ROYAL BAKING POWDER

Its great usefulness and superiority have made the Royal Baking Powder one of the most popular of household articles, and it is declared by expert cooks indispensable in the preparation of the finest and most wholesome food.

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

There are cheap baking powders, made from alum, but they are exceedingly harmful to health. Their astringent and cauterizing qualities add a dangerous element to food.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

RALEIGH.

No Suit as Yet Against Martin's Bondsman.

Only 49 Sheriffs Have Made Full Settlements. Three Cases Small Pox Among Negroes at Oberlin. Mrs. Swenson's Requests.

Raleigh, N. C., May 18.—As yet no suit has been brought upon the bonds given by W. H. Martin, the defaulting ex-clerk in the State treasury. Ex-treasurer Worth, when asked why no suit had been brought replied that it was because no report had yet been filed by the legislative committee. It seems that this report is being waited for.

Up to this date 49 of the 97 sheriffs have made complete settlements of taxes due the State for last year.

Nothing has been heard for some time regarding the alleged discovery that the last revenue act was of no effect because its amendments had not been voted on three several times. It was a short-lived sensation.

The corporation commission devoted several hours today to a conference with the list takers and assessors of this county, at which the latter were fully instructed regarding their duties under the new revenue act.

The commencement exercises of the State Normal and Industrial College at Greensboro began today, with the Alumni reunion and banquet. Several Raleigh people are attending.

Mrs. Aycock will receive at the executive mansion Tuesday afternoon, in compliment to her sister, Mrs. Anderson of Wilton.

One of the matters most talked of among the farmers now is the exceeding lateness of the crops. Some of them are this early predicting that it will be a bad crop year.

Three cases of smallpox have been found among negroes in Obolita, and the sick have been taken to the pest house. A white man in west Raleigh is quarantined and under guard in his house and his store has been closed.

About \$20,000 has in this date been raised for the Methodist orphanage here.

July 8th Raleigh people are to vote on the issue of \$100,000 of street improvement bonds. It is said hardly any votes will be cast in opposition to the issue.

As stated last night the late Mrs. Swenson of Raleigh bequeathed the Baptist Female University here \$2500. It is also to get a third of the residue of her estate after the various bequests are paid. It is said the residue will approximate \$60,000, and if correct this will give the University \$20,000 more. Wake Forest college by bequest or as its part of the residue will get something like \$17,000.

Funny Balsam Stops the Tickling, and quickly allays inflammation in the throat.

Raleigh Defeats Wilmington.

Special to Journal. WILMINGTON, May 18.—The last game between Raleigh and Wilmington was won today by the Senators, by the close score of 5 to 4.

This gives Wilmington four out of the six games with Raleigh this week.

COLD WEATHER.

Charlotte Only, Makes Demonstration Over Mecklenburg Day.

State Peanut Crop Brings Less Than Estimates. Talk of Car-penter Strike. Grass Bothers Inj. Farmers. Gov. Aycock. Need of Re-formatory.

Raleigh, May 20.—The State holiday was observed here only by the closing of the capital and the banks and the display of the flags on the capitol. Charlotte seems to be the only place where there was a demonstration.

It was so cool today that there were fires and overcoats were worn. Many of the farmers are quite blue at the prospect.

The wheat crop in this county looks remarkably well. It is the largest crop planted in many years, and the weather favors it.

A charter for a new lodge of Masons at Ronoike Rapids is asked for.

Insurance commissioner Young went to Greensboro today to confer with the officers of the newly chartered life insurance company.

Mr. O'Berry, director of the penitentiary, was here today on business connected with the sale of the peanut crop. The Day administration made a contract with a Raleigh firm for the sale of the whole crop, making the estimate that it was 60,000 bushels and was worth \$15,000. Mr. O'Berry said today: "Our calculation was that it would not bring over \$9,000, and now it looks like \$5,000. These penitentiary estimates made by the Day administration grow beautifully less every time it is looked at." The estimates of the retired administration evidently are held in but small value.

There is some talk here about a threatened strike of carpenters. A carpenter said such a strike in this State would cut no figure, as negro labor would be employed, and also people secured from farms to do such work. Many farmers have enough knowledge of carpentry to make them available.

Grass is giving the farmers a good deal of trouble. There appears to be plenty of negro labor for present farm needs, though in the towns negro labor particularly cooks and house servants is rapidly getting scarcer.

Gov. Aycock will return from New York tomorrow, and tomorrow evening will speak at the commencement of the State Normal and Industrial College of Greensboro. Thursday he will speak at Dhan, where a reception is to be given in his honor. Thursday he will speak at Berles Creek Academy, in Harnett county, one of the largest primary schools in the State.

The State superintendent of public instruction today received a letter from the register of deeds of Montgomery county, saying that in the jail at Troy is a 13 year old boy for stealing his father's money and making an attempt to get away, that the boy is bright and can probably be reformed, that he must be sent to a place from which he can't get away.

Mrs. McKinley Better.

SAN FRANCISCO, May 17.—President McKinley described the marked improvement in Mrs. McKinley's condition today as a transformation. But, perhaps, even the President of the United States may over state the case in his elation at the prospect of his wife's recovery. "Certain it is, however, that Mrs. McKinley's condition last night improved to an extent that fairly nonplussed the doctors, brightened the anxious and devoted husband and filled the city with joy and thanksgiving.

The sinking spell that was feared in the early hours before the dawn did not come. There was a slight tendency in that direction, but that was all. The physicians were so favorably impressed with their patient's condition that they issued a bulletin announcing that Mrs. McKinley had passed a good night, and informed the public that there would not be another consultation until evening. This reassuring news, posted at all the newspaper offices, was received with delight by the people.

Death of Capt. James Evans.

CHARLESTON, S. C., May 17.—Captain James Evans, one of the oldest pilots at this port and a survivor of the Confederate cruiser Alabama, died at his home here today. He was an experienced navigator, and while serving on the Sumter and afterwards on the Alabama under Admiral Semmes, one of his chief duties was to give in advance the nationality of any approaching vessel. Both Admiral Semmes and Lieutenant Sinclair in their published works refer to Evans' valuable service. He was one of the officers picked up by the English yacht Deerhound off Cherbourg when the Alabama was sunk by the Kearsarge. He returned to the Confederacy and was serving at one of the naval batteries on the James river when Richmond was evacuated.

Will Declare Martial Law.

Albany, N. Y., May 17.—Owing to conflicts between soldiers and strikers it is reported that martial law will be declared in the State capital city under military control. The strike sympathizers say it is their turn to shoot now and are arming.

PAN-AMERICAN EXPOSITION OPENS.

Dedication Day of the Great Six Months' Festival

Wonderful Beauty of the Completed Work.

Color, Sculpture, Electricity, Fountains, Flowers and Festive Architecture—The Most Beautiful Exposition Ever Created—A Triumph of Artistic Endeavor—A Mammoth Show in Which the Practical Side is as Well Cared For as the Artistic Features.

RUFFALO, May 20.—The dedication of the Pan-American Exposition today was performed in a manner befitting the great occasion. A large attendance testified to the widespread interest in the mammoth enterprise. Fully 300,000 people were on hand to take part

DIRECTOR GENERAL WILLIAM BUCHANAN.

In the grand event. The day was made a civic holiday, and there was a general outpouring of people from cities and towns within 200 miles of Buffalo, both by the United States and Canada, by way of the 20 or more great lines of railway which center in this city.

The city was astir at an early hour to witness or participate in the programme. Mr. Louis L. Babeek was chief marshal, and the programme consisted of parades, ceremonies in the Temple of Music and special outdoor features. There were two separate and distinct parades—an Exposition parade and a concessionaries' parade, leaving the City Hall at 10 a. m.

The Exposition parade consisted of the United States troops in this city, the Mexican National Band, a detachment of all arms of the Mexican army and other foreign troops in the city, the Fourth Brigade, N. G. S. N. Y., all under the command of General R. M. Welch, escorting carriages containing the Exposition officials and their specially invited guests.

The parade of the concessionaires was participated in by all the concessionaires. It was accompanied by 15 bands and was two miles in length, showing the wonderful features and interesting people of the Midway.

The ceremonies at the grounds consisted, first, of a grand flight of carrier pigeons freed on the Esplanade and conveying the news of the dedication of the Exposition to the world. The invited guests then proceeded to the Temple of Music, where the following programme was carried out under the direction of the Hon. John G. Milburn, president of the Pan American Exposition.

Made by the Seventy-first Regiment Band, under the direction of Professor Fanelli.

Opening prayer by the Right Rev. C. H. Fowler, bishop of the M. E. church.

Address by His Honor Conrad Ditch, mayor of the city of Buffalo.

Poem written for the occasion by Robert Cameron Rogers.

"Give Liberty," hymn, by Buffalo Orpheum and Orchestra, John Lund conductor.

Address by the Hon. Theodore Roosevelt, vice president of the United States.

Music.

Address by Senator Henry Cabot Lodge of Massachusetts.

Poem written for the occasion by Frederic Almy.

Address by the Hon. Timothy L. Woodruff, lieutenant governor of the State of New York.

"America," hymn, organ and orchestra.

Benediction by the Right Rev. William D. Walker, bishop of western New York.

At noon there was an exhibition of scientific kite flying by Mr. E. I. Horsman, scientific kite expert of New York, and his staff of kite fliers. This consisted of tandem kites and Eddy war kites, suspending the American flag and discharging American flags in the form of parachutes, others supporting a great banner bearing the word "Welcome," with others bearing different flags and streamers at various heights. There were also down tandem of naval block kites and keel kites with flags and a tandem of yacht or ship kites.

At the close of the ceremonies in the Temple of Music there was a grand display of day fireworks, including a grand salute of 120 aerial guns fired from steel mortars, the ascent of 27 large 12 foot gas balloons as a lettered with the name of one of the Pan-American countries and carrying the flag of the country; salute to the station; six mammoth cannon report rockets, one for each state of the Union, fired simultaneously; magnificent display of Japanese day light fireworks, released by a single from Japanese bombs; oriental kite display, exhibiting 150 kites, from which will be descended Pan-

american flags of the New York State flag. A light bomb and shells setting free American and Pan-American flags, with salute of the dedication day; simultaneous discharge of 100 small gas balloons, set up in strips; each bearing a souvenir of the dedication day; grand American salute, consisting of 500 large gun outfit rockets.

The completed Exposition is a distinct triumph in countless ways. Never before has there been such an effort put forth to produce rich decorative effects. These are to be seen in the symmetrical arrangement of the buildings around spacious courts, the glow of color upon all the buildings, the play of fountains and cascades, the profusion of blossoming flowers, the generous use of intricate molded ornaments upon the buildings, the great number of sculptured groups by famous American sculptors and at night the softly diffused yet brilliant lighting effects produced by means of more than 300,000 incandescent electric lamps upon buildings and throughout the grounds.

The grounds of the Exposition comprise some 850 acres, very accessible by steam and electric lines from all parts of Buffalo. When it is recalled that it was only the 4th day of last June that the first piece of timber was raised aloft as the beginning of what is now a magnificent Exposition city, one can but marvel at the executive force which has brought this work to its present state of completeness.

The cost of the Exposition as it now appears is approximately \$10,000,000, exclusive of exhibits. Of this sum the Midway represents an expenditure of about \$3,000,000. Nothing seems to have been forgotten in perfecting the plan, and there is every convenience for the visitor and an abundance for him to examine and enjoy. The admission price is the same as usual at exhibitions, half a dollar, but it entitles one to a full day at the most beautiful festival of the kind that has ever been brought into existence. No one will be so presumptuous as to attempt to describe the architectural and color beauty of the Pan-American Exposition. It is a magnificent, an extravagant, dream brought to a harmonious and beautiful realization. The triumph of the architect, the colorist, the landscape architect, the sculptor and the electrician is complete.

There are about 150 buildings in the Exposition plot, of all sizes and descriptions, and an abundance for every one to see, no matter how long he may choose to remain. The most novel exhibits perhaps are to be found in the Electricity building, for in that particular exhibit wonderful strides have been made within the last few years. Notably among these is the transformer plant, where 5,000 horsepower is received from Niagara Falls by cable at a pressure of 14,000 volts and stepped down to 1,200 volts. This power is used for lighting the vast Exposition area. A daylight brilliancy will pervade the Exposition until 11 o'clock each night. The exhibit of Street Rail way appliances is also of a very complete and interesting character. The exhibit made by Thomas A. Edison, showing the development of many of his important inventions, constitutes another attractive feature. Demonstrations are to be made of Wireless Telegraphy and the X Rays. In the center of the Machinery and Transportation building is a working exhibit of a large number of Pumping Engines. These supply the water for the various fountain features of the Exposition. Among these water displays is a cascade in the southern part of the Electric Tower, from which there is a flow of 25,000 gallons of water per minute, making a beautiful waterfall 70 feet high. Upon this outburst electric lights of many colors will be thrown from an invisible source, producing an enchanting picture.

One of the most imposing buildings of the Exposition is the great Stadium. This is more than 60 feet high and is so large as to enclose a quarter mile track. The seats are arranged in the form of a vast amphitheater, and the capacity is sufficient for 12,000 spectators. This is to be the scene of very interesting events daily throughout the Exposition.

The Midway is said to be the greatest that has ever been organized for any exposition. The Midway proper

is 8,000 feet long, thus giving more than a mile of frontage upon this singular thoroughfare. There are about 40 shows, every one of them possessing special merit and selected from a large number offered. There has been great rivalry among show people to secure space upon the Midway, and it has been allotted with great care and with the positive assurance that every feature would be of a character to command popular interest.

It may be said of the whole Exposition that in every department it is a compact yet complete presentation of Twentieth Century civilization of the Western World.

"Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure, giving her three doses. The croup was mastered and our little darling speedily recovered." So writes A. L. Spafford, Chester, Mich. F. B. Duffy & Co.

Shell Lime for Sale.
12 tons Oyster Shell Lime especially burned for growers of Peanuts. \$5.00 per ton, 50c per sack.
