#### HOSPITAL OPPORTUNITY.

The Main Building Of Fair Assects Can Be Secured.

For years it has been acknowled by every citizen of New Bern, that a

cospital was needed here.
Funds have been started for this purpose, but the projects all fell through. Nearly every week, certainly every some doctor in this city per forms a difficult surgical operation upon a patient, and the patient is left without the necessary treatment that the case de mands, and the treatment that could be given, if a hospital was here.

The record of persons being aint away from here for hospital treats which ought to be given in New Bern is too much to mention. Any doctor can inform the inquirer of this local need of a first class hospital.

The case of little Edith Jone , daughter of Capt. Jim Jones, who fell down the batchway of the barge at the Elm Ofty Lumber Company's dock, and suf fered a compound tracture of the skull is a recent instance where a hospital is

The case of a colored woman recently operated upon for a tumor, is another. The opportunity of this city securing this necessary hospital was never so

good as it is today, The purchase of the Fair grounds buildings on George street by Messrs. Primrose and Dewsy, gives the chance. Doctor R. S. Primrose stated to the Journal, that the old main building would be sold for this purpose, by Mr. Dewey and himself, and at a moderat price, as both of the owners were interested in seeing a first class hospital established.

The Doctor further said that \$5,000 would buy, reconstruct and well equip this building, and give this city a hospital that would prove a great boon to the people here and of this section.

The location is a beautiful one, with its finely shaded grounds, easily accessi ble, and at the same time in a quiet lo cetion, most suitable for patients.

That such an institution is need cannot be questioned. That such an institution would well pay as an investment, no one who has studied the matter doubts. Here is an opportunity that should be

#### Another Landmark Gone.

gra:ped and not let pass.

In the march of local material improvements in this city, there is no respect shown to the landmarks. If they tand in the way of progress, they are removed without notice.

An instance of this is the sudden re noval of the office of Mr. Enoch Wadsworth, corner of Pollock and Middle streets.

This office has long been the resort of Mr. Wadsworth's friends, who always found the place open, day and night, summer and winter, and in all kinds of weather. Mr. Wadsworth was ever a genial

ost and the office being convenient and easy of access, it was often occupied. But between two days, the city author kies in putting up the new electric light threw down this office, and a tall and unsightly pole marks the place.

Mr. Wadsworth in speaking about his office being removed, said he would sue the city for \$300 damages for the injury done his business.

On the main post of the removed of fice, some person marked, "not dead but sleeping," which was the only piece of the place went down.
