IMPORTANT COURT RULING.

Reference in Bankruptcy Must Use Designated Newspaper For Notice Publications. Raleigh Post, March 20th. One of the referees of the district having entered an order designating two newspapers in his division in which bankruptcy notices should be published the clerk of the court submitted such order to the district judge and asked instructions as to entering the same on record. Thereupon the judge rendered the following decision abrogating the order of the referee:

United States of America, Eastern District of North Carolina; In the District Court.

A referee can make no order designating generally newspapers in which notices shall be published. Courts of Bankruptcy in sec. 28 B. A. means the District Court sec. 1 (4) and "Court" or any court used in sec. 28 B. A. may mean referee. (Sec. 1 B. A., 7.) Hence the latter part of district rule 9. "The referees of the several divisions will designate newspapers within their respective territories to further comply with the provisions of section 28," means in the language of the section, a referee may "in a particular case, for the convenience of parties in interest, designate some additional newspaper in which notices in such case shall be published."

District rule 9 cannot be revoked or affected by an order of a referee, but publication ordered must be made in the newspapers therein designated. When the circumstances or convenience of parties in interest require the referee may designate additional newspapers in which notices in a particular case shall also be published. The order is therefore without authority and is abrogated. District rule 9 must be followed in every proceeding in bankruptcy.

THOS. R. PURNELL, District Judge. March 19th, 1908.

Wilmington and Charleston Truck.

Truck growers report slight damage to beets, lettuce and other crops on their farms by reason of the freeze and continued cold weather. The exact extent of the damage will, however, not be known for several days. It will take a few days of sunshine to bring out on the plants the plain indications of the injury.

Persons who came in on the belated Southern train this morning, report that the freeze of night before last extended as far south as Charleston. In the Charleston truck belt beans and strawberries are said to have been injured some by the cold.

NEW YORK CLUBS.

Years of Waiting Required to Get Into Home of Them.

The Reform club has one of the swiftest resident memberships of the largest in New York city and one of the largest nonresident lists in the world. It passes resolutions by the carload and has the best bar in New York city. The largest waiting list used to be that of the Union club, when members proposed their sons the day they were born in the hope that their names might be reached by the time they were of age.

In the University list, which has a waiting list of several thousand, to get in fourteen years after graduation from college is slow; ten years is the average; seven years is lightning express. The humble hut of the University in upper Fifth avenue is the astonishment of European club members.

The Metropolitan, called the Millionaires' club, has more poor men in it than rich. The Manhattan club in its palmy days had the best wine cellar in New York. The Harvard club wants more room. The Calumet wants more money. The New York club brags about its cuisine.

The Army and Navy needs a person to bill to brace it up. The Players' club sleeps soundly through the noisiest racket. The Lamb's club stays up all night. The club that has the most fun for the least money is the Strougers'. The Military club died on the field of honor when its members went to the Spanish war.

Fifteen Varieties of Postage Stamps.

"The Brooklyn woman who objected to her divorced husband paying her alimony in postage stamps and had recourse to the courts, saying that she did not mind receiving it in two cent stamps, but objected to those of large denominations, as she could not sell them," said an employee of the Washington city postoffice, "reminds me of a man who came in one day and asked for a stamp of the ten dollar denomination. Some is issued. The only denominations now issued are the one, two, three, four, five, six, eight, ten and the ten cent special delivery, fifteen, thirty and fifty cent and the one, two and five dollar stamps. There is slight call from all over the country for stamps over the five cent issue."—Washington Star.

HENDERSON TELEPHONE

Company's Long Distance Line Completed That Connects New Bern With the Sea.

We are advised by Gen. Supt. F. C. Toepelman that the final connections have been made between Greenville and Kinston, so that the long distance service of the Henderson Telephone Company is now in practical operation to Morehead City, and all intermediate points. Construction on this line was begun at Spring Hope last July and since that time from one to three crews have been in the field pushing the work forward. The main line constructed to complete this connection covers a distance of about 200 miles, and is double metallic circuit throughout, one for through business touching important points, the other for local business between exchanges. In addition some 50 miles of branch lines have been built. To construct this 200 miles of line has required over 8,000 juniper poles, 1,000 miles of copper wire, 25,000 insulators, and plus, 8,000 cross-arms and 24,000 bolts, and to transport this material 70 cars were called into service.

Over 100 men have been steadily employed for eight months, and about one and one-half miles of completed line was finished each working day. The work of constructing these lines is an undertaking of considerable magnitude and must require a vast amount of capital.

Great credit is due the Company for its efforts in connecting up with first-class long distance lines so large a scope of territory in so short a time, over 1200 miles of toll lines having been built in the last six years. The main line of the Company now extends from Chase City, Va., to Morehead City, N. C., affording direct communication with over 5,000 subscribers in 25 exchanges. The principal points reached by the line just completed are Rocky Mount, Greenville, Tarboro, Scotland Neck, Wilson, Washington, Ayden, Kinston, Dover, Trenton New Bern, Bayboro and Morehead City.

A cable is now being laid from Morehead City to connect Beaufort with the system.

The long distance service heretofore instituted, and operated has been found invaluable for its convenience and the facilitating of business, and the new lines just opened will simply be of so much additional benefit to the business interests of the territory covered by the Henderson and the Carolina and Virginia Telephone Companies.

Williams-Whitford.

On Wednesday evening at 5:30 o'clock at the hospitable home of the bride's father, Mr. R. J. Williams, at Warsaw, N. C. was witnessed one of the prettiest weddings we have had in this community for many years, when his beautiful daughter, Miss Katie Moye, was united by the holy bonds of matrimony to Mr. Daniel W. Whitford of New Bern, N. C.

The eastern parlor was handsomely decorated in wild amaranth and ferns.

At the appointed hour the strains of Lohengrin Wedding March touchingly rendered by Miss Carrie Hussey, Mr. R. Murphy Williams entered followed by the groom and his best man, Mr. Joe Williams. Then came the bride with the maid of honor, Miss Ella Williams, and joined the groom at the altar, where they were made one by the beautiful and impressive marriage ceremony of the Presbyterian church.

The bride was attired in white mull over white silk and carried white carnations, and ferns.

Her maid of honor, Miss Ella Williams wore white organdie over white silk and carried La France roses.

After hearty congratulations from the assembled guests, the doors of the sumptuous dining room were thrown open and an elegant and sumptuous supper served. They were the recipients of many handsome and costly presents.

Miss Lena Whitford, cousin of the groom came from the Normal and Industrial College Greensboro, N. C. to attend the wedding.

After spending a few days at the bride-groom parents in New Bern, N. C. the bride and groom will visit the Charleston Exposition.

THE PREACHER'S STORY.

Johnson, Colored, Tells About Vanceboro Cutting Scrape.

Peter Johnson, the colored preacher, who severely cut a colored man named Gaskins, at Vanceboro last Saturday (as told in the Journal, was brought to the county jail in this city.

Seen at the county jail by the Journal reporter, yesterday, Johnson said, "Saturday about 11 o'clock I was hauling logs and was returning home when it began raining, and I went in the yard under a shed, but it rained so hard that I left the shed and started towards the house, ah, (Gaskins wife) saw me coming and opened the door and I went in, turning around I saw Gaskins and Mr. Tripp, a white man, coming towards the house in a cart, arriving at the gate, Gaskins jumped out and came in the house and began to swear and break up the furniture. Mr. Tripp began to talk to him and tried to persuade him to be have and leave, but he would not go, saying the furniture belonged to him, his wife did not object until he threw a mat tress out, then they began to fight. I told them to go outside and fight, that I did not want them to tear down the house. He then took up a piece of iron and tried to hit me but I grabbed it and we had a tussle, I getting the iron and throwing it away, he then grabbed up a box and hit me over the head, breaking the box, he then hit me again with part of it, and tried to hit me again, and I not being able to get away, cut him, he then went away.

"I was arrested Saturday night and carried to Vanceboro, where the Sheriff guarded me all night and until he brought me to New Bern Tuesday morning. The cause of the trouble was—Johnson had never been on good terms with his wife and had parted."

Last reports say that Gaskins is improving and may not die from the cut received.

RECEPTION DAY

At Simmons & Hollowell Co's.

Should you be in doubt of the season, bringing a suspicion that winter is still lingering, loth to leave the "lap of spring," occur to you; a visit to Simmons & Hollowell's yesterday would have convinced you that there at least the spirit of Spring pervades.

The sober garter, and rich luxuriousness of apparel, suitable to the waning winter, were supplanted by airy, crisp, fresh fabrics, varied and delicate, festooned and draped so attractively as to call forth outbursts of spontaneous admiration from critical women.

Dainty embroideries, and laces, ribbons of every hue and texture, foulards dimities, mercerized lawns with satin sheen, soft, clinging woolsens, in endless variety, which to enumerate would be useless, they must have been seen to be appreciated.

In the millinery department the visitor was ushered in with music by Lombardi's orchestra, while many feet tapped in unison to the festive strains. The decorations were violet and white with graceful sprays of amilax interspersed.

The hats are difficult to describe with such a variety, but every lot of spring time attractiveness that is possible to achieve, with dainty materials, and deft handwork was there, and it would be a capricious beauty who could not be becomingly bedecked from such a bewildering array.

"Just a bit of ribbon, Just a bit of lace, Just a little picture frame, For a picture face. Flowers, fruit and feathers And a bird on top of that That's the airy, fairy thing A new Spring hat."

One beautiful design was a Continental with entire facing of coral pink popples.

Another which merits special mention was a black picture hat with a plume composed of masses of violets.

One of white tulle, with pearl ornaments forming clusters of grapes, was distinctively prominent.

Black and white and Pittsburg gray was an effective combination.

To Miss Dawson and her assistants who so skillfully fashioned these artistic conceptions, many of them reproductions of imported originals, much credit is due.

There was no diversity of opinion regarding the beauty and originality of the millinery display, many paying tribute to their convictions, by buying Easter hats.

Mrs. S. H. Lane, as usual, had a most attractive display of the new Easter millinery designs, on exhibition, yesterday, which called forth many exclamations of delight from her numerous visitors.
