A MARKED EPOCH FOR ENG-LAND.

"Of the United Kingdom of Great Britain and Ireland and the Dominions Beyond the Seas-King, Defender of the Faith, Emperor of India,"

Such is the title prescribed in the new recital of sovereignty which is conferred upon Edward Seventh, in the coronation ceremonies which are to take place in England, on Thursday, June 26th,

The special significance in this title, is its comprehensiveness, in the imperial spirit displayed which welds together every part of the British Empire, making India and the Colonies joint sharers and participants in all the glory that the home seat of the government enjoys.

There can be no question as to the unity of the British Empire,

There may be attempts to show that Australia seeks separation from the Empire, but the European would be disintegrators on this line make themselves ridiculous.

While Continenal hostility to England has tried to show the disastrous effects of the Boer war upon English unity, there is no truth of fact in the contention, for it is otherwise, as the British colonies all came in on the war, each making notable sacrifices of men and means in support of the Empire.

With all that is before them, in the past and present, with the great hopes for the future, it is no surprise that all England is in gala array this week, and an epoch in England's history.

Hereafter, there will be no subordinate and South Africa are to be co-ordinate States under King Edward VII.

And in this great jubilation, the peace which has come to England, in the cessation of the African war, is a notable and happy event, marking as it does the beginning of a period of development, growth and prosperity, where war and desolation have held sway for

This is destined to prove an epoch marking week in England's history, and one in which the entire world canno but take an intense interest.

DOES IT PRESAGE DEMOCRATIC

SUCCESS?

If the dispatches report correctly, there is on foot the most importanational Democratic party movement.

This movement is the union of the David Bennett Hill and the Grover Cleveland followers, with the purpos of getting control of the Democratic State Convention of New York.

With the control of the New York State Democracy, the fight will be made with the Republicans for the political control of New York State.

The importance of the succ movement, cannot be lightly estimated in its effect upon the National Democratic party, throughout the country.

Political success for the Demogratic party in the great State of New York, means a change in the National scope of age. the Democratic party, an adjustment of You may as well expect to run a steam not merely party differences, but also an engine without water as to find an active alignment of the party to meet the isligument of the party to meet the lestrongly to the country and its voters,

This movement also clearly indicates that those Democrats who have given

With this kind of feeling of party fel lowship, and under such a leadership, the Democratic party can hopefully look forward to the time, not far distant, when it can make itself felt in New York, and also in the rest of the coun-

INSURANCE WAR AGAINST GREENSBORO COMPA-

NIES.

The threatened contest between th Southeastern Tariff Association and the Greensboro, N. C. Fire Insurance Companies, has finally begun in earnest.

The contest against the North Carolina Companies is because of their refusal to arbitrarily raise the fire insur-

The Southeastern Association people, since its raise of 25 per cent in rates, has gone about in the attempt to force the Greensboro Companies to come Into the forced rate business, but has signally

The Greensboro Companies refused to advance the fire insurance rate, simply is not justified.

The Southeastern people want the extra money out of North Carolina to Greensboro Companies knowing the business done in this State, say from experience that North Carolina rates are sufficiently high, and any advance is unwarranted from a just or business stand-

While the war may be a fierce one between these insurance people, the Greenshoro Companies have the promise from their policy holders, and this promise ought to be religiously kept, that no matter if the Southeastern Association cuts, they will not leave the Greensboro Companies,

The Southeastern people in their attempts to destroy the Greensboro Companies have forced agents to give up the Greensboro Companies business in order to keep in with the Southeastern, and have also offered to take up the policies of the Greensboro Companies in exchange for Southeastern policies, without extra cost to the policy holders.

So far the Greensboro Companies have lost no policy, and their patrons are giving them full support.

This war ought to prove that the Southeastern Association cannot run out that the coronation will witness magnifi- of business North Carolina insurance cent scenes, and that the event will be companies, and if North Carolinians will and by their local companies the In surance trust will not be able to prevail, States or Provinces, Canada, Australia and dictate absolutely in this State, all insurance rate matters, regardless of the true business situation.

The State Agricultural department today received special reports from its agent sent to Maryland and New Jersey trucking districts to ascertain the status of the truck crops. As to Maryland truck he says cabbages are bringing \$1.50 to \$4 per 100, and that the crop is 40 per cent below an average. The crop of beans is small. They bring 65 to 70 cents per bushel. Dry weather cut them off. He says as to Irish potatoes that the season will not begin until 2 weeks late. There are on sale in the markets potatoes which they call "Norfolk potatoes," but which he finds really come from North Carolina. These are selling at \$3 to \$3.50 per barrel.

As to the New Jersey truck he says the Irish potatoes are few. The season will not open until July 1. The tomato acreage is increased 10 per cent and the season will open earlier than usual. The sweet potato acreage is full.

Spring Fever.

Spring fever is another name for bilousness. It is more serious than most people think. A torpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. Never gripe. "I have taken DeWitt's Little Early Risers for torpid liver every spring for years," writes R M Everly,

At the headwaters of the Orin Spanish traditions located the land of El Dorado, "the glided man," a po-tentate whose country was so rich in gold dust that he had his body anointed with oil and sprinkled with gold every morning, so that he shone in the sun as though gilded. It is a curious fact that the country in which tradition located this marvelous being has neve been explored by a white man.
