Governor Aycock Cannot Attend Wrightsville Meeting.

School Law Sent Out. Crops Damaged 25 per Cent in State. Base Ball. Lawyers Go to Attend Bar Meeting.

Raleigh, N. C., June 26.—Governor Aycock is compelled, greatly to his regret, to abandon his plan of going to the meeting of the Bar Association at Wrightsville.

The State Superintendent of Public Instruction says he has completed the work of sending the new school law to all the counties.

Adjutant-General Boyster is here and says there may be a change in the order in which the three regiments of the State Guard go into camp at Wrightsville.

The plumbing of the executive mansion is found to be of a very bad type and Governor Aycock is arranging to have it all done anew.

Commissioner of Agriculture Patterson who has returned from Piedmont, North Carolina, says he is sure from observation and reports that the crops in this State are damaged 25 per cent. He adds that the damage is of course much greater than in lowlands.

The stock company now playing at the summer theatre in the park at Charlotte is to appear here in comedy and vaudeville.

The Raleigh baseball team is now stronger than at any time this year. Its fielding is greatly improved.

Rev. W. G. Clements, the veteran superintendent of public instruction of this county, says from personal observation he is prepared to assert that the crops are worse than he ever saw them save in the "rainy year," 1867.

The issue of each of the four volumes of the Histories of North Carolina Regiments in the Confederate Service will be 2,000 copies. These the State will sell at cost, \$1 a volume, express charge to be added.

Miss Teasley, the young woman who for several years flagged trains on the the Lynchburg and Durham branch of the Norfolk and Western railway, and thereby gave the road inconceivable annoyance, has been arrested, given a hearing at Durham and declared insane. She will probably be placed in the asylum here.

Judge Walter Clark, ex-judge and Mrs. T. B. Womack, James H. Poy, Mr. and Mrs. E. H. Bush, and ex-judge and Mrs. James E. Shepherd, went to Wrightsville today, to be present at the bar association meeting.

Three Mail Clerks Hurt in Wreck.

LITTLE ROCK, Ark., June 25.—The south-bound cannon-ball on the St. Louis, Iron Mountain & Southern Railroad was wrecked near Beebe, this morning. The engine, mail car and two baggage cars were derailed and smashed into a kindling wood. W. W. Stilbold, A. E. Lamb and Butler Campbell, postal clerks, received severe injuries. The three day coaches were derailed but none of the passengers were injured.

Fight With De Wet.

CAMP TOWNS, June 25.—Details of the engagement between General Elliot's columns and Dewet's force, near Peliz, June 6, shows that the British surprised the Boer convoy. The burghers fled, but seeing the captors were not in strong force, the Boers returned and charged with great determination, after desperate fighting, recapturing the convoy. Meanwhile Colonel DeLisle arrived with re-enforcements and the fighting was renewed. The Boers lay beneath their wagons and unflinchingly fired volleys between the wheels, while their comrades were engaged in inspanning and driving off that portion of the convoy furthest from the British. The latter pushed in among the wagons, using the bayonets freely.

General DeLaroy was present and personally used a rifle. A man at his right hand was killed, and the comrade on his left had a hand wounded. The affair ended in a series of hand-to-hand encounters and fierce melees, the Boers eventually being driven off. One of General Dewet's staff officers was wounded and taken prisoner.

The Company Unable to get Coal to Operate its Plant.

ROANOKE, Va., June 25.—In accordance with an order from General Manager Johnson, of the Norfolk and Western Railway, who is now in the Potomac Highlands rushing railroad repair work in the region recently devastated by the storm, a notice was posted at the Roanoke Machine Works this morning closing the shops at 12 o'clock today. The notice stated that the shut down would be for only a few days and was due to the fact that no coal is now passing over the Road. Nearly 1,800 men are affected by this order, but the majority of the men seem well satisfied with a few days' rest.

Colony of Finns Locate in Georgia.

WASHINGTON, June 26.—The Southern Railway announces that it made arrangements to day with Capt. A. Backman of Finland, for the purchase of 10,000 acres of land on the southern Railway in Georgia for colonization purposes. Capt. Backman's purpose is to add a number of Finlanders who are dissatisfied with political conditions in their country to emigrate to Georgia, where his brother, Rev. Dr. Backman, an influential Lutheran minister, will arrange for the settlers. It is hoped the result will be considerable Finnish settlements along the line of the railroad.

Navy Needs Sailors.

WASHINGTON, June 26.—Men are wanted for the enlisted force of the navy to complete the authorized strength of 25,000. The apprentice system is over 1,000 short and the regular establishment about the same number, with poor prospect of being fully recruited during the present summer. Over 900 sailors, whose terms of enlistment had expired, were discharged within the last three weeks from the Asiatic Station, and as each ship returns home its crew almost to a man will be discharged. At this rate the Navy Department finds it impossible to maintain the service at its full strength, although every recruiting station is active in enlisting men.

There were surrendered together with 95,110 rounds of ammunition and 34 cannon.

Fatalities in West Virginia Flood Not So Great. Financial Loss is Heavy.

HELENFIELD, W. Va., June 25.—When might fell today on the Elkhorn Valley the mystery of 60 miles length which has been as a sealed book since the cloudburst of Saturday, was still unrevealed. From Vivian to where the Pocahontas branch leaves the Elkhorn at Williamson the report has been received. All that is known is that there has been a flood 75 miles long, and that in a space of 75 of these 75 miles \$2,000,000 worth of property and at least 20 lives were wiped out. But nothing came from the remainder of the valley.

The exploring party report discovering about five unburied bodies along the stream. It is probable that not more than 24 persons lost their lives. The Pocahontas branch, made clear by today's report, is more than half wiped off the map for a distance of 75 miles. With this trackage have gone the numerous sidings to the collieries and lumber operations. While some progress was made in restoring the tracks today, it was insignificant compared with what is yet to be done. General Agent Johnson has only 1,000 men working today and in four days has succeeded in establishing connection only for light traffic from Mayberry to Norfolk, a distance of six miles. The Pocahontas region supplied 60 per cent of the freight that originated on the Norfolk and Western system.

SECOND STORM RAGES.

BLUEFIELD, W. Va., June 26.—A railroad operator has just received word from Pocahontas, 12 miles west, that there has been a cloudburst and that water is three feet deep in the railroad yard and is washing property away.

ROANOKE, Va., June 26.—Word was received here at a late hour to-night confirming the report that there had been another heavy fall of rain in the West Virginia coal fields.

The intelligence received here says another storm has occurred and that Pocahontas is damaged more than last Saturday. All railroad repairs are threatened.

COOPER, W. Va., June 26.—Heavy rain to night in the head of the Elkhorn has washed out much of the new work, and is likely to delay traffic to-morrow. The bridge on Mill creek, west of Cooper, is washed out.

Changes in Encampment.

RALEIGH, June 27.—The change in the order in which the regiments will encamp at Camp Aycock, Wrightsville, is very satisfactory. The 3rd regiment encamps first because it is from the tobacco section, and many of its members are in the tobacco trade. July 10th it goes into camp, leaving on the 19th. The second regiment goes in on the 23rd of July, and leaves on the 31st. The First regiment goes on August 6th, and leaves on the 14th, both days inclusive. As stated some weeks ago, the battery of artillery at Charlotte, which was recently made a full battery, will encamp with the First regiment. The Hatterford Rifles, Co., L., 3rd regiment, is disbanded for failure to comply with requirements.

BANK FAILURE.

Seventh National Bank Suspended. Rumor of Stock Exchange Firm in Trouble.

Special to Journal. NEW YORK, June 27.—The Seventh National Bank, about which it has been rumored for a number of weeks, says today closed its doors.

It was rumored that the Stock Exchange firm was in "trouble" and might have to suspend. The announcement of the Seventh's closing started a sharp selling movement in stocks, with the tendency of prices downward.

According to the bank's last statement to the New York clearing house for the week ended June 22, the Seventh National had a capital of \$150,000, net profits \$834,460, loans \$1,072,100, specie \$57,700, legal \$77,700, deposits \$7,213,400, circulation \$298,200.
