### THE LUMBER TRUST.

Big Deal Again on Foot With Opposing Bidders. Prices Sky High.

Norfolk Virginian Pilot, 25th. For many years there has been a deal on foot looking towards the combination of the great lumber interests of Virginia and Carolina. The promoters are August Belmont and Charles R. Flint & Co., of New York, and Governor Smith, of Maryland. They have almost an unlimited amount of money behind them, and it is conceded by many people that Belmont is the American representative of the great Rothschild banking firm Flint & Co. have many millions and Governor Smith is by no means a pauper.

It is now learned that in addition to these parties a wealthy syndicate of Michigan lumbermen have come into the deal and that overtures have been made to the owners of the lumber mills which are located in this section.

The result is that the local lumbermen don't mind selling out to the trusts, but they are determined that they will unload only at a big profit, and they think that with Belmont—Flint—Smith bidding against the Michigan folks there will be something doing.

Not very long ago Messrs. Flint Belmont and Smith went out on a very enjoyable "hunting party." They chartered the Old Bay Line steamer "Tennessee" and "hunted" over the lumber district, getting a good idea of the lay of the land and the approximate amount of standing timber on it. It is rumored that they then bought some ducks and geese and went back home elated over the success they had.

Not long afterwards they secured options on many lumber plant. But the deal fell through for the time, and the "hunting trip" leaked out.

The move is on again, however, with renewed activity, and local lumber people are thinking about making the sky the limit when the big boys come down and ask for prices.

From what can be learned, the "trust" is willing to expend about \$30,000,000 in consolidating the numerous plants hereabouts.

Local lumber people say they are too many plants and the price is entirely too good to allow this consolidation at such a figure.

### Don't Live Together.

Constipation and health never go together. DeWitt's Little Early Risers promote easy action of the bowels without distress. "I have been troubled with constipation nine years," says J. O. Greene, Dedham, Ind. "I have tried many remedies but Little Early Risers give best results." F. S. Duffy.

### Mr. Cleveland After Ducks.

Georgetown, S. C., Jan. 24.—Ex-President Grover Cleveland, with a party of friends, among whom are Rear Admiral R. D. Evans, Col. E. C. Benedict, General A. S. McCook, P. B. L. Lumberman and Herman May, have arrived here over the Atlantic Coast Line. They remained in their car until 8 o'clock this morning, when, after breakfast, they boarded the United States launch Water Lily and left Ford Point, on the lower Santee river, the shooting preserve of Gen. E. P. Alexander, whose guests the party will be while here.

Mr. Cleveland looks well after his recent illness and seems in good spirits. The party will remain in this vicinity for ten days or two weeks, fishing and hunting. Ducks are very plentiful now and with good weather the hunters will have fine sport.

### Boys Create "Labor" Riot.

ECROX, Jan. 24.—One of the most serious demonstrations since the strike of the mechanics began took place on Atlantic avenue this afternoon. A drag got pecked and a large crowd gathered. The patrolmen and the mounted men, who charged the throng, were met by a volley of muddy snow, ice, stones and bricks. Fourteen arrests were made, 13 of them being lads from 13 to 17 years of age.

## IN CONFLICT.

The County and School Officials in Wilson County.

Extensive System of Burglary. Gilmer Restored to Health. The Worth Suit Compromised. Planting Young Trees

RALEIGH, January 25.—Today the State Superintendent of public instruction received a letter from a public school teacher at Elm City Wilson county, which makes it clear there is a conflict in that county between the county superintendent of schools and some local school boards. Small pox is widely prevalent there and the county superintendent has ordered the closing of the public schools. The local board at Elm City informed the teacher that he could close or not as he saw fit. The State Superintendent tells him he must obey the county superintendent. The State Superintendent adds that schools in which all teachers and pupils are vaccinated may be kept open, this being recommended by the county superintendent.

A bold gang of burglars are at work here and in two nights this week there were 10 houses entered. In all cases only money was taken. The police say this is proof, to their mind, that the thieves are experts. Last night at one place they cut out a pane of a window of a room in which two men slept, entered and took all the money in their pockets. They do not disturb silver ware or jewelry. In one case they took \$10 out of a pocket and left a diamond pin lying on a bureau.

Attorney General R. D. Gilmer returned today from his home at Waynesville, entirely restored to health. Today thirty six young long leaf pines were set out in the Capitol Square, the Governors Mansion (Burke Square) and at Public Park. They are grown from seed and are two years old. They came from the nurseries at Pinehurst.

Ex-State treasurer Worth sued this county for \$3200, which in the course of a number of years it had taken out of the taxes and used in paying for the preparation of the tax lists. The jury gave a verdict for only \$750. The State was on the point of appealing but the present treasurer has effected a compromise for \$2000 which has been paid into the treasury.

The State charters the Hamlet and Rockingham street railway, capital \$50,000. The next session of the North Carolina Teachers Assembly begins June 10. The place is not yet chosen.

The State authorizes the change of name of the Lockland cotton mill at Scotland Neck to the Crescent Hosiery Co.

McDuffie's Turpentine & Mutton Suet Lung Plaster is a certain cure for whooping cough, easy and comfortable, works while you sleep. 25 cents at F. S. Duffy's.

Neither Better Than the Other. "This dollar" began the cashier of the restaurant as he scrutinized the coin.

"Is bad, eh?" interrupted the sour looking patron. "Well, it doesn't look very good." "That so? Just bite it, and if it's anything like the dinner I had it'll taste even worse than it looks."—Catholic Standard and Times.

Dr. Bull's Cough Syrup Cures a Cough or Cold at once. Conquers Croup, Whooping Cough and Measles Cough without fail. Best for Bronchitis, Hoarseness, Grippe, Pneumonia, Consumption and Lung Affections. Quick, sure results. Price, 25c.

Farmer Surprised His Wife. The surprising manner in which a farmer of Fulton county, Kentucky, surprised his estimable wife is thus related by the Fulton Leader:

"A good story is told of a farmer living east of Fulton, who wore his old suit the one that Noah left in the ark, till everyone was tired of it, and his estimable wife was almost ashamed of the hustling farmer who had been inside of it so long. But one day recently he came to Fulton to sell his produce and while in town he determined to buy a new suit and, happy thought! surprise Elias. So he bundled a neat suit in the wagon and drove homeward. It was after night as he hurried home, and at the bridge near Boaz Chapel he stood up in his wagon and 'peeled' and threw the despoiled old suit into the river. Then he reached for his clothes. They were gone—had jolted out of the wagon. The night was cold and his teeth chattered as he hurried for home. He surprised Elias even more than he anticipated."

DR. SHOOP'S PREVENTICS. The great cold cure, are sold and guaranteed by Bradham's Pharmacy. If you bring the empty box back, and you are not satisfied with Preventics we will return your 25 cents. You must have them on hand if you expect to prevent colds; and prevention is better than cure. Preventics cure colds, as well as prevent them.

## NEW BERN APPOINTEES.

Miss Elizabeth Burrus and Mr. James A. Bryan For This State at Charleston, South Carolina.

Special to Journal. RALEIGH, Jan. 27.—Governor Aycock appoints Miss Elizabeth Burrus of New Bern, one of the maids of honor at the Mardi Gras ball, to be given at Charleston, S. C., on Tuesday, February 11th. The Governor also appoints Mr. James A. Bryan one of the delegates to the Southern Inter-State Good Roads convention, which meets at Charleston, Feb. 5th to 7th.

## PRINCE HENRY'S TOUR.

In Pennsylvania Railroad Train Under G. W. Boyd's Direction.

PHILADELPHIA, January 27.—Arrangements have been made by the Department of States at Washington, with the Pennsylvania Railroad for the movement by special trains of Prince Henry of Prussia and suite during his visit to the United States. The arrangement includes the transportation of the Prince to Washington upon his arrival at New York, his return to New York, the steamer transportation to Shooter's Island, where the Meteor will be launched and his tour through the upper South and the principal cities of the East, West and Northwest. All the movements of the Prince will be made by the special train provided by the Pennsylvania Railroad and under the well and widely known methods of its personally conducted tourist system.

The experience of this bureau of the passenger department in arranging tours for the Presidents of the United States, as well as for distinguished bodies of foreign visitors, and the skill with which such movements have been conducted have always been recognized and appreciated by the Government.

George W. Boyd, assistant general passenger agent of the Pennsylvania Railroad and in direct charge of the company's tourist system, will have personal charge of this special train and its movement. His past experience in that direction insures for Prince Henry, while the nation's guest, safe, comfortable and luxurious transportation to any part of the country that he may be disposed to visit.

Children Especially Liable. Burns, bruises and cuts are extremely painful and if neglected often result in blood poisoning. Children are especially liable to such mishaps because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeits. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up." writes James Mock, N. Webster, Ind. "The sores were so bad she soiled two to five dresses a day." F. S. Duffy.

## THIS WEEK IN CONGRESS.

Prospect Good For an Idle Week. No Work Cut Out For the House.

WASHINGTON, Jan. 26.—The House leaders have no programme for the work for the present week, as there are no measures of importance pressing for attention, although the anti-oleomargarine bill and the Hill bill for the exchangeability of gold and silver are on the calendar and may be taken up before long.

The chief interest of the week centers in the opening of hearings by the ways and means committee on the reduction of war revenue taxes.

On Tuesday the committee returns to the subject of Cuban reciprocity, hearing more of the representatives of the sugar and also several Cuban planters who have come to the United States to present their view of the case.

The Senate will devote its principal attention this week to the Philippine tariff bill. It is the purpose of Mr. Lodge, who is in charge of the bill, to keep it before the Senate persistently until it is disposed of. He does not count on final action for some time.

Senator Nelson will take advantage of any chance to have the bill creating a Department of Commerce considered, with the hope of securing action upon it during the week if possible.

## A Profitable Investment.

"I was troubled for about seven years with my stomach and in bed half my time," says E. Demie, Somerville, Ind. "I spent about \$1,000 and never could get anything to help me until I tried Kodol Dyspepsia Cure. I have taken a few bottles and am entirely well." You don't live by what you eat, but by what you digest and assimilate. If your stomach doesn't digest your food you are really starving. Kodol Dyspepsia Cure does the stomach's work by digesting the food. You don't have to diet. Eat all you want. Kodol Dyspepsia Cure cures all stomach troubles. F. S. Duffy.

## RALEIGH.

Burglaries Frequent In and About the City.

Daughters of Confederacy Doing Great Work at Soldiers Home Delegates to Road Congress. Wheat Prospects in Piedmont Section.

RALEIGH, Jan. 27.—All of the rooms in the east wing of the new dormitory at the Soldiers' Home save two have been taken by Chapters of Daughters of the Confederacy. All those in the west wing were taken two weeks or more ago. The Chapters taking rooms in the east wing, which they are furnishing, are at Morganton, Kinston, Wilson, Red Springs, Kittrell, Warsaw, and Lexington. One room is furnished jointly by Edenton, Lenoir and Anson Chapters. Quite a number of Chapters have made no response to the appeal to aid in furnishing rooms, among those being Charlotte, Salisbury, Statesville and Henderson.

The burglaries here continue. Most of them occur in the suburbs. Saturday night about 4 o'clock, Charles J. Parker, a well known resident, heard a noise in his house and with a night lamp in his hand, but unarmed, went to investigate. He opened a door and saw the burglar at a bureau, with a patent torch in one hand. He pursued the burglar, who he says was a young white man and caught him. Then the burglar thrust a revolver in his face and told Parker (calling his name) that if he did not release him he would shoot him dead. Parker relinquished his hold and the burglar made his exit through a window. As he did so Parker threw the lamp at him. The torch was found in the house. A police officer got three shots at one burglar who was running. A rumor has wide circulation that two young men and a boy are in the gang, and the police now say they are sure it is local talent.

The Governor today appointed a number of delegates from this State to a road Congress at Columbia, S. C., in compliance with a request made by the Governor of South Carolina.

Commissioner of Agriculture Patterson says the wheat in the piedmont section does not look well, but that he sees no reason why there should not be a good crop. The fall was unfavorable. He says he does not like to see wheat too luxuriant in growth in January and that he has known crops to be grown while the appearance was no better at this time of year than it now is.
