VOLUME XXIV.

NEW BERN, CRAVEN COUNTY, N. C., TUESDAY, OCTOBER 2, 1901—FIRST SECTION.

NUMBER 46

RALEIGH.

Many New Applications For Pensions are Coming in.

The Appalachian National Park. Jim Lowrey's Escape. Furniture Manufacturers Doing Business. Copper Mining.

RALEIGH, October 5.—The State auditor says the number of State pensioners this year will closely approximate 9,250. New applications come in by every mail. He says the State board will pass upon no more of these, as the lists are made up to go to the public printers and have to be revised, to insure absolute correctness.

State Auditor Dixon today accepted an invitation to deliver the address at the opening of the Fair at Greensboro. Gov. Aycock will, in accordance, with custom, open the State Fair here. His escort from the capital to the Fair grounds will be the cadet battalion of the Agricultural and Mechanical College.

It is expected that the Governor will go to the western part of the State next Monday, for a few days to see parts of the proposed "Appalachian National Park," and that in the party will be some Senators, Representatives in Congress and officials of the United States Agricultural department.

The failure to capture the negro desperado Jim Lowrey, the murderer of chief of police Jones at Shelby, causes comment. The rewards for him now aggregate \$750. In addition to this feeing against him is intense. Negroes have given him hiding places.

The September bulletin of the State board of health has appeared. It reports small pox in 24 counties. In part of Granville it was necessary to establish a hot sun quarantine and a negro who attempted to violate it was shot in the legs with buckshot, much to the satisfaction of the neighbors.

The compromise of the bankruptcy case of S. H. Lottin of Kinston, by his paying his creditors \$92,500 cash and giving his personal note for a like sum, ends a very complicated case. This was not done until after much lagging by counsel.

Under an act of the last legislature the sewers are to be built from the Insane Asylum and Penitentiary connecting with the city sewers. The present system is that of a few drains, which lead to small streams near by and is extremely offensive.

The State Labor Commissioner says furniture manufacturing in this State has become an immense business; how great the public will realize when it sees his report for 1901. The increase in the number and extent of the manufacture of goods from wood many times exceeds that of cotton mills. The gain during the past few years is wonderful and the business very profitable, when as this has by no means been a good year for many at least of the cotton mills in this State.

The new development of copper mining in Granville and Person counties attracts a great deal of attention. There are seven mines in operation, and other properties are being purchased. The building of the eight and one-half miles railway from Virgilux to the mines of the Virginia Copper Co., at High Hill will be another step in the development. In the next few months over one thousand miners will be at work in this the greatest copper ore field south of Lake Superior.

For sprains, swellings and lameness there is nothing so good as Chamberlain's Pain Balm. Try it. For sale by F. S. Duffy & Co.

Big Fire in Tampa.

TAMPA, October 5.—Twenty buildings were burned this morning, a property loss of \$200,000. The fire was discovered in the large cigar factory of O'Halloran & Co. The water supply in West Tampa was inadequate and the fire practically burned itself out.

Great excitement exists on account of the belief that the fire was of incendiary origin. There have been several threats at incendiarism as a result of the labor troubles and agitators have been made to leave the city within the last few hours for advising the use of the torch.

The Great Remedy of the day is unquestionably PAIN-KILLER, for the instant relief of all burns, scalds, bruises, etc., and for pains in the stomach and bowels as well as in sudden attacks of cholera morbus. No family should pretend to keep house without it always by them. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

Execution Day Fixed.

RALEIGH, October 7.—Governor Aycock fixes Monday, November 11, as the date of the execution of Drew Vaughn, the colored murderer, at Winton, Hertford county.

THE BETTER BOAT

Sir Thomas Lipton Says of Columbia A Great Race.

New York, Oct. 4.—With victory flag flying from her towering masthead and the ends of her spindlers in honor of her concluding triumph in the exp. races of 1901, the gallant ship Columbia returned to her anchorage tonight under the escort of the entire excursion fleet. She today completed her defense of the honored trophy in another stirring race with the Shamrock II, over a leeward and windward race of thirty miles, crossing the finish line two seconds behind her antagonist, but winning on the time allowance conceded by Lipton's boat by 41 seconds.

For the second time she has now successfully foiled the attempt of the Irish Knight to wrest from our possession the cup that means the yachting supremacy of the world. And plucky Sir Thomas Lipton, standing on the bridge of the Erin, led his guests in three hearty huzzas for the successful defender. "She is the better boat," he said, "and she deserved to be cheered."

The series of races just closed will always be memorable as the closest ever sailed for the cup, and Sir Thomas, although defeated, will go home with the satisfaction of knowing that his golden yacht is the ablest foreign boat that ever crossed the western ocean. During both series of races not an untoward incident has occurred and Sir Thomas will return to England by far the most popular of all the foreigners who have challenged for the America's trophy.

LONDON SUBMITS.

Says That the Better Boat Won and That All Was Fair.

LONDON, Oct. 5. The Daily Telegraph says: "The Columbia has proved herself the best yacht afloat. There can be no question that she has won upon her merits alone. She showed herself a marvelous craft two years ago, but today she was today than she was when fresh from the yard. All weather seems to be kinder to her."

Says the Daily Chronicle: "Such a contest as yesterday's adds to the worth of the trouble of crossing the Atlantic, but far more important than the result of the contest itself is the friendly spirit in which it has been waged from start to finish. We cannot too highly praise the sportsmanlike manner in which Sir Thomas has taken his defeat."

The Daily Graphic says: "The Shamrock II is fairly and squarely beaten. It is no lack of appreciation of the splendid pluck and enterprise of her owner that prompts us to say her defeat will be regretted no less keenly on Watson's account than on that of Lipton. Watson suffers disappointment at seeing his fourth cup challenger beaten."

The Morning Post says: "There is nothing before us except to confess honestly that we are beaten by a better boat. Captain Sycamore and his crew did all that was humanly possible under the circumstances, and the only reason he did not win was because the Shamrock II was not good enough."

The Fall River Mill Strike

FALL RIVER, Mass., Oct. 4.—The final preparations for the greatest industrial strike that the city of Fall River has ever experienced were made tonight when the operatives, with the exception of the spinners, voted unanimously to go on strike next Monday morning. Late this afternoon a conference with no result was held between the executive committee of the manufacturers and textile union officers. Afterward the various unions met. The principal one was the weavers. The resolution to strike was adopted by a vote of 207 to 122. The other figures were as follows: Loom fixers, 164 to 58, carders, 205 to 55, and slaters, 96 to 22.

In all cases the vote was made unanimous, and this apparently means a strike on Monday morning. The reason for the strike which seems impending is the declaration of the manufacturers to raise wages 5 per cent. in line with the action of Mr. Borden, of the Iron Works Mill.

\$110,000 to Save a Life.

BOSTON, Oct. 4.—An appeal to Christian America has been made on behalf of Miss Ellen Stone, the missionary held captive by brigands, who will meet death October 8th, unless \$110,000 ransom be paid before that date. The appeal says: "The government at Washington has done and is doing everything officially and humanely possible to secure her release. Notwithstanding all this, there is a possibility of failure of negotiations, and it is absolutely necessary that the amount to be raised, be instantly raised."

Contributions may be sent to Kidder Peabody & Company, trustees, and must reach their banking house in Boston before noon of October 7th.

BUFFALO, N. Y.

Oct. 7th 1901.
My Dear Brother George.—Yours 4th last received, and am glad, very glad, to know that in placing the orders, that you gave the one for brick, to Moore's Wood Yard. Having been buying wood from there for three years, and having always proven so satisfactory, that I know you have made no mistake.

Well, you can look for me home, on steamer Neuse next Sunday, and oh, won't I be glad to once more be in Old New Bern.

Ever yours,
ANNIE.

CONVICT LABOR.

Wonderful Results Reached On Railways.

A Third Road Across the Blue Ridge. New Arch Beach on Duty. Methodist Orphanage Building. Social Features for Fair Week.

RALEIGH, Oct. 7.—Supervisor J. C. Lashley leaves the penitentiary tomorrow with 125 convicts, to do the grading on the mountain section of the railway popularly known as the "Three Cs." The State's contract becomes effective Oct. 10. The work begins at Marion. It is interesting to note the fact in this connection that the convicts have already built two railways across the Blue Ridge, those being the Spartansburg and Asheville and the Western North Carolina. The convicts have built two-fifths of all the railway mileage in the State and the calculation is made that their work in this direction since 1874, when they were first put on railway work (on the Spartansburg and Asheville) represents \$2,800,000. The direct appropriations by the State to the penitentiary since 1868 are very nearly \$2,000,000.

Rev. Mr. Huske, the new arch deacon of this Protestant Episcopal diocese, has assumed his duties here. The rector of the Christ Church and the Church of the Good Shepherd in Raleigh, who in San Francisco attending the general Episcopal convention and Rev. Mr. Huske is officiating in those churches, alternately. He yesterday preached his first sermon in Christ Church, and made a very fine impression as a forcible speaker.

Attorney general and Mrs. R. D. Gilman have arrived from Waynesville for the winter.

The Supreme Court devotes this week to the review of appeals from the first district. It is a light docket.

The grounds of the Methodist Orphanage are being prepared for the erection of the main building.

M. S. R. C. Rivers, wife of the manager of the Lough Academy of Music, died yesterday after a long illness, and was buried this morning.

Corporation Commissioner Abbott left today for Wilkes and other counties in a session, to instruct the county officials in the new academy under the new law.

The work here is to be very gay. The carnival is well in progress. There will be a number of visitors from Virginia. The Casino club today arranged to give games on Tuesday and Thursday of that week and the marsh ball on Friday. Gen. William P. Roberts is the chief marshal.

Tomorrow the entire cadet battalion at the Agricultural and Mechanical college here, 300 strong, will be undisciplined.

TO CLEANSE THE SYSTEM

Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

Sugar Trust's Price Cut.

ST. LOUIS, Oct. 6.—Commenting on the reduction of the price of sugar in the Missouri market by the Sugar Trust, Henry T. Ozard, president of the American Beet Sugar Association, decried as a move to crush out beet-sugar production in order that the trust might have no opposition.

"If they can succeed in the Missouri valley," said he, "they will then turn their attention to the beet factories in Michigan and other sections, and by the power of concentrated capital crush out successively and individually the beet sugar producers. The trust tries to deceive the public by saying that the beet producers can still make money at the low price it is trying to establish. This is a lie, and if it had been true the trust would have tried to establish a still lower price. They are not sacrificing one-half cent per pound in the Missouri market to make a price that will still be profitable to the beet-sugar men. But in a particular move on the part of the Sugar Trust will fall flat. The beet-sugar factories will not sell their sugar in the Missouri River Valley at 24 cents under the market when a fraction of that price will move their sugar to every other market in the United States. What the next move of the trust will be remains to be seen."

Accuracy and Exactness.

We do not guess about anything in our prescription department. We use accurate weights and measures. We also use exact methods in compounding the various components into the medicine as it is when ready to take. And then we are always precise in checking over the prescription as a final precaution to see for certain that everything is all right.

In other words, we are going into details in this way, just to show you how thorough we are in every part of our prescription work. Thoroughness is exactly the word.

Our object is to get you to read or bring all your prescriptions here to be filled. We want and invite you to do this. O. D. BRADSHAW, Druggist.

THEIR REASON.

Objections to Swamp Land Offer to the Board.

RALEIGH, Oct. 7.—The reason why the State Board of Education has opposed to the contract or option which R. S. Finch has on the State swamp lands was that under it he could run a line ten miles long and ten feet wide, running the round all the swamp and leaving out all the land that was worthless to lumbermen. Thus the sale of a few thousand acres would prevent the sale of any other of the State lands in a large area, and instead of the State getting 50 cents an acre it would get only 25 cents an acre for the bulk of the lands, the lines being run by suit Finch and the purchasers. As a matter of fact one of the two deeds which Finch presented to the board for approval and signatures, ran around all the timber lands and left a barren section. It is due to the State Board to make this statement.

Eliminating the Negro.

CHARLESTON, S. C., Oct. 6.—The determination of President Roosevelt's administration to eliminate the negro from Republican politics in South Carolina and the South was shown today by the announcement that John G. Capers had been appointed a member of the National Republican Committee, defeating Candidate Deas, a negro who was strongly endorsed by State leaders.

While the President had no connection with the appointment, which was made by Senator Hanna, the National Chairman, it was in accordance with the wishes of the former to leave negroes out. Deas is chairman of the State Republican Committee and is seeking the office of Collector of Internal Revenue, but it has been announced from Washington that L. W. C. Blalock, who is supported by Senator McLaurin, will get the office.

Senator McLaurin is engineering the new Republican movement in this State yet publicly says he is still in the Democratic ranks.

C. M. Phelps, Forestdale, Vt., says his child was completely cured of a bad case of eczema by the use of DeWitt's Witch Hazel Salve. Beware of all counterfeits. It instantly relieves piles. F. S. Duffy.

Miss Stone's Abduction

WASHINGTON, Oct. 6. Confidence is expressed by Administration officials that the amount of money necessary for the ransom of Miss Stone will be raised.

"Every possible effort is being made to effect Miss Stone's release," said a high official tonight. "Miss Stone's position is a desperate one, and it is useless to conceal this fact from the public. The delicate nature of the negotiations under way makes it imperative that there shall be as little talk as possible. Injudicious publicity may prevent the success of the plan now being pursued."

Russia has given sympathetic response to the request of the United States that she use her influence with Bulgaria to induce that Government to make every effort to find Miss Stone.

Bulgaria insists that the woman is not within its territory and it has been found absolutely impossible to establish her exact whereabouts. It is considered that she may have been taken back to Turkish territory. The Sublime Porte also has promised to try to rescue Miss Stone.

Because of the danger that the woman will be killed, the use of force is deprecated, and it is believed here the best way to pursue is to pay the ransom and then to have the Bulgarian or Turkish Government take measures for the swift punishment of the brigands.

Yokohama Suspended Business.

YOKOHAMA, Sept. 21.—The tidings of the death of President McKinley came as a great shock to the foreign community as well as the entire nation, and the day of the funeral was one of general mourning, business being almost entirely suspended. The event has called forth whatever still remained of the latent feeling of friendliness for the United States, the native papers vying with each other in expressions of grief and sympathy.

Dr. Bull's Pills for Liver Ills.

One pill a dose. Box 50 pills, 10c. Care Constipation, Liver Troubles, Biliousness, Impure Blood, Dyspepsia, Female Complaints, Stomach and Bowel Disorders. Dr. Bull's Pills never gripe.

Hard to Get a License.

RALEIGH, October 7.—It is said that the examination last week of applicants for attorney's license was the hardest one so far. There were two negro applicants. They both fell by the wayside and so did 17 white applicants. It means work to get a license now. Not very many years ago it was a farce.

Lew's Ockerman, Goshen, Ind.

Lew's Little Early Risers never "do me double like other pills, but do their work thoroughly and make me feel like a boy." Certain thorough, gentle. F. S. Duffy.

Street Car Collision.

ATLANTA, Oct. 6.—Two cars on the Consolidated Street Railway were in collision at the corner of Fair and Washington streets this evening, injuring eighteen people. Both cars were crowded and were under considerable headway, on a down grade, when they met.

STRANGE ROBBERY.

Mystery on an Ocean Liner Explained at Last.

Not many weeks ago the New York papers published accounts of mysterious and wholesale robberies on one of the ocean steamships plying between New York City and Liverpool. The authorities on board ship asserted themselves to their utmost, but no clue to the offenders could be obtained. State room after state room was entered, and in nearly every case some valuable jewels were abstracted. Scotland Yard detectives were summoned, but the most astute that officers of that celebrated agency failed to meet with any success. Later developments, however, have thrown some light on the mystery. On board and receiving the constant attention of a lady and gentleman passenger was a large group of ostriches, consigned to one J. H. Perclat, Paris, France. The lady and gentleman, it seems, after the steamer had departed, disappeared, as did also the flock of feathered beauties. All traces of the birds was lost, until the day, when they were unloaded at the Plant System dock. The tag however, had been changed and one of the birds was missing. It turned out to be a most valuable bird, however, and the discovery was a work of a New York street hood. On every visit to the hold of the steamer by the shore-side lady and gentleman this particular ostrich was fed a jewel watch, diamond ring or some other valuable article, parolined by this couple from the staterooms of their fellow passengers. This particular ostrich seemed to feast on jewelry. Be that as it may, the bird's feathers now adorn some Parisian, and the contents of his stomach await identification in the office of chief Devere, in New York City. The lady and gentleman are in the hands of the Paris police, who arrested them as they were about to sail for America, after having respiced the ostrich to New York. Having no reason to detain the birds and as the real culprit had been sacrificed on the other side, the society for the prevention of cruelty to animals sold them to the agent of the great John Robinson circus, which will exhibit at New Bern, Saturday, Oct. 13th.

WHY SUFFER FROM CHILLS, FEVERS NIGHT SWEATS

Grippe and all other forms of maladies when you can be cured by

ROBERT'S CHILL TONIC
CURES CHILLS, TASTELESS, CURES GRIPPE
