NUMBER 44.

## RALEIGH.

### Increase In Industries In North Carolina Very Great.

**An Easy Man To Arrest. The Vance Statue. Big Baptist Meeting. American Bar Association. Maj. Wilson Appointed. Recruiting For Philippines Satisfactory.**

RALEIGH, Aug. 23.—From 1890 to 1898 North Carolina's population has increased 197,000. In this length of time the increase in the number of bushels of corn raised is 9,000,000 bushels, while in oats it is 2,000,000, and in wheat 1,000,000.

In the manufacturing line North Carolina had made a commendable advance. The increase in the number of manufacturing enterprises is 3,957; capital invested, \$32,000,000; number of employees, 36,214; wages paid, \$7,090,000; raw material consumed \$22,000,000. Total product, 40,000,000.

Ten thousand people are attending the old Baptist Association, which convened Saturday morning at Wolf Island church, one and one-half miles from Reidsville. A number of the best known Baptist preachers in the State are present.

There was rather a strange arrest made here. A man by the name of John Campbell came here, and went into the jail to see his brother, who was arrested here about a week ago. After the man was inside the officers recognized him as a man for whom they had a capias. The doors were quietly locked, and the visitor became a prisoner.

The improvements that are being made at the blind asylum here will be completed by the middle of September. The school will open with a good attendance.

The Standard Gas and Electric Company will put in a ten inch main in ten of the streets here.

The State Library has been closed for a week or so, so that Mr. Wylie, who is classifying the books, can do so without any interruptions.

Mr. H. J. Elliott, the artist who secured the contract for the Vance statue, has filed with Mr. Joseph G. Brown, president of the Citizens' National Bank his bond for \$700, as a guarantee for the faithful and satisfactory execution of the contract.

The American Bar Association meets at Buffalo Litch Springs next week North Carolina, and Raleigh especially, will be well represented.

A brakeman on the Southern Railroad has sued that road for \$500.00 damages on account of a broken leg that had to be amputated at the hip joint. The suit is brought in Mitchell, Johnston county.

A telegram was received here saying that the investigating committee will meet at the Northampton penitentiary farm tomorrow, September 1, against whom are so many charges of cruelty, was the superintendent of this farm.

The report that Judge Parnell has requested the resignation of Clerk Fountain and will appoint Mr. Geo. Green, of New Bern, his successor, is said by the publicans here to be true. The reason that Fountain is to be bounced is because his creditors have made complaint.

One of the Federal prisoners, Wright, sentenced to the Raleigh penitentiary for five years, has been caught. He hid under a boiler inside the prison and failed to get out.

Capt. R. B. Glenn is in Asheville to represent Key & Co., of Statesville, whose whisky establishment was seized by revenue officers a few days ago. He will also visit Washington and see the Commissioner of Revenue in the interest of the firm.

Mr. R. D. W. Connor, son of Judge Connor, of Wilson, has been elected teacher of the eighth grade of the West Winston graded school. He will accept. He was graduated from the University with high honors last year.

The Salem Iron Works and other manufacturing enterprises will make exhibits at the Philadelphia Industrial Exposition.

Major R. E. Wilson, of Winston has been appointed paymaster general by Major General J. S. Carr, for the North Carolina Division of Confederate Veterans. Major Wilson still wears the grey uniform.

Lieutenant Settle thinks that the dispatch from Washington suggesting that there was no unwillingness among Carolinians to enlist in the Philippine war was without the sanction of the War Department. He believes that the recruiting officers in this State have sent more than North Carolina's quota of soldiers.

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by F. S. Duffy & Co.

## Dewey In France.

VILLEFRANCHE, France, August 22.—The United States cruiser Olympia arrived here at 8:25 this morning. The usual salutes were exchanged.

Admiral Dewey is apparently in excellent health. He will stay at a hotel for a week and will take part in as few functions as possible.

## WILL DURHAM REPEATED?

Would Have a Precedent in Doing So if the Oxford Case is Upheld by the United States Supreme Court.

DURHAM, August 23.—Mr. J. S. Manning, of this city, leading counsel for the Union Bank, of Richmond, Va., in the noted Oxford bond case, which was recently decided adversely to the bank, has been notified by the bank people to appeal from the decision of the Circuit Court of Appeals to the United States Supreme Court. The United Circuit Court decided in favor of the bank and against the town, but the Circuit Court of Appeals reversed this decision. This case involves the validity of \$20,000 bonds of the town of Oxford, issued in aid of Oxford & Coast Line Railroad. The courts hold that the bonds are invalid because the "yes" and "noes" were not recorded on the second and third readings of the bill, as required by the constitution of North Carolina.

This decision was the first case, in which the Supreme Court of the State passed on this point, and but for it the vast population of bonds all over North Carolina, as evidenced in the noted Stanly county case, and the Wilkes county and Blount county cases, would, in all probability, never have been heard of. It is estimated that over \$1,500,000 of bonds, issued by the various towns and counties of North Carolina, are null and void if this decision of the Circuit Court of Appeals and the decision in the Stanly county case are sustained by the United States Supreme Court.

The question here now is will the county and town of Durham catch the repudiating fever and refuse some of her bonds? The circumstances connected with the issue of \$2000 bonds to aid the Lynchburg & Raleigh Railroad, are identical with the Stanly county case. If this case is sustained in the nation's highest court it will be left up to Durham with the authorities here whether they pay off the bonds or not. It is the opinion of a certain here, however, that the bonds would be paid by the town, even if the courts were to declare that there was no way to prohibit the authorities from repudiating their obligations.

## FIGHTING GOING ON.

Philippine Making a Good Fight With Foreign Forces.

MANILA, Aug. 22.—The Filipino insurgents appear to retain much more of a fighting spirit than might be expected after their recent San Fernando experiences and General Lawton's drubbing in the south.

After getting up San Fernando with a feeble struggle, they entrenched themselves at Angeles, working for several days and impressing non-combatants into the work, thus saving the armed men for the fighting.

They engaged Lieutenant Colonel Smith's regiment and the artillery warmly for four hours, making one of the most stubborn resistances of the campaign.

In the province of Cavite, where it was supposed the rebels had been scattered and demoralized beyond recuperation, they have assembled an army of several thousand men distributed among the important towns from the lake to the bay. After the San Fernando engagements the rebels attempted to deter the Americans from a further advance northward by manning the railroad communications.

## Germany Has No Papers.

HAMBURG, August 22.—The Hamburgische correspondent discussing the assertion that Germany should publish certain documents proving the innocence of Dreyfus, says:

"The answer to this is that documents of this nature cannot be produced for the simple reason that Germany never had anything to do with Captain Dreyfus."

## To Buy Cotton Mills.

FALL RIVER, Mass., August 22.—The treasurer of all the cotton cloth mills today received letters signed by Nelson S. Green of New York, making a formal offer for the purchase of the properties, either for cash or part cash and part stock in a new corporation to include all of the mills. No price list accompanied the offer.

Hamilton Clark, of Chauncey, Ga., says he suffered with itching piles twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. F. S. Duffy.

## The Transvaal Reply.

LONDON, August 21.—The secretary of State for the Colonies, Joseph Chamberlain, has received the text of the Transvaal's reply to the proposals of the British government and now has them under consideration. The members of the cabinet are within reach, but until the government has determined on what course to pursue, Mr. Chamberlain is unwilling to divulge the contents of the message from South Africa.

## CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of *Dr. J. C. Ayer*

## RALEIGH.

### Candidates Lacking For Governor On The Republican Ticket.

**Convicts On The Roads. 22 New Cotton Mills This Year. Mt Airy's Military Company Benbow Property Sold. Tobacco Warehouses-Reservoir Burst.**

RALEIGH, Aug. 24.—The Republicans are at sea as to who will be their candidate for Governor. Loge Harris says the nomination will go begging and that some one will have to be forced to take it. He says the action of the Populists depends upon national issues and that they will try to steal a march on the Democrats.

Up to date 141 men have been enlisted by Lieut. Settle, U. S. A., for the regulars and volunteers. Of these 67 chose the volunteers. At present more are enlisting for the volunteers than for the regulars, though but a little while ago the reverse was the case.

Seventy-three convicts are now at work on the roads in what is known as the Raleigh road district. The have so far built 23 miles of macadam road and 11 of gravelled. The roads reach six miles from Raleigh.

Republicans say that it was Governor Russell who urged Senator Pritchard to have Jim Young, colored, appointed postmaster at Raleigh.

Despite pursuit and search, only two of the twelve Federal, State and county convicts who escaped Monday have been found.

So far this year 22 cotton mills have been granted charters by the State, as follows: Gaston, 1; Rockingham, 3; Davidson, 1; Forsyth, 1; Alamance, 3; Lincoln, 2; Richmond, 1; Moore, 1; Edgecombe, 2; Cleveland, 1; Halifax, 1; New Hanover, 1; Wayne, 1; Cabarrus, 1; Cumberland, 1; Guilford, 1.

Upon the arrival of the Adjutant General, it is understood that an order will be issued disbanding the Mt. Airy company of the Third Regiment of the State Guard. This is the company whose captain behaved so outrageously in ordering the arrest of a citizen and who is in jail.

The financial committee of this city has adopted a novel plan to collect taxes earlier than usual this year. Those who pay in September will be given 1 per cent off, in October 4 per cent, in November nothing will be deducted and in December the penalty will be imposed.

The Benbow House property at Greensboro was sold yesterday to Jordan, Sinclair & McDonald for \$300,000. The members of this firm say that they wired Capt. Fisher, at Washington, that they would purchase, and though they have not heard from him, they say they have a right to consider the sale closed on their tender of the purchase price.

A new North Carolina Insurance Company—the Oriental—will be organized at Asheville.

One of the promoters of the Danville warehouse trust admits that the "combine" is getting a little shaky. Confidence is expressed that the combine will go to pieces in a short time and that the warehouses will go back into the hands of the first owners.

Judge Brown has been making it lively for the twenty odd persons indicted for retailing whiskey in Greensboro. Most of them received a sentence of six months on the county roads. The other will probably get a similar sentence.

The reservoir of the Salisbury Cotton Mill burst Tuesday night about 10 o'clock with a loud explosion, about half of it being destroyed. Heavy masses of masonry were landed fifty feet away and water went thirty feet high. The damage is estimated at between \$1,000 and \$1,500. The reservoir was twelve feet high and fifty in diameter, with twenty inch sides of brick and cement.

The remains of Dr. Greasy left Winston on special train at 2 o'clock Wednesday for Mount Airy, where a short service was held late in the afternoon and the body laid to rest in the cemetery. The members of the family, several ministers and about 30 sympathizing friends accompanied the remains.

Irritating stings, bites, scratches wounds and cuts soothed and healed by DeWitt's Witch Hazel Salve—a sure and safe application for tortured flesh. Beware of counterfeits. F. S. Duffy.

## HEARST'S MINE A MINE.

Got \$3,500,000 For A Third Interest In Homestake.

MINNEAPOLIS, Minn., Aug. 22.—A special from Deadwood, S. D., says, "The Hearst interest—one third—of the great Homestake mine, of this city, is to be sold in London next month. The details of the deal are all made.

The mine is valued at about \$9,000,000, and is capitalized at \$1,500,000. It has paid dividends of \$7,723,300 and is under stood to have a ground opened to insure dividends of \$63,000 monthly for the next 20 years.

The Hearsts got about \$3,500,000 for a third interest in Homestake alone, and it is supposed that the same interest in Deadwood-Terra and Highland will go also.

HUMORS, boils, pimples and all eruptions are due to impure blood, and by purifying the blood with Hood's Sarsaparilla they are CURED.

ROYAL BAKING POWDER CO., NEW YORK.

## THE COURT MARTIAL.

The Prosecution Very Flimsy. M. Labori At His Post.

RENNES, August 23.—The session of the Dreyfus court martial here today was comparatively uneventful. The depositions were not productive of any really thrilling incidents. The systematic production of the flimsiest trash, which the prosecution deems profitable to inflict on the judges and which the latter accept as evidence, was proceeded with. Much of the ridiculous testimony of the morning was devoted to an attempt to blast Dreyfus' private character, though when Maîtres Labori and Damange had finished with the witnesses' hot bubbles of title-tattle were badly pricked.

M. Labori again distinguished himself in laying bare the weak points of the evidence. He was less fierce, however, than yesterday, though quite aggressive enough to arouse the latent hostility of the judges, which showed itself in various little ways.

M. Labori bore little traces of the effects of the outrage upon him. He rose sat down and moved his body and limbs apparently without much difficulty. Only occasionally he put his hands to his back as though suffering pain. His wife followed his every movement through a gold and tortoise-shell lorgnette.

## TEXAS COTTON EXPORT.

ST. LOUIS, August 23.—A Post-Dispatch special from Dallas, Tex., says the hot winds of the past month have destroyed all chance of a large Texas cotton crop. Reports from the northern and central sections state that not more than an average of a quarter of a bale will be made to the acre, which indicates not over 2,000,000 for the entire State.

At the Book Store

School Teachers and School Children Attention.

We have just received a full and complete supply of new school books and school supplies recently adopted for all Public, Private and Graded Schools.

Personal and prompt attention given all mail orders.

G. N. Ennett.
