NUMBER 27.

RALEIGH.

Efforts to Avoid Borrowing Money For Penitentiary.

Second Regiment in Camp. Trouble About Settling Indigent Inmate in Asylum. Farmers Institute. Cotton Average. Assessment of Railways.

RALEIGH, July 24.—Superintendent Mann of the penitentiary says he and the directors are making strenuous efforts to get through the year without borrowing any money. He says he expects to begin August 1 to rebuild the great dyke at the "Caledonia" farm on the Roanoke which the May fresh partially destroyed. There are numerous breaks, the longest 1500 feet in length.

The second regiment now in camp at Camp Aycock, Wrightsville, makes a good show in point of attendance, having 534 officers and men present for duty.

There is to be a rigid inquiry as to why some indigent inmates have been denied admission to the insane asylums, while pay patients have been received. The matter comes to a head by the denial of admission to an indigent inmate woman while an inebriate pay patient was received. There are grave complaints of difficulty in getting indigents admitted. The plain declaration is made that preferences must be given indigent inmates.

The commissioner of agriculture has arranged for a series of farmers institutes during August, covering 13 Piedmont and mountain counties. He expects to be present at most of these, and to be aided by Prof. Burkett, the newly elected professor of agriculture of the agricultural and mechanical college, Prof. W. F. Massey, and State Chemist Kilgore.

The State Crop report says the percentage of condition of cotton in this county as compared with an average is 59. This very closely agrees with the statements made by farmers.

The farmers are greatly pleased by the hot and dry weather. If it continues the crop report next week will be more favorable. Cotton's condition fell off 7 per cent in the State during the 30 days ended July 20.

The corporation commission sends to the State treasurer its assessment of the property of railroads and other common carriers, this being as follows: Railways, \$42,375,679; telephone \$350,807; steam boat, \$197,785; canal, \$74,108; street rail way \$756,360; gas and electric light, \$117,366; telegraph \$924,500; Pullman car \$98,173; express, \$189,372; water and sewer \$84,429; total \$45,147,836; the taxes to be paid directly to the State at 25 cents on the \$100 aggregating \$112,935. The increase in valuation over last year is \$1,700,000.

Free Trade With Porto Rico.

WASHINGTON, July 23.—Free trade between the United States and Porto Rico will be proclaimed Thursday. Two proclamations will be issued, the first declaring the establishment of civil Government in Porto Rico, and the second the establishment of free trade between the United States and the island. Although civil government has existed for many months in Porto Rico, Governor Allen up to the time he went to Canton on Sunday, purposely withheld the formal notification of that fact from the President in order that the monies collected under the Foraker act might not be placed at the disposal of the Porto Rican legislature, but could continue to be used for the benefit of the island under the direction of the President.

State Charters.

Special to Journal.
RALEIGH, July 24.—The State charters to day the Beaufort, Morehead City and Ocracoke Steamboat Company, capital \$6,000, with leave to increase to \$50,000.

Also the Enterprise Packing Company of Beaufort, capital \$6,000, to pack fish, crabs, oysters, fruit and vegetables.

British Fighters May Come Home.

London, July 21.—Lord Kitchener has advised the Government, says the Daily News, that it is possible to withdraw a large number of infantry regiments from South Africa, amounting virtually to the greater part of the unmounted army. At the same time he requests that he be supplied with more mounted men.

Garment Workers Gain.

New York, July 24.—Thirty-one manufacturers have thus far made satisfactory agreements with the United Garment Workers.

According to General Secretary White the strike will probably last three weeks longer. The strikers say that 7,000 additional men, 2,000 of them from Newark, went out today, making 80,000 in all.

Pembroke Manufacturing Co.

At a meeting of the Directors of The Pembroke Mfg. Co., the following resolutions, which were ordered to be published, were unanimously adopted.

"WHEREAS, Since the organization of this Company there has been a small per cent of the subscribers to its stock that have become in arrears, and
"WHEREAS, Resolution has been adopted by the Board of Directors instructing its Treasurer to close up this delinquent list, and
"WHEREAS, There is a feeling among the stock holders of this Company wishing some positive information as to the time when active operations will be begun upon the work and establishment of a cotton mill, and

"WHEREAS, The Board of Directors believe that it is impracticable to attempt the building of a mill until at least 90 per cent of the capital stock shall have been paid in. Now, Therefore be it,

Resolved, That the Board of Directors pledges itself to commence by the 15th, of March, 1902, actively in the work of constructing, equipping and erecting a cotton mill in accordance with the plan of organization of this Company, and that upon the failure to do so they will recommend to the stockholders that said Company be liquidated.

Resolved Further, That all delinquents who will pay up their subscription in full to date be allowed 30 days from this date to do so, and those who have settled with the Treasurer by surrendering their interest in the Company may be allowed to pay up their arrears upon the execution of note to secure balance due.

Resolved Further, That those who do not pay up in full within 30 days from this date or make some satisfactory settlement of their arrears that the Treasurer will proceed to sell their interest in Company in accordance with the terms of their contract with Company."

At the same meeting I was requested to make a short statement to the stockholders through the columns of your paper. At the annual meeting held in March, the stockholders by resolution directed the Board of Directors to close up the delinquent list after a period of sixty days. Every means have been resorted to that were fair and equitable to get the delinquent subscribers to pay up their dues and to maintain the stock of the Company at its original amount. In this we have failed. Since this stockholders meeting there has been many questions asked by some of the stockholders, the most important of which was when we expected to begin the building of a mill. At the meeting this morning this matter was thoroughly gone over by the Directors and the above Resolutions given to the stockholders—the information they have so diligently sought for.

It must be recognized by every stockholder that a cotton mill cannot be built without money. That money for building a mill cannot be had unless the subscribers to the stock pay in their one per cent per month, and one per cent a month is an exceedingly slow way to accumulate money, but if they will be as persistent in paying in as some of them are in knowing the intentions of the Board of Directors there is no question about the fact that the cotton mill will be built.

Sometimes in the 70's there was a mill here that failed. About 25 years have elapsed since that calamity befell New Bern. Now if the stockholders in the Pembroke Mfg. Co., should by their lack of faith or for any other reason fail to pay up their subscriptions in accordance with their contract and the Pembroke Mfg. Co. goes out of existence, I am afraid there is not a child born in New Bern young enough to live to see a cotton mill in the near vicinity of the City of New Bern, a calamity which I hardly believe any thinking man, one who has a spark of interest in the progress and welfare of the city in which he lives—can wish for or does wish for. We can assure you of our good faith, and we can also assure you that your money that is being judiciously invested, and that when the time comes that a mill will be built and placed upon a substantial basis, so that it will not be wrecked because of being built upon paper alone. Therefore, cast your bread upon the waters, and you shall find it after many days. Respectfully,
P. H. PELLETIER.

A bad complexion generally results from inactive liver and bowels. In all such cases, DeWitt's Little Early Pills produce gratifying results. F. S. Duffy & Co.

To Wreck the Taku Forts.

TIENTSIN, July 16.—The military commanders have directed the provisional government of Tientsin to undertake the destruction of the Taku forts. The Government has promised to comply on receipt of a military guard to protect the workmen engaged in the task.

One Day's Awful Record.

Washington, July 24.—St. Louis, with 109°, had the highest temperature in its history. Louisville, with 107°, also surpassed itself.

St. Paul did the same, its new record being 104°.

For 18 hours the mercury was above 100° at Kansas City. The maximum there was 106°.

The line of 100° temperature now includes the Upper Mississippi Valley, the Lower Missouri Valley and the Middle and Lower Ohio Valley.

NEW DORMITORY.

Directors Soldier's Home Desire to Build Within Appropriation.

Ex-Treas. Worth Will Turn Over His Property. Peace Institute. Result of Strike. Zoo at the Park.

RALEIGH, July 25.—Work has not yet begun on the dormitory at the Soldiers' Home here for the reason that the directors decided to have various buildings examine the place and see if the building can be completed within the \$5000 allowed by the legislature. The frontage will be 110, the depth 60. The old dormitory is to be removed and all its available timber used in the construction of the new one.

Ex-State Treasurer Worth has formally notified his bondsmen that he will turn over all his property to them towards making good the stealing of W. H. Martin who was his clerk. The Baltimore company which was Martin's bondsmen will have to be sued.

Chairman McNeill of the corporation commission has bought a very attractive place here and will make Raleigh his home.

Great satisfaction is felt here at the news of the appointment of Bradley J. Wooten to a second lieutenant in the regular cavalry. A letter from the United States Senator who secured the appointment says Wooten has reflected much credit upon his State by his conduct in service in the Philippines.

President Dinwiddie of Peace Institute here finds the demand for more room so great that he has leased a spacious residence owned by General R. F. Hoke for use as a dormitory.

Nearly all the Seaboard Air Line machinists here are arranging to go to Portsmouth to get work in the shops there as only six are to be retained here. No work save in the way of simple repairs is to be in future done at Raleigh. The plan of re-opening the shops abandoned in 1895 is abandoned. The machinists find that they are worse off than before the strike began, as the have had two and a half months' work, and will have to leave here here to get work.

At the city park here a "zoo" has been established and it is already quite a feature. A bear is to arrive in a few days, the gift of the Seaboard Air Line Library Association. A pit is now being prepared for him.

There were scattered local showers in the section last night, with much electricity.

The discussion of the issue of bonds (\$50,000) for street improvements here is quieting. The opponents of the issue have raised a campaign fund and have started their fight.

Chairman McNeill of the Corporation Commission says holders of bank stock, State or National, are not entitled to have their liabilities deducted from the amount of such stock when listing it for taxation.

It is easier to keep well than get cured. DeWitt's Little Early Pills taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy gentle action. F. S. Duffy & Co.

Carolina League Games.

Special to Journal.
Raleigh, July 25.—Today's score, Wilmington 3, Raleigh 2.

Charlotte, July 25.—The home team easily defeated Tarboro today, score, Charlotte 8, Tarboro 3.

Hallstones Weighing 3 Pounds?

St. PETERSBURG, July 24.—A hail storm in the district of Schlitz, government of Tamboff, yesterday destroyed the crops over a wide area. Three men and many cattle were killed. An entire flock of sheep and two shepherds were carried off by a flood. Some of the hallstones weighed three pounds.

The Great Remedy of the day is unquestionably PAIN-KILLER, for the instant relief of all burns, scalds, bruises, etc., and for pains in the stomach and bowels as well as in sudden attacks of cholera morbus. No family should pretend to keep house without it always by them. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

Rare and Curious Gems.
The rarest and costliest of gems, though not always esteemed the most beautiful, are pigeon's blood rubies, fine opals and diamonds that are pure but show a distinct glow of blue or pink. A very perfect pearl of gorgeous size and lustrous skin, tinted a rarely beautiful golden green, was valued at over \$200. A faultless green pearl is very rare.

SWANSBORO.

July 24.—Mr. Stanley Oakes, of Hollywood Carteret county, was here a few days ago prospecting.

Judge Hugh Humphrey of Swainsboro was here for several days last week, stopping and taking in our sea breeze. Judge High was once a native of this place.

Mr. and Mrs. L. J. Herrington, of Pittsboro county, are here visiting their relatives and friends.

Mrs. H. L. Williams and children, of Portsmouth Va., are here visiting their parents and friends.

Mrs. H. L. Williams and children of Wilmington, N. C., are among the visitors here.

Dr. W. H. Bunting and Mr. Walker Mears of Wilmington are taking in our healthful resort now.

Mr. Ambrose Goethrie of Punta Gorda, Fla., was here last week visiting.

Mr. F. H. Provost of Indian river Fla. came a few days ago and will stay a month before his return. "Black" is a native of this State and county and hasn't been here in 13 years.

Mr. R. C. Foster, formerly of Swainsboro, now of Flomerton, Alabama, came to see us and remained 2 weeks. He left yesterday for Alabama.

We have more visitors in the summer than we can accommodate, every week we have letters from whole families wanting to come to Swainsboro for health and recreation, and have to write them back, there is no chance to board.

We need a hotel and need it bad, also a railroad. Some one please come and look and see what a great place this is for your comfort, provided with a hotel and railroad, or either, one would bring the other sure. Some moneyed firm should try it quick.

Very little sickness here, very healthy now, two deaths in the place in 10 years grown people, they were over 50 years old, each. Our population now is about 350 all told, no colored in the place.

Mr. John O. Barber, now here, died last week, aged 59 years. He leaves a wife and several children. Rev. F. S. Beeton performed the burial service at Lebanon Church, near Swainsboro.

Two people here and near abouts live to be old before they die, two deaths among the colored population in our neighborhood last week, were Israel Jones, aged 127, and Kitty Jones, aged 101. Don't this show a healthy community, we think so.

Mr. J. Herbert Ward, (Hubby), formerly of Swainsboro, now of Faison, and Miss Mollie Bell, daughter of W. H. Bell of Belgrade, this county, were happily married last Wednesday, at Belgrade, by Rev. F. S. Beeton. They gave us a short visit and left for their future home at Faison's yesterday.

One or two more marriages soon, so things look now. Our town is on the increase all the time, if one dies two or three come, only twelve babies in the place now.

Rev. J. B. Olive is holding a protracted meeting at Bear Creek Church this week, Rev. A. W. Setzer of Morehead, is doing the preaching. Bear Creek Church is five miles from here, J. B. Olive is pastor, Baptist.

Rev. Mr. Beeton preached a good sermon here last Sunday night to a large audience. Rev. C. B. Paul has gone to the straits for two weeks on a visit to his people.

GEDDY.

July 25.—The weather is very warm and has been very rainy and somewhat dusty now. We are expecting a larger freshet in the river this month than we had before.

We are having a protracted meeting at Lane's Chapel this week. There has been a very large crowd of people here. It will continue on until the 31st of the meeting. Rev. Fowler will preach.

Mr. Bishop Dabbs will be here very ill to improve his lungs.

There is a rogue in our fields here. We would like to find him out. There has been stealing in our fields, this place, all done about the same time. They may not now be in our vicinity, and we know not who it is or where they are.

Mr. and Mrs. William Hill of Kingston are visiting their parents in our vicinity.

Mrs. Lovey Blinger and Miss Minnie Gaskins of your city are visiting their mother, Mrs. Nancy Gaskins.

Red White and Blue.

A CHILD ENJOYS.

The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use, so that it is the best family remedy known, and every family should have a bottle. Manufactured by the California Fig Syrup Co.
