Entered at the Postoffice, New Bern N. C. as second-class matter.

Section Two, Friday, Sept. 28, 1900

EXHIBITS INDICATE RESOURCES.

A local Fair, or a State Fair should be an exhibition of the products of its locality, or State.

And these exhibits are a visible guarantee of the resources of the country and show the possibilities of soil and climate, aided by the industry and intelligence of the people who have grown products.

The exhibits may be the product of manufacture, and in degree, these manufactures will indicate the resources of the section, attesting by the variety of articles, the skill of the makers, as will the finish of the articles show the possibilities for manufacture.

The New Bern Fair, in its former exhibits, have shown visitors the possibilities of Eastern North Carolina, both in its grown and manufactured products.

These exhibits have been excellent in the past, but there is every reason for expecting even greater excellence in the November Fair Exhibition, this year.

In one grown product, especially, should the Fair management encourage competition in making an exhibition, and that is in tobacco.

There was at one time, some very erroneous ideas about this section of North Carolina, as regards its ability to grow fine tobacco.

Some persons may still have doubts about the quality of tobacco grown in this section, and there can be nothing like a Tobacco Exhibit at the November Fair, in this city, to thoroughly dissipate forever such ideas.

Let the Fair management offer some good premiums for tobacco, and make a good tobacco exhibit at the coming Fair.

PRESIDENT BRYAN'S REPORT.

The annual report of President James A. Bryan, of the Atlantic and North Carolina railroad, which is to be submitted to the stockholders of the road, this week, and of which a summary may be found in another column of the JOURNAL, is a report which vitally concerns every business and commercial interest of this section.

From Morehead and New Bern, the A & N C railroad is THE great highway over which the trade must flow, and very largely is Kinston and other points on the line to be the gainers from the well directed management and maintenance of this road.

President Bryan's report this year has in it more than the ordinary passing interest of an annual report, for the past year has witnessed a revolution in the A & N C road, in its passenger and freight service, by the large increase of its rolling stock, by the construction of an almost new roadway, and the building of habitable quarters at its stations for the traveling public, and being able to take proper care of the goods entrusted to its hands, by better freight facilities.

Doing away with old things, and creating a new order of affairs, is certain to be met by resistance on the part of some, criticism on the part of many.

President Bryan's move has received these rebuffs, and yet the business community of this city has fully endorsed his changes in train schedules, his increased tender of freight facilities to the shipping trade here, and to the many added conveniences given to the traveling public.

The story of Morehead's great success last summer, as a seaside resort, shows what the A. & N. C. road did to make the success.

The increased business at all points along the entire line, is indicative that trade exists, and that opportunity, by good transportation, was only needed to bring it to life.

From a railroad in miserable physical condition, President Bryan in his report shows what has already been accomplished in its rehabilitation, and suggests for the future, what can possibly be further done, by added improvements to the road, thereby increasing its business and earning capacity.

Any report can be so worded, so effectively drawn up, with an array of statistics that can deceive, if deception is desired.

President Bryan presents his report, with its figures, its details of business, its receipts and expenditures, and its various exhibits, favorable in this, or favorable in that.

But mere detailed accounts, cannot show how the people of the section through which the A. & N. C. road passes, have been benefitted. Increased trade of local merchants is not shown in the annual report, better land values along the road, are not placed in the annual report.

But all these have come during the past year, and while President Bryan in his evolution of the Old Mullet road into the greatly improved Atlantic & North Carolina railroad, cannot declare a dividend to the stockholders of the road, the question, purely, strictly and practically a business one, is, has not the gain been a notable one, and has not the greater good been accomplished by President Bryan's plan of management?

The JOURNAL believes that the future will justify President Bryan's management of the A. & N. C. road, during his first year, as its President.

Reasons why you should use Roberts Tasteless Chill Tonic composed of purest ingredients, pleasantest to take, and cures when others fail. It is master of chills, fevers and all other malarial disorders 25c No cure, no pay. D. R. Davis, F. S. Duffy & Co., C. D. Bradham.

PRICES NEVER HIGH ENOUGH.

A dispatch from Atlanta, says:

"The farmers of Georgia have made a remarkably unanimous determination this season to get the highest possible value for their cotton crop.

"Extremely hot weather for the last three weeks has caused the remainder of the staples in the fields to open with a rush, and already the greater portion of the yield to be gathered and that remaining unsold are held in the warehouses of local factors until the owners are satisfied that the price has reached high water mark.

"Very little has been disposed of at a lower figure than 10 cents a pound, and nearly all the planters have urgent debts which must be paid off immediately, and these are selling just enough cotton at present to accomplish this purpose.

The large balance will not be sold until the eleventh hour, and not a few of the more wealthy producers have expressed an intention to hold their surplus until next Spring if necessary."

And one year ago, probably seven-eights of these same farmers would have been willing to raise and sell cotton, for an indefinite number of years, if they could be assured of receiving seven cents a pound for what they could raise.

But now with cotton at ten cents a pound, these farmers agree to hold their cotton for still higher prices.

At five cents a pound, a year or so ago, the cotton farmer was unwilling to enter into any such agreement, and at a time when he needed protection, when to-day the price of cotton yields a magnificent profit to the grower.

It is the old story of never being satisfied, and the cotton farmer is not alone, for the wheat grower, the corn grower, and the raiser of live stock, have all seen the time when they pursued the same course, of holding their products when prices were high, and they had good returns for their labor, but they wanted to get a little more.

And what has been the result in most of these cases? The consumer has found a supply elsewhere, and the holder had either to sell at lower figures than he could have received, or else held his products until forced to dispose of them, and at a loss.

Cotton may go higher, and the farmer who now refuses to sell at ten cents, because cotton may sell at eleven cents, twelve cents, or higher, may get these higher prices.

But in holding his cotton, the farmer goes beyond his legitimate business, when the price is at a figure assuring him full returns for his labor, and becomes as much a speculator as if he bought cotton futures in the New York market, and once a speculator, it will be hard for the farmer to determine what is a fair price, and at what price he should sell his cotton.

STATE OF OHIO, CITY OF TOLEDO, } ss
LUCAS COUNTY, }

FRANK J. CHENEY makes oath that he is the senior partner of the firm of F. J. CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

SEAL. A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

ALL WOMEN AGREE.

A druggist in Macon, Ga., says: "I have sold a large quantity of **Mother's Friend**, and have never known an instance where it has failed to produce the good results claimed for it. All women agree that it makes labor shorter and less painful."

Mother's Friend

is not a chance remedy. Its good effects are readily experienced by **all** expectant mothers who use it. Years ago it passed the experimental stage. While it always shortens labor and lessens the pains of delivery, it is also of the greatest benefit during the earlier months of pregnancy. Morning sickness and nervousness are readily overcome, and the liniment relaxes the strained muscles, permitting them to expand without causing distress. Mother's Friend gives great recuperative power to the mother, and her recovery is sure and rapid. Danger from rising and swelled breasts is done away with completely.

Sold by druggists for $1 a bottle.

THE BRADFIELD REGULATOR CO.
ATLANTA, GA.

Send for our free Illustrated book for expectant mothers.

Texas Town Washed Away.

Special to Journal.

AUSTIN, TEXAS, September 25.—A report says that the town of Marble Falls, was washed away by the Colorado river flood.

All efforts to reach the place failed today.

Marble Falls has a population of about 600, and is in Burnett county not far above Austin.

MOZLEY'S LEMON ELIXIR.

Regulates the Liver, Stomache, Bowels and Kidneys.

For biliousness, constipation and malaria.

For indigestion, sick and nervous headache.

For sleeplessness, nervousness and heart failure.

For fever, chills, debility and kidney diseases, take Lemon Elixir.

Ladies, for natural and thorough organic regulation, take Lemon Elixir.

50c and $1 bottles at druggists.

Prepared only by Dr. H. Mozley, Atlanta, Ga.

A Prominent Minister Writes.

After ten years of great suffering from indigestion, with great nervous prostration, biliousness, disordered kidneys and constipation, I have been cured by Dr. Mozley's Lemon Elixir, and am now a well man.

REV. C. C. DAVIS,
Ebl M. E. Church South.
No. 28 Tatnall St., Atlanta, Ga.

A Prominent Memphian Writes.

Dr. H. Mozley, Atlanta—Having been a great sufferer for three years from indigestion, and been treated by many physicians, who failed to give me any any relief. Continuing to grow worse my brother advised me to try Dr. Mozley's Lemon Elixir, which remedy he had used for several years. I commenced its use, and must say that your Lemon Elixir is the greatest medicine on earth. I have never suffered a day since I commenced using Lemon Elixir.

R. L. ROCCO,
206 Hernando St., Memphis, Tenn.

A Card.

This is to certify that I used Dr. Mozley's Lemon Elixir for neuralgia of the head and eyes with the most marked benefit to my general health. I would gladly have paid $500 for the relief it has given me at a cost of two or three dollars.

H. A. BRALL,
Clerk Superior Court Randolph Co., Ga.

Slow Thermometer.

"This thermometer registers only 72 degrees," remarked Mr Snaggs. "I am sure the temperature is higher than that."

"Yes, it is," added Mrs. Snaggs "I dropped that thermometer yesterday, and since then I think it is about 7 degrees slow."

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis. Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of digested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by F S Duffy.

Suspected It.

Cashier—I can't honor that check, madam. Your husband's account is overdrawn.

Woman—Huh! Overdrawn, is it? I suspected something was wrong when he signed this check without waiting for me to get the hysterics.

Large sun spots astronomers say caused the extreme heat this summer, and doctors declare nearly all the prostrations were induced by disorders of the stomach. Good health follows good digestion. Kodal Dyspepsia Cure digests what you eat. If you have indigestion or dyspepsia it will quickly relieve and permanently cure you. F S Duffy.

RALEIGH.

Last Government Crop Report For This State.

Supreme Court No Cases General Importance. Republican Paper to be Established. Negro Exodus to Oklahoma. Prominent Arrivals.

Special to Journal.

RALEIGH, September 25.—The Supreme Court to-day took up the first district appeals. The clerk of the court says that there are no cases on the docket at this term which are of any general interest or importance.

It will be several days before the Supreme Court announces the names of the 47 applicants for attorney's license who passed examination. Two of the applicants were negroes.

Three new lodges of Odd Fellows have been organized, Grand Secretary Woodell states, these being at Franklinton, Homing and Leaksville.

Among today's arrivals here were Senator Marion Butler, who had a conference with one of the leading Republicans, Collector Duncan, Joseph J. Martin of Tarboro, Republican nominee for Congress from the 2nd, district, Francis D. Winston, State organizer of Democratic clubs; B. B. Winborne, judge of Bertie county inferior court, William H. Allen of Goldsboro, J. H. Bridgers, T. T. Hicks and A. C. Zollicoffer of Henderson, Joseph P. Pippin of Tarboro, A. A. F. Seawell of Jonesboro, E. F. Aydlett of Elizabeth City.

The Farmers Alliance in this State is now beginning an earnest attempt at reorganization. Its fortunes have been for a long time at a very low ebb.

The Republicans are making plans to establish a paper here.

The negroes have in view quite an exodus to Oklahoma. Some from this section are now living in that Territory and declare it to be an earthly paradise. Next spring a considerable movement of negroes northward and westward may be expected.

There are at present 57 veterans in the Soldiers' Home here of these 9 are in hospital.

The last crop report by the United States for this State, this season was issued this morning, for the week ended last night. It confirms all previous reports of a short crop of cotton. In some sections all will be picked in twenty days from date. The farmers in the middle and eastern sections do not desire rain, as it would injure open cotton and interfere with picking, which is progressing more rapidly than ever before. The cotton crop is remarkably clean. The report says in detail:

Splendid weather for gathering crops and for other farm work prevailed during the week. The temperature was much lower, in fact a few degrees below the normal during the first half of the week, though rising slightly above normal the latter portion. The mornings of the 18th and 19th were very cool and light frost was reported to have occurred at high altitudes in the mountain districts. The weather remained very dry in many counties, while in others beneficial showers occurred both at the beginning and at the end of the week. The amount of sunshine was abundant. While the absence of rain is causing further delay in fall plowing, a general or heavy rain would not be beneficial on account of the possible injury to open cotton, with which the fields are now dotted. Picking cotton made fairly good headway during the week under the favorable weather conditions. In many counties the crop is now all open, and over three fourths gathered. Some correspondents express the opinion that all the cotton will be picked by the middle of October. All previous reports of a very short crop have been confirmed. Fodder pulling is over and farmers are housing the corn crop. Cutting the last tobacco in northwestern counties is advancing rapidly, but no improvement is reported in the late curings. Peanuts are nearly all harvested in the south and are ready to dig in the north portions; the crop is short. Peas, sweet potatoes, and fall gardens were somewhat benefited by the rains of the week. Turnips are doing well; many turnips were sown during the week and have come up nicely. A good deal of plowing was done where the soil was moist enough, and some wheat, rye, and oats have been seeded, but this work is far behind the average for the season.

Cyclone Kills Eight.

FAIRMONT, MINN., September 24.—Meager details have reached here of a terrible catastrophe which visited the village of Morristown, 10 miles west of here, shortly before 6 o'clock this evening.

The village was struck by a cyclone and a barn was raised in the air and dropped directly on top of Paul Gatzke's saloon, where 16 people had taken refuge from the storm. The saloon collapsed and all the occupants were buried in the debris. It is said that eight dead bodies and three injured persons were taken from the ruins.

Storm Struck Seattle.

Special to Journal.

SEATTLE, Wash., September 25—The great coast storm reached here, damaging property to the amount of $500,000 and rendering five hundred people homeless.

Death of General Palmer.

Special to Journal.

SPRINGFIELD, Ill., September 25—General John M. Palmer, who was the head of the Gold Democratic ticket, in 1896, died here today, aged 80.

Mexican Liver Pills cure all liver ills. Price 25c.

THE STRIKE CONTINUES.

Mine Owners Threaten to Flood Property and Abandon Work. No Clashes Occur.

Special to Journal.

HAZELTON, Pa., September 25.—The coal mine owners in this region say that they will flood the mines and abandon their efforts to get workers, the Shamokin collieries fall.

WILKESBARRE, Pa., September 25.—(Special)—Five hundred miners left here for the bituminous mines. Five thousand have gone since the anthracite strike began.

PHILADELPHIA, September 24.—Instead of the expected clash between the troops and striking miners in the Schuylkill region today a peaceful calm pervaded the region and there was not the slightest disorder for the soldiers to be called upon to quell. In fact, in most of the districts of the anthracite coal fields the day was extremely quiet, there being no demonstration whatever on the part of the strikers.

While the operators claim that a number of their employes returned to work in the Schuylkill, it was early today evident that the operations did not assume the activity which the mine owners yesterday expected, and today findmore idle collieries than at any time since the strike began.

The strike leaders claim many additions to their ranks, and President Mitchell estimates that the strikers force was augmented today to the extent of 1,800 or 2,000.

No overtures to end the struggle have been offered by either side. The strike leaders are occupying themselves in inducing mine workers to quit, and the operators are endeavoring to mine all the coal they can with their reduced forces.

Meanwhile coal shipments from the mines are daily growing less, and report of advances in prices of the commodity are received from all trading sections.

TEXAS RIVERS ON RAMPAGE.

Breaking All Records For High Water. Warning Sent Out.

DALLAS, Texas, September 24.—The Trinity river is higher tonight than it has been since 1893, when it broke all records.

The water tonight lacks only six feet of reaching the 1890 mark and is still rising, owing to the heavy rains last night. No lives have been lost in the immediate vicinity of Dallas, but cotton and live stock, notably sheep and hogs, have suffered heavily. The item of damage to roads and bridges alone in the dozen or more counties affected in Northern Texas will be about $250,000.

A bulletin received here this afternoon from Fowler, in Bosque county, says:

"Brazos river out of its banks; higher than in 12 years and going higher. Big rise will reach Waco tonight."

Fowler is 50 miles north of Waco.

It is reported that 40 Italians have been drowned in Neuces river.

Eight persons are reported to have been drowned in the flood at Brownwood. Part of the town was wrecked. Communication is cut off, both by wire and rail.

AUSTIN, Texas, September 24—Governor Sayers wired tonight to all points south of here warning notices that the greatest flood in the history of the Colorado river, which flows by this city, is now surging down through the mountain gorges to the northwest of here, and is expected at this place by midnight.

LLANO, Texas, September 24—The Llano river, a tributary of the Colorado, is 17 feet above normal and has done much damage in the valleys. No loss of life has been reported. Reports from various points in West and North Texas are to the effect that all the small streams are greatly swollen and are sending a large volume of water into the larger streams.

UNITED STATES TO WITHDRAW.

England Joins Germany's Proposal to Punish Chinese Officials.

Special to Journal.

WASHINGTON, Sept. 25.—England and Japan now favor Germany's proposal, as to the punishment of Chinese officials by the allies.

The United States therefore stands alone in its view of what should be done, and German officials say this country is now isolated in its position so far as China is concerned, and that American troops will be obliged to retire to Pekin.

General Chaffee has been directed by cable, today, to withdraw all United States troops from Pekin, and return them to Manila, except one regiment of infantry, four troops of cavalry and one light battery. General Chaffee will remain in charge of these.

A cablegram announces the murder of eleven more missionaries in the Shansi province.

Further Chinese Uprisings.

Special to Journal.

HONGKONG, September 25.—Advices from Canton say that the Chinese organization known as the "Triad," has associated itself, 30,000 strong, with the boxers in Kwangau province, who are in rebellion, and they threaten Canton, also threaten to destroy the French gun boat above Canton.

Prince Tuan has been made president of the Chinese Great Council.

Did it Ever Occur to You that a little PERRY DAVIS' PAIN-KILLER on the end of the finger applied once or twice to a mosquito bite would counteract the poison and speedily reduce the swelling? Pain-Killer will also cure bites and stings of other poisonous insects as well as reptiles. See directions as to use upon wrapper on each bottle. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c and 50c.

WINE OF CARDUI
Woman's Crowning Virtue.

BELTON, Mo., July 27.
For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.
MRS MINNIE LITTLE.

McELREE'S Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

LADIES' ADVISORY DEPARTMENT,
For advice in cases requiring special directions, address, giving symptoms, Ladies' Advisory Dep't, The CHATTANOOGA MEDICINE CO., Chattanooga, Tenn.
