## RALEIGH.

### Meeting of Rural Library Committee.

### Work of Establishing School Libraries in Each County. Seaboard Settling Damage. Claims. North Carolina Orators at Nashville, Tex. Title Building.

RALEIGH, N. C., June 22.—The special committee to select a list of books for the rural school libraries sat here at ten o'clock this morning. The educators invited by General Town, the Superintendent of Public Instruction, to assist in work are: Professors E. P. Moses, Raleigh; B. F. Slied, Wake Forest; J. Y. Joyner, P. P. Claxton, Greensboro; J. I. Foust, Goldsboro; J. L. Kesler, Raleigh; C. B. Massey, Durham; M. C. S. Noble, State University; George A. Grimsley, Greensboro. The committee of the State Literary and Historical Association is composed of President Walter Clark, S. J. Peole, Dr. George T. Winston, Miss Eliza Pool, Dr. J. S. Bassett, Dr. W. L. A. Post, Prof. D. H. Hill, Col. Fred A. Olds, A. J. Field and John Wilber Jenkins. Most of those were present this morning. It will take some time to complete the list.

Measures for securing the establishment of these libraries in every county were discussed. Strange to say, in many counties not a single school has applied for the amount appropriated by the State to the establishment of these libraries, while in others several times the number allowed have made application. Gen. Town hopes that some enterprising and public spirited man in each community will take up the matter, raise the ten dollars necessary, and secure the establishment of these libraries. It is suggested that a library mass-meeting be held in each school district to which all the people of the neighborhood be invited. Some speaker to be selected to present the advantages of a good library. And it is believed that the amount and more could be raised at the meeting, and interest in the library aroused.

At Charlotte the Governor and party are being handsomely entertained. This morning the party was driven to the country club, where they were served luncheon. This evening from five to seven o'clock there was a reception for the ladies at the Manufacturers' Club, tonight a trolley party and theatrical entertainment were given them, while to-night a banquet is served on the roof garden of the club, at which Governor Aycock is the principal speaker.

The Seaboard authorities are compromising most of the claims for damages on account of the recent wreck near Rockingham. Mr. L. F. Korach, of Chicago, who was one of those most severely injured in the wreck, has been here for several days, and is getting along very well. His injuries will not be permanent.

At Fayetteville there seems to be some disposition to repeal the prohibition law some contending that the prohibition act did not repeal the dispensary act, but Representative McKethan, who introduced the bill, says the law is clear, and any evasion will be prosecuted.

It is proposed to erect a handsome memorial arch to the late Stanhope Pullen, at the entrance of Pullen Park. Mr. C. N. Barrett, the architect, offers to donate the design for the arch. The park has been greatly improved in the past year, and is now one of the prettiest of its size to be found.

Governor Aycock, Judge Winton, Secretary Pearall and a number of others from here, will attend the meeting of the State Bar Association at Wrightsville.

Nashville, Tenn., is planning a big Fourth of July celebration. Ex-Senator Matt W. Ransom and Gen. W. R. Cox are to be the orators. The anniversary will be more generally celebrated in this State than usual.

The Carolina Phosphate Mill is to erect a handsome office building at their works near the city.

There are forty five students at the Wake Forest law school.

Today the bids for the textiles building at the A. & M. College were opened. There are ten bidders. The building will be two stories with basement 85 by 60 feet. Work will begin July 1st, and it will be in charge of Prof. H. N. Wilson of the textile department.

JACOBS' Raleigh Rye Whiskey is the best. Middle street.

### Kodol Dyspepsia Cure

Digests what you eat.

### A Terrible Tornado in Nebraska.

OMAHA, June 21.—Specials from Naples, Neb., tell of a frightful tornado which struck that vicinity last night. Details are just coming in and give the names of one family, seven in number wiped out, and of two members of another family killed and several fatally injured.

### CASTORIA

For Infants and Children.

## FEAR PEARY IS LOST.

### Winter in North Greenland Was the Coldest Ever Known

PHILADELPHIA, June 20.—The first news of the season from the far North was brought to this port yesterday by the Greenland bark Fluorine, from Ivguit. The vessel left Greenland on May 21 for Philadelphia, and since that time has been buffeted by severe weather that is usually experienced at this time of the year. There were fears among the natives when the Fluorine left that Peary and his party of explorers had perished, as the winter in North Greenland had been one of the severest ever known.

For three months the mercury stood twenty degrees below zero, and hundreds of Esquimaux had perished from hunger and cold. Captain Frieble, the master of the Fluorine, reports that when he left Ivguit the whaler Helene was ready to leave with supplies for the relief of the steamer Windward, which left St. John's, Newfoundland, on June 18, 1900, with Mrs. Peary and her daughter, in search of her husband. It is feared that the coal supply on the Windward was run short, and the Helene was being hurriedly loaded. She was to have left for Driscoll the same day that the Fluorine sailed for Philadelphia. The last heard from the Windward was in August last when she was at anchor in Melville Bay, several hundred miles north of Julianshaab.

When the Fluorine was off the New Jersey coast last Tuesday Thomas Anderson became insane and committed suicide by jumping overboard. The other vessels of the fleet are on their homeward runs and are expected daily.

Danger, disease and death follow neglect of the bowels. Use DeWitt's Little Early Risers to regulate them and you will add years to your life and life to your years. Easy to take, never gripe. F. S. Duffy & Co.

## The Visible Cotton Supply.

NEW ORLEANS, June 21.—Secretary Heaster's statement of the world's visible supply of cotton shows the total visible to be 2,948,000 bales, against 2,012,128 last year. Of this the total of American cotton is 1,105,096 against 1,390,128 last year, and of all other kinds, including Egypt, Brazil, India, etc., 1,843,000 against 622,000 last year. Of the world's visible supply there is now about and held in Great Britain and continental Europe 1,457,000 bales, against 1,275,000 last year; in Egypt 148,000 against 102,000 last year; in India 618,000 against 307,000 last year and in the United States 272,000 against 328,000 last year.

## A Big Cotton Seed Trust.

PHILADELPHIA, June 21.—The North American to-morrow will publish a story to the effect that a syndicate of capitalists is planning a combination with \$100,000,000 capital to control the entire production and sale within the United States of the various products and by-products of cotton seed.

There are 490 cotton oil plants in the United States, of which the American Cotton Oil Company, with a capital of \$30,000,000, own 45, and the Southern Cotton Oil Company, with head offices in this city, own 10. The others are operated largely by cotton planters. The North American says the syndicate is now negotiating to purchase the stock of the Southern Cotton Oil Company.

## 1,000 Men Quit Work.

READING, Pa., June 21.—Over 1,000 men quit work at the shops of the Philadelphia & Reading Railway to-day for a nine hour day.

## The Sultan's Honor.

Good, honest executions are not frequent in the Yildiz Palace. Abdul prefers them done outside on account of the mess. They are seldom commanded formally. A significant hint suffices. A certain seal on a decree of exile means death en route. Most of the executions that do take place in the palace are private family affairs—women or eunuchs. Abdul is not a gallant himself, but he is terribly jealous of that honor of his distributed among dozens of simple, doll-like harem. He strikes on faintest suspicion, and the victims of these dark dramas are unaccounted. Harem etiquette forbids inquiries about a woman who has disappeared. Strangulation, the Bosphorus—the old whispered story is again reported. Even Abdul's own eldest son is kept a prisoner for a youthful indiscretion.—Everybody's Magazine.

## Situation at Newport News.

NEWPORT NEWS, Va., June 21.—The strike situation is unchanged. No more men went to work today and no more were laid off.

The strikers had a benefit entertainment tonight by which considerable money was raised. They have enough from local sources to keep them going for a while, at any rate, but nothing has come from the general strike fund. The men profess to be confident and firm. The shipyard's attitude is the same.

Many of the 3,000 employes out of work because of the strike have left the city and others are leaving as rapidly as they can get jobs, but the majority of them will stay. No case of actual suffering has been reported, but many of the men are very close to the margin.

## DEFY CONTRACT LABOR LAWS.

### Steel Kings Said to Be Importing Foreigners in Gangs.

WASHINGTON, June 24.—Treasury Department officials have recently received a large number of protests from labor organizations asking for an enforcement of Contract Labor laws, which have practically become a dead letter. The charge is made that more foreign laborers are now employed in the United States contrary to law than have sought to gain admission during the past two years. Data is furnished to show that in about 800 cases since the first of last January the law has been violated and there is no record of any deportation. Labor organizations charge that steel and coal mine owners are shipping foreign labor into the United States. Immigration was heavier last month than during any month for years.

It is learned that there had been trouble between Treasury Department officials and the officials of the Immigration Department on this subject.

## THE MODERN BEAUTY.

Thrives on good food and sunshine, with plenty of exercise in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy, she uses the gentle and pleasant Syrup of Figs, made by the California Fig Syrup Co. only.

## Ex-Consul A. S. Hay Killed.

NEW HAVEN, CONN., June 21.—Adelbert Hay, son of Secretary Hay, and the former United States consul to Pretoria, South Africa, was found dead on the sidewalk in front of the New Haven Hotel at 2:30 o'clock this morning. He retired to his room at 12 o'clock after spending the evening with a party of friends, in apparently excellent spirits. It is believed that Mr. Hay became ill after retiring and went to the window for air. It is supposed that he became dizzy and fell. Dr. Barlette, the medical examiner, stated that Mr. Hay undoubtedly came to his death by accident. The bed clothes in his room were found turned over on a chair.

On the window ledge was found a partially burned cigarette. From it is inferred that Mr. Hay had lighted it for a smoke before retiring and was either seated or standing by the window. Whether he fell out while asleep or in an attack of vertigo cannot be determined.

## To County Boards of Education.

RALEIGH, June 21.—The new School Law requires that on the 21st Monday of July your Board shall elect a County Superintendent of Schools. It would seem needless for me to call your attention to the importance of this election; but the success of public schools rests largely upon your action. The Superintendent should be the leading factor in the administration of the law. From him you will get most of the information about how the schools are being conducted in your County. It therefore becomes of the highest importance that you secure for this office the services of one of your best teachers. The work under the new law will require the entire time of the Superintendent while the schools are in session.

We need in every county in the State a teacher for Superintendent who has the confidence of the teachers in his county—a man that is a teacher in educational thought and work—a man that is competent to teach teachers how to teach, a man that will inspire and arouse the people to the importance of education at this time. The County Superintendent is required to conduct educational meetings in every township. He should be a good talker, full of enthusiasm and well posted in the best methods of teaching. He should be a man of such business judgment and courage as to see that all the money that belongs to the School Fund shall go into the Treasury, and with your assistance know that it is being wisely and economically spent for the children.

You will see that the powers and duties of the County Boards are greatly enlarged. It is important that you require your Superintendent to visit the schools, and encourage him in every way you can. The work you have before you demands your best thought and most patriotic devotion. There never has been a time when so much was demanded of School officers as now. It is hoped that you will not only be careful in selecting a suitable man for Superintendent, but that you will also appoint the best man you can find in your county for Committeemen.

Earnestly beseeching your cooperation in every effort to encourage and stimulate our people in the great cause of popular education.

I am your obedient servant,

T. F. TOON,

Supt. of Public Instruction

## You have them?

Do you have headaches? The Sunday morning kind? The sick or nervous kind? Do you want to get well? Coughs, Headache Powders will relieve you. If not your money back. Many times headaches come from a disordered stomach. There are ingredients in Coughs, Headache Powders that will stimulate and increase the secretions of the stomach and that old headache will pass off. Only ten cents at Haddon's Prescription Pharmacy.

## GREAT HAIL STONES.

### Pell With Rain and Much Damage To Crops.

### Governor Aycock at State Board of Encampment. Export On Martin's Accounts. Fifth Week. Machinists Strike. Tyson Case.

RALEIGH, June 24.—Most of the talk here today was about last night's hail storm and the great size of the hailstones. The storm began at 11:30. The noise was frightful. The hailstones were as large as hen eggs. The largest measured was 1 1/2 by 2 1/2 inches. The fusillade of those stones was like revolver firing. South of here the storm was worst. Another storm with but little hail, came up at 1:30 and in 15 minutes an inch of rain fell. The roar of the storm was intense, despite the three storms. Damage is again done to crops.

Gov. Aycock will go to Wrightsboro at almost the close of the first encampment and will see the work of the regiment then in training. He will remain to see the next regiment for a day or two. He will make another visit in August to see the last regiment.

Ex-State treasurer Worth asks that an expert be allowed to go over the books of W. H. Martin, the ex-clerk who stole \$10,351. The request is granted. Worth does not accept as final the report of the legislative joint committee on the matter. There is some idea that he may resist, or attempt to resist the demand which the State treasurer will soon make upon him. He said some nights ago he would have no trouble in making Martin's bookmen make the stealings good. The curious fact is ascertained that Martin "raised" the books for \$1068 more than he stole.

Governor Aycock and party returned at noon yesterday from Charlotte, where they were most charmingly entertained.

Today the fifth week of the railway machinists' strike began. Those here say they have as yet drawn nothing from the strike fund.

The first wife of T. B. Tyson, the brigand in jail here for swindling the Virginia Life Insurance company came here today from Fayetteville. Her brother is in jail as a party to the fraud. He says he is not yet ready for trial, as his witnesses are not here.

At this season of the year there are a vast many deaths, particularly among children, from summer complaint, diarrhoea, dysentery, cholera morbus, cramps, etc., and every one ought to know that a sure and speedy cure can easily be obtained by taking KIDNEY PILLS.

KIDNEY PILLS in sweetened water every half hour. It never fails. Avoid substitutes, there is but one Pain-Killer, Perry Davis' Price 25c and 50c.

## HUNDREDS LOST.

### In Cloud Burst in Fishhook Valley Section, West Virginia.

RALEIGH, June 24.—The estimated loss of property in the cloud burst in the Fishhook Valley section of West Virginia, there were about 1000 persons who were estimated to have been killed. The loss of property was estimated to be about \$2,000,000. The property loss will reach about \$2,000,000.

Some of the drowned are said to be among the most prominent people of the section. The district affected is near the Virginia line, about 125 miles west of Roanoke and 25 miles west of Bluefield, W. Va. It is reported that only one building—a school—remains standing in Keystone, and the town of Vivian (Fayetteville postoffice) is reported annihilated.

At Vivian a train was caught in the flood and the passengers were rescued by the use of ropes.

Many miles of Norfolk and Western Railroad track have been washed away. Weather Bureau officials at Washington have no explanation to offer for the cause of disaster.

A surgical operation is not necessary to cure piles. DeWitt's Witch Hazel Salve cures all that, expense and never fails. Beware of counterfeits. F. S. Duffy & Co.

## North Carolina, Virginia League.

### Special Journal.

RALEIGH, June 21.—The first game in the new series was played to-day, Charlotte, formerly Post-union being defeated by the home club, Raleigh 3, Charlotte 2.

TARHEED, June 21.—Wilmington took the first game here to-day, defeating the locals, formerly the Newport News club by a score of Wilmington 9, Tarheed 2.

Mr. James Brown of Portsmouth, Va., over 70 years of age suffered for years with a bad sore on his face. Physicians could not help him. DeWitt's Witch Hazel Salve cured him permanently. F. S. Duffy & Co.
