MATTER OF EFFORT, NOT RESOLUTION.

At the meeting of the North Carolina Press Association last summer there was a resolution presented and adopted to the effect that the Association was opposed to the effect that the Association was opposed to...

Less than a year has passed, and the Press of North Carolina, as well as the Press of this entire country is confronted by a trust which not merely threatens, but it continued without any opposition...

Was the resolution passed last year by the Press Association a mere jingle of words, or was it meant for business, that is the important question...

In this attack the first trust to be considered is the one which menaces the life of the newspaper and that trust is, the International Paper company.

The day for resolutions has passed the time for united and continued effort is at hand, and this effort must be made by the Press through Congress.

Let a new paper in Philadelphia be published in the world in favor of this, and it means the heavy hand of Wamamaker will reach out to crush it.

Let a newspaper in Philadelphia say anything against the ex Postmaster General, and it will feel in a moment the hand of the Wamamaker hand.

An illustrative of the Wamamaker method in politics, the following from the Washington correspondence in the Cleveland, Ohio, Leader, is a good sample.

"Two weeks ago a luncheon given in honor of Henry Irving, in Philadelphia, a political writer employed on a newspaper in that city took occasion to remark while Gov. Stone was responding to a toast 'The governor is all right...'

"One Philadelphia newspaper is supporting Quay. It receives a foreign news service from a New York newspaper. Wamamaker has a store in New York as well as in Philadelphia...

Will it undertake and successfully carry it out, and thus establish itself as a counterweight to the people against the oppression of a trust?

Is the Press to be true? Then let it act and at once.

NOT A FIGHT WITH BOERS, ONLY.

The Anti-British American whose sympathy and applause is for the Boers, ought not to lose sight of the fact that the war being waged in South Africa, is not one so much for the assertion of Boer rights...

The Quay style of politics may be odious, but the Wamamaker class is vastly more offensive, as under the cloak of respectability, it fears not to commit dishonorable acts.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable...

The South African War has and is attracting to the Transvaal great numbers of soldiers of fortune, men who imagine that in this contest, where the possession of vast mineral wealth is involved...

There can be no doubt that France, Germany and Russia have given quiet permission to some of their leading soldiers to take sides with the Boers.

MORGAN'S SPEECH.

Stands up Against Pritchard on the Side of White Men.

The Two Races Contrasted. Law of Self Defense. The Philippine Question up Pettigrew and Lodge Debate

WASHINGTON, January 8.—The resolution heretofore offered by Mr. Pritchard concerning racial restrictions on suffrage was modified by him so as to provide that any State enactment confining the right to vote to those descended from certain persons or classes of persons is in violation of the Fourteenth and Fifteenth amendments to the Constitution and repugnant to Republican institutions.

BULLER ATTACK.

At Camp. Dr. Bivert. The Boers During The Ladysmith Assault.

BOER, Jan. 8.—The Daily Mail has received the following dispatch from South Africa: From a Camp, Natal, Jan. 6.—Firing was going on all day at Ladysmith. A determined attack was made on the position by the Boers in large force from several directions. The Boers were repelled all along the line.

The hearing of the A. J. Marshall counterfeiting case was of peculiar interest. Marshall was on the witness stand several hours and was a very fine witness. His testimony was given freely and evidently had a marked effect on the jury.

Mr. Pettigrew succeeded in stirring up considerable activity in the Senate during the discussion of his resolution of inquiry in the Philippine question. Some sensational statements were made, among them Mr. Pettigrew's declaration that this Government had attacked its allies and thereby had been guilty of the grossest treachery.

This statement was resented warmly by Mr. Lodge, who declared that this Government had nothing of the kind, and that, not even remotely, had it recognized the so-called government of the Philippines.

"If we had attacked an ally," said Mr. Pettigrew, "it is important that the representatives of the people in Congress should know the facts and at once. I believe we have been guilty of gross treachery. I believe we have gone further in dishonor toward an ally fighting with us than any other nation ever went."

Mr. Stewart thought this was past the time for a discussion of how the insurrection began. "It has begun," said he, "it is now my country's cause, and I do not propose to admit it is a wicked cause."

Mr. Lodge said he could not even by silence admit that the statements of Mr. Pettigrew were accurate. "I do not believe we attacked an ally," said he. "I am sure we never recognized the Filipino Government. They had no government except the government of a dictator set up by himself to impose his authority upon other tribes. The President has acted throughout in conformity to the law, and the facts will uphold his course. These facts I am in favor of having placed in the hands of all Senators. They will strengthen the hands of the Administration."

ARIOSTO'S COTTON.

Two Thousand Bales Taken to Norfolk. Small Fox Report.

NORFOLK, Va., Jan. 8.—Reports sent out about the existence of small pox in Norfolk and Portsmouth are, according to the health authorities, very much exaggerated. Newport News, it is learned, is enforcing a quarantine against Norfolk. This is interesting in view of the statement that the only case of small pox known to have been transported between the two cities was that of Captain Edwards, who arrived here last week with smallpox contracted at Newport News. The local health authorities state that the disease is being rapidly stamped out.

The steamer Comet, a stern wheeler, is reported frozen in the ice near Elizabeth City, N. C.

Two thousand bales of cotton from the British steamship Ariosto, stranded at Oronoke, have been brought here by the Merritt-Chapman wreckers. The chances for saving the ship are considered very good.

J. I. Berry, Loganton, Pa., writes: "I am willing to take my oath that I was cured of pneumonia entirely by the use of One Minute Cough Cure after doctors failed. It also cured my children of whooping cough." Quickly relieves and cures coughs, colds, grippe and throat and lung troubles. Children all like it. Mothers endorse it. F. S. Duffy & Co.

MANILA, January 8.—The Bubonic plague is sporadic. There have been six cases and four deaths. Preparations are being made to establish hospitals and for disinfection and quarantining.

Great number of provincial natives are coming to Manila with the result that the city is overcrowded, the overcrowded, underfed and unwashed natives and Chinamen. Americans avoiding direct contact with the disease are safe.

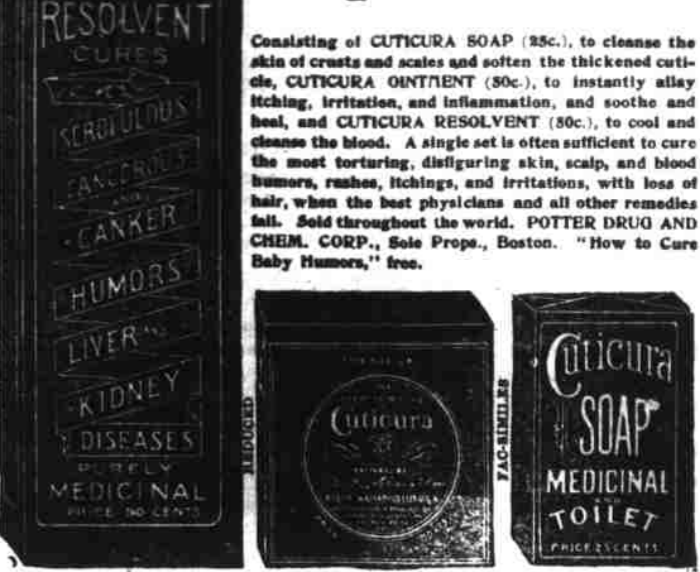

A force of Filipinos charged twelve men of the Third Cavalry, who were scouting behind San Fernando de Lupon. One trooper and three horses and carriages were captured. The enemy fled.

HONOLULU, January 1 (via San Francisco, January 9).—Seven additional cases of plague have developed since last report, making 13 cases in all to date. Three cases were discovered on the night of December 28 and four cases have been reported during the past 24 hours.
