NEW BERN, CRAVEN COUNTY, N. C., FRIDAY, JANUARY 17, 1902.—SECOND SECTION.

NUMBER 74

RALEIGH.

It is Difficult Work to Get Farmers to Organize.

State Meeting a Small One. A Four Months School Term. Tobacco Market. The Monument Fund. The Fair Finances.

RALEIGH, Jan. 15.—The State will send out \$100,000 for the specific purpose of bringing all the public schools up to a term of at least 4 months. Each county has to report its needs. Haywood county is the first to make this report, the latter having been received today. The sum required is \$146,500. Money comes in slowly for the fund for the statue of Sir Walter Raleigh in one of the parks here. Today the children of the Concord graded school, 500 of them, sent in their contribution.

Raleigh has this season, for the first time since 1883, no tobacco market. More tobacco will be planted in the county than ever before and so there is an effort to have a market. E. M. Pace of Wilson addressed the Chamber of Commerce on this subject and it is declared that a market will be re-established. Lack of interest by business men is the cause of the collapse of the leaf trade here.

The State charters the Reidsville telephone and telegraph company, capital \$15,000.

The attendance at the State meeting of farmers was very small. Nothing is harder than to organize the North Carolina farmers. The annual meeting on the third Thursday in August may draw out more of them, but there seems to be no chance to get the backwoods farmers out. As one of the speakers last night, himself a farmer, said, no persons are more suspicious than the farmers and if the majority of them see any man trying to do something which will amount to something they instantly suspect him of ulterior or selfish motives.

The shoe factory of the Farmers Alliance at Hillsboro stands idle as it has done for three years or more. The Alliance people hope to see the State establish a reformatory and buy this plant and operate it. The Alliance also has the old Hillsboro Military Academy barracks, which it hopes to see used as a dormitory of a reformatory.

The financial statement made by the last State Fair is far ahead of anything ever previously made. All the debts are paid and \$4,100 was paid to the bondholders. During the past three years \$10,900 has been paid to the bondholders. The fair is the largest and most successful south of Hagerstown.

REELSBORO.

Jan. 15.—There is not much news, things are quiet in and around Reelsboro now.

Miss Lena Dickenson of Reelsboro and Mr. G. T. Tyson of Annsora, were married in New Bern last Wednesday evening and left for Creeks, Va. where they will make their home. Miss Lena is one of Reelsboro's most beautiful young ladies. Mr. Tyson is an able minister of the gospel. May their path be strewn with roses.

Mr. J. B. Jones, the Disciple minister preached an able sermon at Newhope Sunday.

Miss Sallie Caton of Edward, is visiting her mother, Mrs. M. J. Caton of Reelsboro.

Mr. Leslie Moore of Morehead, who has been visiting his aunt, Mrs. J. B. Reel of Reelsboro returned home last Wednesday.

BLUS BELL.

Profitable Clover.
A Missouri farmer is thus quoted in the Maryville (Mo.) Tribune: "I sowed ten acres of clover, using as seed one bushel, which cost me \$5. I sold from that ten acres twenty tons of hay for \$100—\$5 a ton—and thirty-six and a half bushels of seed for \$192. Then I sold the second crop of hay for \$16. That made the receipts from my ten acres \$308. The seed cost me \$5, and I was at an expense of about \$95, so my net profit of the ten acres of ground were \$242, almost \$25 an acre."

Cut this out and take it to F. S. Duffy & Co's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

War at an End.

London, Jan. 15.—The King has given his official endorsement to the belief of the current public that a declaration of peace in South Africa may be expected. War may now be regarded as approaching a conclusion, were "his words" this morning in addressing officer Goldstream of the Scot Guards, who will sail for South Africa tomorrow.

If troubled with a weak digestion, belching, sour stomach, or if you feel dull after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at F. S. Duffy & Co's. drug store.

CASTORIA

For Infants and Children.
The Kind You Have Always Bought

GRAND LODGE MASONS.

Plans for Masonic Temple. Silver Service for Secy. Drewry. Lodges Chartered. Oxford Orphanage Report.

Special to Journal.
HALLEIGH, Jan. 15.—The Grand Lodge of Masons adopted unanimously a resolution offered by Past Grand Master William R. Cox, providing for the preparation of plans for a Masonic Temple here.

A committee composed of W. R. Cox, Julian S. Carr, John S. Cunningham, S. M. Gatis, John W. Cotton, A. J. Harris, Grand Master Royster and Grand Secy. Drewry. It will report on the cost of a site and of the building, and on best plan for erecting the latter.

The Grand Lodge voted a present of a silver service as a wedding gift to Grand Secy. Drewry, who is to be married next Tuesday.

Charters were granted the following ten new lodges: Robertal, Barnhardt, Lattimore, Caroleen, Sylvia, Bellhaven, Anlander, Love, Hickory, Whetstone and Farmville.

The committee on the Oxford Orphan Asylum reported its condition as excellent, with 290 pupils, and arrangements made for thirty more. Its receipts during the year were \$33,000, and it has over \$5,000 on hand.

He Did Enough of It.

"You don't take enough exercise," said the doctor, who had called to see Binks at his office. "A good brisk walk or short run every morning would do you a world of good."

"Doctor," replied Binks impressively, "I live in a suburb, have to catch a certain train every morning, and my house is nearly a mile from the station."

"Well," returned the doctor apologetically, "the best of us make mistakes at times, and I am no exception to the rule."—Chicago Post.

His Own Work.

"These biscuits," said Mr. Henry Peck, "are quite as good as mother used to make, I'm sure."

"Why, Henry," his wife exclaimed, "I certainly am surprised!"

A blush of shame suffused his delicate features, for he realized that self praise was a fault most unbecoming in one of his gentle breeding.—Philadelphia Press.

Don't Live Together.

Constipation and health never go together. DeWitt's Little Early Risers promote easy action of the bowels without distress. "I have been troubled with costiveness nine years," says J. O. Greene, Depauw, Ind., "I have tried many remedies but Little Early Risers give best results." F. S. Duffy.

Lobsters.

Lobsters often travel in regiments, seeking new feeding grounds. Their migrating armies are always led by the biggest and strongest ones, while the maimed and weakly struggle along behind.

Purifying Water.

Three grains of alum will purify a gallon of water. Let it stand for a time, and if no filter can be had strain it through a piece of calico.

Sopstones.

Every portion of soapstone lost in cutting is utilized in other ways. It gives the dull color to rubber goods, is used in paper to gain weight and is also an excellent article to use in making fireproof paints.

Factory Accidents.

Accidents in factories are said to be much more frequent in bad weather than in good.

Cape Town Lepers.

When the Dutch founded Cape Town, there was no leprosy among the inland natives. A century later two Dutch farmers near to Cape Town were found to be lepers, and since then the disease has been steadily increasing and spreading northward among both native and European races.

Night Watchmen.

The first night watchman was licensed by the New York common council in 1697.

Camphor.

From the earliest times camphor has been a practical necessity to man. Its pleasant perfume, its destructiveness to insect life and its many remarkable therapeutic virtues have more than earned its great popularity.

Pickling.

When pickling, always use the strongest vinegar and have it scalding hot, as cold vinegar becomes rosy and will not keep.

A Careful City.

The authorities of Aix-la-Chapelle recently sentenced to two weeks' imprisonment a man who carelessly threw away a lighted match in a forest near that city, although no damage was caused by the act.

Children Especially Liable.

Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up," writes James Hook, N. Webster, Ind. "The same words I had also called two to five dresses a day." F. S. Duffy.

SENATE ON CANAL BILL.

Demands Further Investigation. Panama Offer Must be Considered

WASHINGTON, Jan. 14.—Reporters have polled the Senate with a view to ascertaining the sentiment on the pending offer of the Panama Canal Company to sell to this Government for \$40,000,000. It was made because the attitude of the Senate is supreme news at this time, neither the friends of Nicaragua nor of Panama having even a slight idea of how the offer of the Panama Company had affected the Senators.

The poll showed these figures, For the Nicaragua Canal bill—31. For giving consideration to the Panama offer—40.

Opposed to any interoceanic canal—(Senator Teller)—1. The result of this poll reveals several things very clearly.

First. That there is an overwhelming sentiment in the Senate in favor of the passage at this session of an act authorizing the construction of an isthmian canal.

Second. That while a very large majority of the Senators were in favor of the Nicaragua canal prior to the making of the offer by the French company, a clear majority have since then turned in favor of giving the Panama offer full consideration before decisive action is taken.

Third. That any effort on the part of the friends of the Nicaragua canal to force a bill through before the whole matter, Panama offer and all, has been considered by the committee would meet with failure. Seventy-two of the 88 Senators were asked their views. Senators Aldrich, Allison and Depew were absent, but they are known to be in favor of a careful consideration of the Panama offer before Senate acts. They are therefore counted with the majority.

ARAPAHOE.

Cotton Estimate. Tax Collecting. The Money Deal. Moved Into New House. Personal.

January 15.—Business around our little town is about as lively as usual for time of year.

The amount of cotton ginned at our place this season, will somewhat over-run the former expectation by there being an unusual amount of frost stained cotton. The former estimate was only about one-third of the amount ginned at Arapahoe last year.

Mr. Arpinson Campen, the sheriff of our county is hustling around among the citizens of our county, while he seems to elude none of those who have not paid their taxes for 1901, yet he can better adapt himself where he finds some money. He was in Arapahoe last Saturday.

Mr. Henry Reel of Reelsboro visited our town last Wednesday.

Mr. Thomas Moxingo of Bayboro was in town Wednesday.

Mr. Manans, a young man from near Greenville N. C., was here the first of last week, working on Mr. J. E. Lee's boiler to his saw mill.

Mrs. Minnie Karoon and three of her children from near Oriental visited their friends at Arapahoe last Saturday evening and returned home Tuesday evening. Mrs. Karoon is a welcome visitor to our homes.

The Phillips and son New York money deal seems to be the topic of the day. I see the revised version has come out upon the public which seems to correspond with the second statement made by the firm. It should be revised the second time, and the third version deviates from the second, as the second did from the first, it will be as low in shame as king Solomon was high in fame, when the Queen of Sheba visited him and reviewed his situation, said the half had not been told.

Mr. Robert Lee moved into his new house near Arapahoe last Thursday.

Mr. Noah F. Bennett of Arapahoe is putting a shine on his new house in Arapahoe, he has on it two coats of paint and is ready for the third.

Mr. Adolph Scott and his wife and Miss Lena Holton and Mr. George Banks all visited Aurora last Saturday and returned Tuesday evening, they report a much enjoyed trip.

A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demie, Somerville, Ind., "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken it five bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. F. S. Duffy.

Buried Forests.

Buried forests found in Alaska in localities where no trees exist now have revived a discussion of the theory that the arctic region once possessed a tropical or semitropical climate. A few years ago a New England professor wrote a book based on the idea that as the earth first cooled at the poles they were the original source of vegetation and human life and that mankind gradually moved southward during the prehistoric period.

McDuffie's Taraxacum & Mutton Suet Lung Plaster is a certain cure for whooping cough, croup and comfortable, works while you sleep. 25 cents at F. S. Duffy's.

RALEIGH.

President of Harvard University Will Visit Educators at Capital.

Growth of Odd Fellowship. A School Question Settled. Grand Lodge Adjourns. Good Roads Train. Young Pines Set Out.

RALEIGH, Jan. 16.—President Eliot of Harvard University accepts an invitation from President G. T. Winston of the Agricultural and Mechanical College here to visit the latter and will do so April 8. He will be here a day and night and will probably deliver an address in the Roney library that evening. A Reception will be given him there so he can meet the citizens of Raleigh and educators from various parts of the State who will no doubt be present. He is easily the first educator in America and one of the greatest living Americans. His visit to Raleigh will be an event in its educational history.

The State charters the Bynum Milling Co., of Chatham county, capital \$50,000, and the Warren Land Co. of Durham, capital \$10,000.

Grand Secretary B. H. Woodell says the growth of the Odd Fellows in North Carolina is phenomenal. There are now 8000 members, a gain of 100 per cent in the past three years. The receipts for the year will very closely approximate \$11,500.

Mecklenburg county today paid its taxes to the State treasurer, aggregating \$36,926, a gain of \$4482 over last year. It is the first of the large counties to make settlement.

A question came up for decision by the State Superintendent of Public Instruction, and it affects the whole State. In Transylvania the school board ordered that the public schools should open on a particular day and that the term should be a continuous one. A teacher in one school stopped the exercises for three weeks, in order that the pupils might pull fodder. The county superintendent declined to pay him for three weeks he taught after the time officially fixed for the ending of the term. The board sustained him. Now the State Superintendent sustains the board, and says terms must positively be continuous, unless there is some epidemic which makes it necessary to suspend the exercises.

Considerable interest is being manifested here as to whether Raleigh will have a professional baseball team this year. It will be in a league if one is formed.

The Grand Lodge of Masons adjourned this afternoon. The new Grand Officers were installed. The new Grand Master, Dr. H. I. Clark of Scotland Neck, made the appointments as usual.

The people here are called on to raise \$10,000 in order to secure the reopening of the two tobacco warehouses. A leading cotton dealer says the cotton market here is pretty nearly gone and that the re-establishment of a tobacco market is more than a necessity for the business life of the place.

The working force which will be here February 10-15, with the "Good Roads" train will build a street from the Capitol Square to the Rex hospital and also build an approach to the insane asylum grounds.

Your correspondent has procured from Pinehurst 36 young long-leaf pines which are to be set out in the capitol square, the grounds of the Governor's mansion and Pullen park. There has long been a desire to have these trees growing here.

Twenty-two convicts were sent to the roads here today, as a result of the term of the Superior court. The road force is now larger than ever before.

FLOWER AND TREE.

A single leaf of the orange tree carefully planted will often take root and grow.

Rosin and tallow in equal parts make an excellent covering for wounds in fruit trees.

"Bulking" a tree—that is, killing it by destroying the bark in a circle around the trunk—injures it for lumber.

In transplanting trees all roots that have become broken or broken should be cut clean away behind the broken part.

A pan of water kept steaming in the stove will keep the atmosphere in good condition for the growth of house plants during the winter.

Trees should always be trimmed when young and growing in such a manner that there will be no necessity for cutting off large limbs.

Wood mold, provided it is fine and free from roots and sticks, with the addition of a little well rotted compost, makes a splendid soil for the pots or boxes in which to grow the house plants in winter.

Orchards generally produce full crops only every other year. This is because the full crop of one year so exhausts the fruit producing qualities of the soil that it is not able to make a full crop the next year.

If your children have Croup, Whooping Cough or a simple Cough, Anway's Croup Syrup will certainly relieve them. It is about the only remedy prepared exclusively for Croup and Children's Coughs and we unhesitatingly recommend it as the best. Many use and praise it. We guarantee it. Price 25c. Sold at Henry's Pharmacy, Davis' Pharmacy, and Bradham's Pharmacy.

MEDICAL COLLEGE AT RALEIGH.

Members of Faculty Elected. Chair of English Divided at University.

Special to Journal.
RALEIGH, January 1.—The Trustees of the University of North Carolina met there today, Governor Aycock presiding, and established the University Medical College at Raleigh, to give the last two years of medical course. It will be part of the University, and entirely under its control.

Dr. Hubert A. Royster of Raleigh, was elected Dean. Other members of the faculty so far elected are, Drs. W. I. Royster, A. W. Knox, R. H. Lewis and K. P. Battle, Jr.

The Trustees also divided the chair of English, making C. Alphonso Smith, professor of Language, and Dr. H. H. me, professor of Literature.

TO CLEANSE THE SYSTEM.

Effectually yet gently when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, fevers, use Syrup of Figs, made by the California Fig Syrup Co.

Keith Will be Collector.

Washington, Jan. 15.—Recorder Dancy and former Recorder Cheatham arrived this afternoon. Cheatham says that the white people treated him white and that the people of his own race brought about his official undoing.

The Wilmington collectorship contest is now as a tale that is told. B. F. Keith who has heretofore been mentioned in this connection as having strong backing, will get the office. The contest had narrowed down to Bloom, of Fayetteville, and Keith. Intimation came from the White House today that the President wished home rule to apply. Senator Pritchard then indicated his intention to appoint Keith, who is a recent convert to the Republican faith. He was on the Wilmington board of aldermen at the time of the race troubles and is said to be the only official who disapproved in outward manner the proceedings of his party organization at that time.

Grand Lodge of Masons.

Special to Journal.
RALEIGH, January 16.—The grand lodge of Masons officers were elected last night, and others appointed today, by Grand Master H. I. Clark were installed by Past Grand Richard J. Noble, Past Grand Masters. Jewels of very elaborate design were presented to retiring Grand Master, B. S. Royster.
