SOME SAY

ONE THING

But Camara's Fleet is Reported Still in Cadiz Harbor.

SAMPSON IS BUSY.

Controls a Good Harbor and Secures the Cable.

Scouting on Porto Rico, Philippines are Gurs. Talk of German Interference Said That Transports Delayed at Tampa, Miss Cisneros Marries.

Officials Are Unhappy.

Washington, June 9. The reports of the sighting of a second Spanish fleet off Havana is causing government officials some uneasiness.

Reports say that this fleet consists of four Spanish war vessels.

Fleet May be Held. In consequence of this uncertainty about this Spanish fleet, the transports sailing from Tampa, Florida, may be held at Key West, and it is positively known whether this fleet is real or merely an imaginary one.

Marines For Sampson.

Three hundred marines were added to the force on Admiral Sampson's fleet. They were under Colonel Huntington and reached the fleet on the steamer Panther.

The American fleet is now anchored in Guantanamo Bay, the place having been shelled and the Spanish forces driven out.

A dispatch received tonight from Admiral Sampson says that he controls the cable running from Guantanamo.

At Manila.

The ownership of the Philippine Islands is virtually acknowledged by Russia. The American consul was commiserated with by the Russian authorities for permission to have their transports touch at Manila, and this is considered as settling the ownership of the islands.

At the same time a dispatch from Nagasaki, Japan, says that the German Augusta Kaiserin has sailed from that port for Manila and that it is for the purpose of forcing the blockade at Manila.

It is stated from London that it is understood there that Manila has already fallen.

The first part of the cruiser Charleston, now on the way to Manila to reinforce Admiral Dewey, will be to reinforce the land command of the Eastern group which is controlled by Spain.

A rebellion has broken out in New Ghoo, China, and the rebels captured the city and killed the magistrate and others.

Cadiz Fleet.

The American consul at Lisbon, Portugal, sent a sea captain in Cadiz to find out about the vessels there. The captain reported that he saw the fleet of Admiral Camara still there in the harbor.

A dispatch from Madrid also states in regard to the Camara fleet, that after a meeting of the cabinet council the minister of marine left for Cadiz for the purpose of hurrying the departure of the fleet.

On Porto Rico.

Lion Whitney who made a scouting trip on the island of Porto Rico has reported to Secretary Alger today showing the best places to make landings of men from the island for an advance on San Juan.

At Atlanta Captain Ray refused the recruits of Capt. Colton because the recruits had been promised homesteads in Cuba to induce them to enlist. A court martial will be ordered to investigate the case.

Miss Evalina Cisneros whose wonderful escape from prison at Havana several months ago was fully detailed in the press, was married today in Baltimore to Carlos F. Carbonell who was one of the party that effected the rescue of the Cuban girl.

President Chamber Deposes.

Special to Journal. PARIS, June 9.—M. Paul Deschanel, was elected today, President of the French Chamber of Deputies.

TENDERED OFFICES.

North Carolinians Offered Positions in United States Army.

Special to Journal. WASHINGTON, D. C., June 9.—Major Hiram L. Grant, of Goldsboro, N. C., who has been tendered a paymaster's position, has a good record as a soldier serving under General Hawley in the civil war, but since the war he has been classed among the "carpet baggers" and has depended upon politics for a living.

Senator J. C. Pritchard has offered a Brigadier Generalship to General R. F. Hoke, of Raleigh, brother in law of Mayor Van Wick of New York City, and uncle of ex Secretary Hoke Smith.

General R. F. Hoke was a Lieutenant General in the Confederate Army.

General Hoke has telegraphed, declining with thanks, the appointment.

Seignorage Coinage Voted.

Special to Journal. WASHINGTON, D. C., June 9.—The Senate and House conferees on the war revenue bill have agreed, and \$1,500,000 of the silver seignorage will be coined each month.

Breach of Neutrality.

LEWIS, Del., June 8.—Captain Ross, of the British steamer Southland, from Fort de France, Martinique, reports an alleged breach of the French neutrality proclamation. He says that on May 25th, after a Spanish torpedo boat had taken on her allowance of coal at that port, the French Trans-Atlantic Steamship Company allowed her to take on board under cover of night all the coal she could accommodate on the pretense that the Spaniards stole it.

Was Not Injured.

KINGSBORO, Jamaica, June 8.—The report circulated in the United States that Captain Philip, of the United States battleship Texas, had been seriously injured by a shell during the bombardment of the Santiago fortifications on Monday, is absolutely without foundation.

Joined Forces.

New York, June 9.—A special from Cape Haytien says the Americans and insurgents have formed a juncture near Santiago and that a land attack on the city is momentarily expected.

The Spaniards claim to have 21,000 seasoned troops in Santiago.

The special further says that Colonel Thieme, a renowned authoritative artist in the Spanish service was killed in Monday's bombardment of the forts of Santiago harbor.

Points of Mobilization.

New York, June 8.—A Washington dispatch to the Herald says: For many reasons the present policy of encamping the army at a few large places of mobilization has been changed, and it has been decided that in future the troops will be distributed in smaller numbers at places all over the South, and one place on Long Island.

The facilities for embarking troops are also exceedingly poor at Tampa, as shown by the experience of General Shafter in getting his army under way. Chickamauga Park and Montauk Point, L. I., will remain the headquarters for comparatively large forces.

It has been found that when the men are encamped in great numbers at the same place it is difficult to drill them properly and get them in condition for campaign duty. The new policy will be to distribute the men in such numbers that they can be easily handled by the commanding officers.

SAMPSON AT WORK.

Shelling a Point to Land the American Troops.

SPANISH DRIVEN OFF.

Firing From the Fleet Continues All Day. No Losses Except to Spaniards Reported. Situation at Manila Against the Spanish.

Special to Journal.

WASHINGTON, June 9.—Five vessels of Captain Sampson's fleet bombarded Camanera from 5:30 this morning until 2:30 in the afternoon.

The firing by the ships was very heavy and did great damage to the Spanish fortifications.

Camanera is thirty miles east of Santiago and is a point where the Spaniards are preparing defenses to prevent the debarking of the American troops.

The bombardment of the Spanish works was very furious. A perfect hail of shells fell upon the Spaniards, who nevertheless replied vigorously, but were forced to abandon their works and including their artillery retreat to the town.

The orders given by the Spanish commander were to burn Camanera before surrendering the town.

The cable that runs to this point is believed to be cut.

From Madrid it is admitted that the Spanish suffered severely during the bombardment of the Santiago forts which resulted in their destruction. On the Reina Mercedes one officer and forty-four men were lost by the fire from the American fleet.

A government dispatch boat arrived at Key West today and brings the news of two auxiliary gunboats shelling a squad of Spanish cavalry at Cudamo by which twenty-five Spaniards were killed and many were wounded.

The situation at Manila is regarded as very critical for the Spanish forces. Many desertions are reported from the Spanish army according to the report from the Captain General of the Philippines. The insurgents occupy the whole of the province of Cavite.

Tampa will be abandoned as a point of concentration of the volunteer troops. New points on the Atlantic coast are selected.

Examinations will be held at Charleston, S. C., for the North and South Carolina Naval Reserves preparatory to mustering them into the United States service. The examinations will be conducted by Lieut. Commander Arnold and Surgeon Smith.

A detached submarine mine was found off Fort Hamilton, New York harbor, and taken in charge by the navy yard authorities.

The hospital ship Solace for the care of the wounded men has sailed from New York for Santiago, Cuba.

Two soldiers of the English army, who have served in Afghanistan and the Indian campaigns enlisted in the American army today.

Have Troops Arrived?

MRS. S. NICHOLS, HAYTI, June 6.—News of the successful landing last Saturday of 5,000 American troops a few miles west of Santiago de Cuba was brought here by the auxiliary cruiser St. Louis, which arrived today.

There are three regiments of infantry, three batteries of artillery, several heavy siege guns and a number of engineers in the force that was landed.

All that can be said with any definiteness regarding the movement of troops is that about 5,000 regulars, who were to take part in the Santiago expedition, left Mobile last Friday. They were to go to Key West, where they were to be joined by the main body of the expedition from Tampa. It was then believed that the troops from Tampa would get away a day or two later, but some hitch occurred, which has delayed the Tampa contingent, and the troops from Mobile are still waiting at Key West.

He Remembered.

He rose to depart as the clock sounded eight. And, getting his hat and his cane, His wife sweetly murmured: "Now don't stay out late."

"Dear Charlie, 'Remember the Maine'!" With that somewhat startling injunction in view.

He was back home at ten with his pet. For should he stay later he very well knew

What a great howling up he would get.—Denver Post.

Financier.

"Were you able to sell old Billions a lot?" asked the superintendent of the cemetery. The agent shook his head.

"He was afraid he might not get the full value of it," he explained. "But, hang it, all a man has got to die some time!" exclaimed the superintendent. "That's what I told him, but he only answered 'suppose I should be lost at sea.'"

THE STATE CAPITAL.

War Items of Interest. Probable Row Between Russell and Pritchard Forces at Republican Convention.

JOHN S. BURKE, Raleigh, N. C., June 9.—Senator Pritchard has offered the Brigadier Generalship to Gen. R. F. Hoke of this city, but he declined. Senator Pritchard will today present the name of David Worth Bagley of the President for appointment at once to the naval cadetship at Annapolis.

The commissions for the officers of the Second Regiment have arrived.

The Fayetteville Independent Light Infantry enjoyed the beautiful lunch that was served thereby the Ladies Memorial Association. They were the best fried chicken eaters ever seen in camp.

Mr. Dalton Stonach, who has been regimental clerk to Col. Burgwyn, has been promoted to the position of Sergeant Major.

There are 500 men in the naval reserve corps at the service of the State.

Four members from the 2nd Regiment were yesterday found missing. Three were from the Murphy company and one from the Lander bridge company.

Orders to move are expected daily by the Second Regiment. They may go to Chickamauga, though they hope it will be Jacksonville. Some think that orders will not come until the regiment has recruited to its required strength. Atlanta may be the point after all.

It is reported here tonight that the two men who deserted from the Galtboro company, before the 1st regiment left for Jacksonville, were tried by court martial and shot this morning.

Besides the \$100,000 gift to Trinity college by Mr. Washington Duke a few days ago, he gave last night \$5,000 to beautify Trinity Park.

There will probably be a row between the Pritchard and Russell factions in the convention. The committee is for Pritchard and against Russell, all except Jim Young, colored.

ETYMOLOGY OF "HURRAH."

Mr. Spratley Says That We Got It From Ancient Egypt.

W. J. Spratley, reeve of the plain English name, has favored us with a copy of a letter he has addressed to The Institute and Lecturers' Gazette on the etymology of the word "Hurrah!" which Mr. Spratley spells "Hoorah!"

We have been vaguely cherishing the idea that it had a Russian origin, but Mr. Spratley takes us to ancient Egypt in his etymological search. He thinks "Hoorah" is derived from the Egyptian word "Hooah" or "Hooah" and if the ancient questioning man asks why, he staggers him with this: "The Hooah, Hooah (in the tongue of the Thothmes and Ramesses) means 'The King, the King, the King! Yea, more! Yea!'"

"It means not only King, but also God and man, the concentrated meaning of the cry would be: 'For God, King and country! What more loyal, what more patriotic, what more devout?' What, indeed!"

But let us should hardly still doubt, Mr. Spratley clinches the matter by citing in corroboration, the fact that his name in Egyptian roots, is Sa-pa-l-a-tay, or Sa-pa-Hoo-Ra-tay, which means "Son of heaven, King of the two hemispheres," and if the authority of a gentleman of this descent is not good enough for the mere doubter, even Mr. Sa-pa, etc., may well despair of convincing him. More than this, if Mr. Spratley's Egyptian name means any thing—and this is an open question—it also signifies "King of lower Egypt, King of the World." But what we chiefly like it for is that it seems to settle another point that may well have baffled the philologists—namely, the genesis of the only familiar refrain "For a-ben-ne-de-ah!" Is it possible that Mrs. Lottie Collins and the street urchin have been singing ancient Egyptian, as Mr. Jomrhan spoke prose, without knowing it?—London Chronicle.

Speaker Reed's Autograph.

The Kemelias (Mo.) Journal says that when autograph hunters ask Speaker Reed for his signature he writes it rather hastily, and it is simply T. H. Reed. If the pen does not mark plainly, the speaker does not always take pains to dip it anew, provided there is a scrawl and all the letters are visible.

Not as when the oblong forms of parchment are handed to him from the committee on enrolled bills, of which Representative Hager of Iowa is chair man. Mr. Hink, the clerk to the speaker's desk, hands up the pile of parchment, and the speaker carefully looks over each. Taking them down one by one, he writes his name slowly and carefully. It does not appear as T. H. Reed, but as Thomas H. Reed.

The ink is dipped from a bottle that sits within a silver tray, which has come down from the time when Henry Clay was speaker of the house of representatives. Then the signature is carefully blotted, the previous parchment is carried to the senate and eventually finds its way to the state department, where it is stored among the archives.

Misc.

Mr. Cannon of Chicago—Are you fond of music, Miss Tremello? Miss Tremello (of Boston)—Music, Mr. Cannon? "I am so glad. May I have the pleasure of your company this evening to the minstrel?"—New York Weekly.
