SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches litself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the akin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body. lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.

THE SAVIOUR'S BLOOD.

A Relie of the Crucifizion Pre at Bruges.

Many cities profess to pos relic some of the blood of Christ, preserved from that which flowed from him during the crucifixion. St. Louis brought particles to Paris which be had received from the emperor of Con-stantinople. The Church of St. John Lateran, in Rome; the Imperial mon-astery at Weingarten, a church in Mantua and the Chapel of the Precious Blood, in Bruges, all put forward similar claims.

The precious blood at Bruges enjoys the widest fame and is reported to have been collected from the Saviour's wounds by Joseph of Arimathea and Nicodemus when they took down the body from the cross. It was brought to Bruges by Thierry of Alsace in 1147. He had received it from his brother-in law, Baldwin, king of Jerusalem,

Nearly six centuries ago the extraor dinary devotion paid to this relic at Bruges by the inhabitants and visitors had induced the ecclesiastical and civil authorities to institute a solemn pro cession in which it should be borne in the streets.

A confraternity of the precious blood, consisting of thirty members, with a prevost and four chaplains, was estab-lished to guard it at all times.

The procession takes place annually and the blood, contained in a crystal cylinder and inclosed in its shrine, is Mr. T. F. Reed. who is to cover right son to turn Mr. Thomas down and we carried about with much pomp and field for the New Bern team. ceremony.

How to Make a Bulldog Let Go. Says a breeder of bulldogs: "The quickest way to release a person from here Thursday. the jaws of a bulldog, if he be unfortu nate enough to be litten, is by catching the dog's hind paw, in the center of which is an exceedingly tender spot called the heart. This should be pressed or, even better, the paw taken into the mouth and bitten with the teeth. The dog will relinquish the hold at once. It is a desperate remedy, but a sure one, and one that is resorted to by the professional dogfighters.

QUICK RELIEF FROM PAIN.

All who used Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N.
