VOLUME XXII.

NEW BERN, CRAVEN COUNTY, N. C. TUESDAY, OCTOBER 10, 1899 -- FIRST SECTION.

NUMBER 57.

ARE THEY LEAVING?

Said That Many Negroes Are Moving To The North.

The Oyster Beds Examination. What Butler Wants. Test Case of Craig Law. Penitentiary Payments. Number of Students and Scholars.

RALEIGH, October 7.—The railroad people here say large numbers of negroes are leaving this section for the north. New York appears to be the objective point of most of them. It is said that as many as 3,500 have left Wilmington in the past eleven months, but the accuracy of this is questioned.

State Geologist Holmes was here. He has been at Washington to procure copies of the surveys of the oyster waters of North Carolina. He got these and they are now on the United States fish commissioner steamer Fish Hawk, which is, as has been stated, making a critical and most important examination of the oyster waters. Some able specialists are on board, among them a biologist.

Congressman Atwater, of this district, is here. When he was informed that Senator Butler had declared against the franchise amendment, he said: "That means that he proposes to fuse the Populists with the Republicans. But he can't deliver the goods."

Insurance Commissioner Young, who has been sick for a month and who has had a relapse, is at Henderson and is improving.

General McCarthy, who again takes charge of the etymological work of the Agricultural Department, said today that for a year past he had been studying at the University of Chicago. He expresses his great pleasure at being back in North Carolina. He was born a deaf mute, but was taught to articulate.

The anti-expectation and anti-telegraph and telephone pole ordinances are the very newest things here. Both are a very good and proper lines.

Revenue Collector Duncan is informed by Deputy Collector Scatterfield, of the seizure of two illicit distilleries.

Considerable interest is felt in the case at Durham to test the question whether the Craig law as to domestication of corporations can prevent the Western Union Company from placing a case in the Federal Courts, the amount involved being over \$2,000. Some lawyers have said that the Craig law would hold; others that it was valueless. Some lawyer said that a case from Louisiana proved that it would not hold water.

Capt. Fletcher, U. S. A., will next Monday assume charge of the cadets at the A. & M. College here. The battalion is to have four companies, with a strength of about 292.

At the Treasury Department today it was said by Chief Clerk Duncan that in August the penitentiary paid \$4,881 into the Treasury and in September \$8,906, and that between February and August it had paid in nothing. Purchasing Agent Arentell, of the penitentiary, who was present, said that between February and August all accounts were kept with a bank. He said the payments made were merely of receipts from incidents; that no cotton had been sold, that the market was being watched and that the sale would be governed by the conditions; that cotton might be held on storage or might not.

This city's public schools open next week. When these and the institutions for the blind and deaf mutes are in operation there will be 4,600 students in the various public and private universal, colleges, schools, etc. This will include those in the seven public schools, St. Mary's, Peace Institute, the Baptist Female University, the Agricultural and Mechanical College, the Roman Catholic school, the Raleigh Male Academy, the institutions for the white blind and for negro deaf mutes and blind, Shaw University and St. Augustine's Normal School.

Today the football team of the A. & M. College goes to the State University to play its team.

President King, Farmers Bank, Brooklyn, Mich., has used DeWitt's Little Early Risers in his family for years. Says they are the best. Those famous little pills cure constipation, biliousness and all liver and bowel troubles. F. S. Duffy.

FILIBUSTERS STILL ALIVE.
Three Friends And Dauntless Leave Florida Mysteriously.

JACKSONVILLE, Fla., Oct. 6.—The tugs Dauntless and Three Friends, made famous in the Cuban uprising by their daring filibustering trips to the island, laden with arms and ammunition for the natives, have again entered the field of public notice by suddenly leaving this port at night with extra supplies of coal, double crews, and the addition of officers of men who were always on hand when a "Cuban trip" was contemplated.

They left here at midnight last night. The few persons on vessels and in saw-mills who noticed the Three Friends going out gave her a vociferous salute on whistles.

A suspicion exists that Santa Domingo is the objective point of the expedition, but no one here could gather any information, as the vessel's officers were dumb as oysters as to their destination.

AGAIN NO RACE.

One Mile From Finish. Columbia In Advance.

Nip and Tuck all the Way Through. Shamrock Finely Handled. Promise of Good Wind But It Died Out.

Special to Journal.
New York, October 7.—The wind was blowing twelve miles an hour at Sandy Hook, with clear, bright skies, and the chances of a race were good, when the preparatory gun was fired at 11:05. At 11:10 the warning whistle on the Judge's boat was blown and at 11:50 the starting gun was fired and the Shamrock and Columbia started on a race which proved a fizzle, the third successive failure of the week.

The Columbia crossed the line at 11:21:09 and the Shamrock at 11:21:19. The Columbia was at the east end of the line and the Shamrock at the west end. The wind dropped to ten miles an hour soon after the start. The Shamrock had considerable trouble with her topsail early in the race.

Shortly after the start, at 11:32 the Shamrock took the wind from the Columbia's sails and passed her. At this time an accident occurred among the accompanying fleet of steamers. The steamer Cambridge attempted to cross the bow of the steamer I once. There was a collision and the Ponce had a hole stove in her bow.

At the end of the first hour the two racers were about. The wind was very light and gradually the Shamrock drew ahead of her rival and obtained a little lead. On nearing the stake boat, or outer mark, the Shamrock changed her course and passed the mark 9 seconds ahead of the defender of the cup. The official time for rounding the outer mark, fifteen miles from start, was 1:39:25 for the Shamrock and 1:39:31 for the Columbia. The reports sent out were very conflicting, the yachts being close together and either one appearing ahead according to the angle at which the observer was placed.

After turning the stake boat it was reported that the Irish yacht outpointed the American boat in beating up against the wind, but the yachts appeared to be close together, each in turn taking the lead.

At 3:02 the yachts were still eight miles from the Sandy Hook lightship. The contest was so close that it seemed that the result would depend on the closest maneuvering and on obtaining the windward position. At the time the Columbia began to gain slightly on her opponent.

The race was called for the limit of time given, 5 1/2 hours. The time limit expired for the Columbia at 4:31:02 and for the Shamrock at 4:31:19. When the race was declared off, the yachts were about one mile south of the finish line. The Columbia had a lead of about 300 yards and in addition had the weather berth.

Experts say that the races should start at seven o'clock in the morning, when there is more chance of the wind continuing. Lifton's yacht again proved a mighty fine boat. She gained 26 seconds on the run to the stake boat. It seems to be the opinion of the yachting tracks that the challenger did better work than the defender in the work to windward. She was also beautifully handled. But there was not much to choose as the racers kept close together during the run.

Eat plenty, Kodol Dyspepsia Cure will digest what you eat. It cures all forms of dyspepsia and stomach troubles. E. R. Gamble, Vernon, Tex., says, "It relieved me from the start and cured me. It is now my everlasting friend." F. S. Duffy.

RIOT ON STEAMER.

Awful Scenes During The Yacht Race on The Georgiana.

Eight Hundred Persons Are Engaged or Witness a Fierce Struggle. Presence of Gamblers The Reason. Many Arrested.

Special to Journal.
New York, Oct. 7.—There was a fierce riot during the yacht race today, on board the steamer Georgiana. About eight hundred persons were aboard at the time. A number of men received cuts on the head and face. The passengers became angry over being fleeced, as all kinds of gambling games and a gang of blacklegs are said to have chartered the boat. These men came from Philadelphia and were led it is alleged by a man named Torbjorn.

Off Liberty light before the scene of the yacht race was reached many passengers were rebuffed by trickery. Captain Henry, of the Georgiana, announced that owing to the condition of the engines and boilers the boat would have to return at once to the city. There had been some fighting previous to this because of the loss of money among those on board, but with this announcement rioting began.

The passenger had paid one dollar apiece, a few more than that, to see the races and demanded that the boat proceed. The captain refused. The angry passengers at once gave vent to their wrath. Some made for the captain, who ran and hid in the coal bunkers. Others charged on the gamblers and seized their paraphernalia. The black legs ran down into the engine room to hide, fighting those who attempted to obstruct their way. Faro, roulette and the chuck-a-luck tables were thrown over board and the tables upon which the games had been conducted on the lower deck were also cast into the sea. The passengers became enraged and decided to take things into their own hands.

Captain Norton, wearing his G. A. R. badge, gathered eight determined men and hunted up the captain of the steamer. They threatened to throw him overboard if they found him but he kept safely out of sight. Then Captain Norton and his next officer in command made him fly the flag under down as a signal of distress. The Georgiana then turned around and was brought back to the city as it was too late for the passengers to see the yacht race except the finish. All way back the lower deck was a scene of fight after fight. A number of women were on board. Screams of terror added to the uproar and many fainted.

The gamblers knowing that the signals of distress would be seen by the police, tried to take down the flags as the boat neared Governor's Island. This was the cause of the fiercest fight of all. With fists, canes and chairs, morton and men fought the gamblers. Many painful cuts and bruises were received, but the black legs were driven back and the distress signals stayed up and they also did the work intended.

From the pier, twenty-five policemen went to the rescue, being taken on the tax Edward B. King. After the policemen had boarded the steamer, Capt. Allaire ordered the vessel to proceed to pier six, North river. Thirty-six prisoners were taken to the station house in New York.

War Sees Advances Freight.

NORFOLK, Va., Oct. 5.—It is reliably stated here that the British Government has chartered 70 ocean steamers for use in transporting men and munitions of war to the scene of the trouble in South Africa. Thirty of these vessels are stated to be in the North Atlantic trade. The draft upon the tonnage draft resulted today in a great advance here in ocean freights.

It is believed that of the vessels called for by the British Government several are transatlantic passenger liners. Further agencies are expected, and shipping agencies here have been advised to refuse to contract for ocean freights for the present.

NERVOUS troubles are cured by Hood's Sarsaparilla, which enriches and purifies the blood. It is the best medicine for nervous PEOPLE.

Dewey Will Go.

WASHINGTON, October 9.—Admiral Dewey left Washington for New England today. He will return in about two weeks. He made a Georgia delegation happy by replying as follows to their invitation to go to Atlanta to participate in the ceremonies attending the presentation of a sword to his flag officer, Lieut. Brumby, who is a Georgian: "I have certainly, gentlemen, I'll come. I have no engagement, which will prevent my going to Atlanta about November 1, and I'll be glad to present the sword myself to Lieut. Brumby."

RALEIGH.

Interesting Case of a Soldier Boy Who Marries.

The Fees For Solicitors. Jarvis Says No Brick Making is Profitable. The Craig Law Holds Water.

RALEIGH, October 9.—Lieutenant Settle, U. S. A., recruiting officer for North Carolina, says Lieutenant Harden, of the Forty sixth Regiment, will leave Charlotte next Monday for South Framingham, Mass., with 16 men. One of his recruits is dropped for having testified when enlisting that he was unmarried, it being found that he has a wife and child.

Lieutenant Settle tells of an interesting case along the same line. Fletcher Barrow, who was in Company K of the First Regiment, in service last year, enlisted again September 30th at Greensboro, Haw River being his home. October 24 he got leave to go home, as he said, to get his uniform. But instead married. He was fully aware of the fact that he had no authority to marry. The first known of the marriage was the appearance of his wife, a very pretty girl of 17. He had as soon as he was married run away and left her. She told Lieutenant Settle she was fatherless and had no other support than her husband. She did not raise any row, but simply said she would not give him up. Barrow is a pretty bad boy, and the Adjutant General of the army is asked what sort of an example shall be made of him. He was a good soldier last year, and is a man of intelligence.

Several solicitors have asked whether under the law they are not entitled to fees for attending civil terms of the Superior Court. Auditor Ayer preferred the matter to Attorney General Waiser, who today gave his opinion, holding that they are entitled to \$20 for each civil term; that section 88 of the Code requires them to inspect the office of clerk of the Superior Court at each regular term, failure to do so being punished by a penalty of \$500. The act was ratified in 1879 and at that time there were no civil terms as distinct from criminal terms.

Shaw University, colored, opens with 280 boarding students. President Messers says this breaks the record at the opening.

Ex Governor Jarvis is here and says he feels sure the constitutional amendment will be ratified by a handsome majority.

It is strange that so little attention is paid to brick making in this State. It is said here that the clay is worth more than the timber which grows above it and in which the trade is so important. The methods in vogue are primitive. An Indiana brick maker says it costs him only 70 cents a thousand to turn out brick.

There are now six unattached companies in the State Guard. It is thought that the location of these will be settled; that three or four will be assigned to regiments and two or three disbanded.

Judge Brown, of the Superior Court, has rendered a decision on the important case in which the Western Union Telegraph Company sought to remove a suit in which the amount involved was over \$2,000, contending that the Craig domestication law did not apply in such a case. Judge Brown holds that the law had the effect of making a domestic corporation out of a foreign one and that the company cannot remove a case from the State to the Federal Court on account of diversity of citizenship. The company appealed to the State Supreme Court and will naturally, if the decision be adverse, take the case still further.

Judge Purnell has discharged from the penitentiary, Joseph Bess and Bud Faris, Federal convicts from Gaston county who were sentenced to the penitentiary here for eighteen months and had served fifteen, holding that the legislative act of this year is retroactive and that by good conduct they had under its provisions gained three months time commutation.

Millions of dollars, is the value placed by Mrs. Mary Bird, Harrisburg, Pa., on the life of her child, which she saved from croup by the use of One Minute Cough Cure. It cures all coughs, colds and throat and lung troubles. F. S. Duffy.

PRAYER OF FILIPINOS.

Wants Democracy and Mr. Atkinson to Win.

MANILA, October 8.—Aguinaldo, in a proclamation announcing the release of American prisoners and authorizing Filipino soldiers in the northern province to return to their homes, says:

"In America there is a great party that insists on the Government recognizing Filipino independence. That party will compel the United States to fulfill the promises made to us in all solemnity and good faith, though not put into writing. Therefore we must show our gratitude and maintain our position more resolutely than ever. We should pray to God that the great Democratic party may win the next Presidential election and imperialism fall in its mad attempt to subjugate us by force of arms. There are some Americans in the Philippines who have joined us, because they disapprove a war which Mr. Atkinson and his criminal aggression. When offered a chance to return to their own camp they declined."

Throughout the proclamation Aguinaldo denounces "the imperialists" instead of "the Americans," as in former documents. He calls the world to witness that the Filipinos have not broken "the alliance made with the Americans" through Admiral Dewey and the United States Consul at Hongkong and Singapore. Aguinaldo states that the Filipino people, on seeing the American prisoners, cried out:

"We do not want war against the United States. We only defend our independence against the imperialists. The sons of that mighty nation are our friends and brothers."

WAITING ON THE BORDER.

British and Boers Close to Each Other. Parliament Will Return.

LONDON, Oct. 8.—Whatever may be the result of Great Britain's controversy with the South African Republic, every department of the Government today is as busy as if actual hostilities had begun.

At Woolwich it is said that 95 per cent. of the reserves will be fully equipped within six days. In the meantime the members of Parliament are arranging to return to London.

The most important news from South Africa comes from Mafeking, where twice on Saturday the British camp was aroused, the men stood to their arms, guns were limbered and patrols were dispatched in the direction of the border. No hostilities have occurred as yet, but the Boers have moved practically to the border, 8 miles from Mafeking, in force estimated at least 6,000, comprising five commands. The garrisoning and fortifying of the town are practically completed. The streets are barricaded and a system of mines has been laid.

Two armored trains have arrived at Mafeking, consisting of three bullet-proof cars, the first of which carries a searchlight, while the sides of the other cars are loop holed. Each train is complete in itself and carries its own provisions.

Experiments with lyddite in the mines prove that it is an extremely powerful explosive.

"If you scour the world you will never find a remedy equal to One Minute Cough Cure," says Editor Fackler, of the Micanopy, Fla., "Hustler." It cured his family of La Grippe and saves thousands from pneumonia, bronchitis, croup and all throat and lung troubles. F. S. Duffy.
