HORN OF INDUSTRY.

More Cotton Mills And Other Enterprises Starting.

Bar Association Election. Eroy Reports. The Silk Mill at Ashley. Telephone Company Again. Police. The Wilson Case.

RALPH, July 9.—A company has been organized in Winston to build a \$1,000,000 cotton mill at Haywood, Haywood county. The directors chosen are: Colonel F. H. Eades, of Salem; B. N. Duke, of Durham; E. J. Reynolds, of Winston; W. C. Rahn Haywood, near Erics; and Rufus Holt 880 shares each; and Messrs. Duke and Reynolds 370 each. Work has been commenced on the enterprise.

The R. J. Reynolds Tobacco Company which was recently reorganized, a majority of the stock being bought by members of the Continental Company, bought a fine piece of real estate in Winston for \$15,000. On the lot is one large tobacco factory and two small ones.

The North Carolina Bar Association ended its first annual meeting at Morehead City with a banquet. It elected the following officers: President, Charles F. Warren, Washington; Vice-president, Thomas G. Skinner, Thomas N. Hill, L. L. Smith, J. M. Monroe, S. H. Macrae, Charles W. Tillett, Charles Price, Robert O. Barton, L. M. Witherspoon, M. H. Justice, A. M. Waddell, Cyrus B. Watson, secretary and treasurer, J. Crawford Biggs, of Chapel Hill.

The North Carolina report on the condition of crops June 30, based on returns from over 1,000 correspondents is summarized by the Agricultural Department. It gives the following percentages of acreage and condition, as compared with last year: Cotton, 88 per cent acreage, 90 per cent condition; corn, 101 1/2 acreage, 93 condition; tobacco, 105 1/2 acreage, 91 condition. The increase in tobacco acreage is in the East. The yield of wheat is found to be 78 1/2 per cent of average crop, and that of oats 90 1/2 per cent.

Arrangements are made to form a company to develop and operate the water power and minerals on the J. M. Beck property, near Lockville. The company is now formed and is named the Cape Fear Power Company. Its capital is \$475,000. It will develop the power at Lockville, Buckhorn and Battle Falls (of electrical operation of industrial plants, Richmond and Durham capitalists are the owners. W. M. Morgan, of Durham, is president; J. S. Carr, vice president; R. P. Gray, of Greensboro, secretary and treasurer. The company owns 8,000 acres of land. It will own and operate cotton and other mills. It has contracted to furnish power to the Sanford cotton mill.

The executive board of the penitentiary decided to issue warrants on the state treasury to pay all the employees at the eight farms their back salaries, from October 1, 1898, to January 1, 1899, and from March 7th of this year to July 1st. It will require some \$20,000 to do this. They drew warrants for \$11,000 of the amount. The executive board and Superintendent Day have gone to the Calcedonia farm, near Weldon, this being one of the two leased farms which will be purchased before this year ends.

Wilson has been very much excited over the arrest of Messrs. Brooks and Cooper, furniture dealers on the charge of incendiarism. These young men came to Wilson highly recommended and from Plymouth, where they had been in business during the past several years.

The Insurance Commissioner Young went to Wilson to investigate the cause of the fire and he deemed the evidence sufficient to have both parties arrested.

The case was brought before Magistrate Lancaster. Many prominent citizens who were in the building during and immediately after the fire, were examined. After a thorough examination Mr. Lancaster ordered their release.

The State charters the Belle Hanscom Mining Company, of Hendersonville, capital \$500,000, H. J. Pallen, D. D. Battle and W. F. Wright being the principal stockholders. The Asheville Land Company is also granted a charter. Its capital is \$10,000 and W. T. Weaver, J. L. Wagner and others are stockholders.

Robert C. Strong, an attorney of the Southern Bell Telephone Company has filed notice of appeal with the corporation commission from its order fixing the rates of rental of telephones.

Mr. George T. Winston replies to the official notice of his election to the presidency of the Agricultural and Mechanical college, accepting and pledging his best efforts to advance all its interests.

The Atlantic Coast Line railroad has brought to the Ashley silk spinning mill a large and beautiful Corlies engine, to be put in place immediately, and this will be followed by other machinery to keep pace with the rapidly approaching completion of the building, which is now up in its third story, and will be an imposing structure. Not far off a great force of workmen are busy on the Taylor Hall and Haywood factory, which will have 2,000 square feet in each floor, and comprise a commanding position overlooking the beautiful old town.

TRUST BUYING.

Negotiations To Purchase Tobacco Warehouses At Winston.

The Railroad Appeal Case. Elliott Still in Johnston. Raleigh Fire Department Test State Bond Issue. Splenic Fever. Disease Spreading.

RATON, July 10.—Mr. George Lea, of Danville, Va., has been in Winston interviewing the tobacco warehousemen with a view to buying their business. He was not given any encouragement.

He called on the proprietors of the four warehouses, all of whom told him that they did not have any proposition to make him, in fact, they did not care to sell. Mr. Lea asked one firm to make a price on its business and then give him an option on the same. This was promptly declined.

Representatives of the four houses say that they do not wish to sell, and that no definite bid was made them. One warehouseman said Mr. Lea was rather uncommunicative, especially when asked whom he represented.

Judge Brown will hear at chambers at Oxford July 28 the interesting case growing out of the judgment of the Superior Court in the suit of an ice company against the Seaboard Air Line for the alleged burning of its factory. It will be remembered that a verdict for \$20,000 damages was given in the Superior Court here and that the railroad appealed, but its attorney did not file the appeal papers in time, according to the claim of the attorneys on the other side. One of the railroad attorneys says he has entire confidence that he will get the case before the Supreme Court. The attorneys on the other side say they think the case is ended and that it cannot be revived.

Deputy Revenue Collector Adams made a lively raid in Johnston county last Saturday and bagged no less than three illicit distilleries. Johnston is getting to be a top notch moonshine county and during the past twelve months as many as 25 of such stills have been destroyed.

A fire department test here showed the promptness of the firemen. An alarm was sent in from a new box, without any hint in advance, the box being seven blocks from an engine house and in three minutes the hose wagon had made the hydrant and had water on a hook and ladder truck from the same house being also on the spot. The department is cheap as well as effective. Its cost this year is only \$6,000, this including enlargement of buildings.

The Executive Board of the penitentiary has requested State Treasurer Worth to issue at once \$60,000 of 4 per cent bonds to raise \$63,165, with which to buy the two "Calcedonia" farms on the Roanoke river, near Weldon. These farms were first leased 10 years ago. The State has ever since had an option on them, at the price above named. There are 7,300 acres in these farms. There are few as fine farms in the south. The State has expended many thousands of dollars upon them and they are worth at the very least \$125,000 including the improvements.

The stone for the pedestal of the Vance statue was selected yesterday and is pink granite, North Carolina stone, from one of the Piedmont counties.

It is said that a French artist is to make the bronze statue of Ensign Worth Bayley, which is to stand in the capital square here.

Next Saturday the Farina Flouring Mill Company here will invite proposals for building a 25,000 bushel elevator.

Dr. George T. Winston, now in Texas, in telegraphing his acceptance of the election to the presidency of the Agricultural and Mechanical College here pledges his best efforts to advance all its best interests.

Muck rain has fallen and the drought has ended in all parts of the State.

Effective work is being done here in both road and street improvements. The supply of granite is unlimited. The city gets granite from the quarry where the stone used in building the capital was taken. The deeper the quarry the better the stone. The stone in the capital is blotted. It was in no case taken from a greater depth than 15 feet. The quarry has now a depth of nearly 60 feet.

Dr. Cooper Cortice, State veterinarian in Alamance county, examining the head of a cattle on the farm of J. A. and W. S. Long. Eight of the cattle have died. It is believed of splenic fever.

State Geologist Holman says that he is in favor of the development of this great disease in various parts of the State, owing to the constant driving of cattle

from one section to another, from the woods to the pastures and from the "range" to the "cows."

The Commissioner of Agriculture was today also notified of sickness among the cattle at the farm of Richard H. Battle, Esq., six miles from Raleigh. A fine bull and cow are very sick and the others are "drooping."

Commissioner Patterson has gone to Charlotte to attend the road convention. He requests that information be sent here immediately of any sickness among cattle, so an expert can be sent. There is no charge. Prompt news is wanted. Literature on the subject will also be mailed to persons whose cattle are sick. There will be great loss unless there is prompt action. The disease is caused by the boophili byria, or southern cattle tick. The disease is known as splenic, or splenic, or southern, or Texas fever.

TOBACCO - TWINE!

I have JUST RECEIVED from the Mill a lot of Genuine TOBACCO TWINE and you can have what you want of it for 15 CENTS PER LB. OF 16 OUNCES. Full weight, not a so-called pound like you get when you buy knitting cotton which weighs only about eleven ounces. It will pay you to remember that when you go to buy your twine.

I also have a large and Well Assorted Stock of

GROCERIES AND PROVISIONS

which I can sell as low as any one. I make a specialty of Cheering Tobacco and it will pay you to examine my stock before buying your Tobacco.

Good Stables and Shelter for Huggies and Cows which you are welcome to use Free of Charge.
