ODD FELLOWS MEET.

The 55th Annual Encampment of Three Linkers Convenes Here Today.

The 55th annual grand encampment of the Independent Order of Odd Fellows takes place here today and brothers of the three links will gather here today to enjoy the benefits of fraternal meeting and to transact the business of a great benevolent order. About 50 are expected. Several arrived last evening.

The Grand Encampment convenes this morning at 11 o'clock with Grand Patriarch Ramsey, of Charlotte in the chair, Grand Scribe, H. J. Jacobs, of Wilmington, and other grand officers.

The local lodge will tender the visitors a ball on the steamer Blanche this afternoon at five o'clock.

At eight o'clock the Calumet Encampment No. 4, will confer first and second degrees in the Encampment branch of the order.

The following Odd Fellows are at the Chatawa:

B. J. Jacobs, L. L. Pool, William L. Smith, of Wilmington; O. M. Jones, R. F. Hall, Winston-Salem; John N. Frazier, Leaksville; R. W. Murray, Greensboro and C. W. Eazel of Durham, accompanied by wife and child.

A Menace to Health.

The usual filthy condition of the market dock is a matter that deserves more than a passing notice.

Yesterday morning the stench arising from the garbage was perfectly awful, and became a subject of much comment.

The wharf was literally covered with watermelon rinds, fish offal, and a heterogeneous mass of rotting, festering garbage, the odors of which would rival the stink of a guano and glue factory combined.

To allow such accumulations of offensive matter, shows a complete disregard of sanitary precaution, and is a serious menace to health. It might be said to be a reflection on the whole city, showing a lack of tidiness and good order.

Too much care cannot be exercised in looking after the cleanliness of the city. An epidemic of typhoid fever or any disease is to be avoided by strict sanitary regulations, which it is the duty and province of the city government to enforce.

SECRETS

At the Price of Suffering.

Woman on her way toward suffering caused by pregnancy suffers much pain and terror. Ignorance prompts her to undertake dangerous remedies, and she is left with a broken body and a shattered mind.

Dr. J. C. Hatcher's Mother's Friend is the only remedy that is safe and sure. It is a secret, and its use is a secret. It is a secret, and its use is a secret. It is a secret, and its use is a secret.

Dr. J. C. Hatcher's Mother's Friend is the only remedy that is safe and sure. It is a secret, and its use is a secret. It is a secret, and its use is a secret. It is a secret, and its use is a secret.

THE BRADFIELD REGULATOR CO., ATLANTA, GA.

A FALSE ALARM.

Officer Bryan is Put on a Wild Goose Chase.

The scene which the street of the tramps from Wilmington seems to have created is rather hard. Any old person who has any sense may look about him and be taken for a tramp even if his name and occupation is known.

A somewhat laughable incident occurred yesterday morning when an officer was telephoned for to hustle up to the depot, as there was a big ugly nasty tramp hovering around and they thought he might burn some building or attempt to wash his face at the pump, and in order to stop any such proceeding some one sent for a policeman and officer Bryan responded.

When Mr. Bryan appeared the tramp had gone, but he was watched and Mr. Bryan was sent after him in the vicinity of the ice factory.

He was soon overtaken at a place he called his home—a very respectable domicile, and the man an innocent and harmless looking creature who might be taken for a consumptive was easily found. The only dangerous feature about him was a revolver he carried in his belt. He was not molested. Reports are heard, however, that tramps are in the city. While there has been very little disturbance on their account it will be well to be prepared for them.

WON AGAIN.

New Bern Colored Base Ball Team Give the Raleighs a Second Trouncing.

The second game of base ball between the Raleigh and New Bern colored teams was played yesterday. The game was witnessed by about 300 people. Quite a large number of white people were in attendance.

The teams were strong in their playing and played a pretty game. One of the startling features was when Asa Bourn, Raleigh's left fielder caught a ball from the top of the fence, a peculiarly difficult act.

The batteries were Prophet and Stanley for the New Berns; White and Sledge for the Raleighs. The pitchers were in splendid form and their support was magnificent.

The game was lost by the visitors by a wild throw from Raleigh's catcher, Sledge, to the third base. The score was 9 to 4 in favor of New Bern.

The game will be called this afternoon at 2:30.

The Best Prescription for Malaria.

Chills and Fever is a bottle of Groves' TANNING CHILL TONIC. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

Bogus Items.

Aug. 5.—The crops are greatly damaged by the drought, especially corn. Light showers occasionally visit us.

Mr. Charles Barker of Stella passed through Bogus last week enroute for Beaufort.

A number of our people will go to Florida soon to engage in the fishing business.

Misses Theodora Kinsey of Trenton and Lydia Weeks of Stella, were among the attendants at our protracted meeting last week.

Mr. G. P. Snow, our former pastor, who has been assisting Rev. F. S. Beaton in his protracted meeting returned to his home at New Bern yesterday.

Miss Maggie Ennett who has been confined to her bed with the measles is out again.

Mr. and Mrs. Robert Weeks, of Harlowe is visiting relatives in our neighborhood.

Mrs. Robert McLean, after an extended visit to Bogus left Monday for her home at Oriental.

Misses C. C. Dennis and J. S. Jones made a flying trip to New Bern last week.

Mr. R. T. Ennett leaves today for Richmond, Va.

Mr. Ora Weeks of Stella, was a visitor at his cousin's the Misses Weeks, last week.

Mr. and Mrs. Ode Holland spent last Saturday and Sunday with their mother Mrs. Julia Taylor.

To My Friends.

It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol, I did so, and words cannot tell the good it has done me. A neighbor had the dyspepsia so that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it. Geo. W. Fry, Viola, Iowa. Health and strength of mind and body, depend on the stomach, and normal activity of the digestive organs. Kodol, the great reconstructive tonic, cures all stomach and bowel troubles, indigestion, dyspepsia. Kodol digests any good food you eat. Take a dose after meals. F. S. Duffy.

Jones County Primaries.

To the white voters of Jones County: At a meeting of the Democratic Executive Committee of Jones county it was ordered that the primaries for the precincts be held at the voting place of each precinct on August 16th, 1908 at 8 o'clock p. m., and that the county convention for nominating county officers and member of legislature be held at Trenton, N. C. on August 25th, 1908.

Let there be a full attendance of the people at these meetings in order that their wishes may be known.

Every white voter who wishes to aid in continuing good Democratic government in our county and State, and intends to support and work for the success of the Democratic nominees is cordially invited to participate.

T. O. WHEATMAN, Chm. Dem. Ex. Com. Jones Co.

HINTS FOR FARMERS

Points on Clover Hay.

Every year there are many questions about curing hay. Early cut grass contains more moisture than that which stands until dead ripe and is harder to cure. Hay is grass with the water taken out of it. This water is removed by the wind, a hot breeze while the sun is shining giving ideal haymaking conditions. The easiest way for the water to be taken from the plant is through the leaves. When these leaves are dried and killed, first of all there will be considerable water left in the stem, and this will move out very slowly. When the leaves are left fresh, they suck or pump the water rapidly from the stem and thus dry it quickly. Cut down two trees in full leaf. From one take every green leaf at once and let the leaves on the other slowly wilt and die. You will find the first tree wet and soggy, while the other is dry, having been sucked or pumped by the leaves. These things explain why the best hay is made in the shade. The leaves are not withered, but keep on pumping water from the stems and "sweating" it out. Clover especially is best cured in the cock. Its thin, broad leaves are quickly wilted in the hot sun, while in the pile they keep at work. We must remember that some samples of early cut clover contain over 1,000 pounds of water in every ton and that 1,500 pounds of the water must be taken out in a short time. One reason why the feeder makes such a useful hay tool is that it breaks the stem and gives the water a chance to escape.

Fighting Insects and Pests.

The fruit grower today must be a successful fighter of insects and all pests of trees and vines, and unless he carries the war on intermittently he cannot expect profit. It is necessary to put aside a certain amount of money from profits every year to be expended on poisonous sprays for the following season. One must have a pretty fair knowledge of the nature of the different insects most destructive to his particular fruits. This does not mean a scientific education.

There are not more than half a dozen insects that threaten most fruits, and these can be studied so that one will know just when to look for their appearance and how best to prevent their destructive work. Too many wait until it is too late to avert losses. The first appearance of the insects is generally anything but alarming, and one is inclined to believe that they will not amount to much. But unfortunately their multiplication is very rapid, and before the fruit grower realizes it his crops are nearly ruined. Sometimes the danger is even more insidious than this—American Cultivator.

Transplanting Plants.

There is always much difficulty in transplanting garden seeds in dry and hot weather, and on this account the fall garden is often a failure. But this difficulty can be easily overcome and plants raised for transplanting in the midst of the severest drought. Make a deep bed in mellow soil and tramp it well. Then water it heavily, and as soon as it is in good condition for working rake and lay a plank carefully over the row or rows and walk on the plank to make it fit the ground closely. It may be necessary to turn the planks over once a day to prevent warping. When the time rolls around when the plants ought to come up, raise the planks every evening to see what's going on beneath. As soon as the plants appear raise one side of the planks and prop them up to give the young plants room. As the plants grow raise the planks higher and higher until the plants are sufficiently rooted to stand without protection. Transplant after a rain.

Breaking Broody Hens.

We have tried many different ways to break hens from sitting. The best and most humane is to place the hen in an enclosure alone or with others which are similarly conditioned. There should be no nest boxes in this prison yard to tempt the hen, and she should be kept there, properly fed and watered, until she promises to reform her ways. Cooping is a failure in many cases, as the hen will sit in the coop. Some poultry writers have made the astounding discovery that there are hens that will sit on a doorknob. Many will sit on the ground or on a board or in any place where they may be placed. We have hens now which have sat until displaced on the perch and another on the dropping board under the perch. Many hens will sit as faithfully without as with eggs, doorknobs or any other object under their wings.

Catch and Odd Time Crops.

In the states in which wheat, oats, rye, etc., are harvested by the middle of June such plants as the cowpeas and soy beans may be sown after these green crops are harvested and mature in time to be followed by these same grain crops or by grasses, clover or any crop adapted to fall sowing.

Cowpeas and soy beans sown after the harvesting of grain furnish an excellent and large quantity of stock food in August, September and October. Canada field peas and crimson clover sown in July or early in August supplement the cowpeas and soy beans from October or November until spring. —American Agriculturist.

Profit in Sheep.

Every farmer who will can make a flock of good sheep profitable. The flock, of course, should be proportioned in number to the size of the farm. Good mutton is always salable. So is good wool. And this will be the case as long as people are fond of meat and until winters cease to make woolen clothing necessary for comfort. At the present time both of these products are profitable.

One of O'Connell's "Balls."

Some extremely amusing mistakes have been made by even the most practiced speakers in their desire to carry their audience with them. O'Connell once in an election speech in Capellaton hall told his followers that if measures injurious to Ireland were brought into parliament he would go over to England and "die on the floor of the house of commons in opposition to them," and when he came back he would say, "Are you for repeal now?" —London Standard.

ZORAH.

Aug. 5.—The long drought has been followed by the most beautiful rains that any one could wish for.

The rain began on Tuesday of last week, and since then, we think, more has fallen than during the two months preceding.

There was quite a serious accident in our midst last week. Henry Caton, son of Mr. Louis Caton, while cutting timber, had his leg caught beneath a log and broken between the knee and ankle. It was set by Dr. Rhem of your city, and we are glad to report is doing well.

Only a few weeks ago a negro boy who lives near here had his leg broken by a yoke of oxen, and a few days later his father cut his foot so badly he has not been able to walk since. So much for the logging business.

Miss Blanch Miller of Pamlico county and Miss Katie Thomas of Onslow are the guests of Miss Beattie Thomas.

Elder W. D. Litchworth filled his regular appointment at Friendship church Saturday night and Sunday.

Miss Rena Toler of New Bern is spending a few weeks with relatives here.

We will have a picnic and game of ball at Zorah on the 16th inst. We hope to make it enjoyable for all who will attend. Come.

Mr. and Mrs. A. J. Whitford leave tomorrow for Bayboro to attend the Confederate reunion and to spend a few days with relatives.

A Necessary Precaution.

Don't neglect a cold. It is worse than unpleasant. It is dangerous. By using One Minute Cough Cure you can cure it at once. Allays inflammation, clears the head, soothes and strengthens the mucous membrane. Cures coughs, croup, throat and lung troubles. Absolutely safe. Acts immediately. Children like it. F. S. Duffy.

A Weather Glass.

A simple weather glass is made thus: Obtain a glass jar, such as is used for pickles, and put some water into it; then get a bottle with a long neck, if possible, and put it in the jar, with the neck downward, till the mouth just touches the water. When the water rises in the bottle, it is going to rain, and when it is down fine weather prevails.

As If It Were Possible.

Claribel—I wonder what that creature meant? Laurie—What creature? Claribel—Why, Tentworth, of course. When I told him everybody said I was improving in my singing, he said he was delighted to hear it. The Ideal—Stray Stories.

Scatters all Records.

Twice in hospital, F. A. Guldberg, Verben, Ala., saved a vast sum to doctors to cure a severe case of piles, causing 24 tumors. When all failed, Bucklen's Arnica Salve soon cured him. Subdues inflammation, conquers Aches, kills Pains. Best salve in the world. 25c. at C. P. Bradham's drug store.

ANIMAL ODDITIES.

Only male parrots learn to talk. The females have no power to acquire human speech.

The butterfly invariably goes to sleep head downward on a stem of grass, with its wings tightly folded.

The largest serpent ever measured was a Mexican anaconda, found to be thirty-seven feet in length. It was measured by Dr. Gardner.

What is known as an angel shark, an ugly fish with an eight inch mouth containing three rows of teeth, has been caught with a hand line at Felixstowe.

MAITLAND, Fla., October 10th, 1901.

The Hancock Liquid Sulphur Co., Baltimore, Md.

Gentlemen—I have had Eczema over thirty years, have tried many remedies prescribed by various physicians, but to nothing has the disease yielded so readily as to LIQUID SULPHUR. I think if used properly it is undoubtedly a specific for Eczema. I have prescribed it for others with most satisfactory results. I consider it the best remedy for cutaneous affections I have ever known, and regard it as the greatest medical discovery of the age.

Respectfully yours, W. A. HEARD, M. D.

For sale at F. S. Duffy's.

The Inventor of the Cork.

Don Perignon, a poor blind monk, first thought of cork for bottle stoppers. He was employed in a royal monastery as overseer of the extensive vineyards, being himself a manufacturer. Indeed, it is said he discovered by experimenting with wines and grape juices that highly effervescing beverage known as champagne. Necessity in his case was doubtless the mother of his inventing the cork stopper, for his champagne must have needed a better stopper than was then used—merely a bunch of flax soaked in oil. It was the first to put a cork into a bottle, the world is indebted to him, since his impermeability, elasticity and lightness render it invaluable for this use.

WINCHESTER

"NEW RIVAL"

FACTORY LOADED SHOTGUN SHELLS

Give these shells a thorough trial, and you will find them to be as nearly perfect as experience, ingenuity, brains and equipment can make them. They are made with the Winchester patent corrugated head, which has made Winchester "Leader" and "Repeater" Smokeless Powder Shells so popular and satisfactory. Winchester Factory-Loaded "New Rival" Shells are thoroughly waterproof, and are loaded by exact machinery with the standard brands of powder, shot and wadding which makes them uniform and reliable.

Shoot Them and You'll Shoot Well

MALARIA

An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy. Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

PENNYROYAL PILLS

CHICHESTER'S ENGLISH

Original and Only Genuine

CHICHESTER'S ENGLISH PILLS are made from the purest and most reliable ingredients, and are the only pills that can be taken with perfect safety by the most delicate and sensitive constitutions. They are the only pills that can be taken with perfect safety by the most delicate and sensitive constitutions. They are the only pills that can be taken with perfect safety by the most delicate and sensitive constitutions.

NOTES OF NOTABLES.

Joseph Langlois, a Chicago policeman, has saved 100 lives during his service on the force.

Herr Stor, a wealthy resident of Baringen, Bohemia, has just had his thirty-seventh child baptized.

M. C. E. Clay of Washington owns a silver cup which Thomas Jefferson gave his grandfather 123 years ago.

C. F. Klein of St. Louis has had the horns of the many animals he has shot converted into furniture for his house.

Mulford Dolbrow, the blind peddler of Shiloh, N. J., sold over 1,000 shad during the season, giving change in every case and without making a mistake.

The late J. Sterling Morton, the father of Arbor day, will have a monument erected to his memory by the Arbor Day Memorial association of Nebraska City, Neb.

Prince Nicholas W. Engelstschef has been formally notified by Count Cassini, the Russian ambassador, of his appointment as imperial Russian vice consul at Chicago.

Alfred Wilkinsshaw of Havant, England, has been bald from birth. Now, at the age of ninety-two, a plentiful crop of dark red hair covers his head, all grown in less than three months.

Mr. and Mrs. Calligan of Piscataquis county, Me., have seven children, four boys and three girls. The boys are called Matthew, Mark, Luke and John, and the girls are named Faith, Hope and Charity.

Rear Admiral Melville is determined to have a burial place of which he can approve. He has accordingly erected at Arlington cemetery a tomb and epitaph to himself, leaving only a blank for the date of his death.

At one time Ellen Terry had three sisters and a brother on the stage—Kate, Marian, Florence and Fred. All attained distinction behind the footlights. Kate and Marian have retired, and Florence died in 1890.

Christopher Forbes of New York, who for many years hoisted the flag on Evacuation day, is dead. He was a lineal descendant of Van Arsdale, the soldier who pulled down the British flag when the English left the city in the Revolution.

JINGLES AND JESTS.

Degrees. Commencement days are over, and many a noted man, a noted man, is proud at being honored with a coveted degree.

Perhaps it is an A. M., or it may be that he can. Subscribe himself, "Yours faithfully, John Hopkins, LL. D."

Such men are very lucky, and we envy them, of course. The Ph. D. or other plume, whatever it may be. But most of us are still today plain citizens perforce. And the only tag we ever get is C. O. D. —Somerville Journal.

Her Opinion.

He—But don't you think girls often decline proposals without sufficient consideration? She—Not very often. I think proposals are apt to be carefully considered before they are made.—Facts.

Pingpong Shots.

The Tourist—Things don't seem very progressive out this way. Buckskin Ben—What? Why, we have got the finest pingpong club in the country right here, stranger.—New York Journal.

Suit Yourself.

If A-T-K means Arkansas, And likewise means Arkansas, Pray tell, should N-A-W-A-T-K Then be pronounced Newarkeansaw Or simply Newarkeansaw? —Newark (N. J.) News.

Defined.

"To," said the little mosquito, "what does 'perseverance' mean, anyway?" "Perseverance," my child," replied the wise old insect, "means finding a hole in a wire screen."—Philadelphia Press.

Interview With Little Eva.

"How old are you, my pretty, fair maid?" "Well, I'm over seven, sir," she said. "Is your mother with you, my pretty maid?" "No; but my granddaughter is," she said. —Chicago News.

To the Democratic Voters of Craven County:

I hereby announce that I am a Candidate for the Office of Sheriff of Craven County, subject of course to the Democratic primaries to be held Sept. 3rd.

J. W. Biddle.

To the Democratic Voters of Craven County:

I hereby announce myself a candidate for Representative to the next General Assembly, subject to the Democratic Primaries.

I am in favor of electing County Commissioners by direct vote of the people.

I am opposed to the Legislature appointing magistrates.

I favor reducing the number of magistrates, so that we shall have only the number that is actually necessary for the welfare of the county, and that they shall be elected by the people.

The Constitutional Amendment having been ratified at the polls by the people, and is now a law, I favor restoring to the people their right to elect their officers and not have them appointed.

Respectfully,

J. J. Wolfenden.

To the Democratic Voters of Craven County:

I hereby announce myself a candidate for the nomination for Register of Deeds of the County.

GEO. B. WATERS.

To the Democratic Voters of Craven County:

I hereby announce myself a candidate for the House of Representatives, subject to the Democratic Primaries.

W. B. LANE.

To the Democratic Voters of Craven County:

I hereby announce myself as a Candidate for the office of Register of Deeds. I have nothing to say derogatory of any other candidate for the office, and base my candidacy solely upon my record as a county officer, my record as a Democrat, and as a worker for the party.

I submit my claims to you for consideration and if they meet with your approval by a further continuance in the office, I will endeavor to deserve your trust as I have striven to do in the past.

Respectfully,

Ernest M. Green.
