

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of **Chas. H. Fletcher** and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

### What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

**GENUINE CASTORIA ALWAYS**  
Bears the Signature of  
**Chas. H. Fletcher**  
The Kind You Have Always Bought  
In Use For Over 30 Years.

THE CENTRAL COMPANY, 77 BROADWAY STREET, NEW YORK CITY.

### GUM BRANCH.

#### Disastrous Storms. Increased Mortality.

June 30.—On last Thursday night a tremendous cloud burst passed over this section and in about 6 hours, the rivers which hardly trickled toward the sea, were at high water mark. Old people say they do not remember such a rain.

There are more deaths in Richland Township this year than for many years past. Mrs. Agnes Green passed away last Wednesday. Mr. J. E. Floyd's daughter has also crossed over the river, besides a great many of the colored race, as many as three corpses lying in shrouds at the same time.

Irish potato crops seem to turn out very well. We got six barrels from 1-7 of an acre.

Mrs. Mittie Jarman, of Kinston, is visiting her mother, Mrs. Joe Ellis of this place.

Mrs. Effie Harrell, of Kinston, with her mother came Thursday to attend Mrs. Green's funeral but were too late.

Mr. Frank Greer and son are here visiting father and friends, also Miss Eunice Shepard is visiting kins folks and friends.

Tobacco farmers on Mr. E. W. Murrell's place will put in a barn of tobacco Monday next.

Land is plenty wet; now all around and in some places is too wet.

On Thursday night the electric display was wonderful and the thunder very heavy.

Hill is reported to have been very damaging in some parts of this section.

### PITH AND POINT.

Work is pretty hard. Make it count. If possible, do not associate with those who anger you.

Your troubles originate from talking too much, carelessness, acting hastily and lack of sense.

We have noticed that the man whose credit isn't good is the last man in the world to take a hit.

When a girl goes to have her fortune told, she acts as guilty as a boy going into a saloon for his first drink.

How many friends have you you could rely upon to keep down all talk about you after you have left the room?—*Atchison Globe.*

**MOTHER'S FRIEND**  
Stimulates the pain accompanying maternity. With its mild, soothing and healthy action, it relieves the mother of all the troubles of pregnancy. It is a safe and reliable remedy for all the ailments of pregnancy and childbirth. It is a duty every pregnant woman owes herself.

### BODIES FOUND.

#### The Remains of Two Negroes Found Floating in Neuse River. Foul Play Suspected.

Mr. Edward Harper, the mate of the schooner Lilly, coming up the river yesterday, when off the mouth of Slocumb's Creek, espied two dead bodies floating in the water.

The bodies were negroes, one being a very large one, while the other was smaller. They were only partially dressed, and seemed to be in a good state of preservation.

There were evidences of violence having been used to cause death, blood in plenty was seen on the clothing, and their faces were beaten and bruised badly. A hole was seen in one of the faces which looked as though made by a bullet.

Mr. Harper hooked the bodies and towed them up the creek, where he tied them to a stake and came to the city last night to notify the authorities of his ghastly find.

Last Sunday some hands working on the farm of Mr. Thomas Haywood on Slocumb's creek went out in a boat and two of them failed to show up and were reported to have been drowned. Mr. Haywood was in town Monday to get tackle to drag for their bodies but failed to recover them, and it is believed that the bodies found are the ones that are missing, but how death came to them, is yet a mystery.

#### A Horse Made a Priest.

Incidentally, the famous horse of the Roman emperor Caligula, was actually consecrated as a priest, had a manger of pure ivory and was never given a drink from anything but a gold pail.

#### A Picturesque Hat.

This picturesque hat of white leg-horn has the edge of the brim draped

THE DOLLY VARDER.

with Irish lace. A wreath of shaded hydrangeas and foliage covers the upper brim. There are strings of black ribbon velvet.

#### The Taffeta Jacket.

The taffeta jacket of this season is not an Etou. It is more like a blouse. It is absolutely covered with trimming. Its broad across shoulders, loose across bust and drawn snugly into the waist with a broad, stitched belt of silk that has ornamental tabs hanging from the back.

It is usually laid in a great number of large and small box plaits. Between these are attached bands or pieces of velvet ribbon that float to the waist line finished with fringe tassels of the silk.

The front has a deep facing of fine lace that turns over for an inch or two on the outside. There is a wide circular collar of lace, and the huge clasped sleeves are put into wide cuffs that fasten at the back with great fancy buttons, usually of oxidized silver, set with gaudy stones.

#### Strapping Is Popular.

Strapping, always so effective, is now being carried out in panne, the latest novelty being panne velvet strapping upon tucked taffeta gowns. The prettiest way of putting on such strapping is done by crossing it in various designs, the ends finishing in diamond shaped points.

### ARAPAHOE.

#### Unkind Treatment of Colored Speaker. Crops Promising.

Everything seems to be in promising condition around our little town and vicinity, our merchants are doing a good business for this time of the year and our farmers are looking forward to the best harvest they have had for years.

While the acreage of cotton is not as large as it has been, it is looking fine and corn is as fine as we have had for the time of the year which makes the outlook promising.

We were visited by an electric rain and wind storm last Thursday night. And also another storm Friday night which done some damage to corn crops in our community but nothing serious.

We had a nice marriage in Arapahoe last Thursday night, Mr. Walter Taylor and Miss Nola Lee, both of Arapahoe, being the parties united in the holy bonds of matrimony and Mr. W. E. Reel the officiating officer, we wish the couple a long and happy life in their married relationship.

Mr. Thomas Davis of New Bern was in Arapahoe last Thursday.

Mr. Griffin Dinsley and Wm. Whittly of Carteret county were in Arapahoe Tuesday selling fruit trees.

Last Thursday evening Shakespeare Simmons, of Bayboro and one Dudley of New Bern both colored, promoters of the railroad question among the colored people, arrived at Arapahoe for the purpose of speaking to the negroes here. Not being acquainted with the place they were treated very coolly by some of the citizens of the place and their meeting disbanded. Arapahoe was not fairly represented by the evil treatment toward this speakers as they did not have the leading sentiment of our people for it they had these colored speakers would have been treated with the respect due them. As it is not the leading sentiment of our people to treat anyone unkindly without a just cause. It is a very common see men trying to wield an influence yet fail to know the love of kindness by which it should be governed.

Mrs. Bateman Lawrence and children, and Miss Etta Goutler of New Bern were visitors to our community last week.

Rev. Mr. Rumley, the M. E. preacher of this district preached here yesterday to fill an appointment he missed last Sunday because of rain.

Mr. Hyman Oston, formerly of Reidsboro, moved to Arapahoe last Monday. He seems to like his new home very well.

The case of State vs. Farnie Justice was called and Justice failed to appear. This was the case of Sunday's bridge strapping. The colored man implicated gave bond for his appearance next Tuesday when he will stand trial.

A cotton blossom has been received at this office from John S. Morton of North Harlowe. The blossom was picked June 29th is in a far more advanced state of maturity than general. He says his 7 acres of cotton is white with blossoms.

#### "I Never Knew Painkiller to Fail before, what can the matter be? Where is the bottle? There, I thought so; it is not Perry Davis' Painkiller at all, but something the druggist must have made himself and I did not notice it; I have used Painkiller for years for diarrhoea, cramps and stomach aches and it never failed."

#### Mr. Hancock Reappointed.

Mr. Seymour W. Hancock received word last night of his reappointment as postmaster at New Bern.

Mr. Hancock's past administration of the post office had been well endorsed by the business men of this city, regardless of politics, which was an acknowledgment of its being a success.

#### Holiday Railroad Rates.

Tickets will be on sale on the A. C. Line to Wilmington, July 3rd, 4th, 5th, 6th, to return until July 8th, at the rate of one and one-third cents per mile.

#### A Good Cough Medicine.

"It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family for both ordinary coughs and colds and for the cough following a gripe, and find it very efficacious." For sale by F. S. Duffy & Co.

#### The Washers.

The horse-in year is expensive, fragile and a fool. He is greedy, and his food is as bulky as himself. He requires an expert to keep him efficient under hard work and a miracle to keep him alive under heavy fire. He must be watched and guarded more carefully than the lines of communication both in action and in camp. He is a coward. The race of them that snorted "hal hal" among the trumpets, the noise of the captains and the shouting is dead, if it ever lived at all outside the inspired mind of the plague stricken poet. He is a traitor and will desert to the enemy at the first opportunity, probably with "three days' rations in his saddlebags and a useful rifle in the bucket."—*Speator.*

#### Anti-Chinese Canada.

The latest Canadian order in council is to forbid Japanese and Chinese cutting shingle bolts or logs from the crown lands. This means that hundreds of Japanese will be driven into the United States, as they were almost exclusively employed. The laws are also being passed against Chinese, and, although they are arriving by hundreds on every ship and the Canadian government gets \$100 a head, the Chinese find that nearly all avenues are blocked in the way of making a living in Canada, so they walk into the United States, Canada getting the tax and Washington state getting the Chinese. The inadequate United States immigration staff cannot prevent the Chinese from crossing the line, while white men who smuggle them over are getting rich at \$100 a head.

#### Distressing Stomach Disease.

Permanently cured by the masterly power of "SOUTH AMERICAN NERVE TONIC." Invalids need suffer no longer, because this great remedy can cure them all. It is a cure for the whole world of stomach weakness and indigestion. The cure begins with the first dose. The relief is so marvelous and surprising that it makes no failure, never disappoints. No matter how long you have suffered, your cure is certain under the use of this great health-giving force. Pleasant and entirely safe. Sold by C. D. Bradham, Druggist.

### ARITHMETICAL PROBLEM.

#### Can You Solve It or Prove That It Cannot Be Solved?

At a lecture at the Royal Institution on the fascinating subject of "Magic Squares" Major F. A. MacMahon, F. R. S., reminded his audience of the existence of a curious problem which, despite its apparent simplicity, has never been solved. He commended it to the attention of any one present who desired to exercise his ingenuity and patience.

The problem is as follows: There are thirty-six officers of six different ranks and drawn from six different regiments, and it is required to arrange them in a square of thirty-six compartments, so that in each row as well as in each column there appears an officer of each rank and also an officer from each regiment.

Euler's "Recherches Sur une Nouvelle Espece de Quares Magiques" which appeared in 1782, discusses this problem, but gives no solution, and the late Professor Cayley, writing more than a century afterwards, confessed that it was beyond his powers.

Major MacMahon, who has added so much to our knowledge of the theory of groups—a fascinating branch of mathematics which has an important bearing on many branches of physical science—has not yet found a key to the mystery.

Whoever can solve this problem or prove that it cannot be solved will achieve immortality on the lips of mathematicians and perhaps open a door into a new realm of the scientific wonderland which is called pure mathematics.—*London Post.*

#### BRAIN-FOOD NONSENSE.

Another ridiculous food has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutrition is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulates the liver to health action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at F. S. Duffy. Get Green's Special Almanac.

#### Small Fish.

An Englishman walking through a certain part of Scotland with rod and reel came upon a tiny loch which he thought held out promise of good sport. Patiently he fished for three hours, moving steadily from spot to spot along the borders of the little pond, but no success came to him.

At last he accosted a boy who had stood for ten minutes watching him with mingled surprise and curiosity on his face. "My little lad," said the Englishman, "can you tell me whether there are any fish in this pond?"

"If there be any, they must be very wee ones, sir," returned the boy, "for there was nae water here until it rained yesterday!"

#### Mother Always Keeps it Handy.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. F. S. Duffy.

#### Parure For Plaster Patches.

Plaster patches were introduced in England in the reign of Edward VI. by a foreign lady who in this manner ingeniously concealed a wen on her neck. They became such a craze and were carried to such exaggerated lengths that they were finally lampooned out of sight. The men, as well as the women, stuck themselves over with these beauty spots. No lady of fashion until she adorned with her little box of patches cut in her favorite design. If one happened to come off in company, she hurriedly replaced it with a fresh one from the box.

At length patching in England went so far that party spirit was symbolized by the position of the patches. A letter in the paper on June 2, 1711, tells of a visit to the Haymarket and the discovery by the writer of three classes of women in the boxes all differently patched. Upon inquiry he discovered that those who patched on the right side of the forehead were Whigs and those who favored the left were Tories, while those who patched indifferently on either side were a neutral party, whose faces had not yet declared themselves.—*Harper's Weekly.*

#### THE GUN BARREL FENCE.

Passing of a Reminder of the Old Days in Washington.

"A small but nevertheless interesting landmark, as it were, of Washington has disappeared, and with it has gone another relic of the civil war," said an old resident.

"I refer to the iron fence in the arsenal grounds which for so many years surrounded the old wooden hospital building on the right hand of the main entrance at the foot of Four and a Half street. This fence was of more than ordinary interest and was historic, as it was made of musket barrels surmounted by bayonets taken from muskets used in the civil war. It made both a unique and effective barrier to the public and was often commented upon by visitors who, strolling through the grounds, would finger curiously the rusty points of the bayonets and wonder whether they had ever seen actual service upon the field of battle. As a sentry upon constant duty at this entrance he was pelted with questions as to the fence and the old cannon balls and shells piled near the main archway. As the troops at the arsenal were constantly changing, these inquiries were not always answered fully, the men being new and uninformed.

"I made inquiry at the arsenal recently in hopes of discovering some data as to the authentic history of this peculiar fence, now relegated to the scrap heap, but as the troops are newcomers I could obtain no positive information regarding the year in which the fence was erected and who was in command at the time. At any rate it is gone, and old residents will mourn the passing of another reminder of the old days.

"The change may be said to be an improvement in that many of the bayonets were broken off, and the firing line, as it were, somewhat jagged and irregular, the barrels being eaten and pitted by rust. The entrance to the old wooden guardhouse, which has been replaced by a fine new brick building a little farther south, the approach to what is one of the prettiest water parks in this country will be made even more attractive. In fact the arsenal grounds have been greatly improved recently, especially as to the new parade grounds, which are now smooth and level. This park is not fully appreciated by Washingtonians, mainly because of its remoteness from the center of the city. It has many natural beauties, and when the plans of Secretary Root are carried out it will be one of the show parks of the city, as it has hundreds of great old trees, with spreading branches, which no amount of money expended can duplicate or order."—*Washington Star.*

#### PEN, CHISEL AND BRUSH.

Miss Lillian Thomas, who painted the last portrait President McKinley ever sat for, has taken that portrait to Washington, where it will be exhibited at the Corcoran Art gallery.

Bartholdi, who created the statue of Liberty now standing in New York harbor, has made a design for a colossal monument for Belfort, France, to commemorate its three famous sieges of 1814, 1870 and 1871.

In spite of his hurry while in the United States Prince Henry found time to give sittings to an American painter, George Burroughs Torrey. This artist has had much success with his portraits of society people in New York and Philadelphia.

Mary MacLane of Butte, Mon., is a young woman of nineteen or twenty years, whose book about herself out-Baskirkstreff's Marie Baskirkstreff, was born in Canada of Scotch parents, spent her childhood partly in Minnesota and received her education in the Butte high school. She thinks that she is the greatest genius that ever lived.

#### PERT PERSONALS.

Russell Sage's landlord has raised his rent, but God will temper the wind to the shorn lamb.—*Millwaukee Sentinel.*

Will some one please pass Miss Mary MacLane a piece of the red, red sky she is starving for, also a small bottle of tabasco sauce to flavor it with.—*Montana Record.*

Minister W. hesitates to speak again on account of criticism. He ought not to be so sensitive, as the general minister is rather inclined to indulge in that luxury himself.—*Philadelphia Press.*

J. Pierpont Morgan is now lord of the sea, and if at any time it should become unruly he can get his friend Rockefeller to pour coal oil on the troubled waters.—*Memphis Commercial Appeal.*

#### THE FRENCH ELECTIONS.

Once more the French elections for the chamber of deputies have demonstrated that Paris is not France.—*Philadelphia Record.*

In the Paris elections there were 2,815 candidates, classified as Nationalists, Antiministerial Socialists, Antiministerial Republicans, Ministerialists, Republicans, Conservatives, Progressives, Radicals and Socialists. What Paris needs is somebody to force an omnibus party.—*Kansas City Star.*

#### DO YOU SHOOT?

If you do you should send your name and address on a postal card for a **WINCHESTER** GUN CATALOGUE. IT'S FREE. It illustrates and describes all the different Winchester Rifles, Shotguns and Ammunition, and contains much valuable information. Send at once to the Winchester Repeating Arms Co., New Haven, Conn.

#### DR. MOFFETT'S TEETHING POWDERS.

Dr. E. Deitch's Anti-Diuretic may be worth to you more than \$100 if you have a child who soils bedding from incontinence of water during sleep. Cures old and young alike. It arrests the trouble at once. \$1. Sold by C. D. Bradham, Druggist.

### OLD PEOPLE

Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and avoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandparent may be as bright and the complexion as fair as any of his younger and more vigorous companions.

#### Good Blood is the secret of healthy old age,

 for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost constant, accompanied with poor digestion and cold extremities.

S. S. S. being purely vegetable, is the safest and best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the Stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system.

Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases.

### CLAM SHELL BUTTONS.

Rapid Development of an Industry Which Originated in Germany.

The development of technical and industrial schools in Germany has increased not only the domain of Emperor William, but has enriched all other civilized nations. One of the first matters taken up and studied scientifically by these institutions was the making of buttons and other useful and ornamental articles from mother of pearl.

It was soon found that the opalescent layers of the oyster shell were not the sole available material, as had long been believed by the trade, and that clams, mussels and other bivalves, not to speak of many conchs, were of nearly if not quite equal value. The first result of these examinations was the prompt utilization of other shells and a consequent reduction in the price of oyster, mother of pearl and of buttons made from that substance.

The new industry prospered and finally crossed the Atlantic. Here it has taken a firm foothold and is growing rapidly. The largest portion of the work is now done in the central states, while small concerns may be found all the way from Massachusetts to Virginia. Thus far the best clam discovered is the pearl clam of the Mississippi and the other rivers of that region. The sea clams are useful, but the inner linings are not so lustrous or iridescent. The deep sea clam, with its rich indigo color, makes a showy and rather popular button. The soft clam, or Rhode Island clam, has often a beautiful play of color upon its inner surface, but is usually too thin and fragile. The hard clams, or coquinas, vary extensively. A few have brilliant interiors; the majority are very dull.

The treatment is about the same in all cases. The clams must be gathered so as not to injure the shell. They are washed and then boiled with a small amount of alkali, either washing soda or lime being added to remove any grease or dirt held by grease. The meat is extracted and is utilized for food purposes. Where no alkali has been employed the flesh is well adapted for stews, chowders or for making clam broths. Where alkali has been employed the bodies are rinsed in hot water and fed to pigs, ducks and chickens. They are said to improve the flavor of the duck and to make the domestic bird taste very much like an inferior mallard. The shells are then put by an expert and saved into blanks. These blanks are sorted, steamed, cut down by machinery, shaped, drilled and polished.—*New York Post.*

#### OVER THE OCEAN.

The Ladies' club at Vienna has provided a failure, although it had 800 members, and is about to be closed. Table wines are grown in southern Russia on a large scale, and a bottle of good quality costs only about 25 cents.

Iron finger posts bearing the names of all four thoroughfares are now being erected at the street corners in Berlin.

In 1845 there were no female and child laborers in the marble industry of France. Today they constitute 24 per cent of the force.

On Mount Snowdon a bonfire is to be lighted on coronation eve that will, given a clear night, be seen from England, Scotland, Ireland, Wales and the Isle of Man.

The Spanish government is organizing a labor department, which will advise ministers on industrial matters. Five women will have places in the new body.

Permission has at length been given by the German authorities for women to attend political meetings. They must sit in special places, however, and make no speeches.

The Prussian statistical office reports that there exist under the workmen's insurance act 9,916 sick clubs, with 4,377,714 members, of whom 844,217 are females, so that 137 per 1,000 of the population belong to these clubs.

### OLD PEOPLE
