CHARLES L. STEVENS, EDITOR AND PROPRIETOR. SUBSCRIPTION RATES: Two Months, 35 Cents; Three Months, 50 Cents; Six Months, 90 Cents; Twelve Months, \$1.00. ONLY IN ADVANCE.

Advertising rates furnished upon application at the office, or upon inquiry by mail.

The JOURNAL is only sent on pay-in-advance basis. Subscribers will receive notice of expiration of their subscriptions, and an immediate response to notices will be appreciated by the JOURNAL.

Entered at the Postoffice, New Bern, N. C. as second-class matter.

Section Two, Friday July 18, 1903

DEVELOPMENTS AWAITED AT GREENSBORO.

The Democratic State Convention which is to meet at Greensboro on Wednesday of this week, is a convention whose proceedings are awaited with intense interest by the people of the entire State, regardless of politics.

The chief work for the convention, the adoption of a party platform; the manner of procedure in the naming of the next United States Senator; the election of an executive committee; the nomination of Chief Justice, Associate Justices, State Superintendent of Public Instruction, Corporation Commissioner; and the nomination of ten Superior Court Judges, these are all important matters, but even more than these, is awaited the Democratic spirit which is to infuse and enthuse the convention into party action.

For it must not be forgotten that there is a changed condition in the political situation, that the Democratic policy removing the negro as a political force is now operative, and the appeal to men's intelligence not passions, as promised by Democratic leaders, is to take precedence over the political alarms, once so potential and influential to rally Democratic voters and white men.

Truly the action of the convention, under the new Democratic conditions, will be awaited with intense interest.

Those within the party believe that Democratic promises under the amendment will be fulfilled, while those on the other side will not, until the convention by its public action and proclamation gives to the people, its policy, which will prove its good faith to the people for placing it in power and in charge of the State's material and all other interests.

FAILURE IN DETECTING LYNCHERS.

The large reward offered for the detection of the lynchers of the two colored boys, who were killed by a mob in June, near Salisbury, N. C. has resulted in nothing.

An arrest was made last Saturday of a man supposed to be one of the lynchers, but he proved an alibi.

And this is all that has been found out, although it was intimated that many of those engaged in the lynching were known and could be proven guilty.

That the Governor's action in offering the reward for the apprehension of the lynchers, is not questioned as being a right one, but that any result in the way of detection and conviction of a single lyncher, was possible, has been doubted.

A lynching is a matter usually engaged in by men who are not going to chance being caught for their act, and a lynching is a matter which meets the approval of the entire neighborhood in which it is committed, and those not actually taking part, feel the same sympathy for the movement, as if they actually had hold of the rope or used the gun.

This being true, the matter of reward for the detection and arrest of one or all lynchers, is never likely to prove a success, for there are too many interested in preventing the real perpetrators from being made known.

GRAIN SUPPLIES AND PRICES.

The demand for wheat in European countries depends not only on the crops of those countries, but upon the price they have to pay for American wheat. When the price advances beyond a certain figure the great masses of the people quit using it and take to black bread and a freer use of potatoes or other substitutes for bread.

The increase of the price at this time over last year is due to the transactions falling off in the visible supply both in the money and in Europe.

United States and Canada on July 1, 1903, the visible supply was 29,811,000 bushels, as against 41,000,000 a year ago and 65,000,000 in 1900. The European supply on the 1st of July was 56,000,000 bushels, against 74,000,000 a year ago.

While there was a splendid crop of wheat in the prairie States last year, there was an almost total failure of the corn crop, and now in parts of the West corn is higher than wheat. Under these conditions the Western farmers are using a greater quantity of wheat on their farms, not only for bread, but also for feed for cattle. The wheat, therefore, in some of the greatest of the wheat States remained in the granaries and did not go into the "visible supply."

In most of these States it will still be several months before new corn will be available, and in the meantime a great quantity of wheat will be consumed as a substitute. This year the export of corn was only 940,000 bushels, against 4,294,000 the year before. The Government guessers estimate the corn crop of the United States this year at the enormous figure of 2,500,000,000 bushels.—Baltimore Sun.

The Best Prescription for Malaria. Chills and Fever in a bottle of Gaoz's TASTELESS CHILL TONIC. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

Tiffany's Big Day is IN.

Mr. Charles L. Tiffany and his partner, Mr. Young, began business on a capital of \$1,000 borrowed from Mr. Tiffany's father.

Their first stock of salable goods consisted of bric-a-brac, Chinese and Japanese wares, umbrellas, walking sticks, desks, dressing cases, cabinets, fans, the stationery, pottery, fancy articles and curiosities. The total sales for the first three days are said to have amounted to only \$4.98, but as the nature of the business became known the patronage increased, new features were added from time to time, and on the day before Christmas of the year 1837 the sales amounted to \$236.—American Monthly Review of Reviews.

\$100—Dr. E. Detchons's Anti-Diuretic may be worth to you more than \$100 if you have a child who soils bedding from incontinence of water during sleep. Cures old and young alike. It arrests the trouble at once. \$1.; Sold by C. D. Bradham, Druggist.

What Borax is.

One of the most desirable articles in the laundry or the washroom and valuable in many purposes connected with the household economy as well as in scientific use is the simple salt known to every one under the name of borax, but probably not much known as to its constituent elements or its nature by most of those who use it more or less frequently. Borate of sodium, to use its chemical name, first comes as a natural product from Tibet by way of India under the name of tinal, the salt being covered with a green crust of a soapy nature which requires removal before the borax is available for use.

A Good Cough Remedy.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family for both ordinary coughs and colds and for the cough following a gripple, and find it very efficacious." For sale by F. S. Duffy & Co.

Farmers Tobacco Warehouse.

We beg to announce to our friends that we will manage the up town warehouse this season. It will be known as the Farmers Warehouse, and is one of the most convenient warehouses in the State for the sale of leaf tobacco. It is well arranged for unloading and has plenty of room for wagons and carts. Connected with the warehouse is a well arranged stable with box stalls, where your team can be well cared for. The warehouse will be lighted at night with electric lights, so you can drive in at any time. We will have a sleeping apartment for any who may wish to spend the night at the warehouse.

It is our intention to have premium sales from time to time through the season, and the success of former premium sales will be a guarantee that your interest will be well cared for. The warehouse is so arranged that we can unload any number of carts at once, and there will not be that delay that has formerly been a drawback, whenever a large sale was on hand. Mr. C. H. Richmond, who is well known to the farmers of this section will be associated with us as auctioneer and buyer. Having been on this market for several years, it is needless to say that he is a gentleman of integrity and will see that your tobacco brings its full worth.

There will be buyers on the market from the American Tobacco Company, and also the English Company, as the competition will be as sharp in this market as any, we see no reason why you should not bring your Tobacco to the Farmers Warehouse.

We will give you all our personal attention and we feel that we deserve a part of your patronage as it has been our aim to serve the farmers of this section to the best of our ability. Bring us your tobacco and you will not regret it. We have made arrangements by which all checks will be cashed at the warehouse, which will save the trouble of going to the bank.

Yours for high prices, J. H. HOWARD, Mgr. Farmers Warehouse, C. H. RICHMOND, Auctioneer.

Kodol Dyspepsia Cure Digests what you eat.

This preparation contains all of the digestant and digests all kinds of food. It gives instant relief and never fails to cure. It allows you to eat all the food you want. The most sensitive stomachs can take it. By its use many thousands of dyspeptics have been cured after everything else failed. It prevents formation of gas on the stomach, relieving all distress after eating. Dieting unnecessary. Pleasant to take.

It can't help but do you good. Prepared only by F. S. Duffy & Co., Chicago. The 5c. bottle contains 5x times the 25c. size.

F. S. DUFFY & CO.

ANIMAL ODDITIES.

As many as 4,061 muscles have been counted in the body of a moth. Crows have no fewer than twenty-seven different cries, each distinctly referable to a different action. The mtn, which is not a parrot, but one of the grackle tribe, can talk more distinctly than any other bird. The lyrebird of Australia is the biggest song bird in the world. It is nearly as large as the pheasant. The largest British song bird is the missel thrush.

BRAIN-FOOD NONSENSE.

Another ridiculous food has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet how ever good your food may be, its nutrition is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aid digestion, stimulates the liver to health action, purifies the blood, and makes you feel buoyant and vigorous. You can get this reliable remedy at F. S. Duffy. Get Green's Special Almanac.

Breaking a Will.

A wealthy woman named Silva died at Lisbon and left her entire property to a rooster. She was a fervid spiritualist, a believer in the transmigration of souls, and imagined that the soul of her dead husband had entered the rooster. She caused a special fowlhouse to be built and ordered her servants to pay extra attention to their "master's" wants. The disgust of her relatives over the will caused the story to become public, and a lawsuit might have followed had not one of the heirs adopted the simple expedient of having the wealthy rooster killed, thus becoming himself the next of kin.

RELIEF IN SIX HOURS.

Distressing Kidney and Bladder Disease relieved in six hours by "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by C. D. Bradham, Druggist.

A Moth Killer.

Before laying a carpet rub the board over with turpentine to safeguard it against moths.

Baked Potatoes.

In baking potatoes the flavor is much improved by first boiling them for about ten minutes with the skins on and then draining before putting them in the oven.

Slate.

Slate is got out of the ground by means of blasting, holes being bored into it with steam drills.

Vacation Days.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. B. Johnson, Swift, Tex. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits. F. S. Duffy.

Sins of the Tongue.

The sins of the tongue all point to the necessity and profit of self mastery. There is danger in the tongue that often brings the deepest sorrow to innocent ones, as well as throws a reflection on a pure character. If this confession of failure and magnifying of the office of the tongue seem exaggerated, let any one sit down quietly and think the sins and cruelties of human speech. The careless words which no repentance can call back again, the rash promises which it has cost so much to fulfill, the expression of the lower nature which has stamed the highest, the confessions of evil and yielding to falsehood, the hot and angry words which sober thought condemns—these are some of the perils of the tongue. On the other hand, like most of the uses of the world which turn so easily to evil, the tongue may be the instrument of great and lasting good.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia. At first, then, promptly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Remedy prevents this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. F. S. Duffy.

RALEIGH.

Edward Pou Nominated for Congress From the 4th District.

Strange Fatal Accident to James P. Watson on S. A. L. Sentiment in Favor of Another Primary for U S Senator Growing Report on Negro Education

RALEIGH, July 15.—The Democratic Convention of this Congressional District met at noon today, in the city hall J. R. Young presiding. It nominated unanimously Edward W. Pou of Smithfield. All the counties had instructed for him.

About 3 o'clock this morning engineer James P. Watson of the Seaboard Air Line was killed 3 miles north of here in rather singular way. A car loaded with lumber broke loose from a train in the yards here and ran down grade to a bridge, then up grade. The passenger train, on which engineer Watson was going out ran into this car. A piece of timber passed through the cab, broke his neck and was found lying on the tender. The front of the engine was badly wrecked. Watson was a very capable engineer. His age was about 45. He leaves a wife and several children. He had promised his wife a few days ago that he would quit railway work. One report in regard to the car which broke away is that several broke and that the yard master thought he had coupled all, but that this particular one went further than the others.

Secretary of State Grimes, Treasurer Lucy and Auditor Dixon left today for Greensboro, to attend the Democratic State Convention. Gov. Aycock is unable to go. It is asserted that sentiment in favor of another primary for U. S. Senator is growing.

Col. A. B. Andrews of the Southern railroad who left this morning for Hot Springs, N. C., was very frequently while at Atlantic City taken for ex-president Cleveland.

As yet the contract for lighting this city is not signed. The lighting company objects to the clause imposing a double penalty for failure to keep lights burning. The city insists on it.

A charter was today granted the Rocky Mount Steam Laundry Company.

A report on negro education in North Carolina shows that since 1873 \$5,301,633 has been expended. Last year \$233,000 were expended, while the negroes paid only \$118,000.

Saves a Woman's Life.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by C. D. Bradham. Price 50c and \$1.00. Trial bottles free.

A Wise Woman.

Mr. Snaggle (smugly)—Don't be so correcting that boy always, Sarah. Let nature take its course, won't you? Mrs. Snaggle (laying aside the shingle)—I'll do nothing of the sort, Mr. Snaggle. I don't intend that any woman shall have such a husband as I've got if I can prevent it.

Money doesn't keep contentment of mind, but it keeps contentment from getting lonesome.—Baltimore News.

If a Man Lie to You,

And say some other false, ointment, lotion, oil or alleged healer is as good as Bucklen's Arnica Salve, tell him thirty years of marvelous cures of Piles, Burns, Boils, Corns, Felons, Ulcers, Cuts, Scalds, Bruises and Skin Eruptions prove it's the best and cheapest. 25c. at C. D. Bradham's drug store.

Telling a Horse's Age by Wrinkles.

"The popular idea that the age of a horse can always be told by looking at his teeth," said a veterinary surgeon, "is not entirely correct. After the eighth year the horse has no more new teeth, so that the tooth method is useless for telling the age of a horse which is more than eight years old. As soon as the set of teeth is complete, however, a wrinkle begins to appear on the upper edge of the lower eyelid, and a new wrinkle is added each year, so that to get at the age of a horse more than eight years old you must figure the teeth plus the wrinkles."

YOU KNOW WHAT YOU ARE TAKING

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle showing that it is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

His Whole Business.

Tar water, as a remedy many years ago in England became the universal nostrum. Horace Walpole tells that a man went into a chemist's shop and asked, "Do you sell tar water?" "Tar water," replied the apothecary. "Why, I sell nothing else!"

Call at F. S. Duffy & Co's drug store

and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

A Pierce Threat.

Irish Maid—Do you want a good beating, Master Jimmy, or do you not, because if you don't believe yourself this minute you'll get both?

The superior man is satisfied and composed; the mean man is always full of distress.—Confucius.

TELEGRAPHIC BREVITIES.

The order has been made at Washington that the Catholic friars who have been in the Philippines, must withdraw from the islands. The friars are priests and teachers, mostly Spanish.

The overcast ships stevedores and Portland are reported safe. The Mohican is a training ship and was out from Yokohama 39 days. She was nearly out of fuel and food when she dropped anchor in Dutch Harbor, Alaska. The Oregon reported at St. Michaels, Alaska, several days late.

Senator Ben Tillman has very solemnly reiterated a vow that he will oppose his colleague, Senator McLaurin's appointment to the United States court of claims bench, says he will fight him to the last ditch.

James Montgomery, a plumber of Char lotte, was fearfully burned Monday while at work by the explosion of a gasoline stove. The accident would have been much worse but for Mr. Montgomery's presence of mind in smothering the flames.

The U. S. Cruiser Brooklyn, bearing the late British Ambassador Pouncefote's remains has arrived in England.

King Edward VII improves in health satisfactorily and will soon go on the royal yacht where he will remain during the summer.

A fire in the Revolution Cotton Mill at Greensboro, N. C., Monday, destroyed bale cotton and waste to the amount of \$800.

The Republicans of the fifth and sixth Congressional districts of Maryland, have decided to run negro men for Congress.

Owing to faulty steering gear the battleship Illinois became grounded in the harbor of Christians, Norway and had to be taken back to England for repairs. She was accompanied by the cruisers Chicago and Albany.

The Venezuelan government has not subdued the insurrection and the Revolutionary party is gaining adherents.

The United States government has ordered the cruiser Marietta to proceed from Cape Haytien to La Guaira, Venezuela, in order to protect American interests there.

It is estimated that \$1,000,000 a day is lost to Chicago wholesale dealers on account of the strike. The public of that city are generally alarmed and the outlook is not at all encouraging.

Mr. Wu Ting-fang, Envoy Extraordinary and Minister Plenipotentiary to this country from China, has been recalled by his government and Sir Liang Chen Sung appointed in his place. Mr. Wu was very popular in Washington circles.

Lord Salisbury has resigned the premiership of England and King Edward has tendered the portfolio to Mr. A. J. Balfour leader of the House, who has accepted it. Mr. Balfour is very popular with the members of the cabinet.

The frail timid boy King, Alphonse XIII, of Spain, is developing into a strenuous, lively lad, after angering the military and antagonizing the ministry the other day he bestowed himself to the slums of the city, and there danced the night away with a working girl. When his mother remonstrated with him because of his unkingly conduct, he ordered her from his presence and otherwise "sassed" her, so the Madrid dispatches say.

Four masked men held up the west-bound passenger train on the Denver and Rio Grande road near Chester, Col., Monday. The passengers were forced to line up along the track and hand over their valuables. The losses are very heavy as the victims were nearly all tourists, and had plenty of money. No capture of the robbers have been made.

CASTORIA.

Mosquitoes and Strawberries. Mosquitoes and strawberries make a queer combination certainly, but that is what the people in the neighborhood of Mount St. Elias can boast of in a region of perpetual ice and snow. Along the edge of the glacier, it is said, is a strip of luxuriant vegetation, where strawberry vines cover the ground for miles.

Mother Always Keeps It Handy.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now, at the age of seventy six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring, symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic. F. S. Duffy.

As Honest Hovee Tends.

"I'll have you arrested for making false representations. I bought that horse of you only because you told me he had a record."

"Very true, but the record is a bad one. You didn't ask me what kind of a record he had."

IF YOU WILL PUT a teaspoonful of Mexican Mustang Liniment into a glass half full of water and with this gargle your throat often it will quickly cure a sore throat. Keep this fact always fresh in your memory. For Cuts, Mashes and all Open Sores, you need only to apply Mexican Mustang Liniment a few times and the soreness and inflammation will be conquered and the wounded flesh healed. To get the best results you should saturate a piece of soft cloth with the liniment and bind it upon the wound as you would a poultice. 25c., 50c. and \$1.00 a bottle. KEEP AN EYE ON your poultry and at the very first sign of roup, scaly legs, bumblefoot or other diseases among your fowls use Mexican Mustang Liniment.

MARBLE AND GRANITE MONUMENTS. TUCKER BROS. 310 North Front Street, WILMINGTON, N. C. The place to buy your Cemetery Work at BOTTOM PRICES. Foreign and Domestic Granite and Marble. Lettering and Finish the Best. Send for latest designs. All work delivered. Branch yard, Goldsboro, N. C.

THE NORTH CAROLINA State Normal and Industrial College. Session opens September 18th. Expenses \$100 to \$140; for non-residents of the State \$160. Faculty of 73 members. Practice and Observation School connected with the College. Correspondence invited from those desiring competent teachers and stenographers. To secure board in the dormitories all free tuition applications should be made before July 15th. For catalogue and other information address PRESIDENT CHARLES D. McIVER, GREENSBORO, N. C.

DEBNAM MILITARY SCHOOL LA GRANGE, N. C. English, Classical, Scientific and Commercial for boys and young men. Seventy-one Boarding Pupils from 17 different Countries and two States the next year. A Military School that is not a machine; where EFFICIENCY INSTEAD OF NUMBERS is sought; where TRUTHFUL, MANLY, HONEST boys are wanted. A four years Preparatory Course, giving full and thorough preparation for College or For Life. Athletics encouraged. Charges reasonable. Term begins Sept. 3rd. Write for illustrated catalogue. J. E. DEBNAM, Supt.

Agricultural and Mechanical College.
