A MOST WONDERFUL CURE.

A Grand Old Lady Gives Her Experience.

Mrs Tiansful Ordia Hurd lives in the beautiful village of Brighton Livingston (o. Mich. This veherable and highly respected lady was born in the year 1812 the year of the great war in Hedron, Washington Co. New York. She raise to Machinan at 1840 the year of "Tippecanoe and Tyler All har faculties are excedently preserved, and possessing a very re-"ive memory, or miled is full of threasting remuiscences of her early if is of the early drive of the State of Microgan and the interesting and re-methal is people she has met and the stirring events of which she was a wit-tage. But here of the her varied and mainfold resolicitious are more marto outs and worther of structure tunn are her experiences in the use of JOHNSTONS SARSAU ARILLA. Mrs. Hurd interited a tendency and predispessible to set claim that terribly destructive blood taint which has cursed statis cursing the lives of thousands and marking thousands more as victims of the death single. Transmitted from generation to generation, it is found in neary every family in one form or another. It may make its appentities in disadful running sores, in unsightly swellings in the neck or goldn, or in emptions of varied forms. Attacking the mucous membrane, it may be known as catarrh in the head, or developing in the lungs it may be, and often is, the prime cause of consamption. Speaking of her case, Mrs. Hund says - 'I was troubled for many years

with a bad skin disease. My arms and linds would break out in a mass of sones, discharging yellow matter. My neek began to swell and became very unsightly in appearance. My body was covered with scrofulous eruptions. My eyes were also greatly inflamed and weakened, and they pained me very My blood was in a very bad condition and my head ached severely at frequent intervals, and I had no apportion. I had sores also in my ears. I was in a miserable condition. I had trued every remedy that had been recommended, and doctor after do tor had failed. One of the best physicians in the state told me I must die of sciofulous consumption, as internal abcesses were beginning to form. I at length was told of Dr. Johnston, of Detroit, and his famous Satsaparilla. I tried a bottle, more as an experiment than any-thing else, as I had no faith in it, and greatly to my agreeable surprise, I began to grow better. You can be sure I kept on taking it. I took a great many bottles. But I steadily improved until I became entirely well. All the sores healed up, all the had symptoms disappeared. I gained perfect health, and I have never been troubled with scrofula since. Of course an old lady of S3 years is not a young woman, but I have had remarkably good health Since then, and I firmly believe that JOHNSTON'S SARSAPARILLA is the greatest blood purifier and the best medicine in the wide world, both for scrofula and as a spring medicine." This remarkably interesting old lady did not lok to be more than sixty, and she repeated several times, "I believe my life was saved by JOHNSTON'S SARSAPARILLA."
