

# Tortured By Rheumatism.

## A Purely Vegetable Blood Remedy is the Only Cure.

If the people generally knew the true cause of Rheumatism, there would be no such thing as Rheumatism and lotions for this painful and disabling disease. The cause of Rheumatism is a disorder of the blood—it can be treated, therefore, only through the blood. But all blood remedies are not alike. Some are made of poisons, such as mercury, and though temporary relief may result, these remedies produce a stiffness of joints and only intensify the disease.

I felt so much better after taking bottles, that I continued the remedy, and in two months I was cured completely. The cure was permanent. I have never since had a touch of Rheumatism, though many times exposed to damp and cold weather.

A few years ago I was taken with inflammation of the joints, which, though mild at first, became gradually so intense that I was for weeks unable to walk. I tried several prominent physicians and took their treatment faithfully, but was unable to get the slightest relief. In fact, my condition seemed to grow worse, the pains spread over my entire body, and from November to March I suffered agony. I tried many patent medicines, but none relieved me. Upon the advice of a friend I decided to try S. S. S. Before allowing me to take it, however, my guardian, who was a chemist, analyzed the remedy, and pronounced it free of potash or mercury.

**Great Every Way.**  
"Football is a great game for discussion just now."  
"Yes, and for concussion, too."

**How To Find Out.**  
Fill a little of common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

**WHAT TO DO.**  
There is comfort in the knowledge so often expressed, that Dr. Kilmor's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding pain passing it, or had effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents or one dollar.

You may have a sample bottle and a book that tells more about it, but sent absolutely free by mail, if you send your address to Dr. Kilmor & Co., Binghamton, N. Y. When writing be sure and mention that you read this generous offer in the New Berne Weekly Journal.

**HOW DID HE DO IT?**  
The Escape of the Prisoner Hartsfield From the City Jail.  
The ex-soldier who indulged in the free shooting at Lee Taylor's store Monday night and wounded one colored man and was captured and put in the city jail, escaped the same night and departed for parts unknown.

It appears that the man's name was Hartsfield, supposed to be a citizen of Raleigh and a former member of the First Regiment North Carolina Volunteers. It appears that he was in the bad railway wreck in Georgia in which a number of the First Regiment men were injured. Hartsfield is said to have been badly injured and obtained \$4,000 from the railroad company and a pension from the Government of \$12 a month. So he has money to burn and is succeeding in his efforts.

His escape from the jail is a good deal of a mystery. There is a difference of opinion as to how it was effected. When Chief Roberts went to jail in the morning the door was locked and everything looked the same as the night before, but the bird had flown. The key was in charge of colored policeman Baker. Baker was in the hall all night and an electric light makes the jail easily seen from the window. Baker has resigned and was to go Saturday. He was discharged yesterday after the escape was known.

There is a very small window in the jail. Perhaps the prisoner escaped through it, by the aid of some one on the outside to pull him through. Hartsfield is a small man, about 120 pounds in weight. But the window is very small. By exact measurement it is 54 by 154 inches. Anyone who will try to put his head through a hole of that size will realize how small it is. The hole is about five feet from the ground and a mattress was found under it on the inside as if used to stand on. But it must have been a tight squeeze for even such a small thing as Hartsfield.

The dismantled volunteer gave his name as John Henner when arrested. Who his friend was is unknown. The friend did not stay at the hotel that night, so he was evidently busy in either pulling Hartsfield through the crack or paying out good dollars to some one to unlock the door. The two comrades in adventure made themselves extremely scarce.

**Fire at Bayboro.**  
On Monday night, about nine o'clock, the dwelling of Mr. J. E. Cowell at Bayboro was discovered to be on fire, the fire apparently starting from a defective fire. The dwelling house was entirely destroyed, with most of its contents, and the store building nearby was saved, but some of its contents were damaged.

The friends of Mr. Cowell will be very sorry to learn of his misfortune.

**The Wilmington Riot.**  
It is remarkably how many papers, not only those at the north, but seldom, even by accident, get anything right concerning the South, but some also of our own State, make the palpable mistake of calling the recent disturbances in Wilmington "Election Riots," the fact being that they happened nearly two days after election, which had passed off quietly, was over, and had no connection with it.

The trouble grew out of a vile insulting article published in a negro newspaper defaming the women of North Carolina, and the bloodshed was precipitated by negroes firing first on white men who had ordered the rascally editor of the paper out of the city and destroyed his property.

We call upon the Press of the State to represent this matter in its proper light. There was no "election riot" in North Carolina.

**From New Zealand.**  
REKTON, New Zealand, Nov. 23, '96.  
I am very pleased to state that since I took the agency of Chamberlain's medicine the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

**Not Legal Tender.**  
"I must request the congregation to contribute generously this morning," said Rev. Mr. Simpay, sadly. "My salary is eight months in arrears, and my creditors are passing. I, of course, work largely for love, and love equally, of course, is tender, but it isn't legal tender."

## EFFECTS OF ELECTION.

**Northern Investors No Longer Fearful of this Section.**  
Mr. J. J. Wolfenden of this city, who is largely interested in land in this section, and who has sold several large tracts to northern parties, says that the election has had a wonderful effect in changing the sentiment of northern investors in land in this section.

Said Mr. Wolfenden: "I have received a number of letters from northern parties making inquiries about land since the election. These same parties could not be induced to look this way a few months ago, and not for a minute could I have held the attention of a buyer of lands for investment, if the election had gone against the Democratic ticket. The situation looks bright now, and we may look for business and men with money who want land. The fear of the negro has gone."

## The Concert.

If the management of the theater cannot preserve order in the gallery, it is hoped that the public will not patronize the place. When disorder in the gallery becomes so great that gentlemen have to leave the floor to put a stop to the noise on their own responsibility, matters have come to a pretty bad pass. When negro minstrels are on the stage it is not so bad to have a racket from the "peanut gods," but at a concert with violin and vocal selections it is quite another matter. Since the entertainment several gentlemen have expressed themselves as demanding that the guilty parties, who are known, shall be prosecuted and punished for the offense by the authorities. So much for the disgraceful part of the performance, for which the Journal apologizes to the ladies and gentlemen of the Concert Company on behalf of the community.

Lovers of good music received a treat in last night's programme of the "Metropolitan Concert Company." Miss Julie Vallette gave a number of selections that were very favorably received. Mr. Carl Rieck was pleasing in several tenor pieces and received liberal encores. Mr. Arthur Freeman accompanied on the piano and gave two selections.

The violin playing of Miss Jeanie Benson gave great satisfaction. The selections were given with beautiful expression and the notes as they came from the most perfect of instruments, the violin, were clear and true.

The last piece on the programme was a selection from "Il Trovatore" with Miss Vallette and Mr. Rieck in two vocal parts and Miss Benson on the violin and Mr. Freeman on the piano. It was quite operatic in execution and the only trouble was its being too short.

The audience was rather small, due perhaps to the weather and that people have become accustomed to looking at the price charged as too high for New Berne.

Late to bed and early to rise, prepares a man for his home in the skies. But early to bed and a Little Early Riser, the pill that makes life longer and better, and wiser, F. S. Duffy.

## La Fayette Monument Fund.

The La Fayette Memorial Commission has been reported by President McKinley to request to him the amount of funds contributed by the school children of the United States for the erection in Paris of a monument to La Fayette. The Commission is desirous that postmasters and public and parochial school officials forward the amounts held by them at the earliest possible date to Treasurer Chas. G. Dawes, Washington. It is expected that Congress will appropriate for a pedestal an amount of money in duplicate of the pennies and nickels given by the children, which will approximate \$50,000 or \$60,000. This appropriation will be asked for in the form of La Fayette souvenir half dollars, the silver for which will cost the government half the face value or \$25,000. It is thought that the coins may readily be disposed of at a premium or one dollar each.

## "Life Renewer" For Ladies.

The blessed Life Renewer has done more for me than all the Patent Medicines, Doctors and Christian Science treatments combined. It is the most wonderful medicine I ever saw."

## WHITE GOVERNMENT.

Negroes no Longer Control Greenback. The change made in Greenback Peace.

GREENVILLE, N. C., November 23.—Negroes no longer control Greenback the town government having passed into the hands of white men. The change was made quietly and peacefully, so far in fact that few people were aware of what was going on until it had been accomplished and white policemen appeared on the streets. Two of the negro councilmen resigned and a special meeting of the board elected white men to succeed them. The white Chief of Police had already become uneasy and resigned. The change in the town government is a result of the election of four white men and two negroes, just the reverse of how it formerly stood, and the first work of the new board was to dismiss the negro assistant policemen and elect two white officers, who went on duty Sunday.
