BAD COMPLEXIONS Dry Thin and Falling Hair and Red Rough Hands Prevented by CUTIGURA SOAP

MILLIONS USE CUTIGURA SOAP, assisted by CUTIGURA OINTMENT, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, in the form of baths for annoying irritations, inflammations and chafings, or too free or offensive perspiration, in the form of washes, for ulcerative weaknesses and for many sanative antiseptic purposes which readily suggest themselves to women, and especially to mothers, and for all the purposes of the toilet, bath and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp and hair of infants and children. CUTIGURA SOAP combines delicate emollient properties derived from CUTIGURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying and beautifying the skin, scalp, hair and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in ONE SOAP at ONE PRICE, viz., 25c., the BEST skin and complexion soap and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humor, \$1.25. Consisting of CUTIGURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTIGURA OINTMENT (50c.), to instantly allay itching, inflammation and irritation and soothe and heal; CUTIGURA RESOLVENT (50c.), to cool and cleanse the blood; A SINGLE SET, costing but \$1.25, is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humors, with loss of hair when all else fails. Sold throughout the world.

Great Session of Grand Lodge of Masons. Joint Legislative Caucus Ratifies Program For Senatorial Program For Inauguration.

Raleigh, Jan. 10.—The day was spent today after the best fashion in the history of the Legislature will vote for Congressman Richmond Pearson for U. S. Senator. It was also reported that the Populist members will vote for the fusion candidate that they would vote for the fusion nominee for legislative officers. If the Republicans would vote for Martin Butler for Senator. The Republicans declined to enter into any such agreement. The Populists were therefore not in the Republican caucus.

The Grand Lodge of Masons adjourned today, after the best session in its history. No less than 412 members were present yesterday. This morning the Grand officers were installed, including Grand Master B. D. Royter, Grand Treasurer William Simpson and Grand Secretary John C. Dickey.

The Seaboard Air Line, excepted to the Corporation Commission's order reducing the freight rate on logs used in making shuttle loads, etc. The commission overrules the exceptions.

The Democratic joint legislative caucus last night ratified the action of the Democrats of North Carolina at the primary last August in deciding by an enormous majority that P. N. Simmons is to succeed Martin Butler as Senator. The matter came up quickly before the caucus. There was cheering at the unanimous vote. Simmons was not present. The matter came up so quickly and quietly that there was not time to notify him to be present.

Lt. Governor Charles A. Reynolds tells me no communication passed between him and Governor Russell regarding the Chief Justiceship. He said he never said a word to me, nor did I say a word to him about the matter, nor did any friend of his approach me in regard to it.

J. R. Dickens of Enfield filed a voluntary petition in bankruptcy, with \$200 in liabilities and \$900 assets.

The following is the program for the inauguration as agreed on late last night by the legislative and citizens committee.

Bad Storm in Chicago. CHICAGO, Jan. 9.—One of the worst storms of the year struck Chicago this evening and raged until midnight, damaging wires and crippling the street car service. There was a heavy fall of snow and wind blew over forty miles an hour.

When threatened by pneumonia or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. F. S. Duffy & Co.

Bill Introduced. Code Commission. School Taxes for the Separate Districts. Factory Labor.

Bill introduced by the Senate a bill to amend the constitution so that school taxes paid by whites shall go entirely to white schools, those by negroes to negro schools. A law was once enacted of the same tenor. The Supreme Court declared it unconstitutional.

Representative Thompson when asked whether he had any looking ahead, "There is in Rural districts, among white tax payers, great clamor against further extension of negroes by whites, the people say they have done enough for the negroes, and want to get away from them, adding they do not want negroes educated, as the educational qualification has been made, and if negroes are educated, this will amount to nothing." Some leaders in the house declare the bill will never become a law.

GRAND LODGE MASONS REPORT

Railroad Officials Considering Tax Case. Acquitted of Murder. Active Copper Mining.

Raleigh, Jan. 9.—The Grand Lodge of Masons this morning received the annual report of the Oxford Orphan Asylum. It says the property has increased in value over \$50,000 in the past 8 years. B. N. Duke gave \$7,500 to the asylum. The Grand Lodge to give an equal amount, of the Grand Lodge's part \$3,942 yet remains to be paid. An electric light plant is greatly needed. The State sanitary engineer makes a gratifying report on the cleanliness of the institution. There is a shoe shop, farm, wood working shops, printing office, etc. There is also a private furniture factory in which a number of the boys work half the day. There are 8 teachers. The health of the pupils has been good; only one death during the year. The tour of the singing class brought in \$3,290. There are 215 pupils.

The officials of the three great systems of railroads in this State were in conference today at Washington, considering whether any settlement or compromise of the much talked of tax assessment cases should or could be arrived at. It has been known for ten days or two weeks that the Atlantic Coast Line was desirous of terminating the legislation.

PASSED BY HOUSE.

Burleigh Bill Giving Increased Representation to States.

WASHINGTON, January 8.—By a vote of 165 to 102 the House today accepted the reapportionment plan proposed by the Burleigh bill, which increases the membership of the House during the next decade from 378 to the present membership and the membership proposed by the Committee on Hopkins' bill, to 396.

The result was largely brought about by the influence of certain Senators from several of the larger Northern States, who threw the weight of their influence in the scale in favor of the larger membership. When it became apparent that these factors were at work against the bill, Mr. Hopkins attempted to compromise by giving an additional representative, each to North Dakota, Colorado and Florida, but his adversaries refused to compromise after complete victory was assured.

The Crumpacker proposition to recommit the bill for the purpose of ascertaining what States abridged the right to vote to an extent which would curtail reduced representation was defeated, 190 to 110.

Under the bill, as passed today, no State loses a representative and the following make gains: Illinois, New York and Texas, three each; Minnesota, New Jersey and Pennsylvania, two each; Arkansas, California, Colorado, Connecticut, Florida, Louisiana, Massachusetts, Mississippi, Missouri, North Carolina, North Dakota, Washington, West Virginia and Wisconsin, one each. The bill provides that whenever a new State is admitted the representative to it shall be in addition to the number provided in the bill. It also adds a provision, never hitherto incorporated in a reapportionment bill, in the effect that Congressional districts in addition to being "contiguous" shall also be "compact."

States which are allowed additional representatives by the bill shall by its terms elect them at large until the Legislature shall redistrict the State.

Navy Guns Back Up Our Consul.

TACOMA, Wash., Jan. 8.—The steamship Tacoma brings news from Hongkong that the American Consul at Canton has required the Viceroy of Kwangtung to suppress several seditious native newspapers which were being circulated throughout Canton, a vising the natives to rise against foreigners.

He pointed to the coast defence vessel Monterey, lying in the harbor, as evidence that his wishes must be respected. The Viceroy then gave orders to suppress the paper.

Reynolds Remains Undecided.

Special to Journal. RALEIGH, Jan. 8.—Lieut. Governor Reynolds arrived here this afternoon. He said that while he said yesterday that he would resign as soon as the senate organized, he was considering whether he ought to resign when his term of office was so nearly ended, and tonight he telegraphed Congressman Linney to know what he should do.

Mr. Reynolds says he defers to the wishes of the post office department, as he is to be postmaster at Winston-Salem.

CRAVEN COUNTY BILLS

Extra Pay For County Commissioners. Special Tax Levy. Against Shooting From Bridges.

Special to Journal. RALEIGH, Jan. 10.—Bills were introduced in the House today, by Representative W. B. Pearce, of Craven, to allow Craven county Commissioners extra pay, and to allow them to levy a special tax, also a bill to prevent fishing and shooting from bridges in Craven county.

HALF A MILLION FIRE.

Fifty Seamen Narrowly Escaped With Their Lives.

NEW YORK, Jan. 9.—In an early morning fire on the Erie Basin front, that lighted up all South Brooklyn, Beard's shipping stores at the foot of Richards Street, was partly destroyed; an excursion steamer, the Idlewild, was burned to the water's edge, one fireman was injured and close upon fifty seamen narrowly escaped with their lives. The total loss is estimated at \$500,000.

The fire started, no one knows how, on board the Idlewild, about 1 o'clock. The steamer was lying just outside the break water, from which point the drift, as soon as she was cut loose, directly across the Erie Basin and up against one of Beard's piers head.

In a very short time the big covered pier, where jute and cotton were stored in bales, was in flames from spilling to pier. Fire boats and engines fought the fire from both land and water.

The Idlewild burned to the water's edge and a couple of lighters also had been destroyed.

Fire tugs and engine companies were pouring their streams into the burning stores, but the water was swallowed up in steam, and the heat that could be done was to keep the edge of the burning pier drenched and prevent the fire from spreading. By 4 o'clock the flames had died down to a smolder in the bales and debris that had settled upon the spiling.

DEADLY MOSQUITOES

They Are Soicly Responsible for Spread of Yellow Fever.

HAVANA, Jan. 9.—The American Commission under the superintendency of Dr. Reed, which has been making experiments in Quemas as to the propagation of the yellow fever germ by the mosquito, has obtained extremely satisfactory results.

Dr. Reed says the experiments show, beyond a doubt, that there is no contagion from an infected person or from infected clothing, but that the mosquitoes alone are responsible for spread of the disease.
