LYNCHITES RETURN.

Appeal to Supreme Court Over Judge Pughes.

State Treasurer and Auditor's Fines do not Agree. Help For Confederate Veterans Federal Prisoners Want Meat.

JOURNAL BUREAU, RALEIGH, N. C., October 1. Judge Pughes in his decision regarding the Mecklenburg county registers threw out 11 of those appointed. Now an appeal to the entire Supreme court bench will be made.

It will be remembered that last winter "Joe Lynch" with his notorious band of "Lynchites" took up their abode at Southport, and their mode of living called forth the severest criticism. Even the Governor was asked to rid the State of such immoral people, but of course he took no steps to do so. In the spring they hid themselves away, and nothing was heard of them until this week when they came sailing in from the ocean, and landed themselves for the winter. Whether they will be allowed to remain there, and preach their vile doctrine, and live up to it, right before the eyes of the people remains to be seen.

Contracts for putting down piping for carrying the heat on to the Capital from the Supreme court building across the street. It will cost about \$600.

The registration books were opened here today.

The Railroad commission yesterday made the 2 and 2 1/2 cent rates on the Wilmington and Weldon railroad, apply only to the main line from Weldon to Wilmington.

"1492" drew a big house last night, but it was said that a few years ago no ladies would have been seen there, as "lights" predominant, and they were "very tight."

The interest in the State Fair to be held this month does not abate. Everything is in a stir at the grounds, cleaning painting, etc. Col. Cunningham and Mr. Nichols are not holding upon their work for the fair.

State Auditor Ayer says that there stands about \$70,000 of appropriations made in 1895 and 1897. He says there is in the State Treasury about \$200,000. A conference was held today between Treasurer Worth, and Auditor Ayer in regard to paying off these appropriations by warrants dated October 1st. The State treasurer has held, in regard to some of the appropriations, here lately that there was not money enough in the treasury to meet them. This statement does not tally with the figures given by the Auditor.

Out at the camp last night two of the guards were fooling, each with rifle in hand when one went off putting a bullet in the side of W. C. Hargett of Company G which passed through into his arm. The wound is not at all serious.

The appeal for aid for the Colored rate Veterans Home here is being answered. The penitentiary authorities on yesterday sent out a big supply of vegetables, and they say they will do this again. They have such a list of vegetables. Any thing will be a help. This is very little militating to many, who still would love to see these old veterans well cared for by their State instead of dependent on charity coming spasmodically, and from any and every where.

The Federal prisoners out at the penitentiary are very great "kickers." They complain to the U. S. Inspector, and he has ordered fresh beef issued them once a week. This will cost \$10 a week extra.

Warden Russell says that the U. S. prisoners, 145 in number, are panning all the while to make a break. They are closely watched. There are now white guards for white prisoners and colored guards for colored prisoners. White and black are kept now in separate cells. This change has just been made. Each convict is numbered, his cell is numbered and his clothing is numbered, so that there is no indiscriminate wearing of the convicts clothing.

ROOSEVELT ANALYZED.

Democrats Expect to Beat Him. Said to Be Unpopular. Too Well Liked.

WASHINGTON, Sept. 29.—In political circles here very little attention has been given to the elaborate controversy over the legal residence of Theodore Roosevelt. It is not regarded as a practical question. It is not to be doubted that Mr. Roosevelt took advantage of his official residence in Washington to quibble over the matter of paying personal taxes, but nevertheless, no one would seriously entertain the idea of surrendering his citizenship in New York.

Tammany is raising much dust over Roosevelt's eligibility, but Tammany in reality is only doing this as a diversion and a side issue. Tammany has high hopes of beating Mr. Roosevelt and does not care a button whether or not he can be technically declared to have acquired his citizenship. It has been popularly assumed that Roosevelt's general dash, his war record and his exalted personal integrity would carry him through with a rush. Those who reason this way lose sight of the fact that Roosevelt has no personal popularity, is obnoxious to the machine politicians of his own State and has grievously offended the saloon interest, which is one of the most influential and powerful elements in New York politics.

A noted New York Democrat, who was here today, before the nomination of Roosevelt said that the Democrats of New York were praying for his nomination, as he was the weakest man the Republicans could put up. He has shown himself to be a man who never surrenders his own convictions under any circumstances. His independence is such a character that he would resist and repudiate any suggestion from his party associates which he thought at variance with his views, and Mr. Roosevelt could not more run than he could run the Queen of England.

Patt was for Roosevelt simply because he looked upon him as the best vote-getter and as the best thing he could do, and was willing to take his chances of contributing to Theodore's success. He is courageous, able and clear, and no scoundrel would be likely to mar his administration. But his characteristics are such that he is not personally beloved of the people or his party, for men are never tolerant of one who thinks he is always in the right and the remainder of the world, if differing with him, in the wrong. Furthermore, his course as police commissioner of New York city offended the entire sporting fraternity and the whole body of saloon keepers, who can be depended upon to work against him and to pour out their money like water to compass his defeat.

The New York Democrats put up a man against him today who is said to be unexceptionable. If this proves to be the fact, "Fiddly" and Platt may find it is no walk over.

OPPROB IN PARIS.

Dreyfus Revision Causes Angry Crowds. Serious Outlook.

PARIS, October 2.—There was a decidedly ugly spirit abroad here today. Revisionists and anti revisionists seemed to be spilling for a fight.

Captain Dreyfus, whether guilty or innocent, has certainly caused a cyclone of passion. Crowds, rallies, speeches and arrests have formed the programme of the last twelve hours. At this moment the mounted republican guard is patrolling big parts of the city and of the police force is on the alert.

About a score of prisoners are said to have been seriously wounded in the first fights that have broken the monopoly of the Parisian Sunday. In one quarter alone, over forty arrests were made. Of the prisoners thirteen were kept, and the others liberated.

All over the city groups of wildly excited men are marching about. When one band meets another there is a conflict of arms. Vive la Revision, waving with "Vive la Armee." These sticks of dynamite and the most offensive looking person I have seen in a lifetime for a few minutes.

The editorial rooms of Libre Parole, Drumont's paper, of the Intransigent, Rochefort's organ, and some other journals are being guarded by strong bodies of police.

Normal Savannah.

SAVANNAH, Ga., Oct. 2.—A terrific northeast gale has blown over the city since 10 o'clock this morning, causing much damage to shipping and to towns and villages all along the coast. The wind blew from fifty to seventy miles an hour. The gale is a development of the West India cyclone which was reported as forming on Thursday.

Heavy loss of life is also feared on the South Carolina sea islands, where many fatalities occurred during the great tidal storm of 1893. The conditions now are similar to those during that storm. Owing to the submerged country and the isolated location of the islands no news can be had from them until the water subsides. For eight miles north of Savannah the entire country is a lake, with only the hummocks visible.

APPROPRIATIONS PAID.

Balances Previously Refused by Treasurer Worth.

Raleigh Graded Schools. Appeals Second District. Negroes From South Carolina if Fusion Prevails. Obnoxious Law.

JOURNAL BUREAU, RALEIGH, N. C., October 3. All the legislative appropriations have now been paid in full. On Saturday about \$20,000 was paid out of the State Treasury. Of this amount \$75,000 was the balance on appropriations made by the legislature, that Treasurer Worth has up to now refused to pay. The balance of the money was for the regular monthly expenses. The following are the appropriations that were paid up in full:

Eastern Hospital	\$ 5,000 00
N. C. Institution Deaf, Dumb and Blind	5,000 00
School for Deaf and Dumb	5,000 00
State Hospital	10,000 00
Deaf, Dumb and Blind (special appropriation) (white)	8,500 00
Deaf, Dumb and Blind (special appropriation) (colored)	10,000 00
Insane Asylum	2,500 00
Agricultural Department from tonnage tax on fertilizer	19,221 59
State Prison	1,556 29
Appropriations to Normal and Industrial College and the University	12,500 00
Total	\$17,450 98

Raleigh will be well represented at the launching of the Illinois at Newport News tomorrow.

Theatre-goers are rejoicing over the fact that Della Fox is looked to appear here this season.

Raleigh graded schools have only had a seven (7) years course while other schools over the State have been preparing their pupils for College. It is now prepared to raise the curriculum to College preparation.

The Supreme Court has no cases on docket this session of special interest. Tomorrow it begins to hear appeals from the 2nd District.

Miss Jane Hawkins, an aunt of Col. A. B. Andrews, died at his home here yesterday. She had long been an invalid, and was a woman very much beloved by all who knew her.

The chairman of the Republican and Populist parties, and the nominees for Judges and solicitors are consulting as to who shall be voted for as fusion nominees. It will take them several days to decide about the final ticket.

It is said that if fusion is successful in this State many South Carolina negroes will move here.

A law enacted by the legislature gives to medical colleges the bodies of patients who die in the Asylums, and for whom no provision is made for burial. This law is causing much trouble in the West tern part of the State.

First Lieut. Beavers is promoted to Captain of Company K 1st, Regiment N. C. Volunteers.

There will be but few fairs held in the State this year, so much interest centres in the State Fair. Ohio holds 80 fairs, Indiana, Kansas and Nebraska between 60 and 70 each.

INTERESTED IN CHINA.

Cruiser Baltimore Ordered to Protect American Property. A Long Trip.

New York, October 2. Instructions have been sent by Secretary Long to Admiral Dewey directing him to send the protected cruiser Baltimore at once to Tien Tsin, China.

This action shows conclusively the concern felt by the administration at the existing condition of affairs in the Celestial Empire. It would seem to indicate that more sensational information had been received from Minister Conger than the authorities have made public. It was stated, however, that the advice from the minister at Peking simply show a turbulent condition of affairs existing throughout the empire.

In view of the prospect of trouble in Peking over the death of the Emperor, and the efforts which will probably be made by his adherents to seek revenge, or, at least assure safety for themselves, the authorities deemed it wise to place a ship as near the capital as possible, where the members of the American legation and the consulates near the capital may find refuge in case of need. After a consultation with the President Secretary Long directed Capt. A. S. Crowninshield, chief of the bureau of navigation, to prepare instructions to Admiral Dewey to send the Baltimore to Tien Tsin without delay. These orders were signed and cabled yesterday afternoon, and it is believed the ship is now on her way to her destination.

The Baltimore has a long trip before her. The distance between Manila and Tien Tsin is 1,800 miles, which she will cover under the "hurry orders" given her within seven days at the utmost. The instructions to Capt. N. M. Dyer require him immediately upon his arrival to communicate with Minister Conger and take every step useful to protect American interests.

JOINING THE CZAR.

Except Germany All Great Nations Accept the Call.

New York, Sept. 30.—With the exception of Germany, all of the great powers of the world have agreed to participate in the international disarmament conference suggested by the Czar of Russia. Considerable interest exists in diplomatic circles as to the answer the German Emperor will make to the Czar's proposition. Should Emperor William finally determine that the interests of Germany were against entering into such a conference, the whole plan would undoubtedly fall through.

The State Department is taking great interest in the proposed conference, and although the officials believe the plan is chimerical, the Russian government has been advised that the United States will send a representative to take part. The President has not determined who shall be the representative, for the reason that it is not definitely determined when and where the conference shall take place. So far Great Britain, France, Spain, Austria and Japan, besides the United States and several smaller powers, have indicated their intention to be represented at the proposed conference. Everything, therefore, depends upon the reply Germany will make to the Czar's proposition whether the conference will be held.

It is believed here that when the Czar receives a reply from Germany, and it should be favorable, he will announce the time and place of meeting, which will probably be after the American and Spanish peace commission completes its labors in Paris.

PEACE COMMISSION.

Session Has Opened. Question of a Chairman.

PARIS, October 1. The peace commission and its conference for the first time at 2 o'clock this afternoon. The session was devoted to a formal exchange of credentials and the choice of a chairman.

The Spaniards submit that owing to the age and rank of Montero Rios, president of the Spanish senate, that he ought under ordinary circumstances to be president of the conference, but in view of the fact that the Americans were victorious, suggest as a compromise that Day and Rios alternate daily in the chair. This point is still under discussion. The Americans insist that they should preside.

The Spanish Ships.

PRINCE DE ORO, Cuba, Sept. 29.—Naval Constructor Hudson is now making an inspection of the Spanish cruiser Vizcaya, which was sunk when Cervera's fleet dashed out of Santiago harbor. This inspection is for the purpose of determining what work is necessary to raise the vessel. Operations will begin soon after his inspection is completed. Mr. Hudson is confident that he will save the vessel.

Meanwhile the work on the cruiser Maria Teresa, which is in Grand Canary harbor, is progressing rapidly. A hundred and fifty men are engaged in the work. They succeeded in covering the outside of the hole in the forward part of the cruiser, and the work of pumping her out will begin tomorrow. Work is progressing rapidly on her engines, steering engine, bridge and deck.

Lee for Military Governor.

WASHINGTON, Sept. 29. Gen. Lee, though Lee arrived here, this afternoon, report to the War Department. He is representative of the Sun he said he had no idea why he was ordered by Washington by Secretary Alger. As a matter of fact, however, it is said that Lee had been ordered here to receive instructions preparatory to going to Cuba as military governor at Havana.

General Lee said in regard to his contest for a seat in the Senate, that he had not yet announced his candidacy, but when he was ready to make the race his absence in Havana, should be no excuse, would not interfere with his canvass. His friends had been kind enough to signify a desire that he should enter the race, he said, but it would not be necessary to do anything until next fall, and he would return next summer or manage the senatorial campaign from Havana.

LEE AND WHEELER.

To Testify Before the Commission. Reception by Hay Spain Must Quit Philippines.

WASHINGTON, October 1. Nothing startling and little that was interesting has yet occurred in connection with the investigation of the war started a week ago, but something may be turned up during the coming week. Witnesses, Fitzhugh Lee and Lee Wheeler are among the witnesses who have been invited to testify. Although several editors have been asked by the Commission to furnish the names of witnesses willing to testify to statements made in their papers, none have yet done so, although an article of a New York paper has filed a long statement concerning Gen. Wheeler. There is some objection because the Commission decided to allow only Representatives of the Press Associations to be present while testimony is being taken, but it is continued to their representing papers not served by either of the Press Associations. It must be perfectly plain to anybody who will think a moment that the army of Washington correspondents could not be admitted, unless the Commission conducted the investigation in one of the largest halls in town. No one need fear that any important evidence taken by the Commission will fail to get publicity.

Secretary Hay held his first reception to the Diplomatic corps, today, in the diplomatic room, in the Department of State. It was attended by representatives of all the countries with which we maintain diplomatic relations, although several of the embassies were represented by subordinates, owing to the absence of the ambassadors: the French and German ambassadors are in Europe.

Senator Hanna's statement in a published interview that the United States would not possibly consent to allowing the Spanish government to retain control of any portion of the Philippine Islands, has attracted much attention in Washington, where it is generally regarded as a statement of the President's position, and as an indication of the nature of the instructions given our peace commissioners.

Out of Porto Rico.

SPANISH TRANSPORT, Porto Rico, Oct. 2.—The Spanish transport Isla de Panay arrived here yesterday and a second transport is expected Monday. These, with a hospital ship, which will come from Havana to remove a number of sick troops, will carry away about 3,000 Spanish soldiers, sufficient vessels are said to be now on their way here to remove the remainder of the troops.

It is Admiral Schley's opinion that the evacuation by the Spaniards and the actual delivery of the island to the American authorities will be completed by October 5.

Strange Condition of China.

LONDON, Oct. 1.—A special dispatch from Shanghai, published today, says that telegrams furnished by Tientsin, the local government, state that their Chinese engineers committed suicide on September 24, after stoning dozens of local police officers in China. This is understood to mean that the engineers were assassinated. All English-speaking countries and the principal members of the Chinese foreign office, are further steps must be taken to save and humbled.

The attachment of a photograph, sent only a day from the States, that the emperor of China has been assassinated.

WANTED!

To engage a middle-aged or young woman to do general house work. J. F. LATHAM.

ROMULUS A. NUNN,

ATTORNEY AT LAW. NEW BERNE, N. C. Office South Front Street, Opposite Hotel Chatham. Practice in Craven and surrounding counties.
