But all blood remedies can not cure Rheumatism, for it is an obstinute disease, one which requires a real blood remedy-something more than a mere tonic. Swift's Specific is the only real blood remedy, and it promptly goes to the very bottom of even the most obstinate case.

What Shall We Do.

A serious and dangerous disease prevalls in this country, dangerous because so deceptive. It comes on so slowly yet surely that it is often firmly seated before we are aware of it.

The name of this diseases which may be divided into three distinct stages is, First, Kidney trouble, indicated by pain in the back, rheumatism, lumbago, frequent desire to urinate, often with a burning sensation, the flow of urine being copious or scant with strong odor.

If allowed to advance, this reaches the Second stage, or Bladder trouble, with heavy pain in the abdomen low down between the navel and the water passage, increasing desire to urinate, with scalding sensation in passing, small quantities being passed with difficulty, sometimes necessary to draw it with instruments. If uric acid or gravel has formed, it will prove dangerous if neglected.

The Third stage is Bright's Disease. There is comfort in knowing that Dr. Kilmer, the great kidney and bladder specialist, has discovered a 1 emdy famous for its marvelous cure of the most distressing cases and known as Dr Kilmer's Swamp-Root.

It is sold by all druggists. As a proof of the wonderful virtues of

this great discovery, Swamp-Root, a sample bottle and book of valuable information will be sent absolutely free by mail on application to Dr. Kilmer & Co., Binghamton, N. Y. When writing kindly mention that you read this liberal offer in the New Berne Weekly Journal.

"The fairness of this proposition is very clear, and the acceptance of it by the State will be undoubtedly wise, in asmuch as the Western North Carolina Railroad Company was advantageously sold to a New York syndicate to secure its extention. On of the results of said sale made by the State is, that the coun ty of Buncombe now lists twice as nuch property for taxation as the whole Western part of the State did prior to the building of this road. Here Are the Points That Go to Make a Centcaarian. Here are the points of a healthy man. Your step should be springy and elastic, your gait firm and easy. These things in-dicate muscles of good quality and nerve of good tone. Your eye should be bright and neither prominent nor hollow. Bright eyes show that the circulation of blood in the brain is good.

Your complexion should be clear and fresh. It is usually not well with you when your face is pale, sallow, florid subject to sudden flushings.
