## AT RALEIGH.

### Governor Russell's Old Law Partner in Disgrace.

Capitol Club House Warming; North Carolina Army News; Chairman Holton's Visionary Boast; New Investment Corporation; Simon's Fine Work.

#### JOURNAL BUREAU.

RALEIGH, N. C., September 10. The Capital club will in a few weeks give a "house warming" in the shape of a very brilliant reception, in their new club building. Heretofore no ladies ever went into the club building except to the ball room floor, but now Thursday afternoon and evening will be known as "Ladies Day," which members of the club can carry their lady friends to the club rooms.

The Lindsay Investment Company of Durham was yesterday incorporated by Secretary of State Thompson. The Capital stock is to be \$10,000 with headquarters at Durham, with branch offices over the State. It is to handle real and personal property selling stocks, bonds and other securities.

Now that the cooler weather has set in "The Monday Evening (Literary) Club" will soon begin to hold its monthly meetings.

There is no doubt now that Capt. Crawford, Company K, First Regiment North Carolina volunteers has sent in his resignation to Col. Armfield. The report some time ago that he had resigned was a mistake. Company K is the "Governor's Guards" of Raleigh.

The news that now comes from Jacksonville that the men of the First North Carolina Regiment are anxious to be discharged is a surprise, for it was thought that they were, almost to a man, ready and anxious to follow Gen. Ruffalo to Cuba.

There are about 200 volunteer regiments. It was said the President would consider the wishes of the men as to whether a regiment would be mustered out. If all the regiments desired to quit the service the President would be in rather a peculiar position as he already recognizes.

The Express companies in the State refused to admit that the commissioner of Internal Revenue had the power to order them to pay the war stamp tax, but when the railroad commission so ordered the companies began to pay for the stamp instead of requiring the sender of packages to pay.

Republican State Chairman Holton's threat that he would indict the officers of Mecklenburg county for not appointing 48 registrars, he and Populist chairman Thompson named, is rather an idle threat, because the new election law does not require any political party to recommend registrars.

Governor Russell has been asked to say whether the First Regiment or the Third Regiment (negroes) shall be retained in service as it will not be practicable to keep two North Carolina regiments in service for the time they enlisted. These negroes will be moved through the State early next week on their way to Knoxville, Tenn., where they will be brigaded with white troops. Ex-Judge Speir Whitaker, is one of the officers in the brigade to which, it is now said these negroes will be attached.

The Second Regiment will probably be in camp here by the 15th to be mustered out.

Senator Butler will reach North Carolina in a few days, and a little later will enter the campaign. He will speak first at Jacksonville, Onslow county on the 15th.

Governor Russell's old law partner, David H. Sutton, who was not long ago convicted by a court martial of the 2nd North Carolina Regiment at Tybee Island, has been sent to work out his sentence in the Fort McPherson guard house. He was a member of the last legislature.

Republican Chairman Holton says if the election was held now the fusionists would win by 30,000 and that in November their majority will be 40,000.

No one can but realize that Democratic State Chairman Simmons is conducting a splendid campaign.

#### An Army Investigation.

WASHINGTON, Sept. 9.—The President has decided to appoint a commission to investigate the War Department.

Major-General John M. Schofield (retired) and ex-Senator John B. Gordon, of Georgia, have been asked to accept places upon the commission.

It is not admitted, but it is none the less true, that Secretary Alger only asked for the investigation after the President had let him understand very plainly that it was his desire that such a request should be made of him.

The Secretary of War did not want the investigation. He did not think it was necessary. He pointed out that the first reports of conditions at camps had been shown to be exaggerated, and he thought that if matters were allowed to go on without an investigation the weak spots would be also covered and soon everything would be moving along efficiently and harmoniously.

President McKinley did not agree with

his Secretary of War. The President was urged to have the investigation not only by newspapers all over the country and letters from prominent men without regard to party, but by some of the members of his cabinet as well, and the result was that Secretary Alger finally, on the eve of his departure from Washington, wrote the letter asking that a commission be appointed to inquire into all the allegations of mismanagement in connection with the army.

#### Reported Assassination.

GENEVA, Switzerland, September 10.—The Empress of Austria was assassinated at Hotel Beau-Rivage this afternoon by an anarchist, who has been arrested. He stabbed her majesty with a stiletto.

It appears that the empress was walking from the hotel to the landing of the steamer about one o'clock when an Italian anarchist suddenly approached and stabbed her to the heart. The empress fell, but arose and was carried to the steamer unconscious. The boat started out seeing that she did not recover consciousness the captain returned. The empress was carried to Hotel Beau-Rivage, where she expired.

#### WHOLESOME ADVICE.

For People Whose Stomachs are Weak and Digestion Poor.

Dr. Harlandson, whose opinion in diseases is worthy of attention, says when a man or woman comes to me complaining of indigestion, loss of appetite, sour stomach, belching, sour watery risings, headaches, sleeplessness, lack of ambition and a general run down nervous condition I advise them to take after each meal one or two of Stuart's Dyspepsia Tablets, allowing the tablet to dissolve in the mouth, and thus mingle with the food eaten. The result is that the food is speedily digested before it has time to sour and ferment. The tablets will digest food any way whether the stomach wants to or not, because they contain harmless digestive principles, vegetable essences, pepsin and Golden Seal which supply just what the weak stomach lacks.

I have advised the tablets with great success, both in curing indigestion and to build up the tissues, increase flesh in thin nervous patients, whose real trouble was dyspepsia and as soon as the stomach was put to rights they did not know what sickness was.

A fifty cent package of Stuart's Dyspepsia Tablets can be bought at any drug store, and as they are not a secret patent medicine, they can be used as often as desired with full assurance that they contain nothing harmful in the slightest degree; on the contrary, anyone whose stomach is at all deranged will find great benefit from the use of Stuart's Dyspepsia Tablets. They will cure any form of stomach weakness or disease except cancer of the stomach. Full size package at druggists 50c or \$1.00 or by mail from Stuart Co., Marshall, Mich.

#### A SAD CEREMONY.

Burial of the Son of General Wheeler, Who Was Drowned.

CAMP WICKOFF, September 9.—The most impressive scene witnessed since the camp was organized occurred this morning when Chaplain Bradshaw, of the one hundred and seventy-fifth New York regiment, read the ritual for the dead bodies of Cadet Wheeler and Lieut. Kirkpatrick, who were drowned Wednesday.

The ceremonies began at daylight, after which the bodies were taken to the train on artillery caissons, escorted by cavalry. The whole camp showed sympathy for General Wheeler.

WASHINGTON, September 10.—Stocks showed considerable firmness after the opening this morning American tobacco within a fraction of yesterday's closing prices and scored a gain of over five dollars a share during the half day's business. Insiders were liberal buyers and all offerings were quickly absorbed. We are still bullish on this stock, and believe it will sell at \$1.50 in the near future. The entire list closed strong and a good advantage may be looked for during the coming week.

Liverpool cables showed a small decline in cotton this morning with sales of 10,000 bales, this was reflected in our market at the opening, which was fractionally under the former close. Small covering started an upward movement during the first hour and continued had weather reports from the southeastern belt. This we give no credit and believe the government report will be exceedingly bullish and cause much lower prices. Grain continues weak on enormous crop reports and will sell lower especially by corn. ## OUT OF SERVICE.

### North Carolina Regiments Returning Home.

Senator Pritchard in Campaign; Convict Killed by Guard; Promoted for Gallantry; Boys Want to Re-enlist for Army Service.

#### JOURNAL BUREAU.

RALEIGH, N. C., September 12. The different companies of the Second North Carolina Regiment have commenced to come into camp here preparatory to being mustered out of service. Yesterday four companies, those at Land's end and Tybee Island came in. Tomorrow Col. Bargwyne and the six companies under him at St. Simon's Island will reach here. Major Cotton and his two companies at St. Augustine will not leave there before the end of the week. The U. S. officer for mustering them, Major Todd is here. The four companies came in very quietly yesterday at 9 o'clock and two at 11:30. There was no one specially to meet the men, and they marched up the street with only the faintest tap of the drum.

The county commissioners did not settle the matter of taxing the stock owned by the Raleigh and Gaston Railroad, at their meeting on last Friday, but will continue the question this week.

Senator Pritchard so far has made only one speech during this campaign, but he spoke at Rutherfordton today and will speak at Lenoir on the 17th.

Senator Butler, although opposed to fusion, since his return from his Western trip, says the fusion will surely carry North Carolina in November.

The enrollment at the Agricultural and Mechanical College up to date is the same as last year.

One of the convicts at the Northampton convict farm was so badly beaten by a guard named Sears, that the prisoner died from the effects. Now Sears has been arrested on a bench warrant, and will tomorrow be tried before Judge Clark for murder.

At the State Fair, a representative of the Peters Cartridge Company of Cincinnati, will conduct the trap shooting. Sportsmen can use their own guns for this amusement or guns will be furnished at the shooting grounds.

Ex-U. S. Judge R. P. Dick of Greensboro is again critically ill. He will hardly survive this attack.

On the 15th, the school for the white blind children will open. The outlook is for the largest attendance they have ever had.

Lieut. Frank Cameron, son of General Francis H. Cameron, of this city, has just been commissioned, from a cavalry lieutenant to a Captain in infantry in the regular army. This promotion is for gallantry at Santiago.

The Colored State Fair will held here November 15th-20th.

A recruiting officer, at the expiration of 30 days when the Second Regiment is mustered out, and the physical examination made can secure many of the men for service, as so many wish to go to Cuba, Porto Rico or the Philippines.

Mr. Will W. Vass who has been critically ill with typhoid fever is much better. There have been no deaths from typhoid fever here this summer, but at the same time there is much sickness here.

#### COMRADES AND FRIENDS.

General Miles and Shafter Disprove Reports by Their Actions; Heads of Departments Ask for Investigation.

WASHINGTON, September 12.—General Miles and General Shafter are not only in Washington, but they have met, shaken hands, and chatted together as friendly as any two old comrades might be expected to do. This must be surprising to those who believed, or pretended to believe, that when the two men met, there would be drawn swords and a contest of the regulation "Three Guardsmen" order. If the men are really as unfriendly towards each other as one might infer from reading recent newspaper publications, they are both past masters in the art of concealing their feelings. There was certainly no sign of enmity when they met in the office of General Miles, in the War Department, that could be detected.

General Miles will talk every time he gets an opportunity about the necessity of enlarging the regular army and the recommendation he intends making to Congress on that subject, but he says the statement he gave out as soon as he landed in New York, contained all he has to say at present concerning the campaigns in Cuba and Porto Rico.

It is believed that the President will take no notice officially of what General Miles said reflecting on the War Department, unless circumstances compel him to do so, if Miles doesn't do any more of the same sort of talking. He has met Miles twice since he returned to Washington, but nothing was said by either about those newspaper publications.

The President has decided to have an investigation of the entire conduct of the war made by a Commission of the most prominent men he can get to assume the task—men whose names will cause anything they say to be accepted by every body without question. For the purpose of trying to put an end to the charges and counter-charges now being printed in the newspapers.

While the Alger-Miles wrangle is said to have had nothing to do with the idea of having this investigation, which was ostensibly asked for by Secretary Alger, it may have much to do with it as Gen. Miles is not a witness that is likely to be overlooked by the Commission. That he is anxious for the investigation all the world knows.

The heads of the Departments of the Army most directly concerned in the investigation—the Commissioner General, the Quartermaster-General and the Surgeon-General—all say that they will welcome the most right investigation into the acts of their several Departments, and Gen. Shafter assured the President, personally, that the more thorough the investigation of everything connected with the campaign against Santiago was made, the better it would please him, because he was certain it would result in adding to the credit of the men who took part in that remarkable campaign, and in making the people more clearly understand the nature of the difficulties that were successfully surmounted.

#### Burial of Young Wheeler.

HUNTSVILLE, Ala., September 11.—The body of Naval Cadet Thomas H. Wheeler, son of Major Gen. Joseph Wheeler, was taken today to the family home, at Wheeler Station, Ala., for burial.

Accompanying the body from Montauk Point, where young Wheeler was drowned, were General Wheeler and his four daughters, and Lieut. Joseph Wheeler, his son.

#### Trouble at Manila.

MANILA, Sept. 11.—Irritation induced by the aggressive attitude of certain irresponsible native leaders, acting in defiance of Aguinaldo's orders, has become so serious that the American troops are now kept in the barracks under arms ready for action at a moment's notice.

A feeling of insecurity and unrest exists. Many native workmen are daily leaving their employers with the open intention of joining the rebels. Hundreds who are now on strike in the cigar factories and other establishments are recruiting Aguinaldo's ranks.

The "Dictator" made a triumphal entry into Manila yesterday, formally taking possession of his new capital.

#### The Speculative Markets.

SPECIAL TO JOURNAL.

WASHINGTON, Sept. 12. The underlying conditions in the industrial and commercial world are entirely too strong to permit any sustained bear campaign, and today's market shows every indication of a renewal of the bullish feeling. Railroad earnings for the past week continue to increase and the commercial agencies report happy conditions all along the line. The strength today has been in the specialty list, tobacco being the bulwark, but the general railroad list has shown conservative advances and the week starts with values well sustained all things considered, and we still consider the general list a purchase.

Cotton was dull after a small advance from opening prices. The government report had but little effect, the following being a synopsis: The report of 79.8 shows a decrease of 11.4 since August 1st and a comparison with other years of 78.3 in 1897, 67.2 in 1896 and a mean September first average of 79.4 for past ten years. The movement is not equaling expectations and if the Mexican weevil in Texas continues to co-operate with the boll worm and heavy rains, we may see the present downward movement checked.

Wheat advanced fractionally on covering. Corn continues to be the under dog and we reiterate our former advice to sell this cereal on any slight rally.

#### THE MURDERED EMPRESS.

The Assassin Pleaded With His Death; Grief of Emperor Francis Joseph.

VIENNA, September 11.—The plans for the funeral of the Empress Elizabeth, who was assassinated by Lucez, an anarchist, at Geneva yesterday, include bringing the body to Vienna next Thursday, lying in state on Friday and the obsequies of burial on Saturday.

PARIS, September 11.—The Figaro states that the weapon used by the assassin of the Empress of Austria was found in the lake. It was a three-sided file slender and sharp.

The Empress, it is said, supposed at first that she had received only a violent blow. She maintained great coolness.

#### Some Women Doubt

Many women think the bearing of children is a necessary period of great pain and distress. They doubt whether any medicine can relieve their sufferings. Well may they hesitate about taking those injurious internal medicines so widely sold. But they may place implicit faith in

#### MOTHER'S FRIEND

which is a softening, relaxing and soothing liniment for external use. Doubting women should get a bottle at the drug store for \$1, and test it. There is no possibility of its doing harm, and there is every likelihood of its saving them many hours of pain. It is sold by

THE BRADFIELD REGULATOR CO., ATLANTA, GA.

When asked if she wished to return to the hotel, she is said to have replied: "No, he only struck me on the breast, and doubtless wished to steal my watch."

The assassin said he regretted that the death penalty does not exist in the canton where the tragedy occurred.

Yesterday afternoon, he said, he saw the valet of the Empress leaving the hotel and going toward the steamboat landing. He inferred from this that the Empress was going to take the steamboat, and he hid behind a tree on the quay, with a file concealed in his right sleeve. In a few minutes the Empress accompanied by Baroness von Rothschild, her lady of honor, appeared, and the assassin struck the file home.

The Empress was about returning to Caix, France, when she was murdered. Her suite had preceded her by train, leaving with her only her maid of honor and a man servant.

The last words of the Empress were addressed to her attendants. Recovering consciousness for a moment, she feebly asked what had happened.

VIENNA, September 11.—The Emperor's fortune is the topic of much comment. He is striving to bear up manfully despite the terrible shock, which, in view of his age, had inspired the gravest apprehension.

Although at first stunned and then slightly hysterical, he soon regained his self-control and displayed remarkable calmness. Occasionally, when completely overpowered by his grief, he moans pitifully, repeatedly sobbing the name of the Empress. Addressing Prince Von Liechtenstein, chief marshal of the imperial household, he exclaimed last evening:

"It is inconceivable how a man could lift his hand against one who never in her life injured anybody, one who did nothing but good."

Then he moaned: "Nothing is spared to me in this world."

## THE GREAT CHAMPION HAYMAKER MOWER!

The ability of this mower to work where others fail is recognized, and for cutting on rough ground and among stumps and trees, its equal has never been produced. The peculiar and noiseless gearing of this mower is well known. With only two cog wheels it transfers the power directly to the knife without waste. This short connecting link that takes the place of a pitman permits the bar to be raised at any angle, even upright, to pass trees or other obstacles without stopping the team, or without throwing the machine out of gear, and the driver can do this while still in his seat.

Other mowers break pitmans, knife-heels, etc., and wear out the gears because the principle on which these mowers are built is wrong. The CHAMPION is free from these troubles because the principle on which it is built is right. The Champion will cost you no more than such inferior machines. Call and examine same before buying.
