## WAYSVILLE.

**Pleasant Closing Exercises of Village School.**

July 5.—Our little town has been the scene of much gaiety and pleasure this week in spite of old Sol's efforts to scorch his visitors from New Bern, Trenton, Pollocksville, Swansboro, and Jacksonville, besides lots of them from the country, have been welcomed by us. Many of these came to attend Miss Annie Koonce's school closing of which the many exercises were a grand success which gave conclusive evidence of the best tutored and disciplined school that this community has ever had, and to which much credit and many thanks are due the persevering, patient and ideal teacher, Miss Annie Koonce of Richlands, Onslow county.

The exercises were opened Tuesday at 8 o'clock by the school, which consisted of some excellent music, vocal and instrumental, suitable for the occasion, and some recitations. After which Mr. O. E. Foy of New Bern introduced the Hon. Chas. I. Abernethy, of Beaufort, who with his fine oratorical power held the school and audience spell bound for nearly an hour. His address for the most part was instructive to the pupils of the school showing to them the responsibilities that life would soon bring upon them, and how to meet them courageously, and beat down the many obstacles that would confront them in this path way of life. Mr. Abernethy is a young lawyer of sterling character, a natural orator, and one who adheres strictly to Democratic principles.

We hope that the good seed sown down here by him may implant themselves in the young people's hearts and that the harvest may be a golden one. Following Mr. Abernethy's address a song, and then all retired for dinner.

At 8:30 p. m. the exercises were again opened by a popular march rendered by Miss Donnie Koonce, the music of which brought the school from the campus marching each with banners to the beautiful artistically arranged stage, where with raised banners joined in the singing of the South's favorite air "Dixie Land."

Then followed a countless number of dialogues, recitations and songs which were delivered in a way by many pupils that did credit to their teacher, themselves and their parents.

We each and every one appreciate the effort and success that Miss Koonce has made here in school affairs and hope to have her again next year for our teacher.

## Report of the Superintendent of Public Instruction.

A campaign for education is on in earnest. This is to be fought for better schools and better school facilities. To accomplish this, an educational campaign will be made in every county where there seems to be an opportunity to improve the present conditions. Walter H. Page says truly that there is enough native intelligence going to waste in North Carolina for lack of training to govern the entire world. There must be a cause for this. If a person's surroundings and associates determine his character and intelligence, then the individual's surroundings should be studied and improved. It is recognized fact that a child's associates must be elevated if that child's training is to remain permanent. This is the work the Central Campaign Committee for the Purpose of Improving the Public Schools has undertaken to accomplish.

The following resolution was unanimously adopted by this committee in Raleigh, February 13; it was reaffirmed at Greensboro, April 3, also at Charlotte May 2, and at Morehead City by the Teachers' Assembly, June 13. "Be it therefore Resolved, That it is the sense of this conference that an active and vigorous campaign should be at once inaugurated in every county for the accomplishment of the following ends, to-wit:

"1. The consolidation of small districts wherever possible.  
"2. The erection of adequate and comfortable school houses.  
"3. The strengthening of the public school term by local taxation."

The reports from the different County Superintendents show that about one-fourth of the school districts contain less than sixty-five children of school age. In other words, about twelve districts for every county (when a general average is made) are illegal. The schools run about three months in the year, and the State Superintendent is called upon for funds to increase them to a four months' school.
