NUMBER 30

## COLEY CASE.

### The Application for a Rehearing by the Railway Company.

Council Must Hear Aug. 12 Raleigh Death Rate. Textile School Building. Union of Cooks. The Peabody Scholarships.

RALEIGH, Aug. 3.—A telegram from the Governor last night informed private secretary Pearsall that he had decided to interfere no further as to the execution of Lewis Council at Fayetteville, so it seems the latter will be hanged August 12. This is the result of the visit of ex-Judge Womack to Fayetteville. He found public opinion there widely divided and made an investigation. It is quite noticeable in recent years that Governors more and more depart from the old custom of making Friday "hanging day."

Mention has been made of the fact that there had been an application filed for a rehearing of the Coley case, this being the one in which Ham Coley, conductor of the Southern Railway, recovered damages to the amount of \$12,500 against it for the loss of an arm at Goldsboro. The Supreme Court at the last week of the last term gave him the damages. The application for a rehearing is granted. It has aroused no little feeling on the part of the railway employees. Coley's attorney says: "There will be a rehearing, but there will be no reversal of the opinion in the case. It is the gasp of a corporation," which he then proceeded to denounce. On its side the railway says it has very strong grounds for its application.

During July in this city, as the report made today shows, there were 26 deaths and 43 births. Of the deaths 9 were of white persons, 17 of negroes; of the births 22 of whites, 21 of negroes. Only one death was from typhoid fever, though there were 25 cases of that disease. Physicians say it is of a mild type.

Rapid work is now being done on the textile school building at the Agricultural and Mechanical College. Forty men are employed on it. It is to be a model building; the best of its kind.

It is declared that there is a "union" or secret association of cooks here. One householder says he is informed that each member promises to feed at least 3 persons.

The State superintendent of public instruction made a speech today at a large educational rally at Ellerbe Springs, Richmond county.

Building here continues very active. It is almost entirely at present of residences.

The examination papers of a number of applicants for Peabody scholarships were sent on today, these being from the counties of Haywood, Harnett, Duplin, Alleghany, Burke, Iredell, Sampson, Wilson and Randolph. This carries out purpose to scatter the scholarships widely. Heretofore the extreme west has had all of them.

The bankruptcy case of S. H. Loftin, of Kinston, referred to yesterday, as involving \$110,000, will be again argued here Sept. 10, and there will be some new parties plaintiff.

### Using Negro Labor.

CLEVELAND, Ohio, August 2.—The big steel combine is utilizing negro labor to supplant its white workmen in the Newberg mills here. Already a couple of hundred of brown colored men have come to the city from Pittsburg, Homestead and adjacent iron centers in Pennsylvania. They are brought here by one of their own race, who is acting as agent for the steel corporation. When the colored men arrive they are sent to the mill where a large dwelling house is used as a domicile.

Many more negroes, it is said, will be brought here and a general emigration of colored workmen familiar with the manufacture of iron and steel, from the South, is prophesied by a colored agent of the steel corporation.

The negroes from Alabama and Tennessee, according to the same authority, see in this strike a glorious opportunity to improve their condition and they are flocking north in large numbers. It is also asserted that the Steel Corporation has given authority to its agent to gather all the colored iron workers possible and to center them at the various points of the strike.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by F. S. Duffy & Co.

### Chair Factory Burned.

THOMASVILLE, Aug. 4.—The Lambeth Chair Factory, one of the largest and probably the best equipped ones of the chair factories now running, was burned to the ground this afternoon, between 5 and 6 o'clock. The loss is between \$5,000 and \$10,000, one of the biggest ever in Thomasville.

## CASTORIA

For Infants and Children. The Kind You Have Always Bought.

## Pitiful Case of Convict.

SPECIAL TO JOURNAL. RALEIGH, August 3.—Some sick convicts were brought to day from the gang which is building a railway at Dover, among them a boy, very small and but 16 years old, who is serving 5 years for stealing a mule. All who saw him lamented the fact that the state has no reformatory.

## Condition of Cotton.

SPECIAL TO JOURNAL. RALEIGH, August 3.—The improvement during the past ten days is declared by some farmers to be more superficial than it appears. They say that the plants are not fruited and that this will be found out later.

## Governor's Son Better.

SPECIAL TO JOURNAL. RALEIGH, August 3.—A telegram from Governor Aycock to Private Secretary Pearsall, from Wilson this morning, said his son Charles Aycock was a little better. Private Secretary Pearsall left for Wilson this morning to see the Governor in regard to public business.

## Crecoius Lowers Record.

COLUMBUS, Ohio, August 3.—Crecoius champion of the trotting turf added more laurels to his fame today by trotting a mile in 2:02 1/2, reducing by half a second his week-old record of 2:02 1/2 made at Cleveland last Friday. The first half was trotted in 59 1/2, the first time that the distance has been covered in less than one minute by a trotter. The time by quarters was 29 1/2, 59 1/2, 1:30 1/2 and 2:02 1/2.

## Cost of Food Rises.

CHICAGO, August 2.—The drought has sent food supplies in Chicago soaring. Boarding house proprietors are raising the price of meal tickets and restaurants are lessening the quantity of food given to patrons.

Vegetables, fruits and almost all food products are higher than ever before in the produce markets not only have the prices become prohibitive to many, but those who can pay the advance find great difficulty in getting food stuffs which compare favorably in quality with those of former years. Peas, beans lettuce and tomatoes are up 100 per cent. Potatoes have quadrupled in price—\$1.40 a bushel. Fruits have doubled, and but for the California product would be prohibitive. Eggs and butter are up 40 per cent. over a year ago.

## TO CLEANSE THE SYSTEM

Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

## Killed by Mosquito Bites.

CHESFIELD, Md., August 2.—William Maher, aged 70 years, was stung to death by mosquitoes in a dense swamp near his home at Nanticoke.

Maher had been very feeble for some time, and seldom left his home, but last night he went to the village for a package of tobacco.

On his return, desiring to lessen the distance, he made a short cut through a dense swamp and lost his way. Swarms of mosquitoes settled upon him, literally encasing his face and hands.

The aged man was soon rendered unconscious by their stings, and was found in a dying condition by a searching party about midnight. His face was swollen beyond recognition.

Poisonous Reptiles and Insect Stings and bites cured quickly and surely by the prompt use of PERRY DAVIS' PAIN-KILLER. If you have not a bottle in your home do not lose a moment in procuring one, as you are apt at any time to be stung by poisonous insects, snakes, or bitten by centipedes. Go by directions on wrapper around bottle. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

## THE MARKETS.

The following quotations were received by J. E. Latham & Co, New Bern N. C.

Table with columns: Commodity, Open, High, Low, Close. Includes New York, Aug. 5 and Chicago, Aug. 5.

Table with columns: Commodity, Open, High, Low, Close. Includes Wheat, Corn, Rice, Sugar, etc.

Table with columns: Commodity, Open, High, Low, Close. Includes New York, Aug. 5.

Table with columns: Commodity, Open, High, Low, Close. Includes Sugar, etc.

## Kidney and Bladder Cure

Signs of kidney trouble. Discharge when you urinate.

## REWARD OFFERED.

### For Capture of Murderer of Chief of Police of Shelby.

EFFECT OF THE NEW PARDON RULE. The Wadleigh Saw Mill Case. The Coley Verdict. Underground Telephone Wires.

RALEIGH, Aug. 5.—An executive reward of \$200 was offered today for Jim Lowery, a young negro who at Shelby at 1 o'clock yesterday morning murdered chief of police R. S. Jones. The latter accompanied by a policeman, went to the house of a negro woman at which gambling was going on. Lowery opened the door and on the instant shot Jones. Lowery ran into the yard, Jones caught him and there was a desperate struggle. Lowery shot him. Jones died instantly and the murderer fled, hotly pursued. The town of Shelby offers \$200 reward.

Private Secretary Pearsall says the good effect of Gov. Aycock's pardon rules, requiring publication of the fact that a pardon will be applied for is already apparent. Meagan, a man convicted at Tarboro, applied, and notice was published. Leading citizens now notify the Governor that they want to be heard in opposition to pardon and say it would be a gross error to grant one.

Under the new revenue act it is found that the increase in incomes in this city is over \$125,000.

A telegram from Wilson last night stated that Charles Aycock, the Governor's son, who is almost 18 years old, was in an extremely critical state; that left side was paralyzed and that he was not expected to live until this morning. News this morning is that death is hourly expected. His fever was higher and he was kept alive only by the medicine and stimulants.

Today the papers in what is known as the Wadleigh case came before Judge Purnell here, in the shape of a bill auxiliary to the bill in the western district of Virginia. The case involves title to a saw mill at Wilmington, thousands of acres of land in that section and lands in Virginia and Georgia. This property was ordered sold under a decree signed by Judge Paul, 18 months ago. The present bill is to confirm and protect the title to the property under that decree. The property involved is worth from \$200,000 to \$300,000. One branch of this case has been before the United States Supreme Court.

In the Coley damage suit, which was decided in June by the Supreme Court, but which comes up for a re-argument the judgment entered is for \$13,500 with interest on \$12,500 until paid.

The Bell telephone company will spend \$10,000 here in putting its wires underground and in making other improvements.

John H. Boner, the poet, is now at Fuquay Springs near here. He has consumption, but has improved considerably since his arrival from New York.

## Defense For Pekin.

Pekin, Aug. 4.—American and European residents assert that the demeanor of the Pekin populace is constantly becoming more unfriendly and that, as the allied troops depart, the Chinese resume their old habits of jostling and cursing foreigners in the streets. The legation defenses are now approaching completion. Generally speaking, they consist of brick walls from fifteen to twenty feet high and from three to four feet thick, loop-holed for rifles.

## A RARE VOLUME BY PENN.

Only Known Copy is Owned by Quakers in Philadelphia.

The only known copy of Penn's issue of "Magna Charta," published in 1687 by the Bradford Press, is the property of the Meeting For Sufferings, a representative body of the Friends' yearly meeting in Philadelphia. Its title is "The Excellent Privilege of Liberty and Property; Being the Birthright of the Freeborn Subjects of England." The copy is not generally open to the public.

The peculiar significance of this book is that a half dozen years after Penn founded his colony he wished to have the colonists keenly realize that they would have to stand for their rights in the new country as well as the old, where they had been so cruelly persecuted. He wrote this book in order that they might be informed on the constitution of their local government and know what were the legal bases of their rights as citizens.

Curiously enough the only proof there is that this work was William Penn's is the statement made by Chief Justice David Lloyd in 1788, a great Quaker leader, who was Penn's attorney general at the time the book was issued. Chief Justice Lloyd was also at that time an intimate friend of William Penn and consequently knew whereof he spoke.

The volume was reproduced in facsimile by the Philadelphia club in 1897 for a limited number of subscribers. The original volume, however, must always remain the rare thing that it is, one of the best expressions of liberty under law that the mind of the great founder could conceive.—Philadelphia Press.

If the action of your bowels is not easy and regular, serious complications may result. The best remedy is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is pleasant and effective. F. S. Duffy & Co.

## MANAGER OF THE STRIKE.

The President of the Amalgamated Association Says That He Will Order Out Every Union Man in the Employ of the Steel Corporation.

PITTSBURGH, Aug. 4.—"Within a week every union man and every union man at least in the employ of the United States Steel Corporation will be asked to join in the strike, now being waged by the Amalgamated Association. We must settle whether unionism is to stand or fall. There will be no more conferences with the United States Steel Corporation, unless the meeting is asked for by the officials of that corporation. The Amalgamated Association will not request a peace meeting.

These and several other significant statements were made tonight by President Shaffer, of the Amalgamated Association of Iron, Steel and Tin Workers, upon his return from the fruitless conference with J. Pierpont Morgan and others, in New York.

It is now a fight to the bitter finish between the great billion dollar steel trust and organized labor. Mr. Shaffer says that he is ready to employ every peaceable means within the power of man to win a victory. No quarter is to be given and none will be requested. The entire management of the battle has been placed in the hands of President Shaffer. He has absolute power to call out every man who is connected with the organization and he intends to do it. He is satisfied with the progress of the fight to date.

## Drowned in Eno River.

DURHAM, Aug. 4.—News reached Durham late this evening of the drowning of Mr. Heleah Riggs, a young farmer who lives almost three miles from the city.

From what could be learned he was in Eno river swimming, in company with several other companions, when the accident occurred.

Mr. Riggs leaves a father, brother and one sister. He was about 25 years of age.

Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by De Witt's Witch Hazel Salve. Certain cure for piles. Beware of counterfeits. Be sure you get the original—De Witt's. F. S. Duffy & Co.

## BAIT FOR SUNFISH.

One Man's Method of Going Fishing With His Boots.

There is about as much sport in catching the big sunfish as in lifting the crapple if you can get the former in one of its savage moods. Pelter is a great grafter on sunfish. He has got a dozen different kinds of bait, but he says that it is all nonsense to trouble about digging worms. He declares that beef run through a hamburger steak grinder is just the proper bait for the sunfish at Crève-Coeur lake. The tougher the beef the better, as it will cut in long strips like angle-worms.

"When the sunfish are biting right smart, it is about all that I can do to be kept in the shop," said Pelter. "I believe me and the sunfish are the most cheerful things out. Do you know, I have noticed old time fishermen at Breech's lake wading around in the shallow water, where the sunfish are found at spawning time, as carefully as if they were fishing for trout. Now, it is different with me when I go out with my hamburger steak to feed the golden bellied beauties on. I just tie the line to each leg of my boots, take a little short rod in my hand and stride into the water and go ahead. On the booter lines I use red flies. Why, the sunfish come up and get stuck on my fly hooks three or four at a time. That's the way to catch a mess of fish in a few hours.

"I can catch crapple with crawfish tails to beat the band if I cannot get minnows. Crickets are great sunfish and bass bait, while the katydids will make a crapple leave its bed at midnight. Just let your hook sing once with a green katy on, and if there is a crapple within a radius of 10 or 15 feet it will come like a bound at a courting match. If you get no bite, you can pull your freight up a few car lengths and try a new place. I caught all those big crapple last week with craw tails. I could get no minnows for love or money, so I chased up some crawfish and went in to win. When it comes to catfish bait, just try tripe. It is tough and cannot be pulled off the hook easily."—St. Louis Globe-Democrat.

## Off For Buffalo.

Bachelor, N. C., Aug. 5.—Messrs. Claud Taylor and J. R. Beeton leave this morning for the Washington and Baltimore expedition. They will visit the Pan-American Exposition before they return. The writer wishes them a pleasant trip.

## TO CATCH THE FINEST FISH

You need well made tackle. Our Fishing Tackle is made for Sportsmen, but not necessarily rich ones. We can sell you an outfit from 25c to \$10.00. Don't forget we are headquarters for everything in the Sporting Goods line.

## W. M. T. HILL.

Dealer in Bicycles, Firearms, Sporting Goods, Phonographs, Job Printing, Rubber Stamps, Seal Presses, &c. 91-93 Middle St. NEW BERN, N. C.

## GUM BRANCH.

Roads Badly Washed. At Union Chapel. Tobacco Hands Needed.

Aug. 1.—We had a very hot and dry day yesterday, and the roads were washed out in many places. Tobacco hands are needed.

Mr. P. D. Fowler, of the Union Chapel, says that the roads are in a very bad state of repair. He says that the tobacco hands are needed.

Miss Ida Wooten of Pollocksville is visiting relatives and friends here now.

Rev. H. C. Bowen of Kentucky will begin a meeting at Union Chapel Sunday next, to continue for an indefinite time. We trust Mr. Bowen is a very good preacher and a Christian, and we pray for a great success.

There is a great deal of division on the religious question around now. If protestants would lay aside party names and swear no name but the God given one, and come together on the Bible, then they could go forth competing sin and Satan and work out for themselves a brighter crown and far more weight of glory.

There was a fishing party yesterday, not any fish for the party was raised out.

We hear a long alligator has been in the river above Northwest bridge, a small one was caught as high up as Dry bridge last week.

Some people think we can distribute crumblers and furnish names gratis, send exposures and we will "see you out" next time.

Tobacco hands are scarce, but it doesn't increase the price of labor.

## CAN MAKE SUPERB PEARLS.

Michigan Chemist Discovers a Process That Will Enrich Him.

Walter Voorhes, a chemist of Buchanan, near Benton Harbor, Mich., has discovered a process of making large and beautiful pearls from the most common clam shells, says the Chicago Record-Herald. He has been experimenting with the clams for years, and the wonderful discovery, which promises to make him immensely wealthy, is the result.

Mr. Voorhes was in Benton Harbor recently and exhibited some of the pearls he has developed in clams found in the bed of the St. Joseph river. They are as perfect as any ever seen at Benton Harbor and would probably bring a high price.

Voorhes' process lies in inserting a small, hard substance in a certain part of the clam and then returning it to the water. Here the clam remains for from three to five years, when it is removed and the pearl extracted. The chemist naturally refuses to divulge the full particulars of the remarkable discovery made by him. He has at present over 2,000 clams which he has treated and expects soon to have 8,000.

## LAXATIVE TASTELESS.

## CHILL TONIC.

Combining the laxative property of Cascara, beneficial as a purgative, with the tonic properties of Iron and Quinine. Guaranteed. 50c. Only sold at BRADHAM'S PHARMACY.

## SURVEYING!

Having secured the services of experienced parties, I am prepared on short notice to execute Farm, City, Land and Rail Road surveying. Ditches, Streets and Roads laid out and leveled. Draughting in all its branches. Blue and black prints made. Old maps repaired and mounted. Topographical surveying and plotting. Drawings and working plans executed promptly. Sewerage and drainage planned, laid out and construction superintended.

## J. J. Wolfenden,

New Bern, N. C.

## THURSDAY, AUG. 1, OPENING DAY
