"Wooden Russin," The name "wooden Russia," says our consul at St. Petersburg, is familiarly, applied to the vast forest areas of Russian sia in Europe, which cover 464,548,000 acres, or 36 per cent of the entire area of the country, yet some fear is felt that the country may be deforested through the carelessness of private owners, and the government is considering steps for the protection of the forests. In Russia houses built of any other material than wood are almost unknown outside the cities, and wood nstitutes the principal fuel.

There is a proposal in England to re-vive the somewhat ill omened title of duke of Gloucester, which was borne by Elchard III. before he slew his way to a usurped throne. The title was last revived by George I., who in 1714 made his grandson duke of Gloucester. This young man was not an ornament to the peerage. The dukedom became dor-mant again when the second of this greation died without issue. Should the title be revived once more it would be conferred probably on one of the Prince of Wales' sons.

Magistrates Court.

Yesterday morning eleven civil cases were returned to Justice S. R. Street, for a hearing. They were all the outcome of the farmers slot machine case that was disposed of by the Superior Court sometime ago. It developed that an understanding existed between saloon men who run the machines and Mr. Pace, that in the event of an adverse decision of the court, Mr. Pace should reimburse the farmer for such expense D M Roberts as they were taxed with, in fines, costs,

This Mr. Pace declined to do, and yes terday's trial was the result. Justice Street rendered judgment in each case in favor of the plaintiff. Mr. Pace took an appeal to the Superior Court.

Yesterday evening at 4 o'clock before the same court, John Grimes, colored, was arraigned on a charge of assault and battery, proven gullty, judgment was suspended on payment of costs, \$7.20.
