping on a good cause.

Stuart's Dyspepsia Tablets is not a patent medicine but they contain only the fruit acids, digestive acids and peptones necessary to help the weak stomach to promptly and thoroughly digest food.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gases, belching, etc., will find them not only a quick relief but a radical cure.

Send to Stuart Co., Marshall, Mich., of little book describing cause and cure for stomach troubles giving symptoms and treatment of the various forms of indigestion.

THE STATE CAPITAL.

Annual Report of Adjutant is Out.

Goldsboro Hospital Reported in Good Condition. Spears Takes Oath of Office. Defacers of Confederate Monument Caught.

JOURNAL BUREAU,
RALEIGH, N. C., March [illegible].

The annual report of the Adjutant General is just out. The Adjutant general, the Inspector general, the Quartermaster general, the paymaster general, the surgeon general, the report of the commanding officer of each of the four regiments, and of the naval reserves are all embodied in this book. In the back is a report to the Secretary of war made by Maj. Hayes the U. S. Army officer stationed here—in which he recommends that better rifles be furnished the State Guard. He says further that the Governor desires the State appropriation increased, and that it is confidently expected that the legislature will so act.

Mr. G. B. Alford of Holly Springs was yesterday made president of the Cape Fear and Northern Railway.

The Directors of the Hospital for the Colored Insane held a meeting yesterday. They found the institution, which is on the outskirts of Goldsboro, in good condition. The average number of patients cared for in 1897 was 438. Of these about 161 were kept at work. The cost per capita for caring for the patients is about $8 a month.

Senator Butler in his charges against Judge Ewart to prevent the confirmation of his appointment as U. S. Judge cited quite a number of witnesses among them being Governor Russell. A special officer from Washington is expected today to serve the subpoena for him to go to Washington, Friday.

The order designating the penitentiary here as a prison for United States prisoners say convicts from Tennessee, West Virginia, North and South Carolina, Florida, Georgia, Louisiana, Texas and Arkansas be sent here. The government allows the State 25 cts. per day, for the maintenance of each convict. It is expected that the different courts this spring will send fully 100 convicts here. This will go very much towards making the penitentiary self supporting.

Oscar J. Spears came here yesterday to take the oath of office as assistant District attorney, but he found his commission had not reached here. It may come today.

It will be remembered that a reward of some $50 was offered for the arrest of the person or persons who defaced the monument in the Confederate cemetery. An arrest has been made, and the young man will be tried tomorrow, and punished if he is found guilty.

The weather bureau gives a cold weather with rain for today.

The Southern Bell Telephone Company have renewed their bond for $2,000 with the clerk of the Railroad Commission. This bond represents the aggregate rate charged by the company and the fixed by the Commission. The bond is good until the question of rates is settled.

Sergeant J. C. Carpenter of Lee county died at the Soldiers Home yesterday. The vacant part of the Confederate Cemetery is being fast filled up by these old veterans who die at the home.

The Governor of Virginia has not yet, honored the requisition papers of Governor Russell for the return of the forger J. C. Langdon to this State. He is still in Norfolk.

Senator Butler attacks the State Democratic executive committee for saying that National Chairman Jones' address did not advocate fusion as it dropped of the party name.

The Southern Railroad demurs to a hearing on its exception to the R. R. Commission's reduced rates.

It is probable that there will be a encampment of the Farmers Alliance at the headquarters near Hillsboro this year.

Langdon the forger after all was safely landed in the Wake county jail today.

Trouble on the Klondike

Special to Journal.

VICTORIA, B. C., March 3.—The British flag has been raised at Summit Lake in the Klondike country. Martial law is proclaimed at Skaguay. United States troops are enforcing it.

Two Klondike miners have been frozen to death while endeavoring to make their way back to the United States. They had with them when found 100,000 dollars in gold.

The Secretary of State [illegible] State Treasurer's [illegible] collected during the month of February from insurance companies doing business in North Carolina. This is about the average monthly. Last year [illegible] was received from this source.

State Auditor Ayer yesterday issued the first warrant of the fiscal year for the quarterly payment to the University. The payment was $1,250 and was turned over to Mr. R. H. Battle, Secretary.

The Raleigh Gazette, Edited by Jim Young, declared has stopped publication. The paper announces that the Republicans promised to back it. But the latter they got the offices they wanted, they failed to help the paper that put them through. It claims that both Russell and Pritchard owe their positions to the Gazette. It shows up the leaders pretty well.

Sheriff Hahn of Cravencounty brought three prisoners here yesterday, and while making out his expense account he said that one item of that expense would be saved the State, if the Express companies would put the cost for handling convicts, without a guard, from the first part of the expense in paying the expenses of the sheriff and guards to Raleigh and back again.

There will have to be another writ upon the United States Supreme court, for the decision in the North Carolina R. R. Commission case, before decision was handed down on Monday, it seems, posted.

The New Berne Democrats [illegible] a crowd. Raleigh will be well represented. The accommodations will not [illegible].

The question was asked yesterday whether the Railroad Commission has power to forbid or order Sunday [illegible] be necessary. A pass from Raleigh to Atlanta or Richmond and return [illegible].
