Eastern Carolina Dispatch
and Old Dominion Line.

Important Notice!

On account of the stringent orders issued by the War Department, requiring the early departure of Steamers out of the harbor of Norfolk, our Steamers will have to sail earlier from New Berne. The Steamer NEUSE must sail at 5 P. M. SHARP.

Therefore to insure forwarding Perishable Freight on the same day, it is necessary that it be on our wharf not later than 4 P. M.

GEO. HENDERSON, Agent.
New Berne, N. C., April 30, 1898.

NOT DIRECT FROM DEWEY

But Advice From Singapore Say We Hold Manila.

INVASION AT ONCE.

Advance on Cuba to be Put in Immediate Execution.

INSURGENT LEADER KILLED.

Spain Calls Out the Reserves. Three Thousand Men to be Sent to Hold the Philippines. Admiral Sampson's Movements. Spain has Trouble at Home.

All is Well.

Special to Journal.
New York, May 5.—Although Commodore Dewey has not been able to send to the government any official information from Manila, the Administration is not alarmed at his silence. It is believed that the connecting end of the cable running to Hong Kong may be still in the hands of the Spaniards.

The Journal publishes a dispatch from Singapore, through British sources, which says that the Americans hold Manila and are exercising the powers of government. The dispatch says that the forts have been reduced, and the Spanish fleet destroyed, and that the leader of the insurgents has been supplied by Commodore Dewey with arms for the rebels.

Private telegraphic advices received here this evening from Singapore confirm news that the American victory at Manila is complete.

England Watching.
At Halifax, Nova Scotia, the troop ship has been delayed in sailing and it is believed that it is due in a measure to the three-fold interference in the Philippines on account of German interests.

Orders were received at Halifax for the authorities to keep the newly arrived battery of the Leinster regiment in readiness in case it is necessary to order the men from Halifax to Manila. The troopship was ordered into the stream.

At Home in Spain.
In the Senate at Madrid Lieut. General Corcua, the Minister of War today submitted a bill authorizing him to mobilize the second army reserves for service in the Canaries.

While attempting to carry on war against the United States, Spain has her hands full in quelling domestic troubles, and rioting was resumed today in many towns with great vigor. At Murcia a mob of eight thousand was fired on by the troops and many people were killed and wounded. The price of bread has become high and is one of the chief causes of the disturbances.

The Invasion.
WASHINGTON, May 5.—(Special)—The activity in war preparations reported in Spain, has hurried the administration's plans for the operations in Cuba. The plans which were laid for the future will now be put in immediate operation.

That the invasion of Cuba is near at hand is evidenced by the arrival at Tampa of three more transports late this afternoon and the preparations for embarkation which are being rushed with all possible haste.

General Shafter arrived at Port Tampa for the first time. It is probable that the ships of the expedition will sail as soon as they can be loaded with men and arms. The near approach of the hour of sailing has created intense excitement at Tampa and Key West, at which latter place the mobilization of the troops will be begun tomorrow in earnest. Eight hundred Cubans under command of Generals Lacerote and Bazquillo will leave at once to join the forces of General Gomez, by order of Admiral Sampson.

The Spanish Prisoners.
The Spanish officers and men from the prize ships that have been held at Key West as prisoners of war will be confined in Fort McPherson at Atlanta, Georgia.

Some of them left for Atlanta this morning. The Spanish prisoners taken on board the steamer Argonauta were turned over to Col. Morrill of the Key West garrison by Naval Commandant Forsyth today.

Blanco Talks.
Captain General Blanco at a meeting of the Cuban Congress at Havana delivered a rapid speech threatening the United States with annihilation, and deploring the reports of the victory which he said was alleged to have been gained at Manila by the Americans. Blanco is preparing to meet the coming invasion of the United States Army by concentrating all the Spanish forces around Havana.

The Alleged Spy.
The Spanish spy Yglesias, who was caught near the twelve inch magazine on the Monitor Puritan, has been sent to Fort McPherson at Atlanta. The evidence against him was not direct enough to convict him.

The Navy Department feels anxiety regarding the whereabouts of the torpedo boat Ericsson and an attempt will be made to locate her if she does not return to the fleet at Key West by tomorrow.

May Bombard Noon.
If the department hears definitely that the Spanish fleet is now at the Canaries the silencing of the guns at Morro may shortly begin, and a division of the fleet be sent to Porto Rico to seize that island.

Admiral Sampson's orders have been to confine his operations to blockade duty and not provoke attack from the Cuban forts at Havana. But now that the Spanish fleet is two weeks sail from the gulf, he may be permitted to begin the work of demolishing the fortifications, while the army is held in readiness to be conveyed to Cuba.

The safety of the Oregon will no longer be questioned if the fleet is at the Canaries, and her arrival at Key West would antedate the Spanish fleet by several days.

The Pacific Coast.
Preparations are being rushed at the Mare Island Navy yard, San Francisco, for the transportation of troops to the Philippines to reinforce Commodore Dewey in his possession of Manila, which is believed to be assured.

Insurgent Loss.
Word has reached Key West that in a fight between Spaniards and Cubans, the insurgent leader Colonel Juan Delegado was killed. In this skirmish there were twenty one Spaniards and Cubans killed. The fight took place in Havana Province.

The Alfonso XIII.
The big transport ship the Alfonso XIII is officially announced at Madrid to have arrived at Porto Rico.

The vessel left Spain for Havana carrying 1,100 soldiers, supplies and half a million dollars. The Navy Department hoped to make a prize of this vessel and instructions were given to Captain Sampson to look out for her. A special service of some of the best American ships were detailed to effect the capture before a port was reached.

THE MANILA FIGHT.
The Splendid Action of the American Ships.
MANILA, May 2.—The Spaniards will not give in and the Americans expect to bombard Manila at 11:30 A. M.

The American fleet entered Manila bay at 5 o'clock in the morning. The Cavite forts opened at long range and the Spanish fleet anchored at Cavite followed. The Americans then drew close in and opened a terrible cannonade.

After half an hour the Americans moved out of range of the lighter Spanish guns and continued the cannonade with their big guns with terrible effect. Twenty minutes later the Americans again drew in to close quarters, the cannonade being rapid and incessant.

The Spanish fleet was destroyed, three vessels burning, one being sunk and the others becoming silent. The land forts were also silenced.

The fight lasted an hour and a half. The Spanish fought bravely against a superior force, their loss being probably great. The Americans apparently were uninjured.

The spectacle was great and terrible. The attack of the Americans was well carried out, their maneuvers beautiful and their navigation of the bay surprising, as they avoided numerous shallows. They retired to Cavite, where they await to begin the bombardment of Manila.

MAJOR-GENERAL LEE.
President Appoints Him Lee Commandant on the Manila Victory.

RICHMOND, Va. May 2.—Richmond is enthusiastic over the news of the great American victory at Manila.

Gen. Fitzhugh Lee arrived here last night from Washington, and like every one else was jubilant when he learned the news. The general first heard of the battle from a morning paper. "That is Spanish," he said, when he read that the Madrid officials were congratulating the officers of the fleet. "Vessels burned and sunk, yet a victory was claimed. It reminds me of Blanco's dispatch to Madrid after the bombardment of Malaca. He summed up the situation by saying that only a mutiny was killed."

Reading further General Lee looked up from the paper and remarked to those

about him: "Here we have it. Spanish officials claim a victory and yet the cables say Madrid is greatly excited over the serious news from the Philippines, and there is an immense gathering and much muttering. Why the muttering in Madrid if the result is such as to call for congratulations? This is a Spanish way of claiming victory when all the evidence is that Spain received a crushing defeat."

General Lee tonight received a telegram from Adjutant-General Cobden announcing that the President had appointed him a major general. Of course General Lee was not surprised upon the receipt of the telegram, as he had been expecting it for some days. He will accept the commission.

State Court Decisions.
RALEIGH, May 3.—The Supreme court files the following opinions:
State vs. Perry, from Wake, error affirmed.
State vs. Hedgepeth, from Franklin, affirmed.
McClell vs. Williams, from Robeson, error.
Mathis vs. Commissioners, from Duplin, affirmed.
Frisbee vs. town of Marshall, error.
Norton vs. McDavid, from Madison, new trial.
Berry vs. Railroad, from Buncombe, error.
State vs. Ballard, from Bertie, affirmed.
Lama vs. Bell, trustee, from Mecklenburg, affirmed.
Latta vs. Omer, from Mecklenburg, affirmed.
Latta vs. attaching creditors, affirmed.
Andrews vs. Jones, from Buncombe, error.
Bank vs. Langhron, from Buncombe, new trial.
Doubleday vs. Lee Co., from Buncombe, affirmed.
Russell vs. Hill from Swan, new trial.
Allen vs. Hammond from Madison, dismissed for defective record.
Sims vs. Lindsay from Buncombe, new trial.
Chaffield vs. Stringfield from Haywood motion to docket and dismiss plaintiff's appeal allowed under rule 17.
Henry vs. Hilliard, motion to tax costs allowed.
Everett vs. Shuler, affirmed.

The Spaniards have evacuated Bayama, in the eastern part of Cuba. It is an important Cuban port.

Congress votes ten million dollars additional for war purposes and troops and supplies will be sent to the Asiatic squadron. The attitude of Germany lends hope to Spain that she may find an ally that country on account of the seizure of the Philippines by the United States.

The cruisers Manzanillo, Columbia, San Francisco and New Orleans are now in north Atlantic waters. In addition to the cruiser is the gunboat Albatross, and by the end of the week the four auxiliary cruisers will be added to the fleet. These were formerly the Morgan line steamers, now armed with five and six pound rapid fire guns. They will be manned by the naval militia of several States.

The long lists of nominations for civil offices sent to the Senate by the President furnish evidence enough that every likely has not got the war fever, and other evidence is found in the civil departments of the government, where promotions and positions are issued with the usual regularity and order. It is interesting to note the fact of the matter that this country is trying to follow ordinary business to become so disturbed by a little thing like a war with Spain. A few men will fight, fewer will gain fame and glory, but about seventy million of us will go right along attending to our ordinary-day affairs, with a steady shooting on the side as news of victories come in.
