Entered at the Postoffice, New Bern, N. C. as second-class matter.

Section One Tuesday, Mar 7, 1899

LET US GET DOWN TO BUSINESS.

The news of the killing of the attempt to buy the State's Stock in the Atlantic & North Carolina railroad, and to thus secure the entire control of this property, will be gladly received by the people of this section of the State.

The satisfaction is not as some might argue, that the people along the A. & N. C. are willing to be non-progressive and are opposed to accept opportunities of advancing their interests, but the satisfaction over the defeat of the Home-Syndicate is due to the questionable manner in which this syndicate went about in its efforts to buy the controlling interest in the road.

There was too eager a demand to secure this worthless (?) property, and at a figure which was not proportionate with either the value of the property as reckoned from the Standard's side, or that of the figures shown of the road's actual present earning capacity.

In a word it looked like a "blatant" and savoring of sneaky rascality down this way was against it.

Now that this matter is settled, it is with satisfaction that the people can turn to the contemplation of the A. & N. C. under the coming administration of James A. Bryan.

To the full credit of President Patrick it must be said his administration has been a good one, and Mr. Patrick himself is highly regarded by every one in this city who has had dealings with him, and his management of the road has been able, with justice to all interests, and a careful study to promote the road's best welfare and interests.

President Bryan comes into the A. & N. C.'s management, as a citizen of New Bern and Craven county, one fully competent to administer the road's present affairs and promote and advance its every interest.

As Mr. Bryan has hitherto received the support of city and county both in his official and political capacities, so will he get the same generous support and assistance as the A. & N. C.'s President, for aside from the personal feeling and good will for his success, there is the knowledge that the road's prosperity means much to every individual.

And so it can be said of the people along the entire line of the A. & N. C. road, for one and all are anxious to get down to business, and all look towards President Bryan as being the man who can and will make this business for the road and the action through which it runs.

AGITATE FOR GOOD ROADS.

Now that the weather is drying up our country roads, and making it possible for farmers to get to town, let them not forget the recent long spell of rain, followed by snow and ice, and the consequent shutting them off from all communication with their nearest town or trading place.

Let not the farmers in this vicinity forget how many of them were prevented from attending the New Bern Mid Winter Fair, and because of bad roads.

How many farmers in Eastern Carolina have been prevented from marketing their produce, and getting good prices for it, when the demand has fallen off, and spring work claims their time and attention, so that they cannot market their produce? All because of bad roads.

Compare the money that has been lost by the farmers because of bad

roads during February, with what it would have cost to have kept in good order all the county roads. With the coming of Spring and Summer, and dried up roadways, let not the past winter be forgotten, but let there be a movement which shall result in the building of good roads, so that another rainy season will not find an impassable barrier between country and town, which no farmer can surmount.

The time for beginning this work is now. Prepare for the bad times when it is possible and there will be no season of regrets.

Agitate for good roads at once and all the time until they become realities.

DISFIGURED FOR LIFE

For little girl's humor commenced with a tiny sore on one nostril, but it kept on spreading till she thought she would never get it cured. We tried everything, we could get, but it kept getting larger all the time, till it had reached the upper lip, a part of the lower lip, and up one side to the eye, were a solid sore. We thought there was no cure, and that she would be disfigured for life. Finally we tried Chamberlain's Remedy. We used Chamberlain's Remedy and nearly a box of Chamberlain's Remedy, and in a short time she was cured, and with no scar or trace of the humor. Mrs. W. M. CHICHESTER, Plainville, Ct.

No Crime Intended. This comely lacks motive. Well, lack of motive goes to remove the presumption of criminal intent.

Catarrh Cannot be Cured. With Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best blood purifiers, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free. F. J. CHICHESTER & Co., Props., Toledo, O. Sold by druggists, price 75c. Hall's Family Pills are the best.

Nothing to Say. "Did you hear me when I called you this morning?" "Yes." "Why didn't you answer then?" "I wouldn't think of anything to say."

For La Grippe. Thomas Whitefield & Co., 240 Wabash St., corner Johnson St., one of Chicago's oldest and most prominent druggists, recommends Chamberlain's Cough Remedy for La Grippe, as it not only gives a prompt and complete relief, but also counteracts any tendency of La Grippe to result in pneumonia. For sale by F. S. Duffly.

The Seat of the Disease. Husband—Why are you so angry at the doctor? Wife—When I told him I had a terrible tired feeling he told me to show him my tongue.

Chamberlain's Cough Remedy in Chicago. Higgin Bros., the popular South Side druggists, corner 19th St. and Wentworth St., say: "We sell a great deal of Chamberlain's Cough Remedy, and find that it gives the most satisfactory results, especially among children for severe colds and croup." For sale by F. S. Duffly.

In Harmony. Most leaders simply deny that you are sick. Ah, something like the doctor's at the free dispensary.

Always. Funny, you never see a college man behind the bar. No, they are more likely to be in front.

Dangers of the Grip. The greatest danger from La Grippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for La Grippe we have yet to learn of a single case having resulted in pneumonia which shows exclusively that this remedy is a certain preventive of that dangerous disease. It will cure La Grippe in less time than any other treatment. It is pleasant and safe to take. For sale by F. S. Duffly.

Rheumatism Cured in 24 Hours. T. J. Blackmore, of Haller & Blackmore, Pittsburgh, Pa., says: "A short time since I procured a bottle of Myo Cure. It got me out of the house in 24 hours. I took to my bed with Rheumatism nine months ago and the Myo Cure is the only medicine that did me any good. I had five of the best physicians in the city, but I received very little relief from them. I know the Myo Cure to be what it is represented and take pleasure in recommending it to other poor sufferers." Sold by Henry's Pharmacy.

ELECTION LAW PASSED.

Lively Discussion in the Senate Chamber.

The Wilsons Re-instated. Senator Osborne Carrying the Day With a Strong Speech in Favor of the Wilsons.

WASHINGTON, March 3.—A dying Congress is about the liveliest dying thing ever seen anywhere. The last legislative day is now on, it will be practically a continuous session of Both House and Senate for twenty-five hours, ending at noon tomorrow. Things have been in a grand rush all the week, and an enormous amount of work has been done. Much legislation will fall, but all of the appropriation bills and everything else that is absolutely necessary will get through. This avoids an extra session of the next Congress, at once, but the President and most of the leading men in Congress believe that one will have to be called inside of five or six months. The action of the Senate in reducing the number of warships authorized to be built by the Naval appropriation bill is not popular, but the reasons given by the Senators are logical and sound. They say that it would be impossible to even begin work upon more vessels than are provided for within three or four years and that it was needless to appropriate money to build them so far ahead of when they can be built.

The months of the politicians are fairly watering over the Census bill, now a law. It makes the Census Bureau a part of the Interior Department, but gives its Superintendent exclusive control over all appointments. The Nicaragua Canal is provided for in the River and Harbor bill, although there was danger for several days that the entire River and Harbor bill would fail. The canal amendment does not appropriate the entire amount to construct the canal, as it did when first adopted by the Senate, but only provides for the beginning of the work but as it virtually commits the government to building the canal there are few objections heard from those who have been advocating the canal for years.

No one need be surprised if months before it there is a formal exchange of copies of the ratified treaty of peace between representatives of the United States and Spain. If the administration ever was in a hurry to close this matter, recent expressions of Congressional opinion have caused it to see the desirability of delay. Opinions have been expressed by members of all parties that the President will have no authority to continue a military government in the Philippines any longer after peace with Spain has been officially proclaimed than would be necessary to get Congress together and submit to it the question of providing a government. Although it is contended by members of the administration that it would be perfectly proper for the President to continue the military control of the Philippines after the treaty of peace takes effect, until Congress meets in regular session and decides what sort of a government shall be given the islands, the President may decide to avoid the charge of usurping authority not properly his in the easiest way, which would be by simply postponing the time for the treaty to take effect, or calling an extra session as soon as he allows the treaty to go into effect. The treaty has not yet been ratified by Spain. After it has been ratified both countries will appoint Commissioners to make the exchange of ratified treaties. President McKinley can delay appointing the American commissioners as long as he may see fit to do so.

There is a class of men who never give anybody credit for doing anything without an expectation of gain, and it is quite numerous in Washington. Those men say that the German government has ordered its warships away from the Philippines and placed the Germans on the islands, and their interests, under American protection so as to be sure of making the government financially responsible for damage done to property owned by the Germans, either by the Filipinos or our troops. Even supposing that to be true, the action of Germany is still a good thing. It removes the danger of a conflict between Germans and Americans, which might have been precipitated at any time during the last ten months by a foolish minor officer on either side, and which everybody knows would have led to a costly and bloody war, which neither country desires. And this government was probably responsible, anyway, for all damage done to the property of foreigners in the Philippines, although some think that the responsibility lies with Spain until after the treaty of peace goes into effect.

The general tendency of the evidence given before the Miles Court of Inquiry this week, has been to condemn the canned beef issued in Cuba. Beef men testified that only cold air was used on refrigerated beef.

The army bill, as adopted, isn't safe factory to anybody, but its failure would have made an extra session, and members of all parties displayed fear of being responsible for an extra session. Although the bill provides for an army of almost 100,000 men for two years from next July, it is certain that there will be a new army bill at the next session of Congress; it will be necessary, regardless of the number of men needed, to correct the known faults in this measure.

A Narrow Escape. Thankful words written by Mrs. Ada E. Hart, of Groton, S. D., "Was taken with a bad cold which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time, I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me and thank God I am saved and now a well and healthy woman." Tried bottles free at F. S. Duffly's Drug Store.

Regular size 50c and \$1.00 guaranteed or price refunded.
