SGROFULA AND ITS AWFUL HORRORS Johnston's Sarsaparilla

QUART BOTTLES. A MOST WONDERFUL CURE.

A Grand Old Lady Gives Her Experience.

Mrs Thankful Orilla Hurd lives in the beautiful village of Brighton Livingston Co., Mich. This venerable and highly respected lady was born in the year 1812, the year of the great war, in Fictron, Washington Co., New She came to Michigan in 1840, the year of "Tippecanoe" and Tyler All her faculties are excellently preserved, and possessing a very rebilive memory, for mind is full of interesting remainscences of her early life, of the early days of the State of Michigan and the Interesting and remarkable people she has met, and the stirring events of which she was a wit-ness. But nothing in her varied and manifold recollections are more marvoluus and worthy of stiention than are her experiences in the use of JOHNSTON'S SARSAPARILLA. Mrs. Herd inherited a tendency and pre-disposition to scrufula, that terribly destructive blood taint which has cursed and is cursing the lives of thousands and marking thousands more as vietims of the death angel. Transmitted from generation to generation, it is found in neary every family in one form or another. It may make its appentance in dreadful running sores, in unsightly swellings in the neck or goitre, or in eruptions of varied forms. Attacking the murous membrane, it may be known as catarrh in the head, or developing in the lungs It may be,

may be known as catarrie in the head, or developing in the range it may see and often is, the prime cause of consumption. Speaking of her case, Mrs. Hurd says: "I was troubled for many years with a bad skin disease. My arms and limbs would break out in a mass of sores, discharging yellow matter. My neck began to swell and became very sores, discharging yellow matter. My neek began to swell and became very unsightly in appearance. My body was covered with scrofulous eruptions.. My eyes were also greatly inflamed and weakened, and they pained me very much. My blood was in a very bad condition and my head ached severely at frequent intervals, and I had no appedite. I had sores also in my ears. I was in a miserable condition. I had tried every remedy that had been recom-mended, and doctor after doctor had failed. One of the best physicians in the state told me I must die of scrofulous consumption as internal abcesses were beginning to form. Lat length was table of Dr. Johnston, of Detroit, and were beginning to form. I at length was told of Dr. Johnston, of Detroit, and this famous Sarsaparilla. I tried a bottle, more as an experiment than any-thing else, as I had no faith in it, and greatly to my agreeable surprise. I began to grow better. You can be sure I kept on taking it. I took a great many bottles. But I steadily improved until I became entirely well. All the sores healed up, all the bad symptoms disappeared. I gained perfect health, and I have never been troubled with scrofula since. Of course an old lady of S3 years is not a young woman, but 1 have had remarkably good health since then, and I firmly believe that JOHNSTON'S SARSAPARILLA is the greatest blood purifier and the best medicine in the wide world, both for scrofula and as a spring medicine." This remarkably interesting old lady did not lok to be more than sixty, and she repeated several times, "I believe my life was saved by JOHNSTON'S SARSAPARILLA."
