Upon inquiry at the office of the corporation commissioner today it was ascertained that no writen or even verbal agreement to terminate the tax assessment matter by a compromise had been made. It was said that the contending parties, that is the State and the big railways, may yet get together. The matter has in a sense been in abeyance ten days or more, it seems.

The new filtering plant at the Raleigh water works will be in operation in about 20 days. These are fine filters. Heretofore there have been only 2. A large house for the filters has been built.

The anti-expectoration ordinance adopted by the aldermen here last night is hailed with delight by the ladies.
