

THOMAS FOR CONGRESS.

Withdrawal of Joseph E. Robinson Prac tically Gives Nomination Again to Present Congressman.

Joseph E. Robinson of Wayne county withdraws as a candidate for Congress in favor of Congressman Charles R.

Last evening Mr. Thomas received the following telegram from Mr G C Royall, President of the Goldsboro Chamber of

"Mr. Robinson announces his withdrawal in his paper this evening." Later Congressman Thomas received a copy of Mr. Robinson's withdrawal in his favor, for Congress.

This patriotic withdrawal of Mr. Robinson as a candidate from Wayne, assures Mr. Thomas' renomination beyond a doubt, the only remaining candidate being Mr. Charles L. Abernethy of Carteret county.

Reports from over the third district indicate that Mr. Thomas will have the support of Craven, Jones, Duplin, Sampson, Pender. Pamlico, Onslow and Wayne counties.

trict, 77 votes.

Mr. Robinson's withdrawal card is as

follows,-Some months ago the undersigned let it be known that he was "in the hands of his friends" as a candidate for the congressional nomination from this district, and the generous encouragement which I have received, in print and which I have received, in print and through personal assurance of support, has been deeply gratifying and will ever be gratefully cherished in remembrance; but subsequently it has developed that the contest through which Mr. Thomas, the present representative of the district has passed subjected him to such heavy expense to sustain his seat—thereby maintaining the rightful Democratic supremacy of the district that, as a fair-minded man, I recognize he should receive from the Democracy of this district further consideration, as I would have them confer upon me under like circumstances, and this of itself would be sufficient reason for determining the course which I have decided upon.

But, futhermore, as a citizen of Goldsboro who takes pride in his town and interest in her progress, and is grateful for every aid to the welfare and happiness of her people, I denire that Mr. Thomas should receive from my fellow citizens a fit recognition of their appreciation of his valuable services in securing from his committee the appropriation for a maille halfiling in this city.

ciation of his valuable services in securing from his committee the appropriation for a public building in this city, which bill has just passed both houses of Congress and is now a certainty, and I feel that this recognition could be given no more graciously on our part nor in a manner more acceptable to him than by giving him our undivided vote in the coming nominating convention of the district. It is with real pleasure, therefore, that I now withdraw my name from the further counderation of my triends throughout the district, and as an earnest of our cordial appreciation of Mr. Thomas I believe I can pledge him the unanimous vote of Wayne.

Sincerely,

Sincerely,
Jos. E. Robinson.

## WASHINGTON LETTER

[Special Correspondence.]
For the foreign relations committee room of the senate was reserved the honor of having the finest table in the national capitol. It is the longest, the best, the most expensive, the most or nate and placed in surroundings which only superlatives can describe. Just now some of the most prominent senstors and most accomplished statesmen gather about it. It is safe to predict that in the coming century, for it is not too brash to assume that the table will last for a hundred years, men of this stamp will seat themselves about it frequently and, with elbows resting upon its mahogany edges, will decide the fate of our relations with nations of the old world.

The table is twenty-one feet long longer by two feet than any other table in the capitol. The legs are Chippendale style, but are bound at top and bottom by beautifully cast and highly olished brass, contrasting well with the dark red of the mahogany. The top is framed in polished mahogany, but its center is of dark green broadcloth. The cost of the table is a secret of the capitol architect, but no statement of price or description in words quite conveys its quiet elegance.

Where Senators Live. Comparatively few senators have es tablished homes of a permanent nature in Washington. Not one-half of them maintain a housekeeping establishment. Of the eighty-eight senators now holding seats in congress thirty-three live in hotels and ten live in apartment houses. Three-fourths of those who reside in hotels are up town, the balance being southern senators who have quarters in down town houses that have become famous in the past as stopping places for southerners and that still have memories of great statesmey clinging to them that form an attrac tive feature for many of those who con tinue to give them their patronage. All the senators except two live in the "northwest," the venerable Senator Pettus of Alabama being one of those who has taken up his domicile in another part of the city. He is located on "the hill." not far from the Congres sional library building and the capitol

The Minister to China. The report that Major Edwin H. It is stated that the president might be glad to give consideration to Mr. Barrett if there was any outlook for a vacancy in the Chinese mission. No such vacancy is expected, however, and the story of Mr. Conger's going to retire is believed to be premature. The president knows nothing about such an intention on Mr

Conger's part. The President's Life Insurance. Since entering the executive office of the nation President Roosevelt has taken out some extra life insurance. The amount is not known, but is reported to be \$50,000 and was placed in one of the large New York companies. This was in addition to policies that the president had carried prior to his acsion to his present office. President Risers for constipation and torpid liver McKinley had about \$67,000 insurance on his life, and President Roosevelt's various policies probably amount to more than that. The life insurance companies do not take into serious calculation the extra danger that some people believe attaches to the occupant of the White House. The premium on the new policy is no larger than charged to any other man, and the company is said to consider President Roosevelt

## A COQUETTE

Of all the provoking tantalizing co-guettes that ever teased the heart out of a poor man Susy Arnold was the most bewitching.

One evening while visiting her I was seized with a violent headache. I told her I was subject to such attacks, and the pretty creature, putting on a grave face, gave me a lecture on the subject of health, winding up with:

"The best thing you can do is to get a wife to take care of you and keep you from study. I advise you to do it if you can get anybody to have you."

"Indeed," I said, rather piqued, "there are only too many. I refrain from a selection for fear of breaking other hearts. How fond all the ladies are of me, to be sure," I added con ceitedly, "though I can't see that I am particularly fascinating." "Neither can L" added Susy, with an

air of perfect simplicity. "Can't you?" said I. "I hoped-hoped"- Oh, that dreadfully attractive face of hers! "That is, Miss Susy, I

thought perhaps—oh, my head, my head!" And I'buried my face in the cushion "Does it ache so very badly?" she asked tenderly, and she put her cool little hand in among my curls. I felt the thrill her fingers gave me through

my whole system Soon after this it became for me to leave the city on business. An offer of a partnership in the office of a lawyer friendiof mine made me decide to extend my trip and see how

the "land lay." One thing was certain-I could not leave home for months, perhaps years, without some answer from Susy. Dressed in my most faultless costume (it was the only suit I possessed) and full of hope, I went to Miss Susy's house. She was in the parlor at the piano alone. She nodded gayly as I came in, but continued her song. It was, "I've Something Sweet to Telk You."

At the words: "I love you! I adore you!" sweeping back the curls from her forehead with laughing defiance, she warbled, "But I'm talking in my sleep." "Then," I cried, "you love me when you sleep! May I think so?"

"Oh, yes, if you choose, for dreams go by contraries, you know." I sat down beside her. We chatted away for a time. At last I began:

"Miss Susy, I came up this evening to tell you that I-I"-How she was listening! A bright thought struck me. I would tell her of my journey, and in the emotion she

was certain to betray it would be easy to declare my love. "Miss Susy," I said, "I am going to New York tomorrow."

"Going away?"

"Yes, for some months." "Dear me, how distressing! Just stop at Gauche's as you go home and orde me some extra pocket handkerchiefs for this melancholy occasion, you?"

"You do not seem to require them." said, rather plqued. "I shall stay some months.'

"Well, write to my ma, won't you' And if you get married or die or anything let us know."

"I have an offer to be a partner in law office." I said, determined to try her, "and if I accept it, as I have some thoughts of doing, I shall never return." Her face did not change. Her ol

saucy look was there as I spoke, but I noticed that one little hand closed convulsively over her watch chain and that the other fell upon the keys, making for the first time a discord. "Going away forever?" she said, with

## CATARRE

The treatment of Catarrh with antiastringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus. much of which is absorbed into the blood, and through the circulati reaches every part of the system, involving the Sto
