Clinton Pire Swept.

Clinton was flame-swept Sunday and the fire was the most disastrous that ever visited that town. Report say that forty-two buildings were destroyed, with a total damage of \$190,000. It is thought that the insurance will not exceed \$20,000. The loss is a great one and is a calamity on the community. Probably half of the business part of the town was burned, the flames sweeping nearly all the stores on south side of the court house square.

Three Great Rivers' Sources. One of the puzzles of geography has been the question of the situation of the sources and upper portions of the three great rivers Hoangho, Yangtse and Mekong, all of which start from the lofty plateau of Tibet. Two of the rivers traverse China; the Mekong makes its way to the sea between Ansm and Siam. This pussie has been partially cleared up by the explora-tions of the Russian Captain Kosloft during 1900 and 1901. He found that the three rivers flow on the surface of the three rivers flow on the surface of the great plateau, 12,000 feet above sea vel, and are separated from one an-ther by parallel ranges of mountains sing about 3,000 feet above the pla-au and running in a northwest and outheast direction.

Need More Help.

CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseiess as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it

checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected.

pear, and a permanent, thorough cure is effected.
