AN EXPOSITION OF THE SOUTH'S DEVELOPMENT.

The recent trip of a staff correspondent of the Baltimore News through several of the Southern States, and to write up of the places he has visited, is a notable piece of journalistic enterprise on the part of the Baltimore newspaper.

It is this kind of exposition of the South's resources and development, of the splendid industrial progress and commercial activity shown in cities of North and South Carolina, and Georgia, all written up and fully described by such a paper as the Baltimore News, which is of incalculable value to the sections and cities described.

However much these places be written up at home, there is a distinct difference between these home write ups, and the write ups by an outsider for an outside newspaper.

Local industrial issues, pictorial and descriptive, possess great value when well done, in presenting the claims of such places to the settler or investor.

But as before noted, such write ups coming from an outside source, through practically disinterested channels, possess a separate value.

In this particular the Baltimore News in its descriptions, showing the wonderful development in the South, gives these descriptions and readings of the progress in the South, to a class of readers that would not be reached by the ordinary local industrial issue.

That the sections and cities described by the News correspondent will be greatly benefited, there can be no doubt. The Baltimore News, also, cannot fail to be materially benefited by its enterprise.

NOT A DEAD PROJECT.

The matter of the establishment of a cotton mill in New Bern, may seem on account of its not being publicly discussed, or often noted in these columns, to have fallen through, or been dropped as a possibility.

This is very far from the true situation. The facts as regards the cotton mill project for New Bern, that the payments on the stock subscriptions are being paid in as they fall due, and the Treasurer of the company reports that the stockholders pay promptly when called upon.

This indicates a healthy condition, one in which there is every assurance of success in the establishment of the cotton mill, as projected.

But while this interest is being so well maintained, by the payment upon stock subscribed, there should be no lack of interest shown in other ways, which might lead to a speedier success of the enterprise.

Payment of stock subscribed for is all right, but this may become monotonous, unless these same means employed, public discussion or some other notice, which shall arouse greater local interest.

While the cotton mill project is not dead by any means, let it not become too quiet a matter through lack of open discussion or talk.

TRULY, A REPRESENTATIVE DEMOCRAT

It is often said that only two things are expected of the Congressman elected to his first term in the House at the Nation's Capitol, these two being, to get acquainted with his political duties so as to get a second term in office, and to draw his salary.

The Third Congressional District of North Carolina at its last election, elected a Democrat for a first term, who has proven to have the requirements of a genuine Representative and Democrat.

It is especially gratifying to the Journal, that this Representative of the Third District, is a citizen of New Bern.

Since his election to Congress, Charles B. Thomas has shown an interest in his

Be Careful

No woman can be too careful of her condition during the period before her little ones are born. Neglect or improper treatment then endangers her life and that of the child. It lies with her whether she shall suffer unnecessarily, or whether the ordeal shall be made comparatively easy. She had better do nothing than do something wrong.

MOTHER'S FRIEND

is the one and the only preparation that is safe to use. It is a liniment that penetrates from the outside. External applications are eternally right. Internal medicines are radically wrong. They are more than humbugs—they endanger life.

Mother's Friend helps the muscles to relax and expand naturally—relieves morning sickness—removes the cause of nervousness and headache—prevents hard and rising breasts—shortens labor and lessens the pains—and helps the patient to rapid recovery.

From a letter by a Shreveport, La., woman: "I have been using your wonderful remedy, Mother's Friend, for the last two months, and find it just as recommended."

Medium Desired. "I want to get one of them things, said the old lady, pointing at an assortment of thermometers."

"Yes, ma'am," replied the dealer, "how high do you care to go?"

"Why, not too high and not too low. I want one that'll keep my house just right this summer."

MOZLEY'S LEMON ELIXIR. Regulates the Liver, Stomach, Bowels and Kidneys.

For biliousness, constipation and malaria. For indigestion, sick and nervous headache.

For sleeplessness, nervousness, heart failure and nervous prostration.

For liver, chills, debility and kidney diseases, take Lemon Elixir.

Ladies, for natural and thorough, or easy regulation, take Lemon Elixir. One and \$1 bottle at druggists.

Prepared only by Dr. H. Mozley, Atlanta, Ga.

Graduate. Dr. H. Mozley, Dear Sir: Since using your Lemon Elixir I have never had another attack of those fearful sick headaches, and thank God that I have at last found a medicine that will cure those awful spells.

Mrs. E. W. Jones, Parkersburg, West Virginia.

Mozley's Lemon Elixir. I suffered with indigestion, and dysentery for two long years. I heard of Lemon Elixir, got it, taken seven bottles and am now a well man.

HARRY ADAMS, No. 1734 First Avenue, Birmingham, Ala.

Mozley's Lemon Elixir. Cured my husband, who was afflicted for years with large ulcers on his leg and was cured after using two bottles, and cured a friend whom the doctors had given up of, who had suffered for years with indigestion and nervous prostration.

Mrs. E. A. BEAVER, Woodstock, Ala.

For nervous and sick headaches, indigestion, biliousness and constipation of which I have been a great sufferer, I have never found a medicine that would give such a pleasant, prompt and permanent relief as Dr. H. Mozley's Lemon Elixir.

J. P. SAWYER, Griffin, Ga. PUBLISHER, Morning Call.

Published. That trip to Europe did much to broaden your son Henry's views and polish his manners, didn't it?

I should say so. Instead of saying I'll bet you, as he used to, he now says I'll lay you a wager.

Victim of Home Rupture. "You don't need any medicine, go home and put your heavy clothes on again."

"I can't do it, doctor, my wife's packed them all away in moth balls."

Another Suspicion. "What'd the teacher tell about today?" asked the boy who had run away from school.

"About Samson and the way a lady cut his hair," answered the boy.

"I don't believe it. It's another of the stories these Schley people have gotten up."

MANY CLUBS.

More Than Double Number Organized For White Supremacy.

One In Each Township. Rain Needed. Wheat Crop Harvest Expires At Blind Institution. Marriage On the Quiet.

Special to Journal. RALEIGH, May 18—Francis D. Winston, who is in charge of the formation of a White Supremacy Club in North Carolina, was on Monday at Democratic headquarters in letters announcing the formation of clubs were rapidly organizing. The clubs in Forsyth county, leads, having in its ranks, under the able direction of its chairman, Andrew Joyner, organized in every township. Mr. Winston says that two years ago there were only a few White Supremacy clubs in the State, but that this year there will be one in each of the 100 townships. Of course, some there will be more than one.

The State's officials state that about May 25, the railroads will send the grain now grading at the Aberdeen & Rockwell railway and to the work in the phosphate mines at U.S. Hay to the state farms on the Roanoke river, to harvest the wheat crop, which is estimated at 12,000 bushels.

For several days rain has been badly needed in most parts of the State. There were showers here yesterday and today. The stockholders of the Clement Rosemont Company, capital \$200,000, Vermont and North Carolina men being the stockholders. This is the company which is installing a large plant at Sanford.

A charter has also been granted to the Sumnerfield Club. This is composed of about 200 New Yorkers and it will have a lodge, dog kennel, stables, etc., on an extensive scale at Sumnerfield, Guilford county. There are a number of private kennels in that section, but this one will represent a number of sportsmen.

The closing exercises at the institution for the white blind here were held this evening. The number of pupils during the term was far larger than ever before. The buildings are now so spacious that the superintendent says they will suffice for the needs of the next 50 years, but an increased appropriation is needed.

As predicted, Spencer Blackburn got the Republican nomination for Congress in the 10th district. Linney wished a re-nomination but did not make any fight for it. This leads to the belief that Linney may be appointed judge to succeed Ewan. Again and again Senator Fitchard has been urged to take this appointment. He has declined. Now the Republicans are speaking freely of Linney as their ablest lawyer in the state. Linney's declination of the nomination for governor for which he was "slated" is perhaps another indication that things are looking in his direction in the matter of the presidency.

Yesterday the Sunday school of the First Baptist church here picked up at "On-oneche" farm, a mile from Hillsboro. The students of the Baptist Female University here, so did some of the students of the Agricultural and Mechanical College. One of these, John Birkson, who was taking a postgraduate course, walked over to Hillsboro with a Miss Sims, one of the B. F. U. students, and they were married at the hotel. Another A. W. M. student had secured the license from the Register of Deeds. The groom is 19, the bride 17. Her father is a preacher of Mason county. She was brought back to the B. F. U. and her father telegraphed for it. It is said the B. F. U. trustees are considering the matter of prosecuting both the student who procured the license and the Register of Deeds who issued it. There was also talk of a plan by the groom to get his bride by means of proceedings in the courts that lay suit for possession.

The only possible chance for fitting the two South African republics, by the visit of the Boer envoys to this country lies in arousing the interest of the President and his administration, and the more hobnobbing they do with the opponents of the administration the more certain their failure. Even if their cause was taken up by the opponents of the administration and made a campaign issue that would carry the Presidential election, it would do their countries no good, as it would be next March before the new administration could do anything, and long before that time, there is no outside interference, the two South African Republics will be British territory. The mistakes of the envoys are, doubtless entirely due to their ignorance of conditions in this country, but they are none the less fatal to their hopes.

MAKING.

Announced to Excited London That the Town is Relieved.

Battle in the Transvaal Explored Next Week. British Across the River. Russia Violates Faith With England. Situation Serious.

Special to Journal. LONDON, May 18—Formal announcement has just been made at the Mansion House that Mafeking has been relieved. Lord Roberts asked Col. Baden Powell to hold the town until May 18th. In the attempt to storm Mafeking last Saturday the Boers fell into a trap. They were surrounded by Colonel Baden Powell's troops and captured.

The crowds had been waiting in front of the Mansion House for hours. They cheered and waved hats and handkerchiefs and displayed the greatest enthusiasm at the announcement of relief.

The news from South Africa tonight makes it considered certain that the greatest battle of the war will be fought next week near the Vaal river.

The Boers are missing above the Vaal and Lord Roberts will advance next Monday. President Krueger and other Boer officials are preparing to flee to Pretoria.

Russia has seized Manchuria. In doing this she violates her treaties with England. The situation is regarded here as the gravest in recent years.

LONDON, May 17—The Transvaal has been invaded by General Hunter, who has occupied Christiana. Hunter has been marching along the north bank of the Vaal river. This threatens the Boer rear.

Methuen has reached a point 12 miles on the Hoopstad road without seeing the enemy.

Natives and local whites have confirmed the previous reports of the disorganization of the Free States.

Butler states that he believes 7,000 Boers were retreating before him May 11 and 15. It is supposed that by this time they have taken positions at Ingogo and Laingsnek, under the shadow of Mafeking hill, the scene in 1841, of the famous disaster to the British.

LONDON, May 17. The Daily Telegraph has received the following dispatch from South Africa: Kromstad, Orange Free State, May 16.—The concentration of Lord Roberts' army is proceeding here.

Good progress is being made on the railroad construction. It is hoped that the Zambesi river will be bridged today. Commandants of Boers are reappearing a few miles to the north.

It is reported that the Boers under General Buller are constructing a defense line 20 miles northward along the drifts. Free State fighters continue to bring in arms.

WINE OF CARDUI

Woman's Crowning Virtue.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so dependent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE

WINE OF CARDUI

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue the thousands of women prefer to suffer untold miseries rather than consult their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the care of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.
